To view this text file correctly, please use a Japanese text viewer program or download NJStar at [www.njstar.com](http://www.njstar.com) and download the Japanese word processor and the CJK viewer. By the way, if you have Internet explorer 5.0 (I think), right click on the text, and choose 'Encoding', then select Japanese (Auto Select) and the kana will come out just right. I strongly recommend doing this to view any of my guides with Japanese in them correctly.

Hello, welcome to my Dragon Quest 4 Remix-Monster Picture Book Guide. In this guide are translations of the Monster Picture Book, with all the info I currently have on each monster. Enjoy.

-----New-----

As of version 1.2, I have completed the Monster Picture Book (found at least 1 of all 210 monsters that are in the book). If you look at the Book, then exit out, you will hear the 'big win' song as if you were in the Casino.

You will be given 300,000 Coins (yeah three-hundred thousand) to spend at the Casino! Well worth the effort, as it probably would take less time doing that than actually playing the Casino games!

モンスター図鑑: Monsuta-zukan (Monster Picture Book)

This item is not found until Chapter 5. It displays all of the monsters so far fought in the game up to the point you are at. It also displays various information about each monster. Here is a sample page and its translations. If you want to fight more of the rarer/past chapter only monsters, return to

the cave in the well east of イムル: Imuru/Izmit. You can fight such monsters as Minons, Red Slimes, Well Lures, Hell Beetles, Numbness Swords, and Cannibal Chests. Also the higher-level Slimes that form into the King Slime can be fought here as well.

6: (Monster Number)	Total times this monster has been fought.
いたずらもぐら: Name of monster	How much Experience killing one is worth.
	Total Exp. gained by killing this monster.
	How much Gold killing one is worth.
	Total Gold gained by killing this monster.
Monster's Picture	# of times this monster dropped an item.
Hit the Circle	Name of item dropped by monster.
or Triangle	Lowest Level this monster was killed:
Buttons to cycle	Level x
through their	
various animations.	

Once 20 of an enemy has been killed, the name of the item in their treasure chest will be included in their info. Getting a treasure chest from them before killing 20 of them reveals what they have as well. If the item for a monster is a '???' then I have not yet fought 20 of them yet.
