I was surprised to see only one Chocograph FAQ made, and I have not seen one at all that was not in actual chronological order of when you can get them, simply in numerical order (which might confuse some people as to when they can actually go and get the Chocograph dug up). Hopefully this will help people who are unsure as to when they can actually get to each Chocograph on the list.

This is the order that I find them all, including all Mountain Cracks and Dive spots (so now you can get the Debu Chocobo card as well).

I assume you know how to play the Hot and Cold game already; if you don't there are already a few FAQ's about how to. Here we go.

First up are where you can find each Chocograph during the Hot and Cold mini-game. The 'pieces' refer to Chocograph #20. You have to find all 6 pieces of it to make the Chocograph.

Chocograph locations

-Chocobo Forest-

1-Streamside

2-Between Mountains

3-Uncultivated Land

4-Healing Shore

5-Abandoned Beach

6-Cold Field

8-Faraway Lagoon

10-Bird's-eye Lagoon

11-Small Beach

Upper left piece

-Chocobo Lagoon-
7-Forgotten Lagoon
9-Abandoned Lagoon
12-Dawn Lagoon
15-Dusk Plains
Upper middle piece

-Chocobo Forest Revisited-

Upper right piece
Bottom left piece
16-Forgotten Plains
14-Green Plains
13-Forbidden Forest

-Chocobo Lagoon Revisited-
18-Ocean
22-Outer Island 2

After getting Hilda Garde 3, go back to Chocobo Lagoon to get the last two pieces, which should be:

Bottom middle piece
Bottom right piece

-Chocobo Air Garden-
24-Forgotten Island
23-Fairy Island
21-Outer Island

Chocograph/Mountain Crack/Dive area Chronological Order.

Go in this exact order of these, and you will find everything without much trouble. Do not go in numerical order; as you cannot get all of the Chocographs that way.

'Field' refers to the regular, original Chocobo.

'Reef' refers to the first upgrade, the Blue version of Choco that can run over shallow water.

'Mountain' refers to the second upgrade, the Red version of Choco that can run over shallow water and over most land masses.

--Dead Peppers can be found in the Hot and Cold game after receiving the red Mountain upgrade. Dead Peppers are needed to enter the Mountain Cracks, Dive Spots, as well as the Chocobo's Sky Garden.--

'Sea' refers to the third upgrade, the Black version of Choco that can run over shallow water, most land masses, and deep water as well.

'Sky' refers to the final upgrade, the Gold version of Choco that can fly. In order to fly, ride Choco into a forest and then hit the accept button. You can only land while above a forest.

Most dive spots are signified by bubbles rippling in the ocean.

Mountain cracks are what they should be; cracks in a mountain wall.
