XVII. Conclusion

 I. Introduction

On September 30, 2003, I was playing a clone of the arcade version of Frogger (found at http://www.tripletsandus.com/80s/80s_games/frogger2.htm if you want to play it) when I got the idea to play the Playstation version. Since Frogger for the Playstation is a difficult game, I figured that I might need an FAQ for it. So, I went to GameFAQs to see if there were any walkthroughs for the game, and there was one. However, at the time, it only covered Zone 1 and the first level in Zone 2, and it hadn't been updated in over three years. So, I decided that I should write my own guide for the game.

My decision to write this FAQ was not influenced solely by the fact that there were no comprehensive or complete walkthroughs for this game on GameFAQs. The other main reason I chose to write this guide was my desire to help others with this game by providing a complete walkthrough for it.

Since this is my first FAQ for GameFAQs, I have most likely made a mistake or two here and there. If I have made any mistakes, see Section XIII - Additional Help for more information.

 II. Version History

Version 1.0 (10-14-2003) - FAQ/Walkthrough complete.
 Version 1.1 (10-18-2003) - Various parts fixed, IGN is now allowed to host this guide.
 Version 1.2 (7-4-2004) - Haven't worked on this in 8 and a half months, wow @_@
 Anyway, I just updated a part in the Codes section. Nothing major.

Version 1.3 (5-15-2008) - o.o This guide is old... just updating my e-mail address, since the old one doesn't work anymore.

III. Story

(From the manual)

Long ago, Game Over, the ruler of all that is evil in good games, finally squished the last extra life of Frogger(R), putting an end to his persistent hopping fun. While Frogger's been gone, hundreds of baby frogs have lost their way trying to take his place in the dangerous Frogger(R) game world. Now, Frogger(R) has been brought back - to hop his way through 9 spectacular 3-D worlds. His mission, to rescue over 175 lost baby frogs. Once again, he looks to you, The Player, to help him out. HOP TO IT!

IV. How to Play

You, the player, play the role of Frogger. You must go through 9 zones and 33 levels. In each level, you must rescue 5 baby frogs, for a total of 165 baby frogs in the game.

In Frogger, you can select which level you want to play. To select a level, scroll up and down the level stack by using the D-pad Up and D-pad Down buttons. However, when you start a new game, only the first level in each of Zones 1 through 4 are unlocked. When you complete a level, you unlock the next level in that zone. You can either move on to the next level or go back to the level selection screen. When you complete the last level in a zone, you get a little congratulatory screen, then you go back to the level selection screen.

On the level selection screen, the levels that you have completed are brighter than the levels you have not completed. Also, on the level selection screen, the zones that are unlocked are in color, while the zones that aren't unlocked are in black and white.

There is also one level in each zone that contains a special Yellow Frog. Finding a Yellow Frog will unlock a new zone for you to explore. Try to find them all!

V. General Game Information

You start the game with 3 lives. The game ends when you lose all of your lives. Getting 10,000 points or eating a Frog Fly will get you an extra life. You can have a maximum of 10 lives.

When you complete a level, your score and number of lives carry over to the next level you choose. Your score resets to 0 only when you get a Game Over screen.

In each level, Time Flies regenerate when you restart the level. For all other insects, though, once you eat them, they don't replenish until you restart the level entirely.

Once you unlock a level/zone, that level/zone stays unlocked until you either turn off your Playstation or load Frogger data without saving first. It is a good idea to save often.

You can increase your score by eating insects and by finding baby frogs faster.
Hop to it!

Once the timer has 10 seconds remaining, the clock starts ticking. Better hurry
up before time runs out!

You can die in the following ways:

- Getting hit by an enemy
- Running out of time
- Falling from too great a height
- Falling into water/lava/etc.
- Being taken "out of bounds"

VII. Scoring

Hop: 5 points
Superhop: 10 points
Several consecutive hops: 50 points
Regular Frog: 500 points
Purple Female Frog (Zone 1 only): 500 points
Yellow Frog: 1000 points
Time Bonus: 100 points per second remaining
Eating flies: Varies
Non-glowing firefly (Cave levels): 250 points

VIII. Insect List

1. Insect: Time Fly
Effect: Time bonus (Green - 2 seconds, Silver - 5 seconds, Gold - 10 seconds)
Description: Round body, mostly one-colored
Body Color: Varies
2. Insect: Fly
Effect: Score bonus (More information at the end of Section IX)
Description: Rounded rectangular body, two-colored
Body Color: Varies
3. Insect: Butterfly
Effect: Score bonus
Description: One-colored, polygonal-shaped
Body Color: Varies
4. Insect: Lose Points
Effect: -500 points
Description: Looks like a fly, but is red and has a shorter body
Body Color: Red
5. Insect: Lose Time
Effect: Time runs out faster
Description: Looks like a Time Fly, but is red
Body Color: Red
6. Insect: Frog Fly
Effect: Extra life
Description: Frog-shaped, flashes multiple colors
Body Color: Many
7. Insect: Autohop
Effect: Automatically hop for 10 seconds by holding down D-pad
Description: Green grasshopper
Body Color: Green
8. Insect: Super Tongue
Effect: Double Frogger's tongue range for 15 seconds
Description: Worm
Body Color: Peach
9. Insect: Quick Jump

Effect: Double Frogger's speed for 8 seconds
Description: Gray grasshopper
Body Color: Gray

10. Insect: Firefly
Effect: Increase light in cave levels
Description: Looks somewhat like a light bulb
Body Color: White

Fly List

Score: 10
Body Color: Yellow/Red

Score: 25
Body Color: Green/Blue

Score: 50
Body Color: Blue/Red

Score: 100
Body Color: Yellow/Pink

Score: 200
Body Color: Green/Red

Score: 500
Body Color: Blue/Pink

Score: 1000
Body Color: Yellow/Red/Pink

Score: 5000
Body Color: Blue/Red/Pink

IX. Tips/Hints

Pay attention to the patterns of the enemies' movements. Use your knowledge of these movements to plan a path to the goal.

If you croak when you're in the vicinity of one of the baby frogs, you'll hear a small "reply" croak.

Croaking in the cave levels will brighten the surrounding area for a short period of time.

To boost your score/lives, simply play the same level over and over again.

Practice makes perfect.

X. Walkthrough

=====
0. Notes on the Walkthrough
=====

Unless otherwise noted, at the start of the level, the cardinal directions are oriented as follows:

N
W E
S

It is advisable to rotate the camera as directed in the walkthrough in order to make following this walkthrough easier for you.

The suggested frog order in each level is merely a suggestion. You don't have to follow that exact order, but in most cases, following it will be helpful to you.

You should play the levels themselves first before consulting this walkthrough. Doing so can help you get better acquainted with the level, making it easier to follow this walkthrough.

=====
1. Zone 1 - Retro Zone (Truck) - 5 levels
=====

- Level 1-1 - Retro Level 1
- Level 1-2 - Retro Level 2
- Level 1-3 - Retro Level 3
- Level 1-4 - Retro Level 4
- Level 1-5 - Retro Level 5 (Yellow Frog Level)

Row Layout for the Retro Levels

- Baby Frogs
- 4 space long logs - going right
- 2 turtle long platforms - going left
- 6 space long logs - going right
- 3 space long logs - going right
- 3 turtle long platforms - going left
- Riverbank
- Frogger trucks - going left
- Blue cars - going right
- Purple cars - going left
- Bulldozers - going right
- Red trucks - going left

Frog Layout for the Retro Levels

Green Orange Purple Blue Red

a. Level 1-1 - Retro Level 1 (Time: 25 seconds)

Vehicles, turtles, and logs are slow for the most part in this level. Traffic is thin, and the river is easily passed.

This level shouldn't be too hard since the only hazards in this level are the vehicles and the river.

b. Level 1-2 - Retro Level 2 (Time: 20 seconds)

Vehicles, turtles, and logs move at about the same speed as in Retro Level 1. Traffic is a bit heavier, and logs and turtles are about as frequent as they are in Retro Level 1.

There are two new hazards in this level: 1. On the uppermost row in the river, there will occasionally be a crocodile instead of a log. Treat it like a normal log, but don't jump on its head or you will lose a life. 2. Sometimes there will be a crocodile head where one of the baby frogs are. If the head only protrudes halfway, then it's still safe to get that frog, but beware: it could protrude fully at any second, and at that point it is no longer safe to get that frog.

c. Level 1-3 - Retro Level 3 (Time: 30 seconds)

Vehicles, turtles, and logs are a bit faster than in the first two levels. Traffic is somewhat heavier than in Retro Level 2, and turtles and logs aren't quite as frequent as they are in the first two levels.

The two hazards introduced in Retro Level 2 (crocodile logs and crocodile heads) are present in this level as well.

Three more hazards are introduced in this level: 1. On every third log in the middle row of the river, there is a snake moving back and forth. Avoid it like the plague. 2. During the entire level, a snake moves back and forth along the riverbank. It will kill you as well, so you must avoid it at all costs. 3. Occasionally, an otter will come swimming from the left side of the screen in the middle row of the river and attack the first log it encounters. Stay away from the leftmost space on the log to avoid the otter's attack.

d. Level 1-4 - Retro Level 4 (Time: 24 seconds)

Vehicles, turtles, and logs move at about the same speed as in Retro Level 3. Traffic is heavier than in Retro Level 3, and turtles and logs are less frequent than in the previous three levels.

All hazards present in the first three levels are present in this level.

Otter attacks occur more frequently than in Retro Level 3, and now logs in the second row from the bottom are subject to the wrath of the otters as well as logs in the middle row.

In the middle row, every other log has a snake on it.

e. Level 1-5 - Retro Level 5 (Time: 30 seconds)

Vehicles, turtles, and logs move at about the same speed as in Retro Level 4. Traffic is heaviest in this level, and turtles and logs are about as frequent as they are in Retro Level 4.

This level has the most hazards of the retro levels.

The top row in the river consists entirely of crocodiles.

In conjunction with attacking the bottom two rows of logs from the left, otters also attack the bottom row of turtles from the right.

As in Retro Level 4, every other log in the middle row has a snake on it.

Notes on Zone 1

Each level in Zone 1 has the same layout, just like that of the arcade game.

On the lowermost row of logs in the river, there will occasionally be a purple femal frog that you can carry with you to the goal to increase your score.

There is no suggested frog order for any of the levels in Zone 1, so just get them in whatever order is convenient for you.

Remember, if you go off the side of the level, you lose a life.

Try to map out a path through the level if possible.

Try your hardest not to get in a position where you are cornered.

Be careful not to hit the spikes surrounding the baby frogs.

Flies sometimes appear in the areas that the frogs are in, so eat them for extra points.

The turtles that go underwater are slightly bluer than the "safe" turtles.

Try to get the leftmost frog (Green) as early as possible.

=====
2. Zone 2 - Lily Islands Zone (Lily Pad) - 5 levels
=====

- Level 2-1 - Lily Islands
- Level 2-2 - Bow Wow Falls
- Level 2-3 - Mower Mania
- Level 2-4 - Spinning Lilies (Yellow Frog Level)
- Level 2-5 - Bow Wow Revenge

a. Level 2-1 - Lily Islands (Time: 60 seconds)

Suggested Frog Order

- Green
- Red
- Orange
- Blue
- Purple

Frog Walkthroughs

Green: Hop onto the log that floats by. Wait until you see a large island to the north, then do either one of two things: 1. Wait until the log you are on makes a U-turn, then rotate the camera 180 degrees, hop onto the next log to the north, and hop north onto the island. 2. Hop north across the other two logs and onto the island. When you reach the island, continue north and jump onto the log floating by. Then, go north across the six sets of turtles and onto dry land. From there, go north to the road and go west until you reach an opening with the Green Frog, being mindful of traffic. To get past the traffic here, stay in the southernmost lane until you reach the opening. Then, carefully make your way north to the Green Frog.

Red: Follow the same route as in the Green Frog walkthrough, except instead of heading into the first opening, go all the way west to the end of the road. From there, go north into the opening to get the Red Frog.

Orange: Take the Green Frog route, but this time go east instead of west. To dodge the traffic here, stay in the middle lane, going south when necessary to avoid the speedy orange cars. Keep going east, being mindful of traffic, until you see an opening to the north, where the Orange Frog is located.

Blue: Head to the main islands as you did to get the first three frogs. This time, instead of going north, go east across the log, the lily pads, and onto another log. It is recommended that you hop onto one of the stationary lily pads to make the jump to the other log as easy as possible. Stay on the other log until you see a path of lily pads. Take that path to the platform containing the Blue Frog.

Purple: Follow the same route as in the Blue Frog walkthrough, except when you jump onto the log from the lily pads, wait for another log to float by, then hop onto it. From this log, jump onto the island it goes around, then superhop onto the mountain in the middle of the island. Go all the way to the top, then wait for a bird to fly by. Jump onto the bird and take it all the way to the Purple Frog.

Level Notes

Lily Islands is the first "non-retro" level in the game. This level shouldn't be too hard with a little practice. Just be mindful of the fact that the camera automatically rotates when you are on an object that changes directions while you're on it. Rotate the camera to make yourself as comfortable as possible.

b. Level 2-2 - Bow Wow Falls (Time: 45 seconds)

Suggested Frog Order

Green
Orange
Purple
Blue
Red

Frog Walkthroughs

Green: Head north and cross both parts of the road. At the riverbank, head east and north, being careful not to get hit by the mower, rotate the camera clockwise (R2 button) and wait for a log or a set of turtles to float by. Hop across the river to the island in the middle, then head west (forward) and hop onto a swan swimming by. Ride it until you reach the island with the mower,

then hop onto the island (watch out for the mower) and get the Green Frog.

Orange: Take the Green Frog route, but this time take the swan all the way to the island on the opposite side of the Green Frog. Go toward the cliff and rotate the camera so you can see the Orange Frog above you. Making sure you're facing the cliff, execute a superhop to get the Orange Frog.

Purple: Cross the road and head west up the incline. Then, head north and cross the bridge to the next area. In this part, there are five pair of doghouses, each with a dog moving back and forth between them. The second and fourth rows from the bottom are "safety" rows, so keep that in mind. To get past this part, simply avoid the dogs and hop across. Once you make it across, rescue the Purple Frog sitting in the middle of the ledge.

Blue: Follow the same route as in the Purple Frog walkthrough. When you get past the doghouses, head north to the edge of the cliff and jump on the balloon moving back and forth. From there, jump onto another balloon and take it to a tree platform. There, wait for a bird to fly by. Hop onto the bird when it flies by and take it to a raised area. Here, go around and execute a series of superhops onto the mountain in the middle to reach the Blue Frog.

Red: Take the Blue Frog route up to the plateau with the Blue Frog. In that area, go around the back and jump onto the balloon floating by. Ride it to the tree platform containing the Red Frog.

Level Notes

Bow Wow Falls is slightly harder than Lily Islands, but it is still fairly easy to learn with enough practice. For the most part, timing is everything in this level. Speed is a key to getting past the doghouses safely. If you stay on the logs or turtles for too long, you will lose a life.

c. Level 2-3 - Mower Mania (Time: 50 seconds)

Suggested Frog Order

Orange
Purple
Blue
Red
Green

Frog Walkthroughs

Orange: Begin by going north. Wait for two consecutive mowers to pass by, then go as fast as possible to the east. If done correctly and quickly enough, you won't have to worry about getting hit by mowers in that area. When you reach the end of that road, head north, then west into the open area with several mowers. When traffic permits, go into the area, then go north, east, and north (watch out for the mower here - go back south if you reach the mower before you reach a safe spot). Then, head east in the area with the parallel mowers and go south to find a mower going counterclockwise around a tree. Pass that mower and continue south to the Orange Frog.

Purple: Follow the path for the Orange Frog walkthrough until you reach the open area. Head west through the path leading out of the open area and take the first path north while watching out for mowers. Continue going north until you reach the Purple Frog.

Blue: Follow the same route as in the Purple Frog walkthrough, but instead of taking the first path north, go west and take the first major path north after the Purple Frog path, being mindful of the mowers. Get past the three mowers moving east-west, and continue north past the three mowers moving in counterclockwise circles to the Blue Frog.

Red: Follow the same directions from the Blue Frog walkthrough up to the first mower moving in a counterclockwise circle. Head east from here, passing a mower and entering an area with several rows of hedges. In this area, starting from the entrance, go east, south, east, north, east, and south to reach the Red Frog. As always, try to avoid the mowers.

Green: Head north and west to an area with two mowers moving counterclockwise around a patch of dirt. Get around it (use the openings for safe spots) and go north and west to a similar area. Pass this area the same way you did the previous area, only this time go south and west, minding the mower moving back and forth in that path. Head west and north up to an area with two mowers moving counterclockwise around a flower bed. Go west from here and then go south to get the Green Frog.

Level Notes

Mower Mania can be irritating at first, but if you recognize the patterns of the mowers, then this level will be a piece of cake. Patience, timing, and speed are the keys to beating this level.

d. Level 2-4 - Spinning Lilies (Time: 60 seconds)

Suggested Frog Order

Red
Green
Orange
Blue
Purple

Frog Walkthroughs

Red: Jump onto the log floating by and jump north onto the first piece of land you see. Continue north to a raised platform and superhop onto it. Wait for a bird to fly by, then hop onto it and ride it to a tree platform. Hop off at the tree platform and wait for another bird to fly by. Jump onto the second bird and let it take you to the plateau containing the Red Frog.

Green: Hop onto the log that floats by and wait for it to make a U-turn and float by a couple of spinning lily pads. Jump onto one of the lily pads and wait for another log to float by near the island. Carefully jump onto the log, then jump onto the island. Rotate the camera so that the log you just jumped off of is to the south, then head north. Hop across the logs, turtles, and the swans to reach an area with two pairs of occupied doghouses. Continue going north toward the road, avoiding the dogs along the way. Hop west along the road, avoid traffic, and head north at the opening to the area containing the Green Frog.

Orange: Follow the route to the road as described in the Green Frog walkthrough. Head east at the road, watching out for traffic, and go north into the opening where the Orange Frog is located.

Blue: Go to the first island described in the Green and Orange Frog walkthroughs. Head east and jump onto a log and onto one of the three spinning lily pads. From there, carefully jump onto a log floating by on the other side of the first log. Ride this log around to the other side of the other island and jump onto the spinning lily pad to the east of the log. Hop carefully from pad to pad and to the Blue Frog.

Purple: Follow the Blue Frog walkthrough to the part where you float around the second island on a log. Hop onto another log closer to the island and then jump onto the island, being careful not to be run over by a mower. Superhop onto the raised area and head to the top. There, wait for a bird to fly by and take it to the Purple Frog.

Level Notes

Spinning Lilies is a modified version of Lily Islands. Some parts of Spinning Lilies are not present in Lily Islands; for example, the doghouses on the southern part of the northern piece of land in Lily Islands are vacant, but the doghouses in that same area in Spinning Lilies are not. The main aspect that gives Spinning Lilies its name is the fact that most of the lily pad platforms in this level are spinning (naturally). Simply put, Spinning Lilies is a more difficult version of Lily Islands, but it shouldn't be too hard.

e. Level 2-5 - Bow Wow Revenge (Time: 40 seconds)

Suggested Frog Order

Green
Orange
Purple
Blue
Red

Frog Walkthroughs

Green: Head north and cross both parts of the road. When you get to the riverbank, go east and north to stay out of the mower's path. Hop across the river across the logs and turtles to the other side and head west (forward) to the edge with swans floating nearby. Jump onto one of the swans and ride it to a piece of land with a mower and the Green Frog. Avoid the mower and rescue the Green Frog.

Orange: Head to the strip of land on the other side of the riverbank like you did in the Green Frog walkthrough, then head north (right) and then west (forward) to the cliff and face the Orange Frog, which is sitting inside a cave, above you. Superhop to rescue the Orange Frog.

Purple: Cross the road and head west up the incline. Head north across the bridge to a doghouse area exactly like the one in Bow Wow Falls. Go north through the area, avoiding the dogs of course, and get the Purple Frog.

Blue: Go to the area where the Purple Frog used to be and head to the north edge of the cliff. Hop onto the balloon moving in a circle. From there, go east from balloon to balloon and hop onto the plateau with the raised platforms leading to the Blue Frog. Being wary of the mower, hop to the safe spot in the corner of the raised platforms, then superhop onto each platform to get the Blue Frog.

Red: Take the Blue Frog route up to the plateau with the platforms leading to the Blue Frog. Go to the other side of the platforms, being careful not to get hit by the mower, and jump onto the balloon floating by the edge. Take the balloon to the tree platform containing the Red Frog. Congratulations, you have completed Zone 2!

Level Notes

Bow Wow Revenge, like Spinning Lilies, is a more difficult version of a previous level. This level is a remake of Bow Wow Falls, with faster traffic and dogs, a slightly different level layout, and more difficult balloon platforms. Speed and patience are the keys to beating this level. Like in Bow Wow Falls, staying on the turtles or logs for too long will cause you to float off the screen and lose a life.

=====
3. Zone 3 - Tree Zone (Leaf) - 2 levels
=====

Level 3-1 - Honey Bee Hollow

Level 3-2 - Canopy Capers (Yellow Frog Level)

a. Level 3-1 - Honey Bee Hollow (Time: 25 seconds)

Suggested Frog Order

Red
Blue
Purple
Orange
Green

Frog Walkthroughs

Red: The keyword for this level is SPEED. Start out by going north and east, making sure not to run into any tree stumps or beehives. Make sure you go as fast as possible to avoid the bees. Keep going north and east until you reach a bridge. Head north at the bridge and continue going north to the Red Frog.

Blue: The Blue Frog is several spaces west of the Red Frog. Take the Red Frog route to the space just south of the Red Frog's circle, then head west, north, and west to get the Blue Frog.

Purple: Take the Blue Frog route, this time going further west to get the Purple Frog.

Orange: Go all the way west of the Purple Frog's spot, then head south to get the Orange Frog.

Green: Take the Orange Frog route, but go all the way south to reach the Green Frog.

Level Notes

Honey Bee Hollow is all about one thing: SPEED. You must go as fast as you possibly can to outrun the bees. Fortunately, this level is fairly linear, and is easily beaten after enough practice. Just make sure not to run into a tree

stump or the bees will gain on you. If you go north and west at the start, you can find a Quick Hop bug to help you.

b. Level 3-2 - Canopy Capers (Time: 45 seconds)

Suggested Frog Order

Blue
Orange
Red
Green
Purple

Frog Walkthroughs

Blue: Go north and east and head to the east branch. Wait for an owl to fly into the gap, then hop across it to the series of falling branches. Jump across the falling branches, being careful not to get hit by one of the pink birds. When you cross the falling branches, rotate the camera clockwise (R2 button) and go south across the next series of branches over the river, avoiding the birds that fly back and forth. When you cross over the river, go west on the log, evade the bird flying in a circle, and get the Blue Frog to the north of you.

Orange: Go south. Use the owl to bridge the gap between the branch and the bridge (watch out for squirrels). Head west to the end of the bridge and wait for an owl to fly by below. Hop onto the owl and ride it to the platform containing the Orange Frog.

Red: Take the Orange Frog route, but this time drop to the ground once you're at a safe height. Rotate the camera clockwise (R2 button), then head all the way west and all the way south, avoiding the hedgehog-like creatures along the way. When you get to the end of the path, superhop to get the Red Frog.

Green: Take the Red Frog path, but this time, head southeast, crossing the river. When you cross the river, superhop onto either of the tree stumps beside the log you used to cross the river. Hop onto the log and go west. Wait until the path is safe, then head north and west to reach the Green Frog.

Purple: Take the Orange Frog route again, but when you hop onto the owl, ride it to the side opposite the Orange Frog platform. Rotate the camera counterclockwise (L2 button) and head north across the falling branches, being wary of the bird. Note: If you stay on the falling branches here for too long, you'll fall. Go north on the fifth falling branch, making sure you're directly over the last branch when the branch you're sitting on falls. When you land on the last branch, go east and hop onto the owl that flies by. Ride the owl to a set of branches with a pair of squirrels and the Purple Frog. Race past the squirrels, save the Purple Frog, and rejoice in your completion of Zone 3!

Level Notes

Canopy Capers is a very annoying level at first, but once you play it enough, you should get a feel for the level and it shouldn't be that hard for you. Make note of the patterns of the enemies and use that information to your advantage. If you fall from too high an altitude, you will lose a life, so make sure that you are at a safe height before dropping down. Patience is the key to winning here.

=====
4. Zone 4 - Machinery Zone (Metal Gears) - 3 levels
=====

Level 4-1 - Scorching Switches (Yellow Frog Level)

Level 4-2 - Platform Madness

Level 4-3 - Lava Crush

a. Level 4-1 - Scorching Switches (Time: 40 seconds)

Suggested Frog Order

Purple

Red

Blue

Orange

Green

Frog Walkthroughs

Purple: Hop north and press the button to activate the moving platform. Head east onto the rotating platforms and wait for the moving platform to move by on the north side of the rotating platforms. Jump onto the moving platform, then wait and jump north onto a second set of rotating platforms. Hop onto the ledge to the west and get the Purple Frog

Red: Hop east onto the rotating platforms, then east again onto another set of rotating platforms. Activate the moving platform to the northeast by hitting the switch to the north of the current set of rotating platforms. Once you hit the switch, jump back onto the rotating platforms and go to the lone platform to the east. Jump onto the moving platform you just activated, then head north across the platforms and rotating platforms to the Red Frog.

Blue: Do basically the same thing you did to get the Red Frog, but this time head west instead of east.

Orange: Follow the Red Frog walkthrough until you reach the first set of rotating platforms going north. From there, hop onto the platform to the west. Jump onto the rotating platform to the west, then hop onto the ledge to the north. From there, head to the Orange Frog.

Green: Take the Orange Frog's route up to the circle formerly containing the Orange Frog. Then, hop south, activate the moving platform in the middle of the level, and head back to the set of rotating platforms. Jump onto the rotating platform, then hop onto the moving platform to the west when appropriate. Ride the platform to the Green Frog.

Level Notes

Scorching Switches is a symmetric level for the most part. It should be fairly easy to beat. This level also has the easiest Yellow Frog location in the entire game. Timing is the most important key to beating this level.

b. Level 4-2 - Platform Madness (Time: 60 seconds)

Suggested Frog Order

Green
Red
Orange
Purple
Blue

Frog Walkthroughs

Green: Hop along the path of platforms until you reach the second "solid" platform you come across. From there, head south and west, avoiding the huge boxes, to get the Green Frog.

Red: Head to the solid platform again, then go to the east, landing on a switch. Hop one space to the east, then head south. You can rotate the camera to help avoid the box to the south. Head south to the solid platform, rotate the camera back to its original position, and head east. Go down the stairway of platforms to get to the Red Frog.

Orange: Take the Red Frog route to the two switches. Make sure both switches are on, then head north and wait for the first moving platform to come by. Jump onto the moving platform, then jump west onto the other moving platform when it comes by. Take that platform to the Orange Frog.

Purple: Go to where you rescued the Orange Frog, then go south, activating the moving platform to the south. Hop onto it and take it to the switch to the west. Jump onto the switch, which activates the east-west moving platform to the south. Hop onto this moving platform, then hit all three switches to the south, activating the three moving platforms to the south. Take these platforms to get the Purple Frog.

Blue: Take the Orange Frog route, then head north at where you got the Orange Frog. Hit the switch, then go west down the path and jump onto the north-south moving platform. Wait for the east-west moving platform to come by at the same time your current moving platform is at its southernmost position, then hop onto it. Take the east-west moving platform to a set of platforms that resembles a spiral staircase. Then, go down the spiral staircase, head west, quickly activate the last moving platform, then head north and east at the split just east of the switch. Jump on the moving platform and ride it to the Blue Frog.

Level Notes

Platform Madness can be frustrating at first, but if you plan out a route to each frog, then you'll have a better chance of beating this level. The white platforms that look like pairs of rectangles open up a few seconds after you step on them, so be fast here. Timing and patience will help you win here.

c. Level 4-3 - Lava Crush (Time: 60 seconds)

Suggested Frog Order

Orange
Blue
Purple
Red
Green

Frog Walkthroughs

Orange: Head north, being careful not to get hit by the rocks. When you get to the split (the paths to all frogs go through here), head all the way west. Rotate the camera clockwise (R2 button) to make this area easier. Head right, being careful not to get crushed by the boxes here. Each box here alternates up and down. Go to the right of the rightmost box that goes up and down, then when the box above you is low, hop left onto the first box then right onto the other box. From there, hop right and toward the screen to get the Orange Frog.

Blue: Take the same route you took to get the Orange Frog, and continue going right after the box part. In this next part, there is a 3x3 set of platforms. The platforms each submerge into the lava below as follows:

```
XXX
XXX
XXX
```

Stage 1

```
 X
X X
 X
```

Stage 2

```
X X
 X
X X
```

Stage 3

Head to the upper right corner and hop right to get the Blue Frog.

Purple: At the split in the first part of the level, go all the way east. Rotate the camera counterclockwise (L2 button) and you will see a set of boxes similar to the ones in the Orange Frog walkthrough. Hop left onto the first box that goes all the way down when the box to the right of it is low. From there, hop right onto the other box, then head to the Purple Frog.

Red: Follow the Purple Frog route, but this time, go all the way left. Reach the ledge overhead by doing the same thing you did to get the Orange and Blue Frogs. Head left, and you'll come across a set of platforms identical to the set of platforms you had to cross to get the Blue Frog. Here, go to the lower left corner and hop left to get the Red Frog.

Green: Head to the split. Now, the center of the level is described like this:

```
2 - - - - - * - - - - - 5
X - - - - - C - - - - - X
X - - - - - - - - X - - X
X - - - - - - - - - - - X
X - - - C - - - - - E D X
X - - - 3 - - - - - - - X
X - B - - - - - - - - - X
1 A - - - - - - - - - - 4
X X X X X X X X X X X X X
```

- = Lava
X = Land

1 = Switch (switch 1 activates all moving platforms marked A, and so on)
A = Moving platform
* = Green Frog

Here is how to get the Green Frog:

First, head west at the split. Go north and activate the A platform (switch 1). Keep going north, rotate the camera clockwise (R2 button), and activate the B platform (switch 2). By now, the A platform should be near you, so hop on it and ride it to the other side of the boxes. When you get close enough, quickly deactivate the A platform so you can easily jump onto the B platform from it. Rotate the camera counterclockwise (L2 button). When you hop onto the B platform, wait until switch 3 is to your north, then jump on it and activate the C platforms. Hop onto the south C platform and ride it all the way to the D and E platforms. Head east, onto land. Rotate the camera counterclockwise (L2 button), then head left to hit switch 5 and activate the E platform. Hop onto the D platform and wait for the E platform to move by. Hop onto the E platform, rotate the camera clockwise (R2 button), and ride the E platform to the small platform in the middle of the lava. Wait for the north C platform to come by, then hop onto it and take it to the Green Frog. Congratulations, you've beaten Zone 4!

Level Notes

Lava Crush is an interesting level to say the least. Timing, patience, and practice are the keys to beating this level. Try to note the patterns of the objects in this level as well. You might have problems with this level at first, but as in most other levels in this game, practice makes perfect.

=====

5. Zone 5 - Cave Zone (Bat) - 3 levels

=====

Level 5-1 - Dark Dark Cavern
Level 5-2 - Frogger Goes Skiing
Level 5-3 - Webs Cavern (Yellow Frog Level)

a. Level 5-1 - Dark Dark Cavern (Time: 60 seconds)

Suggested Frog Order

Green
Orange
Blue
Purple
Red

Frog Walkthroughs

Green: Go 1 hop west, 5 hops north, 1 hop west, 4 hops north, 3 hops west, 2 hops north, 1 hop west, 4 hops north, 1 hop east, 2 hops north, 1 hop west, 1 hop north, 2 hops west, and 2 hops north to get the Green Frog.

Orange: Go 1 hop west, 5 hops north, 1 hop west, 4 hops north, 3 hops west, 2 hops north, 1 hop east, 2 hops north, 2 hops east, 3 hops north, 1 hop west, 2 hops north, 1 hop west, and 2 hops north to get the Orange Frog.

Blue: Go the same way you did to get the Orange Frog, then go 4 hops east to

get the Blue Frog.

Purple: Take the Orange Frog route, then go 3 hops east and 2 hops south to get the Purple Frog.

Red: Follow the Orange Frog route, then go 8 hops east, 1 hop south, and 4 hops east to get the Red Frog.

Level Notes

Dark Dark Cavern is the first "dark" level in the game. In this level, you can eat fireflies to increase your visibility for a few seconds. You can also croak to increase your visibility for a second or so. The tarantulas in this level simply move back and forth, so avoiding them shouldn't be too much of a hassle. This level should be a piece of cake.

b. Level 5-2 - Frogger Goes Skiing (Time: 52 seconds)

Suggested Frog Order

Red
Orange
Blue
Purple
Green

Frog Walkthroughs

Red: Go up past a ramp, two tarantulas, another ramp, three more tarantulas, and another ramp. The Red Frog is behind the third ramp.

Orange: Follow the Red Frog walkthrough. Go past the third ramp, then head right and then down. Head down past the ramp and then veer left. The Orange Frog is on a piece of land jutting out to the left.

Blue: Follow the Orange Frog walkthrough. Go past the ledge formerly containing the Orange Frog, a ramp, a tarantula, and a bat. Then, ski right down the middle, hitting the ramp. Veer slightly to the left to get the Blue Frog.

Purple: Follow the Blue Frog walkthrough. Go past the Blue Frog's circle, then go right and then up. Ski past the ramp, then move to the right side to pick up the Purple Frog.

Green: Follow the Purple Frog walkthrough. Go past the spot where you got the Purple Frog, a bat, and three tarantulas. Ski up the ramp over the gap, then continue forward to the Green Frog.

Level Notes

Frogger Goes Skiing is the only level of its kind in the game. You cannot superhop or rotate the camera in this level. To veer left or right, press left or right on the D-pad. To speed up, press the D-pad in the direction that you are skiing. To slow down, press the D-pad in the direction opposite that in which you are skiing. In this level, speed is a huge factor. If you go too fast, you could end up skiing helplessly into a monster/obstacle or off the edge. If you go too slow, you might run out of time and/or lose bonus points for time. The other controls you can use here are the heat-seeking tongue and the super croak. As in Dark Dark Cavern, you can increase your visibility for a

few seconds by eating fireflies, or for about a second by using the super croak.

c. Level 5-3 - Webs Cavern (Time: 38 seconds)

Suggested Frog Order

Orange
Green
Purple
Blue
Red

Frog Walkthroughs

Orange: Go 1 hop north. Superhop 2 times, then go 8 hops west, 1 hop south, 1 hop west, 1 hop south, 1 hop west, 4 hops south, and 4 hops east to get the Orange Frog.

Green: Go 2 hops east and 3 hops north. Superhop 2 times, then go 2 hops east, 1 hop north, 1 hop east, 1 hop south, 5 hops east, 3 hops south, 3 hops east, 2 hops south, 4 hops west, and 1 hop north to get the Green Frog.

Purple: Go 1 hop east, 10 hops north, and 4 hops east. Superhop 2 times, then go 1 hop north, 5 hops west, 1 hop north, 1 hop east, 2 hops north, 1 hop west, 2 hops north, 1 hop east, 1 hop south, 1 hop east, 2 hops north, 1 hop west, 1 hop north, 5 hops east, and 2 hops north to get the Purple Frog.

Blue: Go 1 hop east, 8 hops north, 2 hops west, 2 hops north, and 2 hops west. Here, rotate the camera counterclockwise (L2 button), then go 5 hops west, face to the north, and superhop 2 times. Go 1 hop north, 5 hops west, 1 hop north, 1 hop east, 1 hop north, 2 hops east, 1 hop north, 2 hops west, 2 hops north, 1 hop east, 1 hop north, 1 hop west, and 2 hops north to get the Blue Frog.

Red: Go 1 hop east, 22 hops north, 1 hop east, 1 hop north, 1 hop west, 2 hops north, 1 hop east, 4 hops north, 2 hops west, 1 hop north, 10 hops west, and 1 hop north to get the Red Frog and complete Zone 5.

Level Notes

Webs Cavern consists of five mazes, each containing one frog. The Blue Frog and Red Frog mazes each contain a few tarantulas, so be mindful of them when you follow the walkthrough. Up the middle of the level, there is a line of bats flying from the south, so watch out for them as well. This level first starts out fully lighted, but over time the level gets gradually darker until the lighting is like that of Dark Dark Cavern. Of course, just like in every level in Zone 5, you can eat fireflies to increase your visibility for a few seconds, and you can increase your visibility for about a second by using the super croak. Webs Cavern is somewhat harder than Dark Dark Cavern, but it is still fairly easy compared to later levels.

=====
6. Zone 6 - Cloud Zone (Cloud) - 4 levels
=====

Level 6-1 - Looney Balloons
Level 6-2 - Time Flies
Level 6-3 - Loonier Balloons

Level 6-4 - Airshow Antics (Yellow Frog Level)

a. Level 6-1 - Looney Balloons (Time: 70 seconds)

Suggested Frog Order

Green
Orange
Red
Purple
Blue

Frog Walkthroughs

Green: Hop north and jump onto the bird that flies by. Ride it until you reach a large cloud to the north, then jump onto the cloud and head north to a set of red and yellow balloons. Wait for a bird to bridge the gap between the balloons, then hop across to get the Green Frog.

Orange: Take the Green Frog route, then head to the north end of the cloud the Green Frog used to be on. Wait for a small bird to fly by, then hop onto it. Ride it to the first cloud you come across, then hop onto it and head south to get the Orange Frog.

Red: Follow the Orange Frog walkthrough and go to the second space from the right end of the cloud. There, wait for a duck to fly by and "pick you up." Ride the duck until you pass by another duck flying slowly. Hop onto the second duck, rotate the camera 180 degrees, and wait for the duck to fly between two pairs of balloons. Hop west onto the green balloon and let it take you up to the cloud, then hop west onto the cloud and pick up the Red Frog.

Purple: Go to the Orange Frog's cloud, then superhop onto one of the birds flying west. Take the bird to the Purple Frog.

Blue: Take the Purple Frog route, then head south along the path of balloons to get the Blue Frog.

Level Notes

Looney Balloons is very difficult when you play it for the first time. However, with enough practice, you should learn this level well enough and be able to beat it. In this level, as well as in each level in this zone, there are three colors of balloons. The green balloons float up when you jump on them, and they continue to float up until you jump on them again or they pop. The red and yellow balloons float down when you hop onto them, but once you hop off of them, they float back up to their original positions. Don't stay on any of the balloons for too long, or else the balloon you're on will pop, and you'll most likely fall to your doom.

b. Level 6-2 - Time Flies (Time: 22 seconds)

Suggested Frog Order

Orange
Green
Purple

Red
Blue

Frog Walkthroughs

Orange: This level is divided into two parts. In the first part of this level, make your way forward through the cloud maze. Use the pink balloons as shortcuts and eat every Time Fly you can find. There are 6 Time Flies altogether in the first part of this level. Once you make your way through the cloud maze, hop along the path of red and yellow balloons in the upper right-hand corner of the maze, then head left along the cloud path, which leads to a teal balloon. Pop the teal balloon, summoning a group of five geese. Hop onto the geese and ride them all the way down to the second part of this level. During the flight, eat all the Time Flies you possibly can. Once the geese stop flying in a spiral, hop onto the north goose and jump onto the path of red and yellow balloons. Head east and north here to get the Orange Frog.

Green: Follow the Orange Frog walkthrough. When you get to the area formerly containing the Orange Frog, go west to get the Green Frog.

Purple: Go through the first part of the level and the goose flight. When you get to the end of the goose flight, hop onto the south goose and then hop onto the cloud. Head south to the U-shaped cloud surrounding the Purple Frog. Go south across the pink balloon to reach the Purple Frog.

Red: Take the Purple Frog path to the U-shaped cloud, then go west and south to get the Red Frog.

Blue: At the U-shaped cloud, go east and south to get the Blue Frog.

Level Notes

Time Flies is one of the strangest levels in the game. This level is fairly easy if you remember to eat as many Time Flies as you possibly can. You shouldn't have too much of a problem with this level if you pay attention and don't mess up.

c. Level 6-3 - Loonier Balloons (Time: 34 seconds)

Suggested Frog Order

Green
Orange
Red
Purple
Blue

Frog Walkthroughs

Green: Go north and jump onto the bird that flies by. Jump north at the first cloud you pass by and head to the northeastern corner of the cloud. Jump onto the duck that flies by on the east and take it to the next cloud. Pick up the Green Frog from there.

Orange: Follow the Green Frog walkthrough, then go to the north edge of the Green Frog's cloud and hop onto the bird that flies by. Jump off at the next cloud and go south to get the Orange Frog.

Red: Take the Orange Frog route. At the cloud formerly containing the Orange Frog, head to the southeast part of the cloud 1 space west off of the edge. There, wait for a duck to pick you up and ride the duck until it flies by a slower duck. Hop onto the slower duck and hop west across the balloons to the cloud where you pick up the Red Frog.

Purple: Take the Orange Frog route, but this time, on the bird that takes you to the Orange Frog's cloud, head south onto the balloons. Make your way to the southwestern corner and hop back and forth between the yellow and green balloons until a bird flies by on the south side. Jump on the bird and take it to the Purple Frog.

Blue: Take the Purple Frog route. Go to the southern edge of the Purple Frog's cloud and jump on the bird that flies by. Ride this bird to the Blue Frog.

Level Notes

Loonier Balloons is a somewhat more difficult version of Looney Balloons. Timing is the key to winning here. An emphasis is put on speed since you have only 34 seconds to get each frog. If you beat Looney Balloons easily, you shouldn't have too much of a problem with this level.

d. Level 6-4 - Airshow Antics (Time: 60 seconds)

Suggested Frog Order

Red
Green
Orange
Purple
Blue

Frog Walkthroughs

Red: Go north and wait for two planes to fly by side-by-side. Then, hop north across the plains and onto the cloud. Go west, avoiding the helicopters. When you get to the western edge of the cloud, head north near the pair of green balloons. Hop west onto the south green balloon, then take it up to the next pair of green balloons. Hop west onto the next green balloon, then ride it up to a pair of yellow balloons. When appropriate, hop twice to the west onto another green balloon. Ride this balloon up to a pair of red balloons, then hop west and south onto a green balloon. Ride this balloon up to the Red Frog.

Green: Hop north onto the first plane that flies by the edge of the cloud. When it makes a U-turn, rotate the camera 180 degrees. Then, head north onto the cloud when you pass it by. Go north and east to a set of green balloons. Hop onto the southernmost balloon and ride it up to a path made up of red balloons. At this path, go east, then go north. Jump north off the balloon in the northeast corner onto a green balloon. Ride the green balloon up to the Green Frog.

Orange: Wait for the pair of planes to fly by. Hop onto the northern plane and wait for it to make 2 U-turns, then go north onto the cloud when you pass it by. Being mindful of the choppers, head north and then west. When you get to the edge of the cloud, hop onto the southern green balloon. Ride it up, then hop west across the yellow balloons and onto another green balloon. Take it up to the pair of green balloons, then hop west and north. Ride this green balloon up to a set of balloons, then hop north across the balloons to get the Orange

Frog.

Purple: Hop north onto the plane that flies by. Rotate the camera 180 degrees, then wait for the plane to make 3 U-turns. When you are directly south of the first bug you see, hop north and slide across the cloud to the Purple Frog.

Blue: Wait for the pair of planes to fly by, then hop onto the northern plane. Rotate the camera counterclockwise (L2 button), then ride the plane until it makes 4 U-turns and then turns north. Hop east onto the cloud containing the Blue Frog. Grab the Blue Frog and celebrate your completion of Zone 6!

Level Notes

Airshow Antics is the hardest level in Zone 6. In this level, you can slide on the clouds as if they were made of ice. When you slide on a cloud in a particular direction, you will continue sliding in that direction until you either change directions, run into something, or slide to the edge of the cloud. When you're on the clouds, beware of the helicopters that move up and down. To help stay safe, you can hop quickly back and forth between two safe spaces until you have a safe path. This level will most likely take a few tries to learn. As usual, practice, timing, and patience are the keys to winning here.

=====
7. Zone 7 - Sewer Zone (Fish Skeleton) - 5 levels
=====

- Level 7-1 - Bang Bang Barrel
- Level 7-2 - Slime Sliding
- Level 7-3 - Uncanny Crusher (Yellow Frog Level)
- Level 7-4 - Boom Boom Barrel
- Level 7-5 - Reservoir Frogs

a. Level 7-1 - Bang Bang Barrel (Time: 23 seconds)

Suggested Frog Order

- Red
- Purple
- Blue
- Orange
- Green

Frog Walkthroughs

Red: Go north across the oil barrels, rotating the camera 180 degrees if your barrel makes a U-turn. At the last barrel, wait until you reach the eastern part of the stream, then hop ashore and head west, eating all the Time Flies you can. In this next part, wait for the exploding barrel to line up with the pair of oil barrels, then hop onto the exploding barrel to propel yourself onto the oil barrels. Now, wait for the exploding barrel to the north to line up with the newspaper, then hop onto the exploding barrel, propelling yourself onto the newspaper. Rotate the camera counterclockwise (L2 button), then wait for the newspaper to turn left. Once it turns left, hop east into the opening between the boxes. Head south and east, superhopping your way through the boxes and to the Red Frog.

Purple: Follow the Red Frog walkthrough. This time, however, ride the newspaper

past the boxes and hop off at the northwest corner of the isle. Wait for a newspaper to float by two spaces north of where you are, then hop across onto it when you get the chance. Ride this newspaper all the way to the Purple Frog.

Blue: Follow the Red Frog walkthrough up to the point where you're floating north on the first newspaper. Then, head west onto the island and superhop up the pipes to get the Blue Frog.

Orange: Take the Blue Frog route, but this time, head further west and superhop your way to the Orange Frog.

Green: Take the route you took for the Orange Frog, then hop west onto the set of boxes. Go north, then make your way west and north across the bobbing barrels to the Green Frog.

Level Notes

Bang Bang Barrel is somewhat difficult the first time through, but it is easily learned and beaten with enough practice. This level is the easiest level in Zone 7, and is the last relatively easy level in the game, with the possible exception of Cactus Point. Just pay attention and don't get caught off guard here. Timing is key in this level.

b. Level 7-2 - Slime Sliding (Time: 45 seconds)

Suggested Frog Order

Red
Purple
Blue
Orange
Green

Frog Walkthroughs

Red: Go north and east. Hop onto the rotating oil barrel below. Make your way from barrel to barrel to get the Red Frog.

Purple: Go north and west, jump onto the bird that flies by, rotate the camera 180 degrees, and hop east onto the first platform you fly by. Go east and superhop onto the raised area when the rat passes by on the east. Go south and slide to the Purple Frog.

Blue: Take the same route you took to get the Purple Frog, but this time hop off at the second platform you fly by. Head down the slime ramps, avoid the rats, and make your way to the Blue Frog.

Orange: Go north all the way, then west, north, and east, being mindful of the slugs. When you are halfway along the fourth log, hop south and slide all the way to the Orange Frog.

Green: Take the Orange Frog route, but this time, instead of going south at the halfway point of the fourth log, go north. Time yourself to make sure not to get hit by the drops of slime. When you get to the end of the path, go north and east across the newspapers and oil barrels to get the Green Frog.

Level Notes

Slime Sliding is fairly frustrating at first, but once you practice enough, it becomes second nature. Timing is everything in this level. The slime-covered logs act like the clouds in Airshow Antics. Pay attention to the enemies' movements so you don't end up sliding into them. If you're about to slide into the path of an enemy, quickly hop in the opposite direction, then hop back and forth until the path is clear.

c. Level 7-3 - Uncanny Crusher (Time: 40 seconds)

Suggested Frog Order

Green
Red
Blue
Orange
Purple

Frog Walkthroughs

Green: Go north, jump on the newspaper, and ride it all the way to the end, making sure not to get hit by the spiked crushers along the way. Superhop onto the pipe at the end to get the Green Frog.

Red: Go north and jump on the newspaper, then hop west onto the oil barrel and onto land. Head west through the crushers, then go south and superhop to get the Red Frog.

Blue: Take the Red Frog route, but this time, pass the Red Frog platform and head south through the spiked crushers to get the Blue Frog.

Orange: Hop north onto the newspaper, then hop east onto the oil barrel and onto land. Make your way east and south through the crusher, then rotate the camera 180 degrees to help with the next part. Hop onto the oil and slide to the end of the area. Move over to the right and wait for the spiked crusher to clear the path before moving on to the next part. When it's clear, go left and up into the corner. Rotate the camera 180 degrees here to help with this next part. Go up past another spiked crusher when it's safe, then slide into a side wall to be safe. Now, to get through the next part, wait until it's safe to go, then slide away from the wall and up the middle. When the spiked crushers close in, slide away from the crusher in the row you're in. Keep going through the spiked crushers using this method until you get the Orange Frog.

Purple: Take the Orange Frog route, then continue north. Wait until it's clear, then pass the spiked crusher north and west. Head south into the opening to get the Purple Frog.

Level Notes

Uncanny Crusher is one of the most difficult levels in the game. The west side of this level is easy compared to the east side of this level. The only way to win here is to practice, practice, practice. The oil acts like the clouds in Airshow Antics, so keep that in mind for the east side of the level. Just keep trying, and don't get discouraged if you get several Game Overs the first time you play this level.

d. Level 7-4 - Boom Boom Barrel (Time: 50 seconds)

Suggested Frog Order

Red
Purple
Blue
Orange
Green

Frog Walkthroughs

Red: Go north across the oil barrels, rotating the camera 180 degrees whenever you make a U-turn. Hop north to the shore and wait for the exploding barrel to get in position for you to make the jump. The exploding barrel should be 1.5 spaces to the left of the oil barrel to the north. Now, for the next exploding barrel, wait for it to line up with the newspaper to make your jump. When you land on the newspaper, rotate the camera counterclockwise (L2 button). When the newspaper starts going north, hop east into the opening between the boxes, then superhop your way south and east to the Red Frog.

Purple: Follow the Red Frog walkthrough, but this time ride the newspaper past the boxes and hop off at the northwest corner of the isle. Wait for a newspaper to float by two spaces north of where you are, then hop across onto it and ride it to the Purple Frog.

Blue: Take the Purple Frog route, but this time head west onto the island. Dodge the slugs and go north to get the Blue Frog.

Orange: Take the Blue Frog route, but here, head west past the Blue Frog's area, avoiding the slugs, to get the Orange Frog.

Green: Go west past the Orange Frog's area, being mindful of the slugs, and head south if you came from the Orange Frog's area. Otherwise, just go west to the bobbing barrel area and head west and north to get the Green Frog.

Level Notes

Boom Boom Barrel is somewhat more difficult than its cousin, Bang Bang Barrel. The main part that makes this level more difficult is the part where you use the exploding barrels to cross the stream in the middle of the level. This is one of the most frustrating areas in the entire game. The rest of the level is somewhat easier than the exploding barrel area, with the slug area by the Blue Frog being the most hazardous area in this part of the level. Practice, timing, and patience are crucial to winning here.

e. Level 7-5 - Reservoir Frogs (Time: 60 seconds)

Suggested Frog Order

Purple
Green
Blue
Red
Orange

Frog Walkthroughs

Purple: Rotate the camera clockwise (R2 button). Do this each time you start

the level. This will be the standard orientation as far as determining which direction is which. Now, hop north across the newspapers and oil barrels. When you get across, head to the west part of the strip of land to pick up the Purple Frog.

Green: Take the Purple Frog route, then head north. Wait for the exploding barrel in the southernmost row to be about one space west of the exploding barrel in the third row from the south. Hop onto the first exploding barrel and let it propel you to the second exploding barrel, which will do one of two things: 1. Launch you onto another exploding barrel which launches you onto the island or into the water (usually the former), in which case skip to the next part of the walkthrough; or 2. Launch you onto an oil barrel, in which case you hop south onto another oil barrel and try to launch yourself onto the island using an exploding barrel. When you reach the island, head north and east and hop onto the exploding barrel to the east, which launches you from barrel to barrel and eventually to the ledge containing the Green Frog.

Blue: Rotate the camera as directed, then head all the way east. Go south onto the oil and slide into the next area. Rotate the camera clockwise (R2 button), then make your way forward through the spiked crushers and to the Blue Frog.

Red: Rotate the camera as directed, then head all the way east, like you did for the Blue Frog. This time, however, head north and make your way across the newspapers, raccoons, and oil barrels. Once you're across, go north onto the slime covered log, then head west to get the Red Frog.

Orange: Follow the Red Frog walkthrough, but this time, head east at the slime-covered log, avoiding the slugs. When you get to the end of that log, head all the way north and hop north off the log. Head west, avoiding the slugs as always, then face south at the corner of the logs and superhop up to the ledge. Now, superhop south up the sloped slime-covered log. To do this, you have to get a rhythm going with the hopping. Here's a method that usually works: Superhop, wait for Frogger to start sliding down again, then superhop again. Repeat as needed. Now that you've made it up the slope, head east. Wait until you're over the easternmost log, then hop south. Superhop south up the slimy slope to get the Orange Frog and complete Zone 7.

Level Notes

Reservoir Frogs is another super difficult level, but with enough practice, it can be tamed like any other level. The two main difficult parts in this level are the spiked crushers near the Blue Frog and the slime-covered logs in the Red and Orange Frog area. In the stream at the beginning, you can jump on the exploding barrels to propel yourself to the other side quickly. Like in most other levels, try to look for a pattern in the objects' movements and use this knowledge to figure out a path to the goal.

=====
8. Zone 8 - Desert Zone (Cactus) - 5 levels
=====

- Level 8-1 - Cactus Point
- Level 8-2 - Boulder Alley
- Level 8-3 - Tumbling Valley
- Level 8-4 - Crumbled Point (Yellow Frog Level)
- Level 8-5 - Big Boulder Alley

a. Level 8-1 - Cactus Point (Time: 40 seconds)

Suggested Frog Order

Red
Purple
Blue
Orange
Green

Frog Walkthroughs

Red: Go north through the buffalo stampede and take the east route at the split. Continue going north between the cacti, avoiding the beetles, snakes, and falling boulders. Keep going north to get the Red Frog.

Purple: Head north through the stampede. This time, take the west route at the split. Continue going north between the cacti, avoiding the beetle, snakes, and boulders to get the Purple Frog.

Blue: Take the Purple Frog route, but this time, go all the way north and take the west path up the incline. When you make it up the incline, the camera automatically rotates clockwise. Go all the way south (left), avoiding the gila monsters, then head east (toward the screen) to get the Blue Frog.

Orange: Again, take the Purple Frog route all the way north. This time, go east up the incline. When you reach the top of the incline, take a couple of hops south, and the camera will automatically rotate counterclockwise. Then, head south (right) and avoid the boulders that come your way. At the end of the path, go west (toward the screen) to get the Orange Frog.

Green: Take the Orange Frog route, then wait for a bird to fly by. Hop onto the bird and take it to the Green Frog.

Level Notes

Cactus Point is fairly easy compared to the rest of the levels in Zone 8. Simply look for patterns in the movements of the enemies and the boulders, and use that information to figure out a path to the goal. You should have no real problem with this level.

b. Level 8-2 - Boulder Alley (Time: 50 seconds)

Suggested Frog Order

Red
Green
Blue
Orange
Purple

Frog Walkthroughs

Red: Go north and east. Wait until the beetle is close to you, then superhop over it. Do the same with all beetles in this level. Now, head east and north, superhopping over the beetles, and take the first path east. Head east to the spot two spaces west of another series of beetles, then hop north onto the bird that flies by. Ride the bird all the way down to the Red Frog.

Green: Go north, east, and north, superhopping over the beetles. Continue going north and go up the path, avoiding the boulders, to the Green Frog.

Blue: Follow the Green Frog walkthrough. This time, go all the way to the top to get the Blue Frog.

Orange: Go north, east, north, and east, superhopping over the beetles as always. Rotate the camera counterclockwise (L2 button), then go south (right), east (forward), and north (left), superhopping over the beetles. This is MUCH easier said than done. It takes a lot of practice and quite a bit of luck to make it through here alive. The main thing to remember here is to avoid getting stuck. Now, once you pass that part, rotate the camera clockwise (R2 button). Head west along the path, and then climb up the mountain, avoiding the boulders. Once you've made it up the second incline, head to a safe spot and wait for a bird to fly by on the west. Hop onto the bird and ride it to the Orange Frog.

Purple: Take the Orange Frog route, but this time, go all the way to the top to get the Purple Frog.

Level Notes

Boulder Alley is probably the second hardest level in the game, with Big Boulder Alley being the only level harder than this one. Timing and practice are *essential* to beating this level. You must time your jumps over the beetles perfectly. Make sure you always have a way out in case of trouble. When in doubt, head backwards. In the boulder areas, keep an eye on the shadows and make note of the boulder patterns. Simply put, just practice as much as possible to get a feel for this level, and don't be surprised if you get a Game Over without getting a single frog first.

c. Level 8-3 - Tumbling Valley (Time: 30 seconds)

Suggested Frog Order

Orange
Green
Purple
Red
Blue

Frog Walkthroughs

Orange: Head north when you see the set of four tumbleweeds rolling east-west bounce off the west wall. Then, when the set of tumbleweeds rolling north-south rolls by, head east and north, then head east and south, dodging the other tumbleweeds. Rotate the camera 180 degrees, then go forward to the beetles and superhop your way over them and along the path to pick up the Orange Frog.

Green: Head north to the northwest corner of the tumbleweed area by doing the same thing you did in the Orange Frog walkthrough. When it is safe, superhop onto the slope, hop east and west, superhop over the next beetle, and head west and south, superhopping your way over the beetles to the Green Frog.

Purple: Follow the Green Frog walkthrough, but this time, instead of superhopping onto the incline, go east, then go north. Go to the southeast corner of the backwards L-shaped set of falling platforms, then follow these directions (be careful of the vultures here while doing this): 3 hops west,

wait for the vultures to clear, 1 hop south, 3 hops west, and 5 hops north, picking up the Purple Frog.

Red: Follow the Purple Frog walkthrough, but this time, head north at the first falling platform you encounter. Then, head east, north, and east again, being careful not to get hit by boulders, to get the Red Frog.

Blue: Take the Red Frog route, but this time, head west at the northernmost part of your journey to get the Blue Frog.

Level Notes

Tumbling Valley is a fairly difficult level, but it isn't as hard as, say, Reservoir Frogs or Uncanny Crusher. The first time you play this level, you'll probably get a few Game Overs, but, as always, with enough practice, you can beat this level easily. Timing is essential in this level, especially in the first part of the level, where you must make your way through a tumbleweed-filled area. In this area, you should try to make your way clockwise around the area. Overall, you'll probably have some problems winning at first, but you should eventually beat this level with no problems.

d. Level 8-4 - Crumbled Point (Time: 70 seconds)

Suggested Frog Order

Red
Purple
Blue
Orange
Green

Frog Walkthroughs

Red: Head north through the buffalo stampede and take the east path. Continue going north between the cacti, avoiding the beetles and the snakes. When you pass the cactus area, head north and east (mainly north) through the falling boulder area and capture the Red Frog sitting in a cave to the north.

Purple: Take the Red Frog route up to the boulder area. Here, head north and west (mainly west) and pick up the Purple Frog sitting in a cave to the west.

Blue: Go north through the buffalo stampede and take the west path. Continue north through the cactus and boulder areas, being mindful of the beetles, snakes, and falling boulders. When you get to the end of the path, rotate the camera clockwise (R2 button) and head west (forward) up the slope. Dodge the boulders here, then head south (left) when you reach the top. Avoid the gila monsters and follow the path south (left) all the way to the Blue Frog.

Orange: Take the Red Frog route, but this time, head west and north up the middle of the boulder area. At the end, rotate the camera counterclockwise (L2 button) and head east (forward) up the slope, dodging the boulders. At the top of the incline, go south (right) and dodge the boulders and vultures littering this area. When you reach the end of the path, go west (toward the screen) to pick up the Orange Frog.

Green: Take the Orange Frog route up to where you got the Orange Frog. Wait for a bird to fly by, then hop onto it and take it to the Green Frog.

Level Notes

Crumbled Point is a much more difficult version of Cactus Point. The number of boulders in this level is approximately double the number of boulders in Cactus Point. Also, the gila monsters nearly double in frequency as well. To get through the boulder areas, simply keep an eye on the shadows of the boulders and find patterns in the boulders' movements. Timing and practice are the keys to winning here.

e. Level 8-5 - Big Boulder Alley (Time: 75 seconds)

Suggested Frog Order

Blue
Orange
Purple
Green
Red

Frog Walkthroughs

Blue: Head north, east, and north, superhopping over the beetles. When you get past the beetle area, go north up the mountain, avoiding the falling boulders. (Hint: Wait for both boulders to go by before continuing onward.) When you get to the top of the mountain, go north to find the Blue Frog.

Orange: Go north, east, and north again, superhopping over the beetles, then take the first path east. Being mindful of the vultures and the beetles, head all the way east to get the Orange Frog.

Purple: Take the Orange Frog route up to the last set of beetles. Wait at the space just west of the line of beetles, rotate the camera counterclockwise (L2 button), then go south (right), east (forward), and north (left), superhopping over the beetles like last time. This time, however, you must also take care not to get hit by the vultures as well as the beetles. This will take a LOT of practice, and most likely several Game Overs before you master this. Once you reach the end of this area, rotate the camera clockwise (R2 button) and head west. Then, head north and east, going up the mountain. Dodge the boulders and head up the mountain. A good way to avoid the boulders here is to wait for all of them to fall onto the path, then hop from one side to the other. Do this until you reach the top. When you reach the top, go north to get the Purple Frog.

Green: Follow the Purple Frog walkthrough up to the base of the mountain. Bypass the mountain and continue going north to the ledge with the boulders falling on it. Wait for a bird to fly by the ledge on the west, then carefully make your way to that ledge and hop onto the bird, avoiding the boulders. This might take a few tries to execute successfully. Hop on the bird and ride it to the bottom. Rotate the camera counterclockwise (L2) button, then head south. In the area with the tumbleweed, go clockwise, hugging the sides and avoiding the tumbleweed. Go west to another area, then go north to the last area. Hop north across the crocodile heads, being careful not to get bitten or fall in the water, and get the Green Frog.

Red: Take the Green Frog route, but this time, when you jump off of the bird, head southeast to a passage. Go east through the passage, then go south and east to the next area, avoiding the gila monster in the meantime. In this final area, go counterclockwise in order to avoid the tumbleweed. Go to the northeast

corner to get the Red Frog, completing Zone 8. Congratulations, you only have one zone and one level to go!

Level Notes

Big Boulder Alley is the hardest level in the entire game. Not only do you have to watch out for beetles and boulders, but you also have to watch out for vultures. On the bottom of the levels, you have to watch out for tumbleweed and other monsters, which can be very difficult at times. Practice, timing, and patience are the keys to beating this level. Simply put, Big Boulder Alley is not for the faint of heart.

=====
9. Zone 9 - Tropical Zone (Banana) - 1 level
=====

Level 9-1 - Tropical Trouble (Yellow Frog Level)

a. Level 9-1 - Tropical Trouble (Time: 45 seconds)

Suggested Frog Order

Red
Blue
Orange
Purple
Green

Frog Walkthroughs

Red: Hop north across the crocodiles and the logs to the strip of land with two rhinos. Dodge the rhinos, then head north and west and hop onto the log floating by. Hop north across the hippo and another log onto another piece of land with a pair of rhinos. Head east, avoiding the rhinos, to the next area. Make your way around the man-eating (frog-eating?) plants to get the Red Frog.

Blue: Take the Red Frog route up to the first strip of land you reach, and head west, dodging the rhinos. Then, head south, avoiding the fish, and pick up the Blue Frog.

Orange: Take the Blue Frog route, but this time, head all the way west, avoiding the rhinos, and then head all the way north to the scorpion area, avoiding the monkey going around the tree. Then, in the scorpion area, take the southern path east, avoiding the scorpions, and cross the log over the river. Hop east past the carnivorous plant and past the monsters, then head north to the next area. Here, go north and east, avoiding the monsters, to get the Orange Frog.

Purple: Take the Orange Frog route, heading west at the end instead of east. Go west until you reach a bridge, then go south across the bridge to get the Purple Frog.

Green: Take the Purple Frog route, but this time, go all the way west to the southwest corner and superhop onto the stone there. Superhop your way north and east to the Green Frog. Congratulations! You have beaten Frogger! But wait, there's more...

Ending: Take the Purple/Green Frog route, but this time, head north at the

temple and go inside. In here, head north, superhop onto the platform containing the Yellow Frog, and enjoy the ending :)

Level Notes

Tropical Trouble is the final level of the game. As always, pay attention to the enemies' movements as well as the movements of the crocodiles and the logs in the river. This level is of moderate difficulty and should not be too difficult for you, provided you went through all the other levels first.

XI. Yellow Frog Walkthrough

=====

1. Zone 1 - Level 1-5 - Retro Level 5

=====

In this level, the Yellow Frog appears on a log where the Purple Female Frog usually appears.

=====

2. Zone 2 - Level 2-4 - Spinning Lilies

=====

To get the Yellow Frog in this level, take the same route you took to get the Blue Frog, only this time, head south onto the island at the opening between the two trees. Go clockwise around the bushes (watch out for the dog) to get the Yellow Frog.

=====

3. Zone 3 - Level 3-2 - Canopy Capers

=====

To capture the Yellow Frog here, just take a little detour on your way to the Green Frog. When you cross the river, head east into another log, then head north, being mindful of squirrels, and get the Yellow Frog.

=====

4. Zone 4 - Level 4-1 - Scorching Switches

=====

On your way to the Purple Frog, simply grab the Yellow Frog sitting on the platform between the second pair of rotating platforms you encounter.

=====

5. Zone 5 - Level 5-3 - Webs Cavern

=====

To get the Yellow Frog, follow these directions: 1 hop east, 22 hops north, 10 hops east, 9 hops north, 1 hop east, superhop. Be careful of the tarantulas in the Yellow Frog area.

=====

6. Zone 6 - Level 6-4 - Airshow Antics

=====

To get this Yellow Frog, take the Orange Frog route up to the second green balloon you come across, then hop south to get the Yellow Frog.

=====
7. Zone 7 - Level 7-3 - Uncanny Crusher
=====

In this level, take the Purple Frog route, but at the spiked crusher after the Orange Frog, head north and east to get the Yellow Frog.

=====
8. Zone 8 - Level 8-4 - Crumbled Point
=====

In this level, take the Blue Frog path, but at the end of the cactus area, head west through the cacti, hop north, let the camera automatically rotate, then go forward to get the Yellow Frog.

=====
9. Zone 9 - Level 9-1 - Tropical Trouble
=====

The Yellow Frog is located in the temple, and is covered in detail in the regular walkthrough for the level.

XII. Codes

Courtesy of GameFAQs (www.gamefaqs.com)

All Zones Open

Pause during gameplay and press Right, Square, Triangle, Square, Triangle, R1, L1, R1, L1, and Circle. A message will display to confirm that you have correctly entered the code.

Infinite Lives

Pause during gameplay and press Right, Square, Triangle, Square, Triangle, and X. A message will display to confirm that you have correctly entered the code. (Note: To turn off this code, simply reenter the code, and another message will display to confirm that you have correctly entered the code. Also, to exit while the code is still on, you can either turn off the code and expend all of your lives, or you can press Select and quit the game.)

XIII. Additional Help

If you need help with any of the following, please e-mail me at nickbush24@gmail.com:

-Clarification of something

-Possible mistakes in the guide

-Suggestions for alternate solutions

-Suggestions on how to improve this guide (adding something, removing something, etc.)

-Any information you feel that I should include in this guide

-Any other questions, comments, or suggestions pertaining to this guide

In your e-mail, include your name (or alias, but I would prefer it if you included your real name) so I can recognize you in this guide if you send me information. Also, be sure to include "Frogger FAQ" in the subject line.

If you wish to send any of the following, please e-mail it to youare@amoron.com:

-Abusive comments

-Flame mail

-Spam

-Viruses

-Attachments of ANY kind (I will ignore and delete your e-mail)

-"Chain" letters

-Inbox flooding from a single or multiple addresses

-Any other e-mail that I deem useless (just use common sense, people)

Doing any of the above will guarantee that your e-mail will not be read, and depending on the circumstances, your e-mail address will be blocked from sending me e-mail.

XIV. Acknowledgements
