. INTRODUCTION	

started playing the FINAL FANTASY series and The ZELDA games. Well, i enjoyed playing these kind of RPG's until my friend introduced me to

some very awesome RPG's like Xeno Gears, Legend of Dragoon, Wild

In this game, you will control 3 different characters namely VAHN, NOA and GALA. Each of this characters possess different kinds of ARTS and ELEMENTS. for example, vahn-his element is FIRE; noa-her element is WIND and gala-his element is LIGHTNING. With the help of their RA-SERU friends-META(fire seru), TERRA(wind seru) and OZMA(lightning seu).with each ra-seru joined with vahn, noa and gala, they have the power to save the world of LEGAIA.

The game has a unique battle system and its very cool  $^-$ . Beautiful 3D rendered backgrounds and some cool musics to listen to.if u want a perfect gaming experience, you might wanna use the analog controller for more intense game play  $^-$ .

I thought this game is easy but think again every enemies you encounter is very difficult to beat and you must level up, upgrade your weapons and armor and buy some accessories for you to survive in this game so better prepare yourself i finished the game in two weeks straight heeheheheheheh i played it three times a day so that's it:).

Well gamers, you must be patient in playing RPG games like Legend of Legaia and a lot of junk foods too heheheheheheheheh:). It's hard to level up but its worth it to fight this incredibly strong bossess mentioning their HP's duh!. I finished the game with Vahn-level 45, Noalevel 43 and Gala-level 44 plus I leveled up all the SERU monsters:( and the RA-SERU too:(its hard leveling them up but its ok if u dont level them up its ur own choice:).

Well this is my first time to write a strategy guide :) i wrote down every tactic every time im playing so my tactics will work perfectly for you :). ENJOY READING AND USING MY GUIDE!!!!!.

If u have questions please e-mail me at bloodsucker123@yahoo.com I'll be happy to answer any questions you want to ask:). This is only a boss strategy guide not a walkthrough. II.BOSS GUIDES (a very easy guide on how to beat bossess)

=Note that i estimated the HP's of each bossess for you to know on how to beat them :).

=Get the POINT CARD in the drawer in rim elm after you've free rim elm in the mist coz you'll be needing it :).

=Leveling up befor fighting this bossess is a good idea you'll find out why you must level up :).

=Upgrade any weapons and armors to make every battle easy and buy some accessories for your characters in order to prevent some status effects, strengthen your characters etc.

=Buy lot of Healing items as possible coz you'll be needing it.

=Raise your seru monster's LEVEL to obtain some abilities um i mean like effects on casting your serus for example, GIMARD-level 9(ATTACK-20%)stuffs like that :).

=Use spirit very often to lessen some combo attacks and to build your ARTS heheheeheh :).

=Reserve your MP's for HEALING if possible but you may use it as you wish :).

=Put some accessories in your characters to strengthen them and put some HP,MP, and power up accessories if possible :).

CARUBAN: 1,000 HP

Location: Mount Rikuroa

The first boss that you'll encounter and its hard if u dont level up a bit i recommend that you should level up to 5 if u can but level 4 is ok:). First use spirit on all to block some of carubans attacks. Use vahn's HYPER ART TORNADO FLAME, noa should attack with her ordinary arts and gala should alternate in HEALING and attacking. gala should heal you using VERA seru or healing items to keep u in a good shape:). Oh and watch out for caruban's FIRE BREATH that does a whooping 500 plus damage just attack attack and heal in that way you'll win:).

VIGURO (2x): 1,500 HP each Location: East Voz Forest

Ok this is tough :( coz you'll battle two of this lightning serus and their attack does a whooping 3-400 plus damage to you and you better watch out with their lightning attack that can cause 1000 plus damage to you so you better watch out.first all should use spirit and then use vahn or noa to cast the THEEDER seru on the two coz they r close to each other and theeder can damage them in one blast heheheehehheh.you should also use HYPER ATTACKS on them and concentrate on one after the other.Remember that gala should be the healer or alternate caster or attacker and you should do fine :).

Songi (first encounter): 3,000 HP

Location: Zeto's Dungeon

Oh-ohh the friend of gala has turned evil and he is wearing a seru too.this fight is tough coz gala is only one that can fight him a fair fight indeed.better stuck on healing items coz this is hard.don't bother casting some serus coz it will only hurt him 2-350 damage so stick on ur ARTS:).first you should spirit up then do your HYPER ARTS THUNDER PUNCH on him and if your level is high it will inflict a whooping 3-400 damage on songi heheheheheh YOUCHHH!!!.heal if u recieved a lot of damage.use healing items or the VERA seru and i recommend using the POINT CARD for an easy battle:).

Zeto: 4,000 HP

location: Zeto's dungeon

Heal gala's HP and MP and your party as well coz this is vwery a hard battle.WoW! a big CCRRAABBB!! heheheh yyuuuppp! well zeto will turn into a crab but a very deadly crab indeed so be careful.by now, you should have an upgraded armor and weapon to make this battle an easy one :) i recommend buying 3 of the DEEP SEA AMULET to lessen zeto's water attack.now for the strategy: spirit up and let zeto taste the HYPER ARTS all of u should attack on the first round and gala should heal you if necessary.just attack until zeto calls the CALL WAVE if he does spirit up all your characters and the deep sea amulet comes here in handy :) it will lessen the damage to 2-300 plus only and using the POINT CARD is a MUST! and you'll win :).

Berserker: 6,000 HP Location: Jeremi

See the genesis tree? yup! it's the boss!. well i figured out a way on how to beat this ugly boss heheheheheh. fisrt let attck with his HYPER ARTS, noa cast GIZAM(yeah an additional damage to him heheheeh) and gala HEAL with level 3 or 4 ORB heheheheh and you should be fit :) plus a touch of the POINT CARD and voila!!!! 0000HHH YYYEEAAHHH his DDDDOOOOOWWWNNNN!!!!! :)

Xain: 9,500 HP

Location: Lower Octam

It took me 3 tries to beat this crap coz i did'nt watch out for his TERIO PUNCH which damaged me a whooping 1000 plus damage and it really hurts : ( but dont worry i've come out on a tactic that can beat this boss :).firts spirit up then attack with a combination of NEW and HYPER ATTACKS.watch out for his BLOODY HORNS coz it will cause a 6-700 damage on a single character now if xain CHARGES it is called BULL CHARGE thats when you must spirit your characters coz TERIO PUNCH will come and it does a whoopin 1-2,000 plus damage and could kill 2 of your characters so if u spirited up, you should lessen the damage to 5-700 damage, heal immediately coz after that he'll use BLODDY HORNS again so heal and keep on dishing HYPER and NEW ARTS on him and if u want cast some high leveled serus and the POINT CARD of course:).note that you must spirit up before xain CHARGES and you'll win :).

Songi (second encounter): 11,000 HP

Location: Mount Letona

Songi's back and tougher than your first encounter.now your level should be atleast 20 above and upgraded your armors.you'll fight him with your party now :) 3 versus 1? easy? think again! he's not!.now use your HYPER ARTS with a combination of NEW ARTS to hurt him oh and equip all characters with defender chain to lessen his combo :).now that you have the ORB seru, this is an easy fight. your ORB must be at least level 3 or 4 and gala should cast it after 3 rounds to be sure :) and POINT CARD to the rescue!! hehehehehh taht's right :) so use it and he will be defeated heheheheheh :).

Saryu: 15,000 HP Location: Ratayu Yup! another hard boss to beat. your levels should reach atleast 25 now or above for an easy fight also level up your ORB seru to 5-6 to make the fight easy:). HYPER ARTS plus NEW ARTS in the first round and then by now you should have the KEMARO seru cast it coz it does a whoopin 2,000 plus to him heheheheheheheh and gala should heal your party if necessary just dish out HYPER ATTACKS and NEW ARTS followed by casting KEMARO 4 times and he should be down heheheheh yup! easy right?:).

Dohati: 18,000 HP

Location: Dohati's Castle (yup! his own castle)

Dohati is very tough to beat coz he uses an attack called CHAOS BREATH that can inflict a whooping 1,000 plus damage and a TOXIC status taht's a big problem. buy many medicines and als o level up ur ORBS to 6 and your ORBS should have the ability to cure venom/toxic:).use spirit a lot and dish out your attacks and try casting KEMARO 3-5 times and if you are toxicated ORB will come in handy:) remember, gala should be the HEALER and keep the two attacking and casting and here comes a POINT CARD to finish it:).

Gaza (human version): 20,000 HP

Location: Sol (roof top)

This is one hell of a boss! why? coz he uses a sword and he's a swordsman!! that's why he is very tough to beat.i beat him 4 tries coz he uses the sword and has an attack that is called ASTRAL SWORD STRIKE and this is the deadliest of his attack and by the way his attack can do a whoopin 1,500 plus damage if u did'nt spirited up that's why you shoul spirit up every round. now SUPER ARTS for noa will come in handy! as well as KEMARO with a level of 4 or 5 cast it 4 times plus you must dish out HYPER and SUPER ARTS on him but dont use the POINT CARD just yet! why? here's why!

Gaza (seru version): 20,500 HP

Location: Sol Basement

Yup! here's why! you'll fight him fro the second time, now he is wearing a seru and he is more deadlier now so you must be careful even his ASTRAL STRIKE became stronger! why? coz it does a whoopin 2,000 plus damage on you!!!! YYOOUUUCCCHHHH!!!.use the same tactics as you did in the first but you MUST heal ocassionaly coz his combos will inflict around 7-800 hits now!!! and it hurts very much!!! cast 5 KEMARO's for an easy battle, dish SOME NEW and HYPER ARTS plus use your SUPER ARTS that is accesible for u to use and lastly YUP! u got that right! the POINT CARD!!! heheheheh and he's finished:).heal with level 5-6 ORBS and you should do very well heheheheh TRUST ME!

-----THE DELILAS FAMILY STRATEGY------

- -2 defender chains
- -2 power rings
- -2 speed rings
- -1 warrior icon

Now that you have this equipments, you should be fine :). equip gala with the defender chain, a power ring and the warrior icon. vahn with the

<sup>\*\*\*</sup>note that you must have this accessories\*\*\*

defender chain and a speed ring and lastly equip noa with power ring and the speed ring! why? coz eventhough noa exeeds the speed of your party there is a possibility that Lu can exceed noa's speed too that's why you must equip noa the speed ring to make sure that she's the fastet :). Don't forget to stock up on healing items like healing berries :).

-each DELILAS FAMILY has a pattern and if you mastered their pattern, this fights will be easy i assure you :). The patterns are ATTACK-->ATTACK-->SUPER ATTACK that's the pattern.

-Your levels now should be at least 25 and above but don't worry if your levels are below that but at least have the accessories I've mentioned for a sure win TRUST ME!.

-I have some patterns for you to use in defeating the delilas family so use it if you want and try these:

PATTERN 1= ATTACK-->ATTACK-->SPIRIT

PATTERN 2= SPIRIT-->ATTACK-->SPIRIT

PATTERN 3= ATTACK-->HEAL-->SPIRIT =======RECOMMENDED

\*(I recommend using the PATTERN 3 coz its 99% effective while the other patterns usually has a 50-50 chance of wining but yet these patterns are all effective :)).

Che Delilas: 14,500 HP Location: Nivora Ravine

Gala will fight this very powerful boss but if you have the equipments right you should do fine :).first i used my own tactic- ATTACK->HEAL->SPIRIT that's my tactic and it works very well :). use your HYPER ARTS and heal with the use of healing berrries(the one's that heals your health with 800 HP). Equiping the warrior icon on gala will definitely useful coz there is a 50-50 chance to counterattack but still its very useful and equiping the defender chain will lessen che delilias' combos.just remember to spirit up in the third round coz an attack called MEGATON PROSS is coming your way and it does a whoooopppiinnnggg 2,500 damage and it has a possibility of killing you instantly so using spirit is a must and you should be fine :).

Lu Delilas: 13,000 HP Location: Nivora Ravine

Noa will fight this fast boss and guess what? this boss is a GIRL! heheheheh so this is a fair fight :). Remamber what i told you? equip the SPEED RING and POWER RING for noa coz she needs some strength and additional speed to win this battle :). Just follow the pattern in fighting Che and you'll win :).

Gi Delilas: 14,000 HP Location: Nivora Ravine

WWHHHEEWWW!! at last!! last of the DELILAS FAMILY to beat and vahn will be the one to kick his butt^\_. Now this is a COOOL boss!! YUP! coz his SUPER ATTACK is very unique but watch out vahn and gi has the same element which is FIRE but he can dish out a decent damage on you about 6-700 plus damage with his SUPER ATTACK but don't worry about his combos coz you have the DEFENDER CHAIN to lessen his combo. Just follow all the

patterns you used in che and Lu and you will win :).

\_\_\_\_\_\_

koru: 100 HP(15,000 to be exact)

Location: Nivora Ravine

So this seru is still alive?? yup!! and the delilas family merged themselves with koru now you MUST defeat him within 4 TURNS! I repeat 4 TURNS!! that's one hell of a task! at first i did'nt know that you must beat him in 4 turns tha's why I'm dead in the fourth turn coz he exploded : ( but know i know so im sharing it to you :). Casting KEMARO here is a MUST coz KEMARO inflicts a whooping 3,000 plus damage to koru heheheheheh:) don't bother healing coz koru's attack will only damage you to 4-600 damage but if you reached 500 HP below thats when ORB or SPOON becomes handy :) just let your 3 characters cast KEMARO lvl. 3-5 and HEAL if needed and that's gala's task :) and you should be ok :). If you've got a 9-10,000 points in your point card, use it to immediately finish the battle in only 3 rounds :) trust me i used this tactic followed by a KEMARO that is cast twice and he's DOWN heheheheheheh :).here's my tactic: in the first turn, i used all 3 of my characters to cast KEMARO, in the second turn, vahn and noa casted KEMARO and i let gala heal our party :) and in the third round, i used the POINT CARD and voila!!! i only used three rounds :).

Zora: 45,000 HP

Location: Zora's Floating Castle (her own castle)

\*\*I bet you've stock up on some medicines and Healing berries plus 3-4 magic leafs coz you'll need it\*\*

You need some accessories here for safety:

- -WONDER AMULET (for gala)
- -DEFENDER CHAINS (3 in all for your characters)
- -EBONY JEWEL (3 for your attacking characters)

This Boss is hard : ( why? coz her DARK THYPOON ATTACK does a whooping 1-2,000 plus damage and she has a status attack which is GLARE that can turn oune of your characters into stone : ( but if you have medicines, it will make the fight easy. Remember to equip gala with the WONDER AMULET(prevents all status effects) coz he is your HEALER and you dont want him to turn into stone or else the fight will be hard. attack zora with your best HYPER and SUPER ARTS plus a casting of KEMARO or ALURU and you should be fine. If one of your characters (not gala coz he is now safe in this status) has been turned into stone, immediately let gala use medicine on your stoned characters to get fit :). Now watch out for the DAK THYPOON ATTACK!! coz it really hurts but if you equiped vahn, noa and gala with the EBONY JEWEL, it will lessen the damage :) oh and watch out for zora's combos it deals 7-800 plus damage but with DEFENDER CHAINS equipped, well you'll know :). POINT CARD is a MUST to add additional damage on her :). Use your powerful ARTS here to dish out damage on her and this will finish her :).

-----

Caruban level 2: 5,000 HP----SUB BOSSS

Location: Rogue Tower

Well, this is now an easy battle cosidering the level of your characters now :). Just attck him with your HYPER or SUPER ARTS and this sub boss

will fall down easily :).

Viguro level 2: 6,000 HP----SUB BOSS

Location: Roque Tower

Use the same tactic in beating caruban but viguro's THUNDER attack will

inflict 6-700 damage so HEAL if necessary :).

------

Rogue: 50,000 HP (pretty high HP eh!)

Location: Rogue Tower

Well, I guess the teleportation maze made your mind crazy heheehehheeheh. This boss is tricky too coz he changes it's color to a corresponding element which is connected to your characters. I listed the corresponding colors, elements and your characters that is connected. SEE BELOW!

COLOR: ELEMENT: CHARACTERS:

-Red fire Vahn

-Green wind Noa

-Blue lightning Gala

Everytime you attack you must note that rogue will change its's color like RED, GREEN or BLUE so just attack him but be ready for him coz he'll counter attack like FIRE if he's color changed to red, WIND if he changes to GREEN and a LIGHTNING attack if he change it's color to BLUE all of his elemental attack is very strong and it deals 2,500 plus damage to the character with the corresponding elemnt so HEAL with SPOON or ORB after rogue does this elemental attacks. Attake him with your strongest HYPER AND SUPER ARTS but by now you have the almighty MIRACLE ARTS!!! :) so use it :) casting KEMARO will make an easy fight plus adding a POINT CARD and presto! you'll win :).

Jette: 50,500 HP

Location: Absolute fortress

-put some LIFE ARMBANDS in your characters to make their HP's high enough to reach 3,000 plus and also some DEFENDER CHAINS.

WWOOOWWW!! another tough boss indeed coz his HP is very high like rogue and guess what? he's the faithful assistant of CORT and like his master, he is powerful too so better watch out. By now, you levels are above 30 to make an easy battle coz his SHADOW BREAK attack can disk an enormous damage of 2-3,000 so equiping LIFE ARMBANDS to make your characters HP's to 3,000 plus to survive the SHADOW BREAK plus his combos deals a whooping 1,000 plus damage if its connected successfully but there's no problem coz you have the DEFENDER CHAIN to lessen the combos he dish :). Watch out! coz he calls his CLONE and it will confuse you from the real jette with the fake so don't bother attacking his clone coz it will only attack you with combos which only deals only 10 damage to you so don't bother attacking it insted attack the real jette. Again casting KEMARO will help you in this battle so cast it and HEAL after jette use the SHADOW BREAK again to stay fit. Attack him with your SUPER or MIRACLE ARTS to put him down but don't use the POINT CARD yet. just dish out ARTS and with a mix of casting KEMARO and you'll win and don't forget to use SPOON or ORB to heal you :).

Cort: 60,000 HP

Location: Absolute Tower

-Now use you MUST equip the LOST GRAIL and i recommend equiping it on gala  $\cos$  he is your designated healer :).k

Is this the LAST BATTLE? NOPE! why? coz you'l soon find out. Well, at first i was happy coz I know that he is the last boss but i was shocked coz he is not the real boss after all! who?? you'll find out. Noa's brother so expect that he's very strong than noa and all of your party. First if you fight him, he'll cast his MYSTIC SHIELD that sheilds him in regular attack so don't use regular attack instead use your MIRACLE ARTS to dish damage to him and to the shield. Watch out of cort's GUILTY CROSS coz it'll hurt you into a whoopin 1,000 plus but this should not bo a problem coz you have HEALING ITEMS and SERUS:).

But watch out EVEN you break cort's SHEILD and can dish out damage, there is a possibility that cort CAN and WILL cast JUGGERNAUT and will hurt you a lot like just only 2,500 plus!!!! yeah you heard me!! so you must heal the character that has been inflicted with a whoopin damage and the fight will be alright:).

Well, my strategy is like this: first all of them SPIRIT(of course) and then let vahn and noa attack while gala is standing by as a HEALER. Now after attacking, vahn should cast KEMARO 3 times, noa 2 times and gala heal. and attack again--MIRACLE ARTS and HYPER coz remember, you can't damage him with regular arts: (. but this is a very simple strategy:) and it works a lot!!:).

CONGRATULATIONS! with cort beaten, you have saved the world of legaia!!! but is it over?? I DON'T THINK SOOO!!!! hehehhehheehheh.

Songi: 60,500 HP (a lot bigger HP than cort heheheheh) Location: Naoaru Valley

-Your level must be 35 and above now :) to hit him a miracle arts that cause a whoopin 4-5,000 plus :).

YUP!! this is it! the last battle with SONGI :). His attacks are more deadlier now like the CHAOS FLARE and the deadly GENOCIDAL CANNON!!! which does a world of hurt to your characters!! YYYOOUUUCCCHHH but hey this is your last battle with songi and give it all oyu got heheheh like kickin' his butt that he'll kiss the moons heheheheheheh. In this battle, you must give all what you got on him! use your mighty SUPER ARTS and of course your MIRACLE ARTS heheheehehe. I estimated the hits of your miracle arts and i've come to estimate the hits about 4-5,000 plus and that can give him a headache hehehehehe :). Give all what you've got on him SUPER ARTS, MIRACLE ARTS, and level 6-8 casting of your powerful SERU MONSTERS(kemaro, aluru, nova, swordie,) don't hold anything back though HEALING here is your top priority and gala will take care of you :). have gala heal if songi uses the genocidal cannon coz it'll cause you a 2-3000 plus damage so heal immediately and you will be fine :) just attack-attack-cast-cast-heal-heal and that's it :) he'll be down hehehehh.

DON'T use now your POINT CARD coz you'll need it badly to beat the last i repeat LAST boss in the game now :).YYEESSSS!!! THE LAST BOSSS!!! nyeheehehehehehe :).

JUGGERNAUT (with cort combined): 70,000 HP

Location: Rim Elm---Bio Castle

-Befor going in the bio cashte, you must get your final ra-seru powers from the genesis treess that you've revived cause you need them badly now that you're facing the deadliest and the LAST boss of legala :). SEE THE SECRETS LIST BELOW THE GUIDE :).

- -Level up your characters at least 45 for vahn, 44 for noa and 43 for gala just to make sure. If you want to gain an instant leve, get the CRIMSON BOOK inside the bio castle coz it doubles your EXPERIENCES in an instant. Use it outside bio castle wher you fight GIMARDS, THEEDERS and VERAS which also hard to beat because of their levels now but its worth fighting them :).
- -I recommend that go in the bio castle first and get the RA-SERU ARMORS and WEAPONS and the items inside as well.
- -Buy HEALING ITEMS and MP RESTORING ITEMS as much as you can coz you'll badly use it in the FINAL ARMAGEDDON mwahehehehehhahahahah:).
- -Level up your HEALING SERUS(ORB and VERA) at least level 8 and level up also your best ATTACKING SERUS(kemaro, aluru, nova, and swordie) to make an easy battle :) TRUST ME!!.
- -Fill up your POINT CARD now coz you'll be needing it :). Fill it up upto 20,000 points that should be enough :).
- -Equip the LIGHT TALISMAN and DARK TALISMAN to one of your characters(see SECRETS below).
- -LOST GRAILS on each of your characters to make sure for their safety in the battle.

## LET'S GET IT ON!!!!!!!

So this is it! THEN FINAL ARMAGEDDON hehehehhheheh remember no holding back of MP and HEALING ITEMS here coz you'll end up using them badly. With your characters properly equiped, leveled up and powered up, you are ready to take on JUGGERNAUT. Now lets begin. SPIRIT all you characters, let vahn and noa use MIRACLE ARTS, gala cast OZMA RA-SERU and then alternate now your characters attacking into CASTING their RA-SERUS, let vahn use META and noa use TERRA and gala heal with SPOON or ORB but watch out if juggernaut CHARGES be sure to heal to the fullest and spirited coz the FINAL CRISIS will come your way that inflicts 3-4000 plus damage so after he uses it HEAL immediately and you should be fine.

Cast now your RA-SERUS to inflict a lot of damage to juggernaut. Use your MP RESTORING items if you run out of MP. Heal with HEALING ITEMS that can heal your entire parties.

Now, USE your POINT CARD to inflict a whooping 9,999 damage to juggernaut every cast heheheheheheh that can hurt him a lot. just repeat doin this tactics and juggernaut will fall in no time :).

If you have a hard time HEALING, don't worry coz if you equipped the LIGHT TALISMAN which you'll be needing inorder too to survive in this

battle.(SEE SECRETS).

CONGRATULATIONS!!!! after your hard battle with juggernaut VICTORY is yours hehehehehehehehe a very hard battle indeed coz you'll end up using all that you've bought, the healing items all of it consumed am i right? heheheheheh. Well, after you've beaten juggernaut you'll be given 3 choices. YUP! 3 choices and it depends on the ending:) so just pick one:) it does'nt matter:). Now sit back and enjoy the cool sounds and the ending(the one that you chose:)).

Congratulations on finishing this cool game :). I know your stressed but its worth playing it right?.

Well, I hope that someday square soft will make a sequel on this game!!!hehehehehe I can't hardly wait!!!! :) i can already imagine it nowwwww ^\_^ the LEGEND OF LEGAIA 2. - LEARNING ALL THE NEW ARTS FOR NOA -In Mount Rkuroa, terra is with you and to aid you. when she tells you to fight the piuras, do so and now just fight and discover all your new arts here :). if you're hurt in fighting the piuras, just go to terra and let her heal you and fight

the piuras agin and by the time that you've discovered all your new arts, just quit fighting now coz heheheehh you've learned all your new arts now heheh a very easy and fast way to learn new arts for noa :).

HONEY BOOSTER -If your levels now are high like 14-15 go back to rim elm. now check the tree near to a windmill to fight the bees. The bees are hard but considering your levels, you should defaet them easily:). After defeating them, you'll get the honey. This item is a booster coz it'll boost all stats of a character.

GETTING FREE ITEMS IN DRAKE CASTLE -After you freed drake castle from the mist, noa will get too excited that she'll run off in one of the shops. Follow her in the weapons shop, when she asks you what is money, answer that you don't know now you'll get a FIGHTING ROBE. Now follow her again in the items shop, she'll ask questions again. answer 2-3 questions correctly and you'll get 5-10 healing leave, answer all the questions correctly and you'll get a MAGIC LEAF:).

THE TRUE POWER OF YOUR RA-SERUS -after beating songi in the naoaru valley, dont go just yet in the bio castle, instead visit the genesis trees in Mount Rikuroa, East Voz forest and the genesis tree in Sol. now you'll recieve the final forms and the true power of you ra-serus :).

THE FORBIDDEN RA-SERU -After defeating the last songi, head back to
West Voz forest. you'll see a treasure chest in

IV. OBG (Optional Boss Guides)

HHHOOOOOLLYYY smokesss!!! i thought i've beaten all the boss in the game but hheeyyyy these are only optional boss in this game but they are just hard as the bossess you've fought in the game so I decided to give you some tips and informations about these optional bossess:). Well there are just two optional bossess in the game so here they are:).

BOSS NAME: LOCATIONS:

Tetsu Rim Elm (before it will change to bio castle)

Lapis Mount Dhini (after the soren events)

Tetsu: 10,000 HP Location: Rim elm

EQUIPMENTS BEFORE ENTERING THE BATTLE:

- -War soul
- -Defender chain
- -mettle gem or the life grail (your choice of the two)

Well eventhough you are strong now, you must note that you must fight him alone now that's hard but with proper equipment, you'll stay just fine:). Just attack him with SUPER ARTS and HYPER ARTS but watch out for his combo, it can deal 1-2,000 plus apiece so i recommend equipping vahn with the life grai to heal some HP's in the battle. equipping war soul let's you counter him with a 50-50 rate before he attacks you but eventually, you'll counter it. with defender chain, you'll ba able to avoid some of his combos hehehehehehehe cooollll right. well, this is an easy battle for you because of the equipments:)

after the battle with tetsu, he'll give you a METTLE GEM for beating his butt out heheheheheheh :).

Lapis: 60,500 HP (WWWWWOOOWWW a lot of HP for an optional boss ehh!) Location: Mount Dhini(after the soren events, return here)

-Your level must be level 55 but level 45-48 is enough to survive this

boss.

EQUIPMENT BEFOR ENTERING BATTLE:

- -3 LOST GRAILS
- -3 DEFENDER CHAINS
- -1 WAR SOUL (for gala)
- -2 SPEED RING (for vahn and noa)
- -for me equipped my characters with:
- --3 DEFENDER CHAINS
- --3 LOST GRAILS
- --3 WAR SOULS

=i used this equipments and it gave me a 50-50 chance in winning but hey it's just my luck and i beat him heheheheheheh.

This is bad coz if you enter the fight you'll be automatically ambushed and lapis will use an attack called LAPIS WAVE that drains all you MP to 0 and that's a major problem. In this fight you have a 50-50 chance to survive his combos coz it deals a whoooping 3,000 plus damage but you'll be able to survive with the help of the DEFENDER CHAIN it has the possibility to miss some combos of lapis. So equip the speed ring to vahn and noa to increase their speed a little and the war soul to gala. Lapis always attack first and he'll dish out combos that automatically kill one of your party member but with the lost grails heheheeheh they'll be given a second life heheheeheh just give it all you've got—HYPER ARTS and MIRACLE ARTS just attack him and of course heal but that's the problem coz u have a 0 MP and you can't use ORB or SPOON serus to heal your party so use all your healing items that heals your party like HEALING BERRIES.

Unfortunately, you must take 5-10 or more tries to beat him and it takes a lot of luck to beat this crap but i know if you tried hard enough, you'll beat him :).

after beating lapis it'll give you the EVIL MEDALLION, an item that allows your character that has been equiped to attack enemies with learned art moves 0-15 times in a row heheheheheh cool item huh! but sad to say: ( you can't control the character who's equiped with it: ( or should i say it'll put that character into BERSERKER STATUS but it's ok coz hel dish out enormous damage heheheheheheh:).

--So you've beaten all the Boss and these optional bossess again CONGRATULATIONS!! you've done a great job heheheheheheh :)--

-----
