Homeland	: Indonesia	Platform	: Sony PlayStation
Date	: September 25, 2001	Version	: North American

Best viewed with WordPad wrapped with ruler

The ASCII art title was meant for Back 'to' Nature, not Harvest Moon '2'.
Just to avoid misunderstanding.

Sony PlayStation is a registered trademark of Sony Computer
Entertainment Inc.

Harvest Moon is a registered trademark of Natsume Inc.

All other copyrights are properties of their own respective owners.
Copyright Protected, 2001. All part of this work can not be reedited and or
be published without any permission from the author. This faq was owned and
created by Hafiz Rahman. It is a free personal faq, which means that it can
not be used for any commercial purposes. Any violations will be dealt with.

So, this faq should not be used for any commercial use. If somehow, you are
still not pretty clear about that, let's just make a simple thought. If you
are, in any way, making and receiving money by doing anything with this faq
then you're considered using it for commercial uses. That means if you give
this faq freely in order to attract people to purchase the games, guides or
merchandise or anything from you or your company, you are into breaking the
law. No organizations, business groups, companies, publisher could use this
faq for their own business purposes. Game magazines, guide, site and or any
kind of printed or electronic media are not allowed to use this faq without
any permission from the author. Only in a free accessible site this faq can
be placed, as long as the content of this faq remains original too.

And, WEBMASTERS, original here means that you mustn't add any advertisement
banner in any part of this faq, including any banner in the same page where
this faq was placed.

Printing out this faq out is allowed only for personal use. Same thing with
saving a copy of this faq in your computer. Just make sure that this faq is

question(s) filling up their mind and then they try to look at the FAQ(s). They have a hard time to find what they need because the FAQ(s) was too big. So this (classic-style) Frequently Asked Questions was made to give easier and faster help for people like them. Knowing that this is NOT a solid game info, then I will introduce this as, uhm, [Drum Roll BGM ^_^] liquid game info! Heh, do you think only snakes has either liquid and solid?

However, I'm not that smart and I don't know whether my way of thinking is right or not. Maybe a guide like I've explained above was considered as a FAQ too. Maybe a Frequently Asked Questions should be made like this. Honestly, I'm not even sure that FAQ is Frequently Asked Questions. All I know is that I want to help people and (to do that I) give things that I already know to them. I hope you enjoy this FAQ and I hope this can help you too in advance.

Here is the list of abbreviations that you may find in this FAQ. Perhaps you didn't know what it means so I add them:

1. HM : Harvest Moon
2. BTN : Back to Nature
3. 64 : Nintendo 64
4. GB : Game Boy
5. MB : Message Board
6. #\$\$@*()!#@ : Several censored bad words. It has no certain meanings, but you surely know them by yourself ^_^

If you have any unanswered or unlisted questions, just send them to my e-mail address <kuadrantiga@yahoo.com> and I will add them here. But please, read the faq first so you wouldn't send an already answered questions.

Version History

Version 1.0 May 26, 2001 - 92 KB

188 questions listed and answered, and I'm not really sure about the exact number ^_^ . Oh well, that's it for this version. Some updates might be happened if I get some contribution from you, my dear reader, and I will add them here. But don't expect it to come early, because maybe it will be about a month to get version 2.0 because I do have lot to do in my life other than to maintain this FAQ. Hence thank you for your understanding.

Version 1.1 September 25, 2001 - 160 KB

230 questions listed and answered. Phew, did I said "a month"? Sorry guys, lots of things happened to me that makes this FAQ came out FOUR month after the release of the version 1.0. The first thing is that I actually receive some emails, like one or two new emails per day, so you should know how many times should I update the questions again and again. As for me it doesn't really matter, BUT then right when I was going to set up everything in the updated version so that I could submit it, the file was coincidentally got deleted... So then I lost the one and only archive where I put the contributor's data in this FAQ and I have to redo the job from Version 1.0 again. It's getting even worse because this FAQ is not the only one that I lost, but there are some of my other FAQ too. Hence this is what I could do this time. Less update since I can't remember what I have put in this FAQ recently, and almost no contributor credits. The last part makes me feel bad because they actually deserve the credits, so if you have asked me some question and want to get the credit you deserve, please mail me. No, NOT at <kuadrantiga@yahoo.com> since your mail will just get lost in many emails. Mail me at <kuadrantiga@email.com> and use "CREDITS" as the subject. I'm sorry for the inconvenience and I hope you

could just enjoy this FAQ with all of its limitation, failure and grammatical errors ^_^'.

Author's note \

To learn more about things explained below, refer to this FAQ's topic which has the specified information (such as tools, characters etc) about them.

Author's note II\

If you have read the first version of the FAQ, you might notice the new number feature that is listed on each topic's header. The number was the total of the question inside the topics so that you know whether there's some new questions or not. And more, although the number of the question is still the same with the previous version, do check them again because sometimes I might add some new lines into the old questions for some new information. Okay, I hope you're not wondering again now.

i	General Questions	7
---	-------------------	---

Q: What is Harvest Moon? What kind of game is that?

A: Harvest Moon is a farming simulation game. You can do a lot of things here, though the basic is farming. You can go fishing, mining, many other farm related jobs and one of the best features is that you can marry a girl here. So it has a love simulation part too. Or, in other words, since it has so many different parts mixed altogether, I'll just call it "Life-on-the-Farm Simulation Game" ^_^.

For further information, Back to Nature is not the very first series of the game. Here are the game titled with Harvest Moon:

1. Harvest Moon - Super Nintendo
2. Harvest Moon - Game Boy Color
3. Harvest Moon 2 - Game Boy Color
4. Harvest Moon 3 - Boys Meet Girls - Game Boy Color / Advance
5. Harvest Moon 64 - Nintendo 64
6. Harvest Moon Back to Nature - Sony PlayStation
7. Harvest Moon Save the Homeland - Sony PlayStation 2

Of course if you just want to know more, you could just visit Natsume's site at <www.natsume.com>.

Q: Should I buy it or the N64 version? 'or' Which one is better?

A: Well, both versions have pros and cons. This Back to Nature (BTN) version was released after the 64 version, so it has more addition and better features. Honestly, I haven't played the 64 version, so I can't say which one is better. And if I could, that would be pretty subjective. But from what I know, BTN has better graphics and gameplay. Well, maybe you can see some of the difference from both version and decide it by yourself.

Q: So? What is the difference?

A: - 64 allows you to collect photos in a photo album. BTN didn't have this feature.
- In terms of graphics, BTN is little bit more detailed and the

color was sharper.

- BTN has more crops to plant.
- BTN has some different festivals like Chicken Sumo.
- BTN's swimming festival was harder to win than in 64 version.
- BTN allows you to raise fish.
- BTN allows you to collect recipes and actually cook them too.
- BTN has a walk in stable.
- The town was different, so does the layout.
- The story was different, although the characters were same.
- The role of the characters was different. In example, Lillia in 64 was a florist, but Lillia in BTN is a chicken farm owner.
- Maria in 64 was named Mary in BTN version.
- Tools upgraded in different way.
- You have an apple tree, fishpond and 'different' stable in BTN.
- And another tidbits difference, such as Calendars thingies, some character didn't appear in one version to another, etc.

Q: I still can't decide which one is better. What should I do?

A: Read the reviews in GameFAQs for more brief information about the game. And go to some Harvest Moon sites.

Q: Another addition?

A: Well, this BTN support PocketStation too. Can't tell you more, though. I have no PoS. As for new information, I guess Natsume has removed the PocketStation compatibility from the North American version. That means you can only play PocketStation using the Japanese version. I don't know, I need somebody to confirm this.

Q: Hey, is it true that you can marry a girl in this game?

A: Yep. So for those who just can't stand playing any Japanese love sims (you know, because of the kanji), and for those who want to get some fresh air, just try this game. But of course it's not that I have some relation with Natsume nor being their promotional staff, I just give you some suggestion ^_^.

Q: Okay, so I like this game and I want to play the other version of Harvest Moon. Which one should I choose?

A: I certainly can't suggest you what you should and what you shouldn't choose because it was all your decisions anyway. But here are some basic explanation from what I've knew from the other Harvest Moon.

1. Harvest Moon - Super Nintendo
The original version. It was the very first Harvest Moon as far as I know and it contain lot of things that is still used in Back to Nature (like marriage, tools, livestock etc). The difference is that this version is HARD. Trust me. Just play this game to see that harvest moon life wasn't this easy back then.
2. Harvest Moon - Game Boy Color
I have read about it a little bit and it doesn't seem to have some extreme development from the SNES version. You still have limited crops, limited livestock, limited save data, PLUS the same old difficulties.
3. Harvest Moon 2 - Game Boy Color
This game is good since you can choose either to be a boy or girl, and with different stories, different role of characters, more crops, extra features (like bug-collecting mini game, time capsule, trading things with your friend's saved data using the gameboy cable link [or whatever it called], festivals), and many more.

4. Harvest Moon 3 - Boys Meet Girls - Game Boy Color / Advance
This is the game that was released soon (or together with?) after the launching of Back to Nature, being the sequel of Harvest Moon 2 GBC. I haven't saw the graphics yet but I have read some about it and I really thought that this game is better than BTN in many aspects. It has more crops, including rice that should be planted for two months until harvest time. You could choose to be a boy or a girl, of course, and you will have a partner for you with the opposite gender of your main character. And, you could modify your character's hair and clothes color. You could choose bloodtype as well (even though I really don't know what it could be used for). And you could choose to have a dog, cat, bird or a pig as a pet. There are 3 kinds of dog and 3 kinds of cat. Your character has some sort of happiness points, things that you could not have in BTN, and don't worry you can have a marriage as well. But now there is only one person you could marry, luckily your farming partner. You can have more than one baby (!) and things are somewhat harder too because you have to buy lots of things including TV and rags. And the other thing is that you do not use some potions to have an offspring from your livestock. Instead of it, you will have to have a male (!) and a female (!) livestock (cow, sheep, chicken) and then mate them together. You even have some annoying crows to eat your entire crops, so you will have to buy Scare Crow to keep them away. Wow, isn't it? The only noticeable thing is that this game isn't in North American version yet. At the date when this faq was released, there's only a Japanese version, so we might have to wait any longer to have the game in English. Gee.

5. Harvest Moon 64 - Nintendo 64
Let's say, the older twin brother of BTN? Some say BTN is slightly better. As for me, I never really played this game but it seems like the gameplay is just the same with BTN. Well, since I've explained about it up there I won't do that the second time as well.

6. Harvest Moon Back to Nature - Sony PlayStation
This game is, hey, this is the game you are currently playing! ^_^

7. Harvest Moon Save the Homeland - Sony PlayStation 2
The next generation of Harvest Moon. Better graphics (see the '2' next to the 'PlayStation?'). From what I've knew, this game was previously titled HM: Ignite Heart or Set My Heart on Fire (if directly translated from the Japanese title) but then it was sadly laughed by many people on the net (luckily it isn't as bad as when we laugh at SNK's famous All Your Base Are Belong To Us..:). Some other people even starts to think about the possibilities of the next version of Harvest Moon to be titled as HM: Summer Romance. So the point is that HM is a farming game and not 100%-ly a love simulation so it was silly to be titled like that kind of game. So I guess Natsume heard the voice of people after all, because then it was called Save Our Homeland (now that sounds natural!). Okay, honestly I am blind of anything about this game but the fact that you could not marry anyone in this game. It is still in Japanese version as well and I don't have the game plus I don't have the time to check any site for some info about this game, so please don't hesitate to do the search on your own. Sorry for the inconvenience ^_^.

Hiya! If you're here, it's highly possible that you're new to this Harvest Moon game. You haven't played the previous or the better version of Harvest Moon, am I right? But that's okay, because this section was dedicated for you! This will be the place where you can (hopefully) find what you need when you're stuck in this game. Read on!

Q: First of all, what should I do?

A: First of all, and you must remember to do this everyday, watch your TV. You must know the next day's weather, and watching Farmer Fran wouldn't hurt too because he gives you lots of tips of this game. After that, stand in front the treasure-box like thing in the corner of your house and open it. It's your toolbox, so you must pick your tools from it. Because you can only bring 3 tools at the time, choose Ax, Hoe and any other one. Hammer is preferable because you can use it to break small stones. However, you can just pick the small stone and bring it somewhere else. Sickle is used to, you know, get rid of the weeds, but you can just pull the weeds with your hand. That'll save your energy too.

Then get outta your house and start cleaning up your farm. Pick up weeds, hammer small stones, and make sure you have some clean areas. After that, plow your land with Hoe. Make it about 9 x 9 plowed land. It will takes some hours, but that's normal. Then, whistle your dog and pick it up, just to make it happy. After that, quickly go to the Supermarket (you should know where if you choose to go on a tour with the mayor a day before). Stand right in front of the seeds and buy some of them. Turnips are preferable because they grow fast and you need the money back fast too. And DON'T buy grass yet.

After that, go to Yodel Ranch to get your pony. Choose yes during the event. Then go get some green grasses near Gotz house and Hot Spring. You can sell them by throwing them to your shipping bin in your farm, near your mailbox. Then take a little rest in the Hot Spring for an hour and go back to your farm. If your rucksack is full, then you must pick the seeds you've bought in your toolbox first. If it's not, then start planting them. Oh, and pick your Watering Can too.

You have to stand in the middle of 3 x 3 plowed land and equip your seeds. Press Square and that'll make it.

```
[][][]      [] = Plowed Land, showed by one Square
[]##[]      ## = Where you should stand and plant the seeds.
[][][]
```

Plant every seeds you have and water them with your watering can. Now, after everything's done, you can go mining to get some money. Or just take a rest again in the Hot Spring and go to bed. Save if you want to.

Q: Okay. First day passed. So what's next?

A: Well, you must water your plant everyday, pick your dog and talk to your pony everyday and it's better if you go forage (searching for wild plants like green grasses and sell them) and mining everyday. After couple days, your plants will be harvestable. Just pick them up and throw them to the shipping bin to sell.

Q: Another important notes?

A: Search in each section here if you have specified questions.

Q: Wait. Wait! Aren't there any good tips?

A: Fine. Here goes:

1. DO take an hour in Hot Spring before you get some sleep. You don't want to get overslept the next day.
2. DO harvest your plant right when they are harvestable. Letting any multiple growing crops unharvested will just delay the next harvest of it. That means you will eventually lose profits.
3. DO take care of your animals.

Your dog needs to be picked up everyday, and to be trained with dogball daily too once you get it. Your horse needs to be brushed and talked everyday. Let your dog and horse outside if the sky is clear. Your sheep and cow need to be brushed and talked to everyday too. This will keep them happy. Let them inside unless you have many patches of grass outside and want to let your animal grazing outside. Your hen, well they don't really need some special treatment but like sheep and cow they need to be feed everyday. Let them out if you run out of chicken feeds but make sure it won't be a hazardous weather tomorrow or you might lost them forever.

4. DO build a fence for your animal once you let them out. This will help you recollect them if you want to bring them back inside and also protecting them from the attack of stray dogs.
5. DO try to get the power berries sooner. You don't wannabe a weakling now and then. Refer to the 'Secrets' section to know where to find them.
6. DO give your favorite girl presents that they like, preferably everyday unless you're trying to get Karen or Ann. Karen likes Wine, and I doubt you love her that much so you waste your money for daily drunk. Ann likes home-made food and I doubt you love her that much so you ask Gotz to build you a kitchen although you don't have the money AND the lumber yet. But Elli and Popuri likes flower, and flowers are free (gee, I like that kind of girl ^_^). Mary likes weird plants like Herbs and (even) Poisonous Mushroom, and they are free too. I could guarantee that if you give your girl her favorite gifts everyday, she'll have red heart at you at the very first day of first year winter. Well, at least it does work on me. I gave Elli two flowers a day and that's what happened. And for Ann or Karen, you might want to give Spa Boiled Egg to Ann everyday or Truffles in Fall season to Karen. They both enjoyed that.
7. DO be good with the other villagers. There's no actual reason you should hate any of them, unless you're the jealousy one so that you keep on giving Kai food fiasco, or you're a clearly-sane-person-number-one so that you keep away from the psycho Rick.
8. DO have a stock of animal medicine once you get the animal. You will never know what for until your animal is sick and Poultry Farm or Yodel Ranch is closed. Once you realize it, you are too late.

NOTE: Actually I do have a trick to keep your chicken alive once it sick and you don't have the medicine. Read Version 1.1 of my Glitch FAQ in <www.gamefaqs.com>. Well, version 1.1 haven't been submitted yet but it will be soon ^_^'.

9. DO NOT neglect your farm for love business. You're a farmer, not Mr. Bond.
10. DO NOT depend on the help of the Harvest Sprites. They couldn't complete their work perfectly while you could, so avoid the Sprite unless for some special occasion like when you're going to marry or when a typhoon will be come tomorrow.
11. DO NOT waste your money for unneeded items like food from the inn or from Kai's Seaside Log. The reason is that they only let you

dine-in, so you can't bring them home. It's not needed anyway, they just restore your stamina and stay in Hot Spring for an hour also completely restore your stamina. Another unneeded items includes wine and grape juice unless you want to give it to someone.

12. DO NOT hesitate to go to the mine and get some ores especially at the very first time of the game since you will need lots of money sooner.
13. DO NOT forget to save often, unless you're not pretty satisfied with what you might have done. The reason is, the game has some random event that might appear anytime so if you haven't save the game and then you choose the wrong answer in some event, you will then regret it for sure.
14. DO NOT email me any question about anything in the game before reading the entire FAQ yet. The reason is, if I just wannabe an answerman, I won't bother to write down this whole FAQ. I would just put 'email me at <my email address> for any questions' line at the top of the FAQ and then submit it to CJayC. So please, I beg you please read the FAQ first to find what you want to ask. Previously I was still answering 99% of the emails that asked me about anything that was already here in this FAQ. But I guess, now when I was somewhat busier, I can't and I won't do that anymore. So please be understand. I'm also a human. Just like you, my dear readers ^_^.

iii	Harvest Moon: Back to Nature Basic Questions	19
-----	--	----

Q: What's the use of what button?

- A: Directional Pad :
- To move the character anywhere he was standing.
 - To push your livestock by holding it anywhere you want your livestock to go.
 - To choose between options.
- Start :
- It will trigger the status screen.
 - Pause mini game in festivals.
- Select :
- It will trigger the town map.
- Triangle :
- To view the content of your rucksack.
 - To bring up 'help' window when buying something in Supermarket / from Won.
- Circle :
- To cancel during options.
 - Hold it and press D-pad to run.
- X :
- To confirm during options.
 - To do barehanded basic actions like talk or pick.
- Square :
- To do tools basic action while equipping it.
 - To do tools special action by holding it down.
 - To eat the item in hand, if it is edible.
- R1 :
- Switch between tools inside your rucksack.
- R2 :
- Switch between items inside your rucksack.
- L1 :
- To whistle to your dog in order to call it.
- L2 :
- To whistle to your horse in order to call it.

Q: How do I sell things?

A: Throw them into the shipping bin or to your horse's saddlebag. The shipping bin can be found near your mailbox, inside chicken coop and inside the barn. At 5 AM, Zack will pick up things inside the bin and give you the money for it.

Q: I was talked to a girl and saw a heart icon in her text box. What's that?

A: It is kinda related with relationship. Or in other word, refer to that section. Sorry ^_^...

Q: How long did this game lasts?

A: This game lasts forever.

Q: Do you mean there will be no game over?

A: Well, although the game lasts forever, you still have time limit to make a good farm. If your farm isn't good enough, then you should leave. Or if you waste all of your money, you'll get kicked out of your farm too. Game over.

Q: Time limit? What time limit? And explain me about a good and qualified farm!

A: The time limit is 3 years. The qualification was determined from your farm's rate, which is showed in the upper right section of the Status Screen (press START). The rate appears in percentage, but the minimum requirement hasn't been confirmed yet. Some say 25% is enough, but nobody knows for sure (except for Natsume, maybe).

Q: Three years? How about after three years?

A: If you're qualified, then you can choose to leave or stay. And the 'stay' option gives you eternal life in your farm.

Q: So how do I increase my farm rate?

A: The already confirmed way is:

- Getting 1 heart for your dog, horse, wife and son. Each one gives you 1% addition. With maximum of 10 hearts each, it's 40% in total.
- Having cow(s) and sheep(s). Each of them gives 1% addition.

And these are the things that help increase your farm's rate, but the details and confirmation was still unknown yet:

- Upgrading all your tools to Mystrile.
- Shipping more than 100 for every farm produce (crops, milks, eggs).
- Upgrading your farm better or to the fullest.
- Catch the legendary fish(es).
- Finding power berry(es).
- Having 10 hearts for the Harvest Sprites.
- Having all or almost all of the recipes.
- Making a good relationships with any other villagers.

Q: Talking about increasing farm rate, can it be decreased too?

A: Why, of course. Here goes:

- Losing hearts for your dog, horse, wife and son decrease your farm rate. 1% per heart.
- Sell or let your animal die. Animal can die because of illness. See the number beside the 'Halo' icon in Status Screen to know how many animal has gone.

Q: How do I save my game? And how many blocks needed?

A: Face the book right beside the bed in the main character's house and press X. You should see three options there. 'Sleep without saving' means that you'll proceed to the next day without saving your game. The 2nd option will allow you to save. And the 3rd, it's animal exchange option. Please know that this is the only way to save your game, and once you save, you're proceeded automatically to the next day.

The saved data itself takes 4 blocks in your memory card.

Q: What's animal exchange?

A: It is a way to give or take animal(s) from different saved data. I.e., you have farm A with a cow named B. You have farm C too, with no cow. With this option, you can take cow B and bring it to farm C. Animal that could be exchanged are cow(s), sheep(s) and hen(s). Horse and dog can't be exchanged. And don't even think to exchange your wife!

Q: Why do I get overslept?

A: You're too tired the day before. If you feel that you're working a lot, try to have an hour in Hot Spring before you go to bed.

Q: Should I eat something in this game to prevent tiredness?

A: No. You can depend only on your breakfast. To prevent tiredness, you can go to Hot Spring and sit there for an hour to restore your energy back. But if you feel like to eat something, then it's OK. Eating something (healthy) helps to decrease tiredness too.

Q: My character's collapsed and suddenly appears in clinic and back in his house the next day. What's happened?

A: He's too tired. You forced him to work too hard. You should see the 'signal' before he get collapsed and be aware of that. Here it is:

- | | |
|-------------------------------|-----------------------------------|
| - Wipe face with handkerchief | - 50% of energy still remain. |
| - Bow down | - 30%-20% of energy still remain. |
| - Fell down by his butt | - 20%-10% of energy still remain. |
| - Fell down by his face | - less than 10% of energy remain. |
| - Loses balance, collapsed | - No energy remains. |

When he is fell down by his face, you should go to Hot Spring and take rest for 1 hour. Or eat something, even the Hot Spring is more preferable. Just stop your work or you may get collapsed. And collapsed will automatically bring you to the next day, which means working time loss.

Collapse can be happened by sickness too. Sickness caused by working in bad weather like rain or snow. It can be caused by less sleeping too. Or eating something bad and poisonous. The sickness 'signal' was same with tiredness 'signal', but don't get screwed up here.

For example, if your character fell down by his butt and then he wipe his face, you should be aware. There are two possibilities for this.

- 1) Your character might get pretty sick, but he still has 50% of his energy. Or,
- 2) Your character might has only 20%-10% energy, but his health is start to go worse too.

Both of them are possible, and there is nothing that shows you which one is going to happen. But you should know when you're working too much and compare it with the 'signal'. If you're working a little but you fell in your face, that means you're pretty ill.

Q: Hot Spring takes a lot of time, and I hate being sick too! So?

A: Buy a Bodigizer or Bodigizer XL and drink it to restore your energy. Buy a Turbojolt or Turbojolt XL and drink it to prevent sickness. Both of them can be bought from the doctor in the clinic. But, remember that 'buy' means 'money'.

Q: I'm still curious about energy thingies. Explain it!

A: At the very first, your energy is 100 hit points or percentage (even you cannot see it, but it is true). To increase it, eat power berry. One power berry gives you 10 more hit points. There are 10 power

berries, so the maximum energy you can have is 200.

Your energy decreases when you use your tools. Using a normal tool like Hoe or Sickle once takes 1 hit point or percentage. Using better tool abilities (like using Mystrile Hoe ability) takes more hit points. Using tools like brush and clipper does take hit point too. Fishing does takes hit points too. Everything you can use with Square button (it's 'use', not 'eat' or 'throw') takes energy. Spreading seeds also takes energy, because you use it with Square button.

However, using barehand don't take any energy. Which means, harvesting, picking up and bringing items will never makes you tired.

Q: Oh yeah, about harvesting. When will the delivery man takes my products, and should I stay at home to get the money?

A: The man named Zack. He came to your house every 5 PM, and no, you don't have to stay in the farm when he came. The money will be magically placed to your pocket even if you're in the hill's peak at the time.

Q: But if I shipped the crops after 5 PM, will the delivery man pay for it? I mean, in Harvest Moon SNES they don't pay late shipment. So?

A: Don't worry. Your crops will be accumulated with tomorrow's shipment and you will get the money tomorrow, altogether with tomorrow's shipment payment.

Q: Time is moving so fast! Help!

A: Yes, and you are not given any option to choose the game speed. But however, these are something you might want to know:

- Time stops when you're in a room. This include the mine, but exclude the Hot Spring.
- Time also stops during festivals (only in the event not in the entire day). You will find this useful like having some infinite time to fish at the sea before join the Swimming Festival etc.
- If you didn't sleep at all until 5.50 AM in the morning, suddenly you'll transferred back to your house at 6 AM. It can be more if you're too tired.
- To help you a lot, always use running walk mode. And ride your horse after you get the ability to do it. It helps if you want to go around in your farm. Too bad, your horse can't be ridden to other places.

iv	Characters and Places Questions	31
----	---------------------------------	----

Characters

Q: Who is Jack?

A: Nobody. Jack is the default name for previous Harvest Moon hero. In BTN, the character has no default name. It's only used for the sake of nostalgic memories, I think.

Q: Who is that girl in the beginning of the game?

A: No she isn't Karen although she does could sing. No she isn't Elli although she acts like her. No she isn't Mary since she didn't wear any glasses. No she isn't Popuri since their hair type was different. No she isn't Ann because if she is then the Ann we all know today should be looked somewhat older than the way she actually looked.

So who is she? Easy. She is anybody you choose to marry in the game. She could be every girl, because sooner or later after you marry a girl, she will then tell you that... (WHOOOPS! Spoilers!). Okay, I don't wanna spoil more so the point is that she isn't any default girl at all. Stop throwing away rumors about it.

Q: I think... I have seen people in Mineral Village before I play this game. Do you know where?

A: Of course. Everybody came back from the 64 version. Or maybe you've seen it from the CD case, a magazine or a site.

Q: Everybody?

A: Well, no. Kent, the red haired boy in 64 didn't appear in BTN. And Won, the Chinese merchant didn't appear in 64.

Q: Won? Won who?

A: He is the yellow-Chinese-dressed man that appears in your farm at the very first time. He sells some crop and flower seeds. Meet him in normal days (non festival) in the Bar/Inn (it's a same place if you don't know). Only from 1 PM to 3 PM.

Q: Won appears in front of my door and sells me weird things! They're expensive! Should I buy it?

A: You decide.

- Won sells you a Super Ultra Great Delicious Wonderful Apple in random time (usually Spring) for 500 G if I'm not wrong. It is just the same as the usual apple, but a TV show says that this apple was a favorite fruit of a TV star, because it tastes better.
- Won sells you a Blue Feather for 30000 G if you didn't buy Blue Feather from Supermarket. DON'T buy it because the Supermarket's are cheaper.
- Won sells you a dog ball after your dog has fully grown for a mere 100 G. It is used to train your dog for the Dog Race Festival. Sometimes Won will sells it again and again, and there's no way to refuse it. But sometimes he won't. It is random, I think.
- Won sells you a vase after you get your 2nd house upgrade. 5000 G. Vase is used to keep a flower into, and it says that it helps to decrease your tiredness. Buy it to decorate your house, since you can't buy it anywhere else.

Q: Who is that purple bandanna boy?

A: It is Kai. He only appear in Spring to Summer. He leaves the village in Fall. Lives in the beach, sells some food to you. A good swimmer. Most villagers hate him, especially Rick, because he's da ladies man. Jealousy factor, I think.

Q: Leaving the village? Who else will leave the village?

A: Cliff will leave (that boy who often goes to church and stays in the Inn). So does Popuri. But if you don't want to you can always make them stay by doing something for them.

Q: Something like what? How do I make them stay?

A: Cliff is going to come back to his town because he cannot find a job in Mineral Village. So, if someone appears in your door and gives you a job, go find Cliff and ask him to do the job too. That'll make him stay. But there is only a job Cliff can do. To give you some easy clue, this was happened in Fall season of first year. So after that go find Cliff and you're doing right if when you talk to Cliff, you have two options whether ask him to do the job or not. Remember, if he's gone, he will be gone forever.

However, Popuri won't be gone forever. After she married someone she loves, she'll go with him and only came back at Summer. By the habit, you should've know who the guy is. And in order to keep her stay, don't let him marry the guy. Or, in other word, go marry her.

Q: Everybody especially the girls seems to moved away from one place to another. What's the deal with that?

A: I think, in order to get close to reality, Natsume gave people their own schedule. You might find them in different place in different time. You should get used to it.

Q: How about Ellen? I remembered. Is she the one from the previous HM?

A: Maybe. Who knows? Well, she's really old now. Maybe yes, maybe no... <the voice of Faye Wong still echoes in my ears ^_^>

Q: Will Ellen die like in the 64?

A: It is not confirmed yet. Maybe not, but a rumor says that she died in year 23 or so.

Q: Will Lillia's husband came back?

A: It is not confirmed yet. Maybe not, but a rumor says that he came back in year 17.

Q: Will Aja, Duke's daughter, came back?

A: It is not confirmed yet. Maybe not, but a rumor says that she came back in year 4 if you didn't marry anyone, and then she marry you. The rumor has confirmed that it is NOT TRUE. Just for addition, Aja's name was appear in TV station, says that she became a F-1 racer somewhere.

Q: Will May's mother, or Barley's daughter, came back?

A: It is not confirmed yet. I don't want to start a new rumor too.

Q: Err, who is the Harvest Goddess?

A: She is the Goddess of Harvest... jk. Well, she didn't appear in the church like the previous HM series, but she does exist. She lives in the waterfall, but she won't meet you as easy as just visiting her. Give her anything you've grown in your farm. How to give? Well, throw it to the waterfall, right when you stand near the mine entrance.

Q: Hey, she didn't appear after I throw a turnip. Why?

A: Lots of possibilities.

- Maybe you're not in the right place. If you're doing right, the screen will be a little bit flashed and then she appears.
- Maybe the weather is not good. It seems like the Harvest Goddess went somewhere else to go on shelter during rainy or snowy day.
- Maybe it is a festival day. She leaves for some entertainment too, I guess.
- Maybe it is holiday. She went for a vacation, surely ^_^
- Maybe it is sleeping time. She need some rest too, especially in night.

Each one of anything above is enough to makes her not appear.

Q: But what's the purpose of meeting Harvest Goddess?

A: There are some purposes. Refer to 'Relationships' , 'Secrets' and 'Miscellaneous' sections. Hey, it looks they're there are plenty of them, huh?

Q: Is there any character who didn't live in the town?

A: Yes. The Gourmet Judge. Only appear in Cooking Festival. And some of the guy in the TV, if you'd like to include.

Q: OK. Who lives in the town?

A: Saibara, Gray, Duke & Manna, Basil, Anna, Mary, Ellen, Stu, Elli, Thomas, Kano, Harris, Sasha, Jeff, Karen, Doctor, Elli, Carter, Harvest Sprites, Ann, Doug, and Cliff.

Q: Very well. Who lives in the beach?

A: Zack, Kai (only in summer), and Greg.

Q: Nice. Who lives in the farm area?

A: Popuri, Lillia, Rick, Gotz, Louis, May, Barley.

Q: The last one. Who lives in the hill?

A: Foxes, rabbits, birds, some flying insects. Or in other word, nobody.

Places

Q: Where do I buy things?

A: In their related shop, of course. Refer to another section related.

Q: Why can't I enter some doors in people's house?

A: Because you're not their good friend. Refer to 'Relationship' section for more information. However, here are the location of locked door.

- Aja's winery, 2nd floor (2 locked doors).
- Mary's house, 2nd floor (1 locked door).
- Library, 2nd floor (1 locked door).
- Supermarket (1 locked door).
- Clinic, 2nd floor (2 locked doors).
- Inn (3 locked doors).
- Chicken Lil's / Poultry Farm, 2nd floor (1 locked door).

And one special is the door in church. You don't have to befriend the pastor if you want to come in. You just have to come at the right day. It is a confession box. Refer to 'Miscellaneous' section.

Q: I am allowed to enter a door, but sometimes I'm not. Why?

A: Well, everybody have his or her own schedule, and that includes the time when they open their house. Sometimes they haven't open yet, or maybe they already closed it. Places like Library, Winery, and Supermarket has their own schedule, so you may want to know when they'll open and when they're closed for the whole day. Read it in the wooden board thingies in front of their door. Or just ask the person in charge.
And when he's working on something, Saibara won't let you in until he finishes his work.

Q: How do I enter the house in the beach?

A: You cannot enter that house. Just another rumor.

Q: Where is the beach?

A: Go to Rose Square and go to the west way. You'll hear seagull's sound there. Hopefully you'll find the beach too.

Q: Where is the harvest sprites' house?

A: Go to Church. See that there are a little path in the right side of the Church? Follow it and you'll find the sprite's house. Refer to 'Harvest Sprites' section for details.

```

```

Q: Where is the mine?

A: Go to Hot Spring area and see a waterfall there. Go behind it, and walk to the opposite direction from the waterfall. There's a cave there, and the mine is in the cave.

```

=====| Mine |

v	Crops Questions	9
---	-----------------	---

Q: I spread some seeds but it didn't grow at all. What's wrong?

A: Well, you must water them all everyday too, until they're fully grown. They won't grow if you didn't water them. But if you're planting grass, you don't have to water it.

Q: How do I get green pepper, cabbage and pineapple seeds?

A: Buy it from Won. Refer to the 'Characters and Places' section above for details.

Q: How do I get flower seeds and orange cups?

A: Buy it from Won. Refer to the 'Characters and Places' section above for details.

Q: How do I get strawberry, pumpkin and spinach seeds?

A: They're secret crops. Strawberry can be planted in spring, pumpkin in summer and spinach in fall.

First, you must have shipped 100+ crops for each season. So, if you want to get strawberry, you must've shipped 100+ of turnips, 100+ of cucumbers, 100+ of potatoes and 100+ of cabbage. To see how many crops you've shipped, look at the Status Screen.

Second, one day after you finished the requirements above, check your mailbox and you should receive a letter from Supermarket, saying the secret crops is already available now. You can buy it from now on.

GLITCH WARNING! Sometimes, even if you have read the letter, the Supermarket still didn't sell it. The only conclusion is to wait until the next season or to build a hothouse to get it faster.

Q: How do I get Moon Drop flower seeds?

A: It is the only secret flower seed. First of all, you must be in good terms with Karen. One day, she'll appear in front of your door and gives you a pack of seed. It is the Moon Drop flower seed, and you might think that there's only one pack, right? Don't worry. Just plant it and let it bloom. After that, Won will start selling Moon Drop flower seeds too.

Q: Why can't my orangecups grow?

A: Well, it is a special crop that can only be grown in a Hothouse.

Q: What are the most profitable crops per season? And what is the most of all?

A: Spring: Cabbage, Summer: Pineapple, Fall: Sweet Potato.
And the most of all is still pineapple.

Q: My plants wither and the fruits get darker! What's happened?

A: Season changes, man. Crops can only grown in it's own season. There's nothing you can do about it, and you can't sell the wither fruit too. Just remove them all with your sickle.

Q: So, I can only plant pineapple in summer?

A: Well, no. If you have a Hothouse, you can grow any crops in any season including winter.

vi Livestock and Pets Questions 44
_____ _____ _____

Basic

Q: What is the use of animal's heart?

A: It shows happiness. Refer to 'Miscellaneous' section for details.

Q: I hate my animals! How do I make fun of it?

A: Well, since the answers can be really bad, just refer to 'Having Fun' section.

Q: I love animals! And I've found some cute squirrels, rabbits, foxes,

monkeys and Atlas Beetles! Isn't there any way for me to keep them as my pets?

A: Too bad, there's no way for it, dear. You can leave them at home but once you get out of your house they will be gone. But you can bring a rabbit if you feel lonely when you're trying to mine some precious ores. Isn't it nice to have somebody, uhm, something accompany you in such a dark, spooky place?

Q: Do I need to plant a lot of grasses first so that the ranch will sell me their cow and sheep?

A: No, today the rule has been changed. Now in Back to Nature you will still be able to have a cow or sheep even if you don't have any fodder in your stock. But however, do not neglect them after you get them. You still have to buy fodder from the ranch. You could plant grasses to get fodder but it is not that essential.

Hens

Q: Where do I buy hens?

A: In Chicken Lil's (Poultry Farm). It's a farm to the right side of your farm owned by Lillia. Don't forget to buy their feed too.

Q: What should I do with my hens?

A: You should feed it. That's it. And don't forget to cure them with medicine when they're sick. Medicine can be bought from Chicken Lil's too. Sick hen is not hard to find. They're not moving around, and in the Status Screen, they looks darker (brown).

Q: How do I use the medicine?

A: Stand close your animal, equip the medicine (it's tool not item) and press Square. Their color should be turns back to normal in the Status Screen.

Q: Oh yeah, how do I feed my hens?

A: First, you must buy some feed. Or throw a corn to the mill next to the chicken's coop to turn it into some chicken feed. Then, go in to your chicken's coop and stand in front of the red hanging-on-the-wall box. Press X to pick up a food and then move to the chicken's feed place. It is the 5 lined wooden square on the floor next to the wall. Put the food there, and that's it. You do not feed your hen by giving the feed to their face. That's not the way. To get the best result, you must feed them everyday. However, a chick does not need a food. Let them grow first before you feed them.

Q: Which one is cheaper, buying chicken feeds or turning a corn for 10 chicken feeds?

A: Let's see. Corn is sold 100 G each, and the chicken feed is 10 G. If you buy ten chicken feed, you will need $10 \times 10 \text{ G} = 100 \text{ G}$. If you use your corn, you will lost 100 G. But both of them gives you 10 feeds, so it was actually the same.

Q: What if I didn't feed them?

A: They may not became happy, thus decreasing the quality of their egg and they can be sick too sometimes. Hens won't lay eggs one day if you didn't feed them a day before.

GLITCH WARNING! Even if you feed them daily, sometimes they won't lay eggs too. Don't worry, it is rarely happened. Maybe they're just got

bored or something.

Q: What if I'm too lazy to feed them? Is there any other way?

A: Yes. Like Louis said, hens will be happier if they eat by themselves. Worms are nutritious for them. So, just let your chicken outside and you don't have to feed them. They will still lay eggs too, but then it will be spreaded randomly outside the chicken's coop.

Sounds cheaper, huh? But there are some lowdown. Here are:

- If you let them outside, they can be anywhere spreading in your huge farm the next day. You can have a hard time trying to find them. And add another hard time to collect their spreaded eggs.
- If the weather's bad (rain, snow), your chicken will became sad, losing a heart or so. They can be sick too.
- If the weather's more than bad (tornado, snowstorm), you may lost them forever. Blown away by the wind. Losing heart(s) are guaranteed to be happened.
- They may attract stray dog to come to your farm and attack them. Stray dog's attack means lose heart, a hardtime fight and a waste of time.

But here are some things that might help:

- Build a perfectly closed fence using your lumbers to protect your hens from stray dogs. And to prevent them to go anywhere, plus saving your time to collect eggs too. A double layered fence is preferable. Like this:

```

oooo
o o    <----- Simple fence. Single layered. Needed less lumbers.
oooo          Sometimes stray dog can still attack your hens.

ooooooooo    | o = Lumber | Keep animals inside the fence! |
ooooooooo    | _____ | _____ |
oo   oo
oo   oo <----- Saver fence. Double layered. Needed more lumbers.
ooooooooo    Stray dog won't be able to attack.
ooooooooo
Not enough lumbers? Try using small stones!

```

- Return your hen to their coop when the weather's bad and let them out again after everything's clear again.

Q: How do I get more hens?

A: Use the incubator. Just put an egg on it, and it'll hatch the next three day. Don't bother buying another hen.

Q: Which hen should I choose to enter the Chicken Sumo Festival?

A: The more heart they have will be better. But it is POSSIBLE to win with one or two hearted hen. But if they win, it looks like they won't give you golden egg until they reach 8 heart or more. Go to 'Festival' section for more details.

Q: How do I get golden egg?

A: Win the Chicken Festival.

Q: Where to buy?

A: Yodel Ranch.

Q: What to do with them?

A: Talk to them, brush them, and feed them. Cure when sick.

Q: How do I get sheep's wool?

A: First, go to Saibara (Blacksmith) and purchase a Clipper. Then, equip the Clipper and stand near your sheep. Just press Square. There goes the wool. Your sheep will be totally sheared now. It will produce another wool in the next 7 day.

Q: How do I get cow's milk?

A: First, go to Saibara (Blacksmith) and purchase a Milker. Then, equip the Milker and stand near your cow, but not in front of it. Just press square and there goes the milk. Your cow will be totally drained ^_^ . I mean, you can only get the milk once a day. But you can get it everyday. Only from an adult cow. It is very big, even bigger than you. That's the way to compare it with the young cow.

Q: How do I feed them?

A: First, you need fodder. Buy it from the ranch or plant grasses. If you plant grasses, it will be fully grown after about a month, and you can harvest it by using your sickle. Just cut it like you cut any other plants. Cutting a plot of grass will be automatically add 1 fodder in your barn.

Inside the barn, you can feed them just like you feed chickens. Put the fodder in their food box.

Outside the barn, you must have some grown up grasses and they'll be grazing there for the whole day. Build a fence for them for safety. Look at the ASCII picture of the fences in 'hens' sub section above.

Q: How do I get more sheep or cows?

A: Buy another one. You can use C.M. Potion (for cow) and S.M. Potion (for sheep) to make your animal pregnant. Both potion can be bought in Yodel Ranch. The requirement to be able to pregnant is that the animal is fully grown up and for the sheep, it wool cannot be sheared. During pregnancy, animal cannot be milked or sheared. There'll be a heart icon on the sheep or cow picture in Status Screen. After a long while, their offspring will be born.

However, it is advisable for you to just buy another one. Using potions takes too many time and money (because you can't get their milk or wool when they're pregnant).

Q: Did sheep and cow immune to bad weather?

A: No. Just like chicken, they can be sick too. But they'll not gonna be blown away by hurricane.

Q: Which sheep or cow should I choose to enter the Sheep / Cow Festival?

A: The one with ten hearts. Less than that will be guaranteed to lose the festival. Except if you wanna try your luck.

Q: How do I get golden milk?

A: Win the Cow Festival.

Q: How do I get golden wool?

A: Win the Sheep Festival.

| Horse |

Q: How do I get a horse?

A: It is a pony, actually. Early in the game, go to Yodel Ranch and choose to accept the pony during the event. It'll automatically be sent to your stable.

Q: How do I take care of it?

A: First of all, as soon as possible, as early as possible, buy the Brush from the Blacksmith. Then brush your pony everyday, talk to it everyday, whistle to it a least once a day. Let it outside in sunny day. Keep it inside the stable during bad weather. Oh, and you DON'T have to feed it.

Q: That #\$\$@*()!#@ Barley take my horse back in year 2! Why?!

A: It is because you don't took care of it in a good way. Or in simpler way, it has less than 8 hearts. If you do take care of it like mentioned in question above, you'll be doing just fine. Now it's too late... Hehehe, just kidding!

Q: Whaddya mean, kidding? Can I get my horse back?

A: Well, yes. All you have to do is to plant more than 20 plots of grasses at the same time. After they're fully grown, hope that Barley will came and give you another horse.

GLITCH WARNING! My trusted source in MB says that this trick can only be done in year 4. But it seems like it doesn't happened to anybody else, so the real truth is still blur. Maybe you should wait for two years to get a new horse, but let's just hope that this glitch won't happened to you. Poor him. Oh, and I haven't tried this trick, for I didn't lost my horse.

CONFIRMATION by Alva, the second horse could be obtained before year 4, so you don't really have to wait that long if you've lost your previous horse. So my trusted source is wrong after all, or maybe he was just out of luck ^_^.

Q: Can I ride my horse? When?

A: If Barley didn't take it back, it will be fully grown early in year two, with addition of saddlebag on it. You can ride it (only in your farm, though), and you can use its saddlebag as a shipping bin. You can now enter the Horse Race Festival, too.

| Dog |

Q: How do I take care of my puppy?

A: Pick it up everyday, whistle it everyday, let it out in good weather. You DON'T have to feed it too.

Q: How do I put it into its house?

A: You cannot do that. It's just a... decoration. A real lame one.

Q: Can it be grown? When?

A: Of course. in first year fall, it should be grow bigger and now has a cute ribbon on it.

Q: What's cool about having grown up dog?

A: You can enter the Dog Race, and you can mate it with someone's dog during an event and it can have its offspring. Sorry, no spoiler allowed. Find out the story by yourself.

Q: After taking back my horse, that #\$\$@*(!#@ Barley take my dog too! What's happened?

A: Quoting Arukaado in MB: "Don't worry your dog went for a date." It's an event related. Just follow the story and you'll be doing just fine.

Q: What's the use of Dogball?

A: Use it to train your dog in order to win the Dog Race. Just throw it near your dog and it'll try to catch it. Warning, throw it to a clear, wide area or you might lost it behind or under something. If you want to be safe, try the dogball duplication trick. No gameshark needed. All you have to do is just refer to 'Miscellaneous' section below and do what they told you to do... ^_^

Q: That #\$\$@*(!#@ Won keep selling me the dogball! I refuse it, but he still succeeded to sell me the ball. How do I stop him?

A: There's no real way because it is random. Come on, it's not that expensive. It's good to have a substitute dogball, right? You can keep it in your cabinet until you lose your previous dogball. Perhaps Natsume programmed Won to come again and again because they realizes that dogball could be lost easily behind or under something.

Fish

Q: How do I get them?

A: By fishing them out of the water of course.

Q: How do I breed them?

A: Put them in your fishing pond. Buy fish food in Supermarket and feed them once a day in order to get more fishes by breeding them. Note that your pond can only keep up to 99 fishes.

Q: I have fishes in my pond, I feed them, but they still have the same amount as before. Why is that?

A: Anything I know about breeding fish is like this.

- 1) Only large size fish can gives you more fishes.
- 2) Small and medium size fish should be grown to large size first before they can give you fishes. All you have to do is to feed them everyday and be patient. After a season or two they'll eventually became large.
- 3) After having 99 fishes, you will not get more fishes by breeding except you sell them.

Q: What if I didn't feed them? Will they die?

A: Nope. They just won't reproduce, that's all.

Q: What if I want to save my fish although I already have 99 fish in the pond?

A: Then save them up in your refrigerator (hope you already have it). Despite of what you might have think, the fish won't die in cold surroundings. You can always bring them back and throw them to the pond once you have lost your 99 fish.

Q: How do I pick up fish from my pond?

A: Just face the pond and press X repeatedly. You'll get a fish in your hand. Don't press it too fast, though, as you will just throw the fish back to the pond again.

Q: Where is the best place to get fish?

A: Actually, it depends.

- If you want to get lots of fish in a real quick time, go to Mother's Hill Lake and fish there. The downside is that you can only get medium or small size fish.
- If you want to get large fish, go to the beach. It is the one and only place to get large fish. The downside is that the beach is badly polluted with trashes and it may takes long time before you get one.
- Both of them mentioned above are somewhat far from your farm. If you're lazy, you can just fish in the small river in your farm.
- If you like to joke around and screw up everything, you can fish in the huge bowl in Harvest Festival. People won't get mad. You can do it after eating together with the villagers.

Q: When I was fishing at the beach, all I get are cans or old boots. How do I get fish from there?

A: See, if you get trashes you must throw them into the trash bin in the Rose Square. Or, the easier way is to throw them into your basket, if you're already have it. If you just throw them back to the ocean, you'll fish them back again and again. So the main rule is to clean the beach before getting big fishes.

vii	Tools and Items Questions	17
_____	_____	_____

Tools

Q: How do I get more space in my rucksack? Two spaces plus one in hand isn't nice!

A: You will have to buy Medium Rucksack in Supermarket for 3000 G and then get the Large Rucksack for 5000 G. The Medium has 4 spaces for items and 4 tools, while Large could hold 8 items and 8 tools. And more, if you think two spaces is bad, try to play HM SNES and you will just give anything for any kind of rucksack. Too bad you can't. And then you will see that 2 spaces is great. I mean it, try it ^_^.

Q: How do I change tool or items without seeing the content of the rucksack by using Triangle button?

A: Use R1 to switch between tools and use R2 to switch between items.

Q: How do I upgrade my tools?

A: Well, not every tool can be upgraded. The upgradable are:

Sickle, Hoe, Watering Can, Hammer and Axe.

Like an RPG, you need experiences to get level up. So, use your tools until it percentage increases. You can see it in Status Screen. You don't have to use it for the right purpose, though. You can just hammer your TV or water your chicken. It also gives experiences, BUT of course, using it for its original purpose gives more experiences.

Here are the levels:

- 100 % = Copper level = Pay 1000 G and a copper ore.
- 200 % = Silver level = Pay 2000 G and a silver ore.
- 300 % = Gold level = Pay 3000 G and a golden ore.

400 % = Mystrile level = Pay 5000 G and a Mystrile ore.

After you get the experience, go find the right ore depending on the level you want. Get it by mining, of course. After that, go to Blacksmith and bring the ore by your hand. Equip the tool you want to upgrade. Then talk to Saibara and choose to level up your tool. You must pay too, of course.

NOTE: You don't have to upgrade it one by one, level by level. You can just upgrade your normal tools directly to Mystrile level, if you have maximum experience, of course. It also more economical. I mean, if you go one by one, it means 1000 G plus 2000 G and so on, and so on. The total is 11000 G. If you go directly to Mystrile, all you have to pay is just 5000 G.

Q: Tell me what's the use of copper tools and silver tools etc etc!

A: Note that the ability listed appears if you use their maximum ability by holding down Square button to the max.

Hoe	- Tills one square of soil.
	C Tills 2x1 square of soil.
	S Tills 3x1 square of soil.
	G Tills 4x1 square of soil.
	M Tills 6x1 square of soil.
Hammer	- Break small stones, can't break large or rocks.
	C Break small stones, 3-hits for large, N/A for rocks.
	S Break small stones, 2-hits for large, 5-hits for rocks.
	G Break small stones, 1-hit for large, 3-hits for rocks.
	M Break small stones, 1-hit for large, 2-hit for rocks.
Watering	- Waters 1 tilled soil.
Can	C Waters 1x3 tilled soil.
	S Waters 2x3 tilled soil.
	G Waters 3x3 tilled soil.
	M Waters 3x5 tilled soil.
Sickle	- Cut off plants on 1 square of soil.
	C Cut off plants on 1x3 square of soil.
	S Cut off plants on 2x3 square of soil.
	G Cut off plants on 3x3 square of soil.
	M Cut off plants on 3x5 square of soil.
Ax	- Chop small branches.
	C Chop small branches, 6-hits for tree stumps.
	S Chop small branches, 3-hits for tree stumps.
	G Chop small branches, 2-hits for tree stumps.
	M Chop small branches, 1-hit for tree stumps.

Additional abilities:

Hoe	For mining, however you will only be able to till one square in mine although you use the mystrile ability.
Hammer	To break destroyed lumbers. Lumbers that you put outside for fences or anything will eventually destroyed by bad weathers or animals. Use hammer to get rid of it.
W. Can	No additional, but no matter what type it is, you will still have 100 space for water inside of your can and the use is still the same. So if you use the mystrile ability, you will waste 15 stock of water at one time.
Sickle	Use it to harvest your old (dark colored) grass. This will automatically add your fodder stock.
Ax	No additional, I can't think more about it.

Q: What's the tool sold by Saibara and what for?

A: Brush | You need it to brush your cow, sheep and horse. | 800 G
| Brushing them will make them happy thus increasing |
| their heart rate. Buy it as soon as possible |

Clipper | You need it to cut off the wool from your sheep. | 1800 G
Milker | You need it to get the milk from your cow. | 2000 G

Q: I was going to take back my tool from Saibara, but he won't give it to me. Why?

A: Your hand's full. Keep some of your tools in your home.

Q: How do I get fishing rod?

A: First, make sure it is Friday, Saturday or Sunday (in other word, weekend ^_^). At 7 AM - 9 AM, or 7 PM - 9 PM, go to the beach. You should see Greg out there. Just talk to him and answer 'yes' to get the rod. Make sure your hand is not full. Have an empty tool slot in your bag.

Q: How do I get fishing pole?

A: Have 50+ fishes in your pond. Greg should be come and gives you the pole. You DON'T have to catch 50 fishes. Breeding them is fine too.

Q: How many crops can I keep in my basket before shipping them?

A: 30 crops. For addition, throwing garbage or trashes won't count as a crops. Which means, by throwing 999 boots inside, your basket will still remains empty. This is good especially for fishing purpose.

Q: How do I ship the crops in my basket?

A: Face any of the shipping bin while holding the basket and press Square. If you're real close with the bin, it will shake a little just like when you throw something into it. For addition, pressing Square while far away from the shipping bin won't make the crops fell down. They will still be in the basket.

Q: Is there any use of basket instead of using it for keeping crops?

A: You can bring it to the mine and go mining and keep the ores you found inside it. So you can have 30 ores once you enter the mine.

Q: Help! I bought my basket to the mine and then I climbed the ladder up, without remembering to bring my basket too! Now I left it inside the mine. Did I lost it forever now?

A: No. Just go to the exact level of the mine where you left it and you'll find it.

Q: How do I get cheese maker and yarn maker instead of only mayonnaise maker? Saibara only offers me the Mayo one!

A: Well, you have to have it in order. After you have the Mayo, you'll get the next maker thingies and then the last one. See the list:

1. Mayonnaise Maker

20000 G plus Adamantite Ore.

Have 1st house upgrade and at the very least one chicken.

The job takes 5 day.

The use is by throwing an egg inside of it and it will become a mayonnaise, that sold higher. Different size of eggs results different size (and price) of mayonnaise. Yes, there is a golden mayonnaise.

2. Cheese Maker

20000 G plus Adamantite Ore.

Have barn upgrade, Mayonnaise Maker and at the very least one cow.

The job (also) takes 5 day.

The use is by throwing a milk inside of it and it will become a cheese, that sold higher. Different size of milk results different size (and price) of cheese. Yes, there is a golden cheese.

3. Yarn Maker.

20000 G plus Adamantite Ore.

Have barn upgrade, Mayonnaise and Cheese maker and at the very least one sheep.

The job (still) takes 5 day.

The use is by throwing a wool inside of it and it will become a yarn, that sold higher. Different size of wool results different size (and price) of yarn. Yes there is a golden yarn.

Items

Q: How do I get lumber?

A: You must break tree branches or stump to get lumbers.

Break a small branch using any type of ax will automatically add 1.

Break a tree stump using better ax will automatically add 6.

Remember tree stumps regenerates everyday so you don't have to worry.

Remember branches can't regenerate, but you can fish them sometimes.

Q: Where can I find truffles?

A: In Fall, go to the lake and keep moving up to the left side of it, or for easier explanation, to the opposite direction of the path to the peak. You'll see it, some kind of thin mushroom. That's the truffle. Don't forget the wild berries you will find on your way to the truffle too. Look at the map in 'Places' section for details.

Q: How do I get Spa-Boiled Egg?

A: As it is called, bring an egg to the Hot Spring and stand in the unfenced corned of the hot spring. Throw your egg there and for exchange you get a Spa-Boiled egg, which is sold higher than a regular egg but lower than a gold egg. So, don't throw your gold egg into it. And you can join the Cooking Festival with this Spa-Boiled, but of course, you won't win. But it is OK to do it in the first year because if you play normally you won't be able to cook anything when the festival day came.

```

          =====
          ===== /-----\====
          |           | \-----/====
          |           | |           |====

          |_____ X           \           \=

```

Q: Please tell me any kind of items you could forage anywhere in the game!

A: 1. Hot Spring Area

Spring : Blue Herb [1], Bamboo Shots [3]

Summer : Red Herb [1]

Fall : Green Herb [1], Mushroom [1]

Winter : Monkey.

2. Gotz Backyard

Spring : Moon Drop Flower [2], Blue Herb [1]

Summer : Pink Cat Flower [2], Red Herb [1]

Fall : Magic Red Flower [2], Green Herb [1], Mushroom [2],
Poisonous Mushroom [1]

Winter : Rabbits.

3. Lake Area

Spring : Squirrels.

Summer : Bugs.

- Fall : Mushroom [1], Wild Grapes [2], Truffle [1]
Winter : Foxes.
4. Left Side of the Path to the Peak of Mother's Hill
Spring : Moon Drop Flower [13], Toy Flower [2]
Summer : Pink Cat Flower [15]
Fall : Magic Red Flower [15]
Winter : Flower of Happiness (at the peak, after midnight. Wait until Ellen talk about it first before went there).

viii	Harvest Sprites Questions	7
------	---------------------------	---

Q: Why did they refuse to help me in spring?

A: Because they are going to held a tea party. But you still CAN ask them to help you. Talk to them five times and finally they'll 'surrender' and receive your order.

Q: What's their favorite gifts?

A: Flour. It works extremely well to increase their heart, especially in their birthday. Somehow, Bold didn't like flour that much, and I'm not pretty sure what's his favorite. However, flour isn't that bad for him too.

Q: Why did they work so bad? I hire all of them but I still have to water half of my farm all by myself! How to make them better?

A: First off, there are some basic things about the sprites:

1. The more hearts they have, they will work better. They might work for longer time too.
2. The more times they work in a specific job (like watering) they'll work better in that job (so they'll water more plants and work faster etc).
3. Each sprites has their own characteristic which somehow affects their work too. For example, a sprite is happy to do something related with water, which means, he might work better in watering plants. Read a book in Mary's Library for more info.

Q: If I ask them to take care of the animals, did they feed the hens too?

A: Yes. They did it after they finished to feed the sheep, cows, and shear or milk them. After that, they'll go to the chicken coop and feed the them. Not all, usually, except that they have extremely a lot of hearts and experience. Just like the fact that they never water all of the plants.

Q: Why did they call me 'budum'?

A: I don't know. But I think in Japan 'budum' means 'master' or something like that. But I'm not really sure about that and any correction will be gladly accepted and be credited. Or maybe it's because they're too lazy to address you by your name. I dunno. Why don't you ask them ^_^?

Q: Chef's talking about Kappa or something. What's this all about?

A: Refer to 'Secrets' section.

Q: Isn't there any reason for me to keep an eye to the Sprite? Maybe they will stole my crops or something!

A: No they will not stole your crops but you still have to keep an eye if you have a sheep that is prepared to join the Sheep Festival. You know, you might not shear your sheep because it will be Sheep Festi-

val soon. The sprite didn't know this, so they might shear it for you and there you get frustrated. This often happened to my friend and all that he do to prevent this is to push the sheep out of the barn and keep it inside a fence outside or (maybe) inside the stable.

ix	Mining Questions	10	

Q: How do I mine?

A: Easy. Just use your hoe in the mine. You'll eventually find an ore.

Q: But what's the purpose of mining?

A: In the waterfall mine, you will need the copper, silver, gold and Mystrile ore to upgrade your tools at Saibara. You will also find a power berry here by mining.

In the winter mine, you will need the orichalcum and adamantite to have any OO Makers and to make jewelry for girls, still at Saibara. There's also a power berry here.

And, you can sell any kind of ore and that would be pretty nice if you need some money at the time. Just throw it into your shipping bin.

Q: Isn't there any way to mine easier? I'm too lazy to come in and out of the mine just for eight mystrile. Isn't there any shipping bin inside the mine?

A: No. But you should buy a basket from Supermarket and bring it down to the mine. You will then be able to keep 30 ores in one shot.

Q: What's this thing that I automatically put into my rucksack?

A: It's some kinda money bag. It'll automatically add 10 G to your cash.

Q: Is the junk ores really junks. I mean, no purpose?

A: Yup. You can sell it, for 1 G each. Or giving it to someone you really don't like. Who wants junk?

Q: Which ore is the most worth to sell?

A: Adamantite and Orichalcum. They both sell for the same price. The worst are junk, then copper, silver, gold and Mystrile.

Q: How do you say that? How's the price anyway?

A: Junk : 1 G Gold : 25 G Orichalcum : 50 G
Copper : 15 G Mystrile : 30 G
Silver : 20 G Adamantite : 50 G

Q: Where do I find Adamantite and Orichalcum?

A: Winter Mine.

Q: About the last floor of winter mine. What's in it?

A: Well, you can't find any ores there. But you should see a hole in the wall. Just go there to find an underground pond. You can fish there, and refer to 'Secrets' section for more details and surprise.

Q: Did the mine's floor unlimited?

A: The waterfall mine, yes.
The winter mine, nope.

x	Fishing Questions	7	

Q: How do I get the tools to fish?

A: Refer to the 'Tools and Items' section. I'm too lazy to put it here too.

Q: How do I fish, then? Do I need some baits or lure or...?

A: No, all you need is your rod. Equip the rod, stand in front of the river, lake or sea and press Square. Hold the Square down while the bait is on the water, and wait. Wait until the bait vibrates (using Dual Shock Controller sure will help) and quickly release the Square button. You will catch any fish, trashes or branches. If you are late, you won't get anything.

Q: Where could I fish?

A: The beach, the lake, the river near your farm, the river next to the waterfall, the small water dam (or whatever it called) in Yodel Ranch, winter mine's pond and the pot during the Harvest Festival (honest!).

Q: The price of fishes!

A: Small: 100 G Medium: 200 G Large: 300 G Legendary: Nope.

Q: I catch a fish, or something, a strange one. Suddenly my character made some kind of print out of it and throw it back to the water again. What's this all about?

A: You've catch one of the legendary fishes. You can see the print on the Status Screen.

Q: So how many legendary fishes are there and when should I catch 'em?

A: Refer to the 'Secrets' section. And nope, it's not Pokemon, so you don't really have to catch 'em all.

Q: Do you realize that this section didn't give much information except 'refer here and there'?

A: Yup. I certainly do.

xi	Getting More Money Questions	1
_____	_____	_____

Q: How do I get more money?

A: - Plant best crops. Cucumbers in Spring, Pineapple in Summer, Sweet Potatoes in Fall.
- Go mining everyday.
- Go foraging. Even a truffle worth 500 G to sell,
- Buy more livestock.
- Be patient.

xii	Relationship Questions	8
_____	_____	_____

Q: How could I have better relationships if I don't know what to do?

A: Well, first you have to know that better relationships in term of Harvest Moon means favorite items and correct answers. That means, if you wanna be a friend of somebody, give him/her any item he/she likes, frequently, and answer the question from him/her correctly, if he/she happens to ask you some. If you want to give something, just stand right in front of the person (no space in-between allowed) and hold the item you want to give and press X.

Q: So why on earth did the villagers refuse my gift after I talked to him/her?

A: Do you mean after you talk to the villagers, the gift is still in your hand? Well, it is because you're in some special event like festivals or other happenings. People don't accept gifts during that kind of occasions.

Q: I was talked to a girl and saw a heart icon in her text box. What's that?

A: A girl with heart icon means that you can marry her. The icon color shows how is her feeling towards you. The heart color list are:

Black - Purple - Blue - Green - Yellow - Orange - Red
Black being the worst and Red being the most. The closer their heart color to Red means that the girl was like you more. ONLY girl with Red heart icon can be married.

Q: How do I get better heart icon?

A: 1. Give the girl present(s) she likes.
2. Join and participate the festivals.
3. Trigger some event, and (if any) choose the best answer.

Q: Did the locked doors have something to do with my relationship with the owner of the house?

A: Yes. You must be in a really good terms with all of the house member.

Q: Did Harvest Goddess have something to do with relationship?

A: Yes. If you give her 10 crops, you'll have an event with the girl with most heart at you and it will slightly gives you better relationship with her. If you give her 20 crops, there'll be an event with Gotz and you'll have better relationships with her. Refer to 'Secrets' section for details.

Q: No matter how many reasons you could deliver, this FAQ will be cursed if you don't list up the girls favorite gifts!*

A: Fine, fine... ^_^' I'll try.

Elli

Best : (any) Flowers, orangecups, bracelet, earrings, necklace
Better : Milk, fishes, home-made food
Neutral : Any kind of crops other than orangecups
Worse : Poisonous Mushroom, Ores
Worst : I'm not sure. Weeds, chicken feeds and fodder?

Mary

Best : (any) Herbs, (any) Mushrooms, Truffles
Better : I'm not sure. Flowers?
Neutral : I'm not sure. Crops?
Worse : I'm not sure. Wine?
Worst : I'm not sure. Weeds, chicken feeds and fodder?

Popuri

Best : Pink Cat Flower, made-by-egg food
Better : I'm not sure. Flowers?
Neutral : I'm not sure. Crops?
Worse : I'm not sure. Wine?
Worst : I'm not sure. Weeds, chicken feeds, and fodder?

Ann

Best : Spa Boiled Eggs, bracelet, earrings, necklace, home-made

food

Better : Egg, strawberry, Wild Grapes, Pineapples, milk, apple

Neutral : Flowers

Worse : Green and Blue Herbs, Fish

Worst : Red Herbs, Ores, weeds, chicken feeds, and fodder.

Karen

Best : Wine, Pizza, PopCorn, Sashimi, Truffles, Chocolate Cookies

Better : Flowers, Egg, Corn

Neutral : Crops, food fiasco (really!)

Worse : Apple, cookies, herbs

Worst : Ice Cream, (any) cake, ores, weeds, chicken... well, you know the rest ^_^.

*: Note that this is not a threat sent by anyone to me. This is just my own imaginary question, like many other questions. So you don't really have to feel sorry for me, receiving such a question ^_^.

Q: List all of the Birthday of the people so that we could know the best time to give presents!

A: ... okay. Okay.

Spring

2nd : Louis

20th : Mary

22nd : Nappy

26th : May

Q: What do I need in order to marry a girl?

A: 1. Make sure she has red heart. An orange heart is almost similar with red, so you might want to watch them clearly.
2. Have your 2nd house extension, which gives you a larger room with two beds.
3. Buy the Blue Feather from the Supermarket or Won (if you have 30000 G to spare, that is). Just buy it from Supermarket. If one of the girls have ORANGE heart on you, then check the mailbox next to your house to get the Supermarket's letter about the Blue Feather.
After you buy it, then show to your red-heart girl and a marriage

will be held in the church one week from that day. Remember, to the RED heart, not ORANGE. Since it is highly possible that your girl is still in ORANGE at the time when you buy the Blue Feather, you might have to save that for a little while.

Q: How do I know my marriage day?

A: After proposing the girl using the blue feather, check your calendar. You should see a red-heart scribble there. That's the marriage date.

Q: What should I do in my marriage day?

A: Nothing, it is automatically happened. But you lose one day because of it, so you should ask the harvest sprites one day before to take care of your whole farm. That's why it is better to have a marriage in winter, since there will be less work that the Harvest Sprites should do.

Q: Did my wife do something after our marriage? Like help me farming or something?

A: Nope. She stays at home all day long, walking around like mindless robots. I know, that sucks.

Q: Talking about sucks, what's the downside of a marriage?

A: 1. Well, you must take care of a wife from that time.
2. You will NOT receive any chocolate from girls in Winter Thanksgiving anymore. Thus, you won't have it forever if you didn't have them before you get married. You only get a choco-cake from your wife.
3. You can NOT go with other girl except your wife in Spring Goddess Festival.

Q: So then, is there any possibility of divorce?

A: No.

Q: Did other couples like Karen and Rick get married too?

A: Yup. They will naturally get married in year 4, but you can get it faster if you became a really great friend of them both.

Q: How do I get my baby?

A: First off, get rid of those thinking inside your head ^_^
After that, just to let you know that it is random. If you're in good term with your wife (i.e. give her presents every single day), then she will be pregnant after about a month from your marriage. And all you have to do is just wait. If your wife get pregnant, go to the clinic to know further story.

Q: But if I sleep here in my bed and my wife sleeps there in her bed, how could we have a baby?

A: Don't. Ask. Such. A. Question.

Q: Can my baby pass his crawling stage?

A: Nope, I don't think so. That will be the final ability of your baby. But who knows, maybe in year 678 he will start to walk. Somebody had emailed me (I'm sorry the data of your name was deleted and I don't have the time to dive into my mailbox to check your mail again. Sorry --, please email me again so that I could list your name here), he/she said that the baby actually pass the crawling stage and starts to walk. His/her wife in the game also said that finally their baby starts to walk. But I guess it was just a simple difference of the wife's speech, because the fact that I know and I believe is that the baby won't be able to walk perfectly. I don't

know then.

Q: Can my baby eventually grown up and help me in my farm?

A: Come to think about it. If he's not even be able to pass his crawling stage, how will he help you in your farm?

Q: My baby get sick. What should I do, take him to clinic or stay in house?

A: The clinic. You're a farmer, not a doctor.

Q: Can I get twins?

A: Nope. Just another rumor made by klttykatz. If... you know her, of course.

Q: Can my baby dies?*

A: Nope.

*: This is actually my own question. It's kinda funny and nostalgic to add this, so please understand ^_^

xiv	Festivals and Events Questions	13
-----	--------------------------------	----

Q: Mention the Festivals available so I won't miss any!

A: Spring

1st	New Year Festival	6 PM	Rose Square or Inn
8th	Spring Goddess Festival	10 AM (?)	Rose Square
14th	Spring Thanksgiving Day	anytime	anywhere
22nd	Cooking Festival	10 AM (?)	Rose Square

Summer

1st	Swimming Festival	before 5 PM	Beach
7th	Chicken Festival	before 5 PM	Rose Square
12th	Tomato Festival	10 AM (?)	Rose Square
20th	Cow Festival	before 5 PM	Yodel Ranch

Fall

3rd	Music Festival	about 6 PM	Church
8th	Harvest Festival	before 5 PM	Rose Square
13th	Moon Viewing (?)	6 PM	Peak of Mother's Hill
21st	Sheep Festival	before 5 PM	Yodel Ranch

Winter

10th	Dog Race Festival	before 5 PM	Rose Square
14th	Winter Thanksgiving	6 AM - 6 PM	In front of your door
25th	Star Night Festival	6 PM	Your girl's house
30th	New Year Eve	12 PM	Peak of Mother's Hill

NOTE: (?) indicates that I'm not sure about the exact time.

Q: What am I supposed to do in Spring and Winter Thanksgiving?

A: In Spring, actually you have to bake some cookies and give them to the girl you like. Usually you won't be able to do this in your first year because you don't have the kitchen yet. Unless you either over-worked yourself or sharked your game.

In Winter, all you have to do is to wait in front of your door until

the girls come and give you chocolate or cake. Girl with purple heart will give you chocolate [EXTRA RARE! This is your only chance of getting chocolates!] and girl with blue or better heart will give you chocolate cake [Eat this soon or throw them down anywhere. This isn't as good as it sounds since you can make them all by yourself].

Q: How do I win Swimming Festival? That Kai...

A: First, make sure you have full stamina before entering it. If you take care of your farm before you join it, make sure you take a rest in the Hot Spring first. If you're too tired, you might start the race having a blue face!

After that, start the race. First off, just press X repeatedly until you get yellow face like this (-_-). After that, take a breath (hold Triangle) until you get full stamina again. Yes, you will be the last, but don't worry. Right after you get full again, quickly press X like crazy and you will eventually chase Kai, he will stop for a while and then you win. Myself have tested this trick and it works. Another way is to press X and Triangle alternately, but I haven't tried it yet, hence do it at your own risk.

Q: Tomorrow is Winter Thanksgiving Festival but I watch the TV and a snowstorm is going to be happened tomorrow! What's wrong and what should I do?

A: Yes, a snowstorm can happen in Winter Thanksgiving. All you can do is nothing but wait until next year. And ask the sprites to take care of your animals tomorrow. I'm sorry for you.

Q: What's the deal with Winter Thanksgiving anyway?

A: Girls with Purple or Blue heart towards you will gives you a chocolate, and girls with more than Blue heart gives you chocolate cake. The chocolate, is actually more important because you can't get it anywhere else. The girl has their own hour to gives you their gift, but I can't remember them correctly. All I remember is that Popuri gives you present at 6 AM, then the other at 8 AM and the other came after an interval of 2 or 3 hours. So you should stay in your farm to meet the girl and receive their present.

Q: What should I bring to the Harvest Festival?

A: Green Peppers work the best, or try Truffles (even though they are precious and you better sell it for 500 G) but don't add honey, sweet potato, apple, boots, chicken or your dog.

Q: What is the purpose of winning Chicken, Cow or Sheep Festival?

A: To make the winning livestock produce golden things of course. Golden eggs, wool or milk sells higher. And after your animal win the festival, don't let it join again the next year and choose another animal, so you can get more gold-producing animal.

Q: At the very first day when Harris look for strange looking man, which is Won, what should I do?

A: First, go to Rose Square, then Gotz house. Some say that you should go to Aja Winery after that, but I haven't tried it yet.

Q: I was supposed to find May during an event. Where is she?

A: She is at the beach after 6 PM. She will be nowhere before 6 PM, so use your time for something else first.

Q: In fall, Duke came to my house and asked me to help him harvesting his grapes. What should I do?

A: Accept it, then go find Cliff and ask him to help too. It will help

prevent him to leave the village. Actually, it is the only way to prevent him from leaving the village. After that, you don't really have to do the job because Cliff has take care of it. However, doing this gives you some extra money too. And takes extra time too. This job will be ended at 6 PM.

Q: Gotz told me not to go to the hill because a storm can be happened. Should I still go there or what?

A: If you want the story goes deeper, then go ahead, right after he forbid you. Don't worry, it can do no harm, plus you'll get a slight background story about Gotz.

Q: Popuri gave me an egg. What should I do?

A: Hatch it. After it hatched, name it Popuri and one day Popuri (the person not the chick) will appear in front of your door and she seems really happy. So you increase your relationship with her. You can name it other than Popuri, but it seems like Popuri the real person will be less happy. And she says something different whether you name the chick Popuri or not. There will be an additional quote like, "What? You named it Popuri?"

Q: In winter, that old lady Ellen keep talking about the Flower of Happiness. Where can I find it?

A: Go to the peak of Mother's Hill in winter at midnight. You'll find it and suddenly awakens in your house the next day. Then talk to Ellen to make her happy. You can talk to Basil too to make him like you more.

xv	Farm's Extensions Questions	5
_____	_____	_____

Q: Who should I ask to upgrade my farm and what did I need to do so?

A: Talk to Gotz. You will need some money (obviously) and bunch of lumbers.

Q: How many extension are there?

A: (In Gotz's offering order)

Name	Lumber	Gold	Addition
1 Chicken Coop	420	5000	5 more hens space
2 1st House Extension	370	4700	Kitchen, icebox, cabinet
3 Barn	500	6800	5 more livestock space
4 2nd House Extension	750	10000	Bedroom
5 Hothouse	580	30000	7x7 plantable field

So the answer is FIVE ^_^

Every extension can only be done once, except the Hothouse that is destroyable by tornado or snowstorm. If it happens, you can build another one. However, you can only have one at the same time.

Q: Why did Gotz only gives me a Chicken Coop option? How do I get the other?

A: The extension can only be done one by one. So you must get the Chicken first before you get the next extension. Look the table above for the actual list of order.

Q: How many day did Gotz need to complete an extension?

A: Three days, and luckily, he still works in festival days.

Q: Isn't Gotz's work dangerous? I mean...

A: Yes, keep your animal away from his work or else they might get stuck once the work is finished.

xvi	Cooking Questions	8
-----	-------------------	---

Q: Is it true that there are 80 recipes?

A: I don't think so. Yes, there are 80 recipe slots, but there are only 64 recipes possible or so. The rest will remain empty.

Q: How do I get recipes?

A: You get them by cooking it. But if you ask how to know the recipes, you can try to watch the Delicious Hour channel in Tuesday, give some presents to some villagers until they gives you recipes, or try by yourself using your intuition. However, if you watch the TV or get the recipe from a villager, you must write them on a paper or something so you wouldn't forget it.

Q: What is the indicator of the amount of recipes I've got?

A: See the blue book thing in Status Screen and watch the number beside it. That's the amount of recipe you HAVE cook.

Q: How do I get cooking utensils?

A: After you have a kitchen, watch your TV on Saturday and find the TV Shopping channel. Watch the entire show and then go to the Inn. Use the telephone there, which is near the place where you order foods, and you need 10 G to use the phone. After that, you can decide to buy or not.

Q: How many utensils are there?

A: (In order of TV Shopping)

Name	Price	All-Round Explanation
Kitchen Knife	3000G	After buying them, you won't get them
Frying Pan	2500G	at the time. Zack will deliver it in
Cooking Pot	3000G	Thursday or sometimes in Friday for
Mixer	2000G	some unknown reason.
Whisk	2000G	If you want to cook, all you have to do
Rolling Pin	2000G	is just face one of the utensils you
Oven	5000G	have and press X. The next step is to
Seasoning Set	5000G	choose the utensils and ingredients.
Power Berry	5000G	And Power Berry is NOT a utensil -_^

Q: How do I get sugar, salt and other seasonings?

A: Note that you don't buy them from supermarket or any place. See the Seasoning Set up there in TV Shopping list? Right, you will just have to buy it in order to have sugar and salt and any other seasonings in one pack.

Q: Can you tell me all of the recipes?

A: Nope. I'm sorry, my laziness again... Furthermore, it is too big to add here. Search in any other FAQ, there are already two Recipe FAQ in GameFAQs, both of them are nice, so you might want to check them both. I'm sorry for people who had emailed me to ask for a Recipe FAQ made by me. It would be silly if I send my FAQ when there are already two FAQ out there about Recipes, right?

Q: Okay, so you're lazy. But would you mind telling us what recipes are

given by villagers so we can start to collect it?

A: Okay. But first, despite of what might have been told in some other faqs, you don't really have to give certain items to get the recipe. You could just give the person anything (not that grass, of course!) that he/she likes and sooner or later she'll tell you the recipe.

Louis : Apple Jam	Doctor : Mixed Juice
Doug : Cheese Fondue	Kai : Popcorn
Sasha : Chocolate Cookies	Chef : Roasted Potatoes
Harris : Fried Rice	Ellen : Sandwich
Manna : Ohitashi Greens	Lillia : Scrambled Eggs
Barley : Ice Cream	Carter : Strawberry Milk
Gotz : Veggie Pancake	Saibara : Pickled Turnips

I can't think of more so if I've missed something please tell me.

xviii	Secrets Questions	8
-------	-------------------	---

Q: Where are all the secret power berries?

A: (In no order at all)

Place	How to get
Mine	Just dig. Sooner or later you'll get it.
Winter Mine	Just dig. Sooner or later you'll get it too.
Behind Winter Mine	Walk behind the small island and press X repeatedly. Nope, you can not see it but it is there.
Harvest Goddess	She is in the waterfall. Throw 5 crops in one nice non-festival day (you can do it one by one or day by day, whatever. It is accumulated).
Fishing	You'll eventually get one. I get it from the ocean.
Horse Race	Exchange 1001 Medals for a power berry.
Swimming Festival	Win it for the first time.
The Cedar Tree	Find the big cedar tree in the Mother's Hill. Use your ax to cut it, then an option will appear, whether you want to cut it or not. Choose No. And don't you ever choose Yes.
Anna	Plant 90+ batch/square of flowers and make them bloom together. She will eventually appear in the afternoon, ask to pick them all and she gives you a berry for exchange. If she didn't appear, try to get in and out of your house in the afternoon.
TV Shopping	Buy it for 5000 G.

Q: Is there another berry?

A: Yes. It is a secret-mystic-whatever berry given by Kappa.

Bring 3 cucumbers and go to Mother Hill's Lake at noon, about 12 to 1 PM. Go to the left side and find two trees near the lake. Stand below the trees, face east and throw your cucumber. If you're doing right, Kappa will appear. After that, throw another cucumbers and he will give you a special berry, which double your health against bad weather. See the awful ASCII art for some clue.

```

          / \ _____ | | |
T = The double tree / _____ \ ___| |___| ----> East
T = The double tree | / \ \ \ \ \ \ \ \ \ \ \ | - |
                    | \ \ \ \ \ \ \ \ \ \ \ \ | - |
                    | \ \ \ \ \ \ \ \ \ \ \ \ | - | <----- Bridge

```

```

+----->T |           _-|_|_
+----->T S\   X Lake   | | | |
                \_____ | | |
                  S \_____ | |
S = Where you should stand =====| |===
X = Where the Kappa is _____/ |===
                /   Path to the Peak   |===
                | _____/=====
                | |=====
                \ \=====

```

Q: How do I get honey?

A: Plant any kind of flowers and the bee will come. After they make their beehives (which will automatically appear) then you can have a bottle of honey everyday by standing in front of the apple tree and press X.

Q: How do I get better-honey?

A: Give a honey to Louis, the researcher live in Gotz house. It'll make the honey worth... 10 G more -_-.

Q: What is the legendary fish and how to get them?

A: The legendary fish are not the ordinary fish that you can catch. Once you catch it, you make a body-print of it and then release it back. Then you have its body-print in your Status screen. There are no purpose of getting it except for the completeness of the game.

Name	How to get
Catfish	Go to the last floor of winter mine and find the pond there. Keep fishing there until you get it.
Angler	Fish in the Ocean at wintertime. Recommended time is from 10 PM to 8 AM.
Squid	Throw a small fish to the ocean in summer and then keep fishing until you get it. A small fish lasts for one day, so if you can not get it right at the day, you must throw another fish in the next day.
Char	Have the Sushi, Sashimi and Grilled Fish recipe. After that, fish it at the waterfall or river next to your farm. And no you don't have to throw the food into the water to catch Char.
Sea Bream	Sell 200+ fish, and catch it in spring, summer or fall in the ocean. Warning, it is kinda tricky because there are no sign that shows how many fish you've sold, so you must count them manually by yourself.
Carp	After you get all of the other legend, catch it in the lake in spring, summer or fall.

Q: How do I get Relaxation Tea Leaves?

A: First off, you must have a good relationship with the harvest sprites, or to say it easily, make sure they have many hearts on you, about 7 or more. Make sure you have the biggest rucksack too. Then wait until it is spring season. After that, buy 7 flour from the supermarket and go to the Harvest Sprites House at 2 PM to 4 PM. Give each sprite one flour and they'll invite you to a tea party when you're trying to leave, and you will get a Relaxation Tea Leaves. This thing is special because:

- 1) You will 100%-ly win the Cooking Festival using the recipe of

Relaxation Tea.

2) You cannot get another leaves until you use the one that you have.

Q: How do I get Perfume?

A: After a hurricane in summer, go to the beach and an event will be happen. Choose to give the bottle you found to Kai and he'll give you the Perfume. This thing is special because:

- 1) It greatly boost relationships with a girl if you give it to her.
- 2) You cannot give it to people like Harris, Rick etc. Only girls, I think.
- 3) You can only have one, I think.

Q: Is there any non-GameShark cheat?

A: Yup. First, prepare two memory cards. Make a quite good farm with some animals in it (or you can just copy your friend's data) and save in Memory Card 1. Make a new farm and save it in other memory card (lets say it is Memory Card 2). After that, put both memory card in their slots and play the new farm you've made. Go to your diary book and choose exchange animals option. Pick up all the animals from Memory Card 1 and put them in Memory Card 2. So now your new farm has lotsa animals. You can sell them for money.

After that, delete the file in Memory Card 1 and copy the file from Memory Card 2 to Memory Card 1. You can do the exchange again, sell animals again, delete-and-copy again, exchange again, and the cycle goes infinite. Which means you can get maximum money by doing that, but of course it will take some time and patience.

xviii Rumors Questions	6
_____	_____

Q: How do I get a camera and photo album?

A: Play the 64 or GB version of Harvest Moon. There're no camera in BTN.

Q: How do I get my picture?

A: Win the Horse Race to get a picture of you and your horse. It is placed on the cabinet in your house. It is not a rumor.

Q: Who is the rumored character?

A: Lillia's husband, Aja (Duke's daughter), May's mother. They will never be appear right in front of you.

Q: Will Ellen die?

A: Yes, in Nintendo 64 version. I think she wouldn't in this game.

Q: Can another married couple like Cliff and Ann have a baby?

A: Actually this is still a mystery. Me and my friend have e-mailed Natsume and Natsume replies that 'yes, they can have a baby'. Someone in MB also state that it happened in his/her game. But then my friend e-mailed Natsume again and Natsume replies that there is a mistake in reading the previous e-mail. After that, Natsume states that 'No, another couple in Back to Nature can not have a baby'.

Knowing that this rumor is highly possible to be NOT true, I still can say it for 100% because the person that says it happened in his/her game disappeared and I think he/she is the only one who can prove the truth of this rumor.

And finally, Alva has stated the final confirmation! The truth is that another couple can NOT have a baby. The actual fact is that the

person from Natsume who had reply our e-mail was the person-in-charge to answer questions about Harvest Moon 64, not Back to Nature. Yes, in Nintendo 64 the other couple can have a baby. But no, there's no other baby than yours in Back to Nature. Again, thanks to Alva for the information.

Q: Can I get twin baby?

A: Nope, it's a rumor and that's why it's included here.

xix	Having Fun Questions	2

Q: OK, I'm here. So how do I make fun of my animal?

A: Calm down. You're really mean, do you know that?

First, please do it just for fun. Don't save your game after doing this, except you're pretty bored of this game and wanna try something interesting. But however, if you wanna know, here are some:

1. 'Use' your farming tools on your animals. Hear the really funny sound of them. Decrease their hearts and happiness.
2. Let the stray dog attack your animals. Decrease their hearts and happiness too.
3. Bring your hen or dog to Harvest Festival. Dog soup, anyone? However, it does NOT kill your dog. The next day, you can find it in Rose Square. And it does NOT decrease hearts too.
4. Go to the deepest level of winter mine, put your dog there and leave it. If you're lucky, you'll have a pleasant seasons with no dog at all. If you're not, then it'll be back in your house the next day.
5. Fight the stray dog. It's fun! Hit it! Hit it!
6. You're still here? Meany!

Q: Uhm, can I, make fun of...my wife?

A: What? Well, yes you can, but what's wrong with you?

1. Keep giving her lumbers or weeds or fodder or anything she hate. After she loses all her hearts toward you, she'll leave your house. Go to her family's house to make him back to your house. When she came back, she will have only 5 hearts or so.
2. In Spring Goddess Festival, don't go to the Festival. Keep on working and see whether your wife will start to make some divorce reason list or something like that... ^_^
3. Lemme tell ya. Never make fun women in real life, okay?

xx	Miscellaneous Questions	6

Q: How do I duplicate dogball?

A: It is a little nice trick to get another free dogball. First bring your dogball in your hand and stand in front of a wall. Let your dog stand behind you. Throw the dogball and after it bounce make sure it falls between you and your dog. Quickly turn around and pick the ball right when your dog pick it two. Now you have a dogball in your hand, and another dogball in your dog's mouth! You can do it as much as you want.

Q: I found a lot of heart thingies in this game. Explain it!

A: Horse:

1. it must have at least 8 (some people said 7) hearts in the end of your 1st year, because if it's less than that Barley will take it back. But if it's taken, there's a way to have another horse.

Refer to 'Horse' sub-section in 'Pets and Livestock' section.

2. Each heart from your horse gives 1% addition in your farm rate.

Dog:

1. I think if your dog has lots of heart, it'll be easier for you to win the dog festival.
2. Each heart from your dog gives 1% addition in your farm rate, too.

Chicken:

1. The heart will affect the quality of the egg (normal, good, excellent and maybe there's more). I don't think the quality of the egg affects its price. It only affects the size of mayonnaise (if you make it with the egg) and maybe quality of some meal (if you're using the egg to make something and join the Cooking Festival).

Sheep:

1. The heart also affects the size of the wool and also the yarn (if you have the maker, of course). And the size do affect the price. Actually, I don't have a sheep yet (too lazy to take care), so I can't explain it more. sorry...
2. Make sure it has 10 hearts if you wanna win the Sheep Festival.

Cow:

1. The heart also affect the size of the milk (and cheese). The size does affect the price.
2. Make sure it has 10 hearts if you wanna win the Cow Festival.

Wife:

1. Each heart from your wife gives you 1% addition in your farm rate.
2. If she has 0 heart and you give her bad things, she'll leave you.

Baby:

1. Each heart from your baby gives you 1% addition in your farm rate.

Q: What is the blue-book thing in Status Screen?

A: It shows how many recipes that you have cook.

Q: What's inside the locked door in the church?

A: It is a confessional box. You can get in it Monday and Wednesday from 1 PM to 3.50 PM. Afterwards, just choose what to confess. Most of the time the Goddess will forgive you, but if she's not, you can try give her lots of thing (by throwing crops to her waterfall) and perhaps she'll finally forgive you. Lots of people was unforgiven for many times, but actually it has nothing to do with the game. It doesn't have any effect at all.

Q: Do you realize that the third confession options are kinda funny?

A: Yep. People in Message Board had listed the funny confession long time ago and here are some that I remember. Note that they are not completely correct, it might just "sounds" like that.

1. Giving the livestock some silly name.
2. Having too much money <appeared while the player had almost no money at all ^_^>
3. Whoops, wrong door.
4. <Can't remember more, see how rusty my brain is? ^_^>

Okay, remember that the lines will just jumped out randomly for no reason. If some of you had a nice list of the joke do not hesitate to send them in.

Q: What do the TV broadcasts everyday?

A: Daily

Weather Forecast [Press Up]

Weather Forecast is one of the most important part of your farm life. They are unbelievably 100 percently accurate and you should be prepared for the weather tomorrow since it surely will be happened.

News [Press Right]

A News is a News. No you can't get to know whether Jordan will came back or not, but at least you will know what festival will be happened this season.

Life on the Farm [Press Down]

Now this is the oasis for your thirst of tips. Farmer Fran and the young lad Jimmy's little conversation might give you a big help, depends on how you look at it.

Weekly

Shogi Hour [Sunday] [Press Left]

Shogi Hour is a nice and interesting program, if you need some good lullaby for your insomniac problems. This is about some kind of chess (or card?) game that was just show you the move that was taken by the players, and usually the game wouldn't be ended at the same time. It always continued next week. Not really important.

The Fairy and Me [Monday] [Press Left]

The Fairy and Me is a love story, kind of. It is actually interesting to watch, if only you won't be remembered by 100+ square of plants need to be harvested, about 30 livestock to be feed yet also the girl to build some relationship with. So, watch this early in the morning and then leave it. Somebody had the complete play of the film? Don't hesitate to send me because I'll be more than happy to put it here.

The Delicious Hour [Tuesday] [Press Left]

Now this is important. Prepare a paper, watch the show and write down the recipe they taught. This will be needed sooner or later.

The Song Hour [Wednesday] [Press Left]

This isn't very important. This might give you some hints in the game or a strange recipe (that you can't cook on), and even a livestock-footprint song, but don't get addicted. Really.

Star One Sport [Thursday] [Press Left]

The good thing is that you don't really know what will they show you. Fine, there will be some 'normal' sport like wrestling or F-1 race, but don't get really shocked when you see a match between American Football and Soccer player. Obviously the Soccer player was lost, because:

a) American Football players has more people in their team.

b) Soccer players cannot use their hand to hold the ball.
Yeah, I've found this once in the show and I liked that kind of joke!
And more, you might find Aja somewhere in the show of a F-1 race.

Mechabot Ultror [Friday] [Press Left]

Okay, think villagers don't have Power Rangers or Gundam for them?
Wrong. There it comes, Mechabot Ultror! No I won't talk more about
it, I'm still sane...

What's Your Passion? [Saturday] [Press Left]

This will appear before you have the kitchen. The program is about
some TV crew who read some mails from some people. The mail was aw-
fully random and that's why it is interesting. After you have the
kitchen, the program will be replaced by TV Shopping.

TV Shopping [Saturday] [Press Left]

This will appear after you have the kitchen in your home. Watch the
entire show and phone them from the inn to buy the utensil. Don't
worry, if you miss them, you will be able to buy it after some long
while. And after you bought all, the TV Shopping will be gone and
again be replaced by What's Your Passion program.

Yearly

New Year Day Special TV [1st-7th of Spring] [Press Left]

This is about, well, some kind of traditional celebration done by
the Japanese in New Year. Pretty nice if you're studying Japanese
culture or so. Not so if you were actually hoping for another program
to be broadcasted.

xxi	SharkerZone	4
-----	-------------	---

Q: I'm a cheater and I want to cheat the game!

A: Well, at the very least, let's give some respect and credits for
The GameShark Code Creator Club <www.cmgsgccc.com> because the list
of GameShark code was taken from their site. Also big credits for
SONG because some of the code was made by him and taken from his
awesome FAQ. Better check his FAQ too for details and more info!
Okay, prepare your Device and go away shark your game!

The Rucksack Items is the upper part of your rucksack screen, where you put items like crops etc. Better not put tools code or your game might hang up. Why Code A and Code B? Well, the quantity digits for Code A and Code B are different and results in different items. Check them out:

For Code A

3A - Stone	3B - Big Stone
3C - Rock	3D - Stump
3E - Branch	3F - Lumber
40 - Weeds	41 - Turnip
42 - Potato	43 - Cucumber
44 - Strawberry	45 - Cabbage
46 - Tomato	47 - Corn
48 - Onion	49 - Pumpkin
4A - Pineapple	4B - Eggplant
4C - Carrot	4D - Sweet Potato
4E - Spinach	4F - Green Pepper
50 - Grass	51 - Moon Drop Flower
52 - Pink Cat Flower	53 - Blue Magic Red Flower
54 - Red Magic Red Flower	55 - Toy Flower
56 - Orange Cup Fruit	57 - Apple
58 - Bamboo Shoot	59 - Wild Grapes
5A - Mushroom	5B - Poisonous Mushroom
5C - Truffle	5D - Blue Herb
5E - Red Herb	5F - Green Herb
60 - Mystrile Ore	61 - Orichalcum Ore
62 - Adamantite Ore	63 - (Tomato Recipe)
64 - Basket	65 - Dog Ball
66 - Coin (bag of money)	67 - Power Berry
68 - Fodder	69 - Chicken Feed
6A - Fodder (bought)	6B - Chicken Feed (bought)
6C - Fish Food (bought)	6D - Rucksack Level 2 (medium)
6E - Rucksack Level 3 (large)	6F - PocketStation

70 - Wrapper	71 - Vase
72 - Knife	73 - Frying Pan
74 - Pot	75 - Mixer
76 - Whisk	77 - Rolling Pin
78 - Oven	79 - Seasoning Set

F7 - Bracelet	F8 - Necklace
F9 - Earrings	FA - Bandage
FB - Relaxation Tea Leaves	FC - Relaxation Tea
FD - Fruit Latte	FE - Vegetable Latte
FF - Mixed Latte	

For Code B

100 - Perfume	
101 - (Cliff's Photograph)	102 - (A letter)
103 - Invitation	104 - The Woodcutter and The King
105 - Picture Book of People Vol 1	106 - (dog)
107 - (puppy)	108 - Cat
109 - Chicken	10A - Chick
10B - Rabbit (white)	10C - Rabbit (brown)
10D - Squirrel	10E - Fox
10F - Monkey	110 - Snake
111 - Crab	112 - Butterfly (white)
113 - Butterfly (blue)	114 - Beetle
115 - Stag Beetle	116 - Cinada
117 - Dragonfly	118 - Cricket
119 - Ladybug	11A - Grasshopper
11B - Triangle Sandwich [#1]	11C - Deluxe Sandwich [#2]
11D - Rice Ball [#3]	11E - Red Bean Bun [#4]
11F - Pizza [#5]	120 - Meat [#6]
121 - Toast [#7]	122 - Egg (normal)
123 - Egg (good)	124 - Egg (excellent)
125 - Popuri's Egg	126 - Mystic Berry
127 - (Empty bottle)	128 - Group seeds - Spring [G]
129 - Group seeds - Summer [G]	12A - Group seeds - Fall [G]*
12B - toy chick [G]	12C - Cow reins [G]
12D - The gods in heaven [G]	12E - Ketchup [C]
12F - Rice Omelet [C]	130 - Salad [Inn]
131 - Apple Pie [Inn]	132 - Cheesecake [Inn]
133 - Cookie [Inn]	134 - Water [G]
135 - Roasted Corn [SL]	136 - Pasta [SL]
137 - Pizza [SL]	138 - Junk Ore
139 - Grapes [Aja]	13A - Dead Weeds
13B - Winter Stone	13C - Winter Branch
13D - Winter Lumber	13E - Water [G]
13F - Mayonnaise Maker [G]	

Additional Note by SOng:

[G] - Glitch (can't be used!)
[C] - Can be obtained via cooking
[Aja] - bought from Aja
[Inn] - bought from Inn
[SL] - bought from Seaside Lodge

It seems a bit funny when the name of the item is called 'Group seeds - Spring', yet it gives you the requirement of getting Spinach seeds for Fall. In other words, when you use this code, it will appear as 'Group seeds - Spring'. But after all, it is still a glitch.
- Digits 63 onwards are discovered by myself ^_^;) Words that are in

bracket are names that I give to the item [the actual name is very long...]

- Some of items will cause the game to hang like the PocketStation modifier digit. Hence enter at your own risk.
- If you enter the codes with modifier digits from 140 onwards, the game will hang (duh).

Special credits goes to Scott Ong, for the great GameShark Code List.

I don't know whether I'm doing right or not but I'll be honest. When I send this FAQ, I have send an email to Scott Ong asking for his permission to put his Code List. But I haven't got the reply yet after waiting for some while and then I've decided to send this FAQ first without Scott's permission first. All I can do is to credit him. So if any of you know the real rules and regulation or whatever about this kind of thing please let me know whether I'm right or wrong. Thank you very much.

Q: Uhm, what is Caetla Only anyway?

A: I really don't know for sure but I think it is some kind of GameShark type. In this type, if you're typing "B" at the beginning of a code, the last part of the code will be consist of EIGHT digits instead of the usual FOUR. This is usually used for Japanese game but again, I don't know for sure. If you want to know whether your Game Shark supports Caetla Codes or not, then just try typing "B" at the first digit of a new code and see if the last part will be EIGHT or not. So, for instance:

```
CAETLA not-supported : Bxxxxxxx xxxx
CAETLA supported      : Bxxxxxxx xxxxxxxx
Understood? ^_^
```

Q: Are you sure there aren't any other codes?

A: No I'm not sure, but you can always check either <www.gameshark.com> or <www.cmgsccc.com> to know whether they have any new codes or not. Don't ask me to find any codes too, I really don't have time to do that since I also have school like most of you...

Q: Are you sure these codes will work?

A: I don't know, haven't tried them all yet. BUT I will also states that I am not responsible about anything might be happened related with you and the codes. Try them on your own risk, although it's not that using the code will meltdown your console or so...

```

I want to say thanks, danke, syukron*, terima kasih*, matur nuwun*, arigatou* to:

Allah SWT, for everything. Everything.

Super ultra special thanks to CJayC, for hosting the site that is now appear on your screen, which is obviously <www.gamefaqs.com>. Only because of his love of video and computer gaming (and with the help of caffeine) make the site available, and we should appreciate that. And there I went

too far again ^_^

A dinosaur-size special thanks for Ms. Valerie Deoferio since she was the only one who cares about my terrible grammars. Let's see. She sent me a FULLY grammar-corrected FAQ, both this FAQ and my Crops FAQ. I'm wondering just how she could do that, diving into my fuzzy sentences to find so many grammatical errors. Oh yeah, also for confirming that a FAQ really is a Frequently Asked Question, so now I can be sure about it ^_^.

Big thanks, Ms. Deoferio, I think I will start to put some attention into my English teacher's lesson from now on... ^_^

Another super ultra special thanks goes to S0ng, for letting me use his GameShark Codes to be listed here, and for his awesome FAQ for HM: BTN. Better check his FAQ too!

Special thanks to The Game Shark Code Creator Club <www.cmgsgccc.com> for the great Game Shark Codes.

Special thanks to Arukaado, for her little cute answer in MB, about what's really happened when Barley took your dog (refer to Livestock and Pets section in Dog sub-section). I quote hers. And for telling me how to get the Moon Drop seeds too. Thanks!

(I-really-don't-want-to-say-this-but) thanks to krems, another MB user, which was informing that the second horse can only be obtained at year 4. My trusted source, although it was wrong after all. Thanks pal! ^_^

Still watching Gundam Wing, eh? One of our TV station here in Indonesia finally have Gundam Wing too, so now I can see and complete the story! ^_^

Special thanks goes to Alva, for mailing Natsume about another couples baby question. For sharing a precious information with many MB user that Natsume replies it wrongly and, well, just read the question about it in 'Rumors' section for details. Yes, she was the one who e-mailed Natsume. She also confirmed that krems info was wrong and you could have your 2nd horse anytime before year 4.

Can't say anything else, thanks to all my friends in real life and in GameFAQs' HM: BTN Message Board. For lotsa great discussion, questions, answers, madness, and any other incredible time together. There would be no hundred questions here if they weren't around. Okay, I must say that I didn't went to the board as frequent as I was in March, and I also feel sad knowing that the board contains only FIVE page of topics, while it was about 20-25 page some months ago. However I will still get there if I get the chance, to meet the incredible people there.

Okay, thanks to Victor Interactive and Natsume Inc. For lots of joyful time of farming and typing faqs ^_^.

Big-big special thanks for many people who had emailed me now and then. Thank you very much for everything. I really want to list you all down here but I really don't have time for it, and I have LOST my data which contains most of your email and identity. Actually, I have LOST the (updated) data of this faq too, so I have to start it all from version 1.0 again. I'm sorry if this faq isn't as complete as you thought, but deep inside I really thank you for everything.

* Don't bother to look for the translation of 'syukron' or 'terima kasih' or 'matur nuwun'. They're all means thank you or so. Syukron is Arabian language, terima kasih is Indonesian and matur nuwun is Javanese. And arigatou is, as you might have thought or knew, Japanese. And don't look

at me like that! Do you want the French too? Fine, uhm, hey, I can't speak French! ^_^

```
-----  
| | | | |-----  
| | | | |  
| | | | | - Author's Section -  
| | | | |  
| | | | |-----  
| | | | |
```

Wow, you've come this far?

| I don't know what makes you feel that this section is important, but if
| you still want to read, then go ahead. Oh, almost forget, first of all,
| thank you for reading this faq. I really, really hope that this will help
| you through the game. Sorry for the way too much not-so-funny jokes here
| and there and sorry for my habits to went too far when talking about
| something -_^.

Any comments, critics, questions, corrections, asking for permission etc?

| Just send them to my e-mail address <kuadrantiga@yahoo.com>! Language
| acceptable and understandable are English, Indonesian or (I know it's
| impossible) JaVanese. Well, just stick at the first two for instance.

See?

| This Author's Section is NOT that important. Somehow it can be a
| shameless-self promotion ^_^

So, what's more?

| My Final Request Well, as you see, I'm not that good in English and
| obviously you will (or you have already) find bunch of
| typos in this faq. If you feel so, please, give me any
| corrections to make this faq better. I'll credits you
| no matter what.

| My Final Words I think that's all I can give you at the time. I'm
| tired, but I'm so happy and strangely satisfied ^_^.
| See ya in my other faq! THANK YOU!

| My Final Heav... Uh, oh, nope, sorry. I'll wake up this time...

FAQ STATS:

Readability statistics		I never thought that MS Word 97
Counts		has this feature in it, and just
words	23340	found it out by now. This stats
characters	110723	was taken using that feature in
paragraphs	2650	Word 97.
sentences	1865	Just to be honest, I really don't
Average		know what Flesch Reading Ease
sentences per paragraph	1.1	or Flesch-Kincaid Grade level
words per sentence	6.2	actually is. I guess Flesch and
characters per word	4.0	Kincaid is somebody's name, but
Readability		I don't know for sure. If somehow
passive sentences	2%	you know and would like to help,
Flesch Reading Ease	88.0	please don't hesitate to mail me.
Flesch-Kincaid Grade Level	2.5	Thank you ^_^
