0.) Introduction

Harvest Moon: Back to Nature is one of the best Harvest Moon games released. The best Harvest Moon is Harvest Moon GBC and GB [Both are the same game but the only difference is that one is in color and the other is not] (both of us agreed on this). Harvest Moon GBC/GB is the best Harvest Moon because of all the space on the farm. Harvest Moon: Back to Nature is the game for anyone looking for a game that has a thinking base to it along with a 3D exposure. That means that this Harvest Moon is a much better buy than Harvest Moon for the 64 and any other Harvest Moon after this game.

JagDogger2525 - This is my fourth FAQ but my first specific FAQ. I got with Lazure and I just threw the idea of a Game Shark FAQ. Lazure was a little hesitant about the idea. So I showed him the game that I was planning on doing it on. Lazure started feeling good about the guide. Once I showed him everything in the game (as well as Harvest Moon GBC), Lazure agreed 100% to making a Game Shark FAQ for Harvest Moon: Back to Nature.

puddentater - This is my second FAQ. It was true I was a bit nervous at first. Both of us agreed that I would type the codes from the Game Shark to Notepad and Steve would do the style and host of the FAQ. It would be the opposite of the first guide. Both of us completed this FAQ in a day. I feel good about this FAQ because of Steve's help. I chose Steve because I did not realize he had a GameFAQs account until the end of October of this year.

10.) Gameshark Glitches

A. Unlimited seeds

Enable the 'Watering Can Always Full' code. Start a new game. Buy just one (1) {yes just one} of any, if you want all, seeds. Equip all the seeds you just bought (do at home if you bought more than you can hold). When the bag of seeds are equipped, there will be an 'xx0' in the corner of the bag. The 'xx0' means an unlimited amount of seeds (Just for kicks and giggles, just waste a few bags anywhere at anytime).
