=====

For those who have been living in caves since 1998, Resident Evil 2 should be a familiar name to videogame fans by now, in 2002. Resident Evil 2 has spanned across many consoles in the last generation. It appeared THREE times on the PlayStation, once on the PC, once on the Nintendo 64 and went psycho on the Dreamcast (depending on where you live, the Dreamcast version will either be a port of the PlayStation or an emulated PC version).

Now ever version of Resident Evil 2 has a feature that doesn't appear in any other version. For example, the Nintendo 64 version has the EX Files, but the Dreamcast, PC or PlayStation versions do not. The PC version has Extreme Battle Mode unlocked from the beginning, but the N64 or original PlayStation version doesn't have Extreme Battle Mode at all, and it must be unlocked in the Dreamcast version.

Now comes the "Resident Evil 2: Ultimate Guidebook." This FAQ/Walkthrough will be the only version that will extensively cover every console/PC version of Resident Evil 2 as humanly possible. The following games will be covered by this walkthrough:

- Resident Evil 2 (PlayStation)
- Resident Evil 2: Dual Shock Edition (PlayStation)
- Resident Evil 2: Platinum (PC)
- Resident Evil 2 (Nintendo 64)
- Resident Evil 2 (Dreamcast)

This way, since I'm covering nearly every aspect of every Resident Evil 2 version, it will be far easier for me to update this document more frequently. In other words, all my Resident Evil 2 FAQ/Walkthroughs before July 28, 2002 will be merged into this one document. The walkthrough will cover all versions, and the files will accommodate the EX Files from the Nintendo 64 version of the game. This should be simple enough for anyone to understand.

Version 2.5

I just changed my e-mail to avoid Klez. Although Klez follows me. Grrr...

July 28, 2002

Version 2.0

I merged every element from every Resident Evil 2 version onto this FAQ for the best possible coverage of Resident Evil 2. The FAQ is complete, and is sent to GameFAQS.

September 4, 2001

Version 1.0

Converted the FAQ to cover the very original version of Resident Evil 2 for the PlayStation.

September 2, 2001

Version 1.0

Converted this FAQ to cover Resident Evil 2: Platinum for the PC.

August 28, 2001

Version 1.0

I took the walkthrough of the Dreamcast version and converted the entire thing to cover the PlayStation Dual Shock Version of Resident Evil 2. I also converted this FAQ to cover the N64 version of Resident Evil 2.

August 23, 2001

Version 1.0

Since Resident Evil CODE: Veronica X isn't coming out yet, I decided to create a walkthrough for Resident Evil 2 on Dreamcast. I formatted the entire guide and added all the content inside. I had started a walkthrough earlier and finished the final one up.

3. C H A R A C T E R S

=====  
-----  
Leon S. Kennedy  
-----

Leon is a rookie cop who came to Raccoon City to find zombies. He is very clueless at times, especially in the beginning and middle of his games. He also doesn't seem to try hard at the police force. But when he runs into Ada Wong, he learns to do things right and not be so clueless at times. His weaponry is standard. He has a Pistol, Shotgun, Magnum, Flamethrower, possibly a Submachine Gun and in his B game, a Rocket Launcher. He is better than Claire at firing weapons, but fires slower than Ada. He is controllable on Disc 1.

-----  
Claire Redfield  
-----

Claire Redfield is the brother of Chris Redfield, from the first game and Code: Veronica. She is tough and willing in situations. She runs faster than Leon, but slower than Ada. While she never meets Ada, she runs into Sherry Birkin, a little girl. She takes good care of Sherry and is, essentially, the main character of this whole game, though she gets Part 2. She has a very different weaponry from Leon's. She has a different Pistol, a Bow Gun, A Grenade Launcher, a Spark Shot, possibly a Submachine Gun and in her B game, a Rocket Launcher.

-----  
Ada Wong  
-----

Ada Wong is very independent. She is helpful throughout most of Leon's game. Also, she fires, runs, and takes damage better than Claire, Leon and Sherry. But unfortunately for her, she doesn't get out with Leon. But in Leon's B game, she becomes \*VERY\* helpful against the final Mr. X battle. Although it may seem like it and many people believe this, it actually IS Ada who helps out Claire in her B game against the final Mr. X.

-----  
Sherry Birkin  
-----

Sherry is alone in her normal world. That is until she meets Claire and becomes her best friend. She is a bit of a nuisance at times, stopping for Claire to come back for her. She is useful, though, especially in the final William Birkin battle. Yes, she is the daughter of William Birkin, who has now become a monster. She is VERY immature for a 12 year old. She also briefly runs into Ada during Leon B, where she loses her pendant that carries her family picture.

-----  
Annette Birkin  
-----

Annette is the mother of Sherry. She seems to be skitsofrenic. She tries to kill Ada and Leon and tries to help out Claire and Sherry. She is very frantic, and seems to only care about the G- Virus her husband, William Birkin, created. She then becomes caring of her daughter at the end of Claire B, giving her the needed keys to get out of the base.

-----  
Brian Irons  
-----

He is the darranged police cheif. He kills Ms. Warden, and plans to kill Claire. But his actions of rigging the RPD with traps and puzzles will lead to his ultimate downfall. He is eventually killed by the William Birkin monster.

-----  
Ben Burtolucci  
-----

He is a reporter who knows what's behind the Raccoon City incident. He, at first, refuses to tell anything until he is nearly killed by the William Birkin monster. He eventually tells Leon and is then killed afterwards.

-----  
William Birkin  
-----

He is the scientist behind the creation of the G- Virus. He is paranoid about giving away his G- Virus, which leads to his ordeal. Umbrella's swat team member, HUNK, attacked William Birkin. Birkin would have died, but saved himself by injecting the G- Virus. Now he is a monster out to perpetuate his G-species.

-----  
Hunk  
-----

Hunk is the man who attacks William Birkin. He is pretty tough to survive in the sewers for 4 days. He is seen without his mask in his RE3 Epilogue. He also makes a cameo in CODE: Veronica X in a file, where he transports the Tyrant to Rockfort Island.

-----  
Marvin Branagh  
-----

He makes a small appearance in the game to aid Claire or Leon by giving them a key to get further into the RPD. He eventually turns into a zombie. He makes an appearance in Resident Evil 3: Nemesis, as well, but he's unconscious when Jill Valentine finds him.

-----  
Robert Kendo  
-----

He is the Gun Shop owner. According to Resident Evil 3: Nemesis, he was good friends with Resident Evil's Barry Burton. He gets killed at the beginning by zombies, but he leaves a weapon behind for Leon or Claire. He was the man who created the Samurai Edge Handgun seen in Resident Evil for the Nintendo GameCube.

B. DIFFICULTY MODES  
-----

EASY MODE

\*\*\*\*\*

This is the easiest mode available in the game. There are items available in the Item Box, and you get more ammo throughout the game. Enemies and bosses are somewhat easy to defeat.

NORMAL MODE

\*\*\*\*\*

This mode is even harder than Easy Mode. You get no extra items and enemies are reasonably hard to defeat.

ARRANGE MODE - ROOKIE MODE

\*\*\*\*\*

You start off with a Submachine Gun and enemies are extremely easy to defeat. The Rocket Launcher and the Gatling Gun can then be found in the Item Box.

ARRANGE MODE - USA VERSION (BioHazard 2 only)

\*\*\*\*\*

In the Japanese version of the game, BioHazard 2, there is a mode called 'USA Version'. This mode is basically the increased difficulty of the U.S. versions over the Japanese versions. Although it says 'USA Version' the language is still in Japanese.

CONSERVE AMMO!

\*\*\*\*\*

Resident Evil 2 is somewhat hard. It is easy to use up a lot of ammo. The Tyrant known as Mr. X, and Lickers require a lot of ammo. To conserve ammo throughout the game, strictly use your Handgun and run away from battles.

FIRE FROM A DISTANCE!

\*\*\*\*\*

Lickers and Naked Zombies are extremely versatile when close up to Leon and Claire. You will want to get to a distance and fire guns like the Shotgun, Grenade Launcher and Handgun. When it comes to zombies, try to shoot them at close range.

TRY TO DECAPITATE ZOMBIES!

\*\*\*\*\*

When playing, the SHOTGUN can blow a zombie's head off. For a SHOTGUN SHELL to decapitate a zombie, get close and aim it up, and then fire.

KEEP 1 GREEN HERB AND 1 FIRST AID SPRAY WITH YOU!

\*\*\*\*\*

Sometimes you can drop health because some monsters are stronger than others. Avoid this by carrying a Green herb and First Aid Spray. The Green Herb can cover small damage, while the First Aid Spray can cover sudden health drops from Lickers or Naked Zombies.

MAKE MULTIPLE SAVES!

\*\*\*\*\*

Make at least 3 saves. Make one for the Police Station, and progress on the game, but save onto another spot (preferably the post-G-Imago/William I fight). Those are definite save areas. If you keep multiple saves, you can then start from an older save if you mess up (EX: Use up too much ammo).

A. LEON SCENARIO A  
-----

=====  
CITY AREA 1  
=====

From the crashed truck, head down, passed the hoard of zombies. Keep going until you reach the Gun Shop. In the Gun Shop, the owner has a Shotgun pointed toward Leon, but Leon convinces the owner that he is a human. When you regain control of Leon, walk behind the counter the owner was just behind and grab the Handgun Bullets. Then walk over to the other counter and grab another box of Handgun Bullets. As you walk toward the back door, zombies crash through the windows and eat the Gun Shop Owner! Head behind the counter and shoot the zombies. Once they are all dead, head to the corpse of the shop owner and grab his Shotgun, which has 4 shells. Keep your Handgun equipped, though. Leave the shop through the back door.

From the shop, turn left, passed the locked basketball court gate to the truck at the back. Grab the Handgun Bullets. The gate you just passed will suddenly break open because of the zombies. Kill the zombies and then head through the metal door in the basketball court. It leads to a

staircase. Climb the staircase, head across the catwalk and down another set of stairs. Dispatch the 3 zombies and head through the next door. Dodge the zombies and enter the Bus. Collect the Handgun Bullets behind Leon. Dispatch the zombies and exit the Bus through the other door. Carefully run passed the zombies until you reach a gate. Enter the gate. You're now in the Raccoon City Police Department's Front Lawn.

=====  
RACCOON CITY POLICE STATION  
=====

Head down the stairs to an alleyway. Cross the alleyway until you get to another flight of stairs. Climb them and then grab the Green Herb from where that plant is growing. Then enter the Police Station. Once in, head to the only open door- the second door to the left. Inside, Leon talks to an extremely wounded officer. The officer tells Leon to use his Key Card to unlock the other doors in the hall. Once Leon exits back into the Main Hall, the door to the room locks behind him.

Head to the computer on the reception desk and then use the Blue Card Key (given to you by the officer you just met). The locked doors except for the one you just visited unlock. Head to the first door on the left. There is an Item Box in the room with 3 First Aid Sprays in it. Grab two and deposit the Knife and Green Herb you found outside. Grab the Police Memorandum and remember the combination number "2-2-3-6". Exit through the other door in this room. You're now in Green Hallway # 1. Walk forward until you see a Licker. Use the Shotgun you found in the Gun Shop to kill it. Aim low to hit it. Once the Licker is gone, grab the Green Herb. Head back to the Item Box and mix it with the other one you have. Then deposit the Mixed Herb. Remember the gray door next to where the Licker was for later. Exit to Green Hallway # 2. There, enter the double doors on the side.

In this room, head to the back area and use the lighter on the fireplace. The painting above burns away and a Red Jewel falls out. Grab it. Return to Green Hallway # 2 and exit through the next door. In this hall, dispatch the zombies. Head right, near the staircase and grab the 3 Green Herbs. Mix all of them and enter the door. You're now in the first Save Room, which has a Dark Room in it. In the back are, you can develop film you find throughout the game. Deposit one First Aid Spray, the Shotgun (trust me!) and the Red Jewel. Exit the room and climb the staircase. Once up, turn right and run until you see the 3 statues. To solve the puzzle, you have to have both statues facing the middle statue. Push the statue to the right of the middle statue into the brown rectangle shape in the floor next to the blocked-off door. Then take the other statue and push it into the other brown square shape next to the unblocked door. Another Red Jewel will fall out of the middle statue's fist. Grab it. Now head through the door next to the right statue. This is the STARS Office Hallway. Enter the STARS Office in the middle of the hallway.

In this room, find the locker left of the door. Open it to find another Shotgun. Grab it and head over to the middle desk. Grab Chris' Dairy. After you grab it, get the Unicorn Medal from the same desk. After getting the Unicorn Medal, Claire comes in. Leon decides that he and Claire need to split up. You give her Chris' Dairy and a radio. After the scene is over, leave the room. Go back to the Statue Room where you got the second Red Jewel and head down the staircase. Once back on the first floor, reenter the Save Room with Dark Room in it. Deposit the second Red Jewel you found and save if you have to. Now backtrack to the Main Hall. On the Woman Statue in front of the small steps, use the

Unicorn Medal and a Spade Key will fall out of the statue. Now backtrack to Green Hallway # 1, where you found that Licker. Remember the gray door? Use the Spade Key. In the Messy File Room, go around until you see a step- ladder. Push it until it stops. Climb the step- ladder and grab the Crank. You won't use the Crank until later. Keep going until you reach the staircase leading to the Red Jewel Statue Room. Go into the Save Room with the Dark Room in it and deposit the Crank.

Travel back to the STARS Hallway. Go passed the door you went through before until you turn left and see a door. Use the Spade Key to unlock it. Discard the Spade Key (whenever the game asks you to discard an item, do it because it's useless). Enter the door you just unlocked and use your Shotgun to kill the 5 zombies. This is STARS Reception Room. Head right around the corner until you see a door. To the right is a locked desk. You'll get the key for it soon. Just enter the door next to the desk. Leon is now in the Library. There's nothing important to do here now, so just exit through the double doors. You're now on the balcony above the Main Hall. Kill the zombies with your Handgun. Now turn left until you reach the red box with the emergency ladder. Examine it and take the "yes" option to lower the emergency ladder. The ladder allows access to the Main hall of the first floor so you don't have to keep going back to the staircase in the Red Jewel Statue Room. Don't go down the emergency ladder yet, though. Instead, keep going until you see a door. You're now in the Chief's Reception Room. It is also a Save Room.

Grab the Small Key from the bench, save your game. Now exit the room through the door next to the Typewriter. There are two powerful zombies, so kill them quickly. See the burning helicopter? Well have to extinguish it. Head to the only passable door in this room, located right of the door you just came through. This is the Bird Hallway. Keep running until you see a door. Unlock it and go through. You're now in the East Staircase. Grab the Green Herbs and go down the staircase. Enter the door at the bottom. You're now in the Fan Room. Examine the corpse to find Bullets. Kill the walking zombies and enter the office. See the Safe? Remember the code from the Police Memorandum File? Enter the code and the Safe will reveal Shotgun Shells and a Police Station map. Head out through the double doors. You're now in the East Reception Hall. Clear the zombies, but instead of heading through the brown single door here (the other single door leads to the Main Hall), head back to the East Staircase and climb it back to the Bird Hallway.

Once back in the Bird Hallway, turn right. Dodge the Crows until you reach another door. Head through and you're now on the roof of the Police Station. Head down the stairs until you reach another area of the city.

=====  
CITY AREA 2  
=====

Dodge the zombies until you reach a small Cabin Area. In this area, go to the desk and grab the bullets and the Valve Handle. Don't bother opening the backdoor because it only leads back to the fire from the beginning of the game. Go back to the roof of the Police Station. Once back on the roof, go through the fence opening left of the door. Go to the hole on the wall and use the Valve Handle. Water will spill from above and put out the fire. Go back to the Bird Hallway.

=====  
POLICE STATION BASEMENT

=====  
Once back, go back to the Save Room where you found the Small Key. Grab the 2 Red Jewels you got a while back and head to the now extinguished helicopter. Go passed the wreckage and head through the door (you'll notice a blocked door; don't worry about it). You'll be in a room full of valuables. Notice the statues beside the Knight Armor Statue? Place a Red Jewel on each of the women statues and a King Plug will fall from the Knight Statue. Also, grab the Diamond Key from the crates to the left and the Shotgun Shells hidden amongst the boxes left of the door. Return to the Save Room you just went to. Deposit the King Plug because you don't need until the near end of the game. Now go back to the STARS Reception Room.

Remember the locked desk? Use the Small Key and it will reveal Handgun Parts!!! Combine this with your Handgun to make a Custom Handgun, which can fire 3 bullets at a time! Go back to the STARS Hall and then head back to the Red Jewel Statue Room. Head down the staircase. Once back down in the Dark Room Hall, use the Diamond Key to enter the metal door next to the door that leads to Green Hallway 2 (actually, deposit the Diamond Key for now after using it on the door). The door you just unlocked leads to a file room. There's nothing important here, so exit through the next door. You're now in the room where you talked with that wounded officer (If you play Resident Evil 3: Nemesis, you find out his name is Marvin Branagh).

In the small office, he's now a zombie, so kill him with the Custom Handgun or Shotgun. Grab the Heart Key on the desk and exit through the front door. You're now back in the Main Hall. Go through the door right of the main entrance and you'll be back in the Reception Area outside the Fan Room. Enter the Fan Room again and then head to the entrance to the East Staircase. You'll see another door. Use the Heart Key, discard it and enter. Grab the Green Herbs and then head to the staircase. Pick up the Shotgun Shells behind the Staircase before going down.

Once down the staircase, you're now in the basement. Turn right until you reach double doors. Go through them and you'll be in a Parking Lot. Run forward and you'll trigger a cut scene with Ada Wong, who's looking for her boyfriend. Help her push the truck blocking the door and head through the door you just opened up. Go passed the door until you see a gate. Head through. Talk to Ben in the second cell. After the cut scene, grab the Manhole Opener. Remember the door you just passed in the previous hallway? Go there now. Inside this room, find the manhole left of the Dog Cells. Use the Manhole Opener and climb down into the Sewers.

=====  
THE SEWERS  
=====

Go passed the Giant Spiders until you reach another ladder. Climb it. To the left is a Save Room. Save now. Grab the King Plug and the Diamond Key. Now enter the other door in this room. You are in the H- Shaped room. Go to the end of the room until you see a door. To the right are plug holders. You'll need four of them. Insert the King Plug and exit through the way you came. You'll see Ada. After the cut scene, you'll be in control of her.

=====  
CONTROLLING ADA  
=====

Exit the room. You're now in the Sewer Plant area. Kill the zombies. Now find a lift. Take it down and grab the Shotgun Shells. Take the lift

back up and then head through other door in this area. You're now in the Crate Room. Head down the steps left of the controls and push the right crate into the wall. Climb the middle crate and push it towards the right crate. Then push the left crate in towards the wall. Climb the steps again and then activate the controls. The crates will rise. Cross them and then grab the Club Key. Go back to the first room you took control of Ada in. After the cut scene of Ada giving Leon the Shotgun Shells and Club Key, Leon is back in control.

=====  
BACK TO THE POLICE STATION  
=====

Go all the way back to the main tunnel of the Police Station Basement. Use the Club Key on one of the double doors. Inside, grab the red Card Key. Now go to the other double doors in the room. You have to power up the RPD Basement, so go to the conductor and press Up, Down, Up, Down and Up and Up.

Head next door and inside, you can grab the Submachine Gun and Side Pack. You may want to save it for Claire in Claire B, though. Grab the other ammo elsewhere. Now head back to the first floor of the Police Station.

Once back, head to the door behind the staircase. Use the Club Key to open the door. Inside, grab the Magnum. Exit. Go back to the Reception Area outside the Fan Room. Head through the brown door and head to the first door you see. Use the Diamond Key and discard it. Inside, just grab the Rook Plug. A Licker will then attack, but your new Magnum or Submachine Gun can take care of it.

Exit and find the Green Door in the same hall. Use the Club Key and discard it. Enter the room. Go to the back of the room. Ignite the back furnace with your Lighter. Then turn on the right statue. Then turn on the middle statue and finally the left statue. The Golden Cogwheel will drop from the wall painting. Grab it.

Now climb the East Staircase again and make your way to the Save Room nearby. Grab the Crank from the Item Box. Now go back to the Library. Climb the staircase in the Library. Go passed the door until you drop to a secret area. Press the lighted button to regain access to the 1st floor of the Library. See the bookshelves that have flashing buttons on them? Push the first two to the right and the Bishop Plug will be revealed. Head back to the secret area and grab it. Then climb the staircase in the Library again. Head through the door you passed this time. You're on the third floor of the Main Hall. Head through the other door on this balcony. You're now in the Gear Room.

In the Gear Room, use the Crank on the right wall to lower a small set of steps. Climb those steps to reach a gear wall. Attach the Golden Cogwheel so the wall nearby opens. Grab the Knight Plug and then head down the dust chute. Going down the chute takes you back to the hall outside Ben's Cellblock. Ben will be in a cut scene in which William Birkin impregnates him with G- Imago. Get back to Ben and talk to him. Ada will then come in and tell Leon to head into the Umbrella Lab.

Go back to the area where you took control of Ada. Once back there, head through the door to the save room and save. Bring the Magnum and Shotgun. Go to the door with the plugs. There, the G- Imago will attack you!

=====  
BOSS 1: G-IMAGO  
=====

DIFFICULTY: MEDIUM

Arm that Magnum and start shooting. The G-Imago will spit out infant monsters in the process. Be careful- they can damage. After 1 full Magnum clip has passed, switch to the Shotgun. Another Shotgun clip will finish it off.

=====  
BOSS 1: G-IMAGO  
=====

Now go to the door and insert the Knight, Bishop and Rook plugs. Now exit the final door of the Police Station! We are out of the RPD now! YAY! Now Leon and Ada have to find Claire and get out of the city!

=====  
DEEP INTO THE SEWERS  
=====

Pass the RPD exit and you'll see Ada pop through a wall. After lecturing her, head through the giant door. Through it, pass through this infested hall and through the next door to the save room.

Inside, grab the Valve Handle. Head down the lift. Down there, Annette Birkin will shoot Leon. Ada will be in control again.

=====  
ADA AGAIN  
=====

Take Ada through the next door. Follow Annette Birkin through the fan tunnel to the sewer control room. Find her and she will show her an FMV. After Annette is gone, go down the ladder across the bridge. Ada will see something and then vanish...

=====  
LEON EXPLORES THE SEWERS  
=====

Leon is back in control. Take him through the door and grab the map if you didn't with Ada. In the sewer tunnel, turn left passed the fan ladder. You can't go up it now because it is spinning.

Turn left up a ledge and grab the Wolf Medal from the corpses. Now backtrack passed the fan and turn left (Leon's left). Pass through the gate. Proceed down to the waterfall. Place the Wolf Medal inside the machine to the right and take the door to the left.

Inside, use the Valve Handle on its socket and cross the bridge. Across it, use the valve handle again. Grab the 2 nearby herbs and proceed through the door.

Run down the tunnel and you'll see Ada fighting the next boss...

=====  
BOSS # 2: GIANT ALLIGATOR  
=====

DIFFICULTY: EASY (IF USING CANISTER) HARD (IF USING WEAPONS)

Run back down the tunnel. Fire a shot from the Submachine Gun or Magnum

to slow it down. Run to the canisters and examine them to press them down. Arm the Shotgun now, because it has a wide shooting range. Run back to the entrance and wait for the Alligator. It should now have the canister in its mouth. Now SHOOT it with the Shotgun! The Crocodile's head should blow up!

You can also battle it out with this terror. Arm the Submachine Gun and fire. Turn and run and then fire some more. Keep repeating this pattern, since the Submachine Gun fires fastest. The alligator hits hard, so have healing items handy. If you run short of Submachine Gun ammo, which probably won't happen unless you wasted it against the G-Imago, or you left the Submachine Gun for Claire use the Magnum!

=====  
BOSS # 2: GIANT ALLIGATOR  
=====

=====  
GETTING OUT OF THE SEWERS  
=====

Now we need to get out. Head to the giant door in the alligator hall and unlock it. Head to where you saw Ada and talk to her. Climb up the ladder to where Ada fought Annette. Go to the corpse in the room and grab the Eagle Medal.

Now go back to where you fought that Alligator. Head back to the bridge room and use the valve handle to lower it. Now return all to the waterfall and use the Eagle Medal. Pass through the new door now.

Through it is a tunnel to cross. Passed that is the tram. Activate it with the console to the right. Ride the tram.

=====  
BOSS # 3: WILLIAM'S ARM  
=====

DIFFICULTY: EASY

You can help Ada fight it out with this guy or let her do the fighting. You might want to do the latter choice if you are skimping on ammo thanks to stupidly fighting the crocodile. Wait for clouds of dust to fall from the ceiling and then fire. Ada will automatically scare it away once it is damaged enough.

=====  
BOSS # 3: WILLIAM'S ARM  
=====

After the tram ride finishes, search the corner right of the flare for a Locker Key. Proceed through the next door. Follow the tunnels and sway left. Grab the Shotgun Parts and combine them with the Shotgun! The Auto Shotgun is even more powerful than the Magnum!

Follow the other side of the tunnels. Take through the door and up the ladder in the next tunnel. You are in the Factory Save Room. Reorganize your items because there is yet ANOTHER boss battle coming.

You want the normal Shotgun, but you MODIFIED it! Well, you found another Shotgun way back in the RPD, so that is the one you should use, thanks to it being faster than the modded Shotgun. Pack the Magnum, too, and if you wish, the Submachine Gun.

NOTE: The next boss is pretty tough! If you are skimping in all types of ammo because you left the Submachine Gun in the RPD basement, my

suggestion to you now is to go ALL THE WAY BACK to the RPD and get it. Super Lickers are coming up and even the Magnum can't kill it directly!

To get back, follow the tram back through the tunnels into the sewers. Head up the lift to the save room and passed the room where you fought the G-Imago. Head outside Ben's cell to the RPD basement and grab the Submachine Gun, but ONLY if you are desperate for ammo! You can still get back to the RPD for anything you may have left, so here is your last chance!

Head out and into the elevator car. In the back, grab the Control Panel Key and activate the elevator car outside in the panel. Back inside, the arm boss injures Ada again. Head out with the Shotgun equipped.

=====  
BOSS # 4: WILLIAM II  
=====

DIFFICULTY: MEDIUM

This guy is William II, not I. In the corresponding scenario, Claire B, Claire fights William I in the RPD exit. Get FAR, FAR away from William. Now fire the Normal Shotgun at will. Its wide range can secure a clean hit and it is also pretty fast. Fire clean hits and switch to the Magnum after 1 clip of the Shotgun.

William falls down- dead? Nah.

=====  
BOSS # 4: WILLIAM II  
=====

Back inside, Ada is hurt. You arrive in William Birkin's lab. Now to beat Leon A!

=====  
THE LAB  
=====

After talking to Ada, grab the supplies in the save room. Replace the Shotgun for the Auto Shotgun. Grab the Magnum, too. Head out. Turn right through the door. Turn left at the fork.

Through the next door, turn to the very left door. Inside the Cold Room, grab the Fuse from the cart and use it on the nearby machine. After the Main Fuse is done, head back to the fork. Use the main Fuse there.

Now travel down the right fork. Inside, kill all the plants and turn right. Grab the Flamethrower in the Locker and exit. Head to the locked shutter and raise it. Through it is a door. Beyond that is a ladder.

Climb down. Take the next door. Go down the tunnel and use the Flamethrower on the 3 Super Lickers. Grab the 3 herbs and pass the shutter. You need the MO Disk for that.

Through the next door is yet another save room. Run passed this room. In the next room, take the left door. Inside, use the Key from the tram area on the lockers here. You get MAGNUM PARTS! YAY! Add that to the Magnum and you have a killing machine! Use the Auto Shotgun on the super zombies.

Grab the Lab Card Key! Outside, head to the other door, passed the larva. Arm the Flamethrower. Use the Lab Card Key to gain entrance.

Sigh. Another boss battle.

=====

BOSS # 5: GIANT MOTH

=====

DIFFICULTY: EASY

Use the Flamethrower against big ugly. After about 30% of it is gone, this moth dies a HORRIBLE and hot death. Meh. This guy shouldn't be CALLED a boss!

=====

BOSS # 5: GIANT MOTH

=====

Head to the computer and use the Shotgun on the larva. Enter the computer and enter the password "GUEST." Now head back to the room outside the Cold Room. Head to the right shutter. Open it up and register your fingerprint in the nearby computer.

You still can't open that giant door unless Claire registers her print. You do that in Claire B.

Take to the nearby single door. Inside, grab the MO Disk and exit. Outside, Annette confronts you and gets piped! Grab the G- Virus from her. The Lab then tells Leon it will explode in a few minutes. Head back to the Fuse Room.

Outside, Ada will confront you. After she falls down to the pit, run back to the MO Disk shutter. There, use the MO Disk and pass through the large door.

Take to the elevator and then boss # friggin 6 comes out. Good thing the game is almost over!

=====

BOSS # 6: WILLIAM III

=====

DIFFICULTY: MEDIUM

After it comes in, run and fire the Custom Magnum into its ugly face! After about 5 Shots, it mutates into William IV.

=====

BOSS # 6: WILLIAM III

=====

BOSS # 7: WILLIAM IV

=====

DIFFICULTY: HARD

Fire more Magnum shots into this ass. After about 10 shots, it finally goes down. For good? Nah again.

Dispatch all the zombies on the ledge and grab the Unicorn Medal on the other side, passed the 2 doors.

Activate the Emergency Ladder and head down. Grab the Shotgun from the desk. Go to the giant statue and like in Claire A, use it to grab the Spade Key. Head back to the roof via the ladder. There, head left and use the Valve Handle. Check the chopper for Ammo. Equip the Shotgun. A boss is coming. Head inside the Bird Hallway. Mr. X, a Tyrant designed to hunt William Birkin down comes in.

=====

BOSS # 1: MR. X

Inside, push the ladder to where Claire found the crank. This time, though, he finds a First Aid Spray. Outside, exit to Green Hallway # 2. There, enter the double doors on the side.

In this hall, dispatch the zombies. Head right, near the staircase and grab the 2 Green Herbs. Mix all of them and enter the door.

You're now in the second Save Room, which has a Dark Room in it. In the back are, you can develop film you find throughout the game. Exit the room and climb the staircase. Once up, turn right and run until you see the 3 statues. To solve the puzzle, you have to have both statues facing the middle statue. Push the statue to the right of the middle statue into the brown rectangle shape in the floor next to the blocked-off door.

Then take the other statue and push it into the other brown square shape next to the unblocked door. Another Red Jewel will fall out of the middle statue's fist. Grab it. Now head through the door next to the right statue. This is the STARS Office Hallway. Enter the STARS Office in the middle of the hallway.

In this room, find the locker left of the door. Open it to find the Magnum. Head to the STARS Reception Room to find Sherry. Watch her climb under the blocked door. Grab the Diamond Key and talk to Claire.

Go back to the Statue Room where you got the second Red Jewel and head down the staircase. Once back on the first floor, reenter the Save Room with Dark Room in it.

Save up and reorganize your inventory. Make sure you have the Diamond Key, 2X Red Jewels, Shotgun w/ Shells, Handgun w/ Bullets. Head into the door leading to the Cabinet Room. Travel to the damaged door and use the Bomb and Detonator. Travel down the East Staircase and down to the door leading to the basement. Use the Heart Key and discard it.

=====  
POLICE STATION BASEMENT  
=====

Once down the staircase, you're now in the basement. Turn right until you reach double doors. Go through them and you'll be in a Parking Lot. Run forward and you'll trigger a cut scene with Ada Wong, who's looking for her boyfriend. Help her push the truck blocking the door and head through the door you just opened up. Go passed the door until you see a gate. Head through. Talk to Ben in the second cell. After the cut scene, grab the Manhole Opener. Remember the door you just passed in the previous hallway? Go there now. Inside this room, find the manhole left of the Dog Cells. Use the Manhole Opener and climb down into the Sewers.

Climb the middle crate and push it towards the right crate. Then push the left crate in towards the wall. Climb the steps again and then activate the controls. The crates will rise. Cross them and then grab the Club Key. Go back to the first room you took control of Ada in. After the cut scene of Ada giving Leon the Shotgun Shells and Club Key, Leon is back in control.

BACK TO THE POLICE STATION

=====

Go all the way back to the main tunnel of the Police Station Basement. Use the Club Key on one of the double doors. Inside, grab the red Card Key. Now go to the other double doors in the room. You have to power up the RPD Basement, so go to the conductor and press Up, Down, Up, Down and Up and Up.

Head next door and inside, you can grab the Submachine Gun and Side Pack. If you left it for Leon in Claire A, it'll be here. If Claire took it, Leon is out of luck. Grab the other ammo elsewhere.

Now travel to the Chief's Office and to the room where Claire first found Sherry. There, grab the Crank on the chest on the table.

Once back, head to the door behind the staircase. Use the Club Key to open the door. Inside, grab the Ammo. Exit. Go back to the Reception Area outside the Fan Room. Head through the brown door and head to the first door you see. Use the Diamond Key and discard it. Inside, just grab another Plug. A Licker will then attack, but your Magnum or Submachine Gun can take care of it.

Exit and find the Green Door in the same hall. Use the Club Key and discard it. Enter the room. Go to the back of the room. Ignite the back furnace with your Lighter. Then turn on the right statue. Then turn on the middle statue and finally the left statue. The Golden Cogwheel will drop from the wall painting. Grab it.

RACCOON CITY POLICE STATION  
=====

Head down the stairs to an alleyway. Cross the alleyway until you get to another flight of stairs. Climb them and then grab the Green Herb from where that plant is growing. Then enter the Police Station. Once in, head to the only open door- the second door to the left. Inside, Claire talks to an extremely wounded officer. The officer tells Claire to use his Key Card to unlock the other doors in the hall. Once Claire exits back into the Main Hall, the door to the room locks behind her.

Head to the computer on the reception desk and then use the Blue Card Key (given to you by the officer you just met). The locked doors except for the one you just visited unlock. Head to the first door on the left. There is an Item Box in the room with 3 First Aid Sprays in it. Grab two and deposit the Knife and Green Herb you found outside. Grab the Police Memorandum and remember the combination number "2-2-3-6". Exit through the other door in this room.

You're now in Green Hallway # 1. Walk forward until you see a Licker. Use the Bow Gun you found in the Gun Shop to kill it. Aim low to hit it. Once the Licker is gone, grab the Green Herb. Head back to the Item Box and mix it with the other one you have. Then deposit the Mixed Herb. Remember the gray door next to where the Licker was for later. Exit to Green Hallway # 2. There, enter the double doors on the side.

In this room, head to the back area and examine the painting. Claire needs to use the lighter on the fireplace. She will find it later. Return to Green Hallway # 2 and exit through the next door. In this hall, dispatch the zombies. Head right, near the staircase and grab the 3 Green Herbs. Mix all of them and enter the door.

You're now in the first Save Room, which has a Dark Room in it. In the back are, you can develop film you find throughout the game. Deposit one First Aid Spray, the Shotgun (trust me!) and the Red Jewel. Exit the room and climb the staircase. Once up, turn right and run until you see the 3 statues. To solve the puzzle, you have to have both statues facing the middle statue. Push the statue to the right of the middle statue into the brown rectangle shape in the floor next to the blocked-off door. Then take the other statue and push it into the other brown square shape next to the unblocked door.

The first Red Jewel will fall out of the middle statue's fist. Grab it. Now head through the door next to the right statue. This is the STARS Office Hallway. Enter the STARS Office in the middle of the hallway.

In this room, find the locker left of the door. Open it to find the G. Launcher. Grab it and head over to the middle desk. Grab Chris' Dairy. After you grab it, get the Unicorn Medal from the same desk. Leave the room. Go back to the Statue Room where you got the Red Jewel and head down the staircase.

Once back on the first floor, backtrack to the Main Hall. On the Woman Statue in front of the small steps, use the Unicorn Medal and a Spade Key will fall out of the statue. Now backtrack to Green Hallway # 1, where you found that Licker. Remember the gray door? Use the Spade Key. In the Messy File Room, go around until you see a step- ladder. Push it until it stops. Climb the step- ladder and grab the Crank. You won't use the Crank until later. Keep going until you reach the staircase leading to the Red Jewel Statue Room. Go into the Save Room with the Dark Room in it and deposit the Crank.

Travel back to the STARS Hallway. Sherry will be here. Go passed the door you went through before until you turn left and see a door. Use the Spade Key to unlock it. Discard the Spade Key (whenever the game asks you to discard an item, do it because it's useless). Enter the door you just unlocked. Leon is here This is STARS Reception Room. Head right around the corner until you see a door. To the right is a locked desk. Pick it and grab the item. Enter the door next to the desk.

Claire is now in the Library. There's nothing important to do here now, so just exit through the double doors. You're now on the balcony above the Main Hall. Kill the zombies with your Handgun. Now turn left until you reach the red box with the emergency ladder. Examine it and take the "yes" option to lower the emergency ladder. The ladder allows access to the Main hall of the first floor so you don't have to keep going back to the staircase in the Red Jewel Statue Room. Don't go down the emergency ladder yet, though. Instead, keep going until you see a door. You're now in the Chief's Reception Room. It is also a Save Room.

Grab the Lighter from the bench and save your game. Now head back to the ladder and go down it. Then head back to Green Hallway 2. There, head through the double doors to that painting. Use the Lighter. Grab the second Red Jewel. Travel back to the Save Room where you found the Lighter.

Now exit the room through the door next to the Typewriter. There are two powerful zombies, so kill them quickly. See the burning helicopter? Well have to extinguish it. Head to the only passable door in this room, located right of the door you just came through. This is the Bird Hallway. Keep running until you see a door. Unlock it and go through. You're now in the East Staircase. Grab the Green Herbs and go down the staircase. Enter the door at the bottom. You're now in the Fan Room. Examine the corpse to find Bullets. Kill the walking zombies and enter the office.

See the Safe? Remember the code from the Police Memorandum File? Enter the code and the Safe will reveal Shotgun Shells and a Police Station map. Head out through the double doors. You're now in the East Reception Hall. Clear the zombies, but instead of heading through the brown single door here (the other single door leads to the Main Hall), head back to the East Staircase and climb it back to the Bird Hallway.

Once back in the Bird Hallway, turn right. Dodge the Crows until you reach another door. Head through and you're now on the roof of the Police Station. Head down the stairs until you reach another area of the

city.

=====

## CITY AREA 2

=====

Dodge the zombies until you reach a small Cabin Area. In this area, go to the desk and grab the Second Bow Gun and the Valve Handle. Don't bother opening the backdoor because it only leads back to the fire from the beginning of the game. Go back to the roof of the Police Station. Once back on the roof, go through the fence opening left of the door. Go to the hole on the wall and use the Valve Handle. Water will spill from above and put out the fire. Go back to the Bird Hallway.

=====

## POLICE STATION BASEMENT

=====

Once back, go back to the Save Room where you found the Lighter. Grab the 2 Red Jewels you got a while back and head to the now extinguished helicopter. Go passed the wreckage and head through the door (you'll notice a blocked door; don't worry about it). You'll be in a room full of valuables. Notice the statues beside the Knight Armor Statue? Place a Red Jewel on each of the women statues and a Half Jaguar Stone will fall from the Knight Statue.

Also, grab the Diamond Key from the crates to the left and the G. Launcher hidden amongst the boxes left of the door. Return to the Save Room you just went to. Deposit the Half Jaguar Stone because you don't need until the near end of the game. Now go back to the bottom of the staircase outside the Dark Room.

Once back down in the Dark Room Hall, use the Diamond Key to enter the metal door next to the door that leads to Green Hallway 2 (actually, deposit the Diamond Key for now after using it on the door). The door you just unlocked leads to a file room. Pick the flashing lock and grab the Bomb, then exit through the next door. You're now in the room where you talked with that wounded officer (If you play Resident Evil 3: Nemesis, you find out his name is Marvin Branagh).

In the small office, he's now a zombie, so kill him with the Bow Gun or G. Launcher. Grab the Heart Key on the desk and exit through the front door. You're now back in the Main Hall. Go through the door right of the main entrance and you'll be back in the Reception Area outside the Fan Room.

Enter the Fan Room again and then head to the entrance to the East Staircase. You'll see another door. Use the Heart Key, discard it and enter. Grab the Green Herbs and then head to the staircase. Pick up the Shotgun Shells behind the Staircase before going down.

Once down the staircase, you're now in the basement. Turn left until you reach double doors. Go through them and you'll be in a Sewer Entrance. Run forward and down the ladder. Head into the save room and head out for now. You'll trigger a cut scene with Sherry Birkin, who's looking for her father. You are now controlling Sherry. The small vent leads to an area of the sewers.

=====

## CONTROLLING SHERRY

=====

Exit the room. You're now in the Sewer Plant area. Dodge the zombies.

Now find the door to the very left. Head through it and grab the Grenade Launcher Ammo. Head through other door in this area. You're now in the Crate Room. Head down the steps left of the controls and push the right crate into the wall. Climb the middle crate and push it towards the right crate. Then push the left crate in towards the wall. Climb the steps again and then activate the controls. The crates will rise. Cross them and then grab the Club Key. Go back to the first room you took control of Sherry in. After the cut scene of Sherry giving Claire the G. Launcher Ammo and Club Key, Claire is back in control.

=====  
BACK TO THE POLICE STATION  
=====

Go all the way back to the main tunnel of the Police Station Basement. Use the Club Key on one of the double doors. Inside, grab the red Card Key. Now go to the other double doors in the room. You have to power up the RPD Basement, so go to the conductor and press Up, Down, Up, Down and Up and Up.

Head next door and inside, you can grab the Submachine Gun and Side Pack. You may want to save it for Leon in Leon B, though. Grab the other ammo elsewhere. Now head back to the first floor of the Police Station.

Once back, head to the door behind the staircase. Use the Club Key to open the door. Inside, grab the ammo. Exit. Go back to the Reception Area outside the Fan Room. Head through the brown door and head to the first door you see. Use the Diamond Key and discard it. Inside, just grab the Eagle Stone. A Licker will then attack, but your G. Launcher or Submachine Gun can take care of it.

Exit and find the Green Door in the same hall. Use the Club Key and discard it. Enter the room. Go to the back of the room. Ignite the back furnace with your Lighter. Then turn on the right statue. Then turn on the middle statue and finally the left statue. The Golden Cogwheel will drop from the wall painting. Grab it.

Now climb the East Staircase again and make your way to the Save Room nearby. Grab the Crank from the Item Box. Now go back to the Library. Climb the staircase in the Library. Go passed the door until you drop to a secret area. Press the lighted button to regain access to the 1st floor of the Library. See the bookshelves that have flashing buttons on them? Push the first two to the right and the Bishop Plug will be revealed. Head back to the secret area and grab it. Then climb the staircase in the Library again. Head through the door you passed this time. You're on the third floor of the Main Hall. Head through the other door on this balcony. You're now in the Gear Room.

In the Gear Room, use the Crank on the right wall to lower a small set of steps. Climb those steps to reach a gear wall. Attach the Golden Cogwheel so the wall nearby opens. Grab the Half Jaguar Stone and combine it with the other half.

Then head back to the Chief's Room. Keep it on for Iron's Room. There, insert the 3 stones (Jaguar, Serpent, Eagle) into the painting. A new compartment will be revealed. Travel to it and head down the elevator. Pass through the dungeons and talk to Irons. William Birkin will inject G-Imago into Irons. Grab the nearby Acid Rounds and head down the ladder. The first boss battle occurs with G- Imago.

=====

BOSS 1: G-IMAGO

=====

DIFFICULTY: MEDIUM

Arm that G. Launcher and start shooting. The G-Imago will spit out infant monsters in the process. Be careful- they can damage. After 1 full G. Launcher clip has passed, switch to the Submachine Gun. Another 10% Submachine Gun clip will finish it off.

=====

BOSS 1: G-IMAGO

=====

Now get back to Sherry and go back here. Call the ladder and climb it to the next room. After seeing William Birkin, exit the final door of the Police Station! We are out of the RPD now! YAY! Now Claire and Sherry have to find Leon and get out of the city!

=====

DEEP INTO THE SEWERS

=====

Pass the RPD exit and you'll see Sherry fall through a vent. We gotta control Sherry again.

=====

SHERRY AGAIN

=====

Take Sherry through the next door. Look for a vent in this secret warehouse. RUN through this tunnel before the roaches get her. Outside, grab the Wolf Medal and Sherry will fall through.

=====

CLAIRE EXPLORES THE SEWERS

=====

Claire is back in control. Take her through the door and into the save room. Through it, grab the Valve Handle from the item box. Head down the lift.

Follow the tunnel and grab the map. In the sewer tunnel, turn left passed the fan ladder. You can't go up it now because it is spinning.

Now the other way passed the fan and turn left (Claire's left). Pass through the gate. Proceed down to the waterfall. Take note of the machine to the right of the waterfall and take the door to the left.

Inside, use the Valve Handle on its socket and cross the bridge. Across it, use the valve handle again. Grab the 2 nearby herbs and proceed through the door.

Run down the tunnel and you'll see Sherry near the next boss...

=====

BOSS # 2: GIANT ALLIGATOR

=====

DIFFICULTY: EASY (IF USING CANISTER) HARD (IF USING WEAPONS)

Run back down the tunnel. Fire a shot from the Submachine Gun or Bow Gun to slow it down. Run to the canisters and examine them to press them down. Arm the G. Launcher now, because it has a wide shooting range. Run back to the entrance and wait for the Alligator. It should now have the canister in its mouth. Now SHOOT it with the G. Launcher! The Crocodile's head should blow up!

You can also battle it out with this terror. Arm the Submachine Gun and fire. Turn and run and then fire some more. Keep repeating this pattern, since the Submachine Gun fires fastest. The alligator hits hard, so have healing items handy. If you run short of Submachine Gun ammo, which probably won't happen unless you wasted it against the G-Imago, or you left the Submachine Gun for Leon use the G. Launcher!

=====  
BOSS # 2: GIANT ALLIGATOR  
=====

=====  
GETTING OUT OF THE SEWERS  
=====

Now we need to get out. Head to the giant door in the alligator hall and unlock it. Head to where you saw Sherry and talk to her. Grab the Wolf Medal. Climb up the ladder. Go to the corpse in the room and grab the Eagle Medal.

Now go back to where you fought that Alligator. Head back to the bridge room and use the valve handle to lower it. Now return all to the waterfall and use the Eagle Medal. Pass through the new door now.

Through it is a tunnel to cross. Passed that is the tram. Activate it with the console to the right. Ride the tram.

After the tram ride finishes, search the corner right of the flare for a Locker Key. Proceed through the next door. Follow the tunnels and sway left. Grab the Spark Shot! The Spark Shot is even more powerful than the G. Launcher's Flame Rounds!

Follow the other side of the tunnels. Take through the door and up the ladder in the next tunnel. You are in the Factory Save Room. Reorganize your items because there is yet ANOTHER boss battle coming.

NOTE: The next boss is pretty tough! If you are skimping in all types of ammo because you left the Submachine Gun in the RPD basement, my suggestion to you now is to go ALL THE WAY BACK to the RPD and get it. Super Lickers are coming up and even the G. Launcher can't kill it directly!

To get back, follow the tram back through the tunnels into the sewers. Head up the lift to the save room and passed the room where you fought the G-Imago. Head outside Iron's secret room to the RPD basement and grab the Submachine Gun, but ONLY if you are desperate for ammo! You can still get back to the RPD for anything you may have left, so here is your last chance!

Head out and into the elevator car. In the back, grab the Control Panel Key and activate the elevator car outside in the panel. Back inside, the arm boss appears. Head out with the Spark Shot equipped.

=====  
BOSS # 4: WILLIAM II  
=====

DIFFICULTY: MEDIUM

This guy is William II, not I. In the corresponding scenario, Leon B, Leon fights William I in the RPD exit. Get FAR, FAR away from William. Now fire the Spark Shot at will. Its wide range can secure a clean hit and it is also pretty fast. Fire clean hits and switch to the Bow Gun after 15 clip of the Spark Shot.

William falls down- dead? Nah.

=====  
BOSS # 4: WILLIAM II  
=====

Back inside, Sherry is fine. You arrive in William Birkin's lab. Now to beat Claire A!

=====  
THE LAB  
=====

After talking to Sherry, grab the supplies in the save room. Replace the Bow Gun for the Submachine Gun. Grab the G. Launcher, too. Head out. Turn right through the door. Turn left at the fork.

Through the next door, turn to the very left door. Inside the Cold Room, grab the Fuse from the cart and use it on the nearby machine. After the Main Fuse is done, head back to the fork. Use the main Fuse there.

Now travel down the right fork. Inside, kill all the plants and turn right. Grab the items in the Locker and exit. Head to the locked shutter and raise it. Through it is a door. Beyond that is a ladder.

Climb down. Take the next door. Go down the tunnel and use the Flame Rounds on the 3 Super Lickers. Grab the 3 herbs and pass the shutter. You need the MO Disk for that.

Through the next door is yet another save room. Run passed this room. In the next room, take the left door. Inside, use the Key from the tram area on the lockers here. You get G. Launcher ammo! YAY! Add that to the G. Launcher and you have a killing machine! Use the Sub Machine Gun on the super zombies.

Grab the Lab Card Key! Annette is in the next scene. She gives you the instructions to the G- Vaccine and dies.

Outside, head to the other door, passed the larva. Arm the Flame Rounds. Use the Lab Card Key to gain entrance. Sigh. Another boss battle.

=====  
BOSS # 5: GIANT MOTH  
=====

DIFFICULTY: EASY

Use the Flame Rounds against big ugly. After about 10 of it is gone, this moth dies a HORRIBLE and hot death. Meh. This guy shouldn't be CALLED a boss!

=====  
BOSS # 5: GIANT MOTH  
=====

Head to the computer and use the Sub Machine Gun on the larva. Enter the computer and enter the password "GUEST." Now head back to the room outside the Cold Room. Head to the right shutter. Open it up and register your fingerprint in the nearby computer.

You still can't open that giant door unless Leon registers her print. You do that in Leon B.

Take to the nearby single door. Inside, grab the MO Disk. Grab the Vaccine Base, too. Turn on the light and apply it to the machines on the wall. Turn on that giant machine in the room to make the Vaccine Medium.

Head back to the exit shutter. There, use the MO Disk and pass through the large door. But head back to Birkin's Experiment Room. In the machine on the corner, apply the Vaccine Medium for the G- Vaccine.

Head back to the MO Disk Shutter and then head into the tube room. Inside, take to the elevator and then boss # friggin 6 comes out. Good thing the game is almost over!

=====

BOSS # 6: WILLIAM III

=====

DIFFICULTY: MEDIUM

After it comes in, run and fire the Submachine Gun into its ugly face!

After about 15% Shots, it mutates into William IV.

=====

BOSS # 6: WILLIAM III

=====

=====

BOSS # 7: WILLIAM IV

=====

DIFFICULTY: HARD

Fire more Flame Round shots into this ass. After about 10 shots, it finally goes down. For good? Nah again.

=====

BOSS # 7: WILLIAM IV

=====

Head down the elevator! Follow the tunnel and watch the ending of Claire A! It is not the full ending, though. Play the next game, Leon B, for the ending of this ending!

-----  
B. CLAIRE SCENARIO B  
-----

Grab the Cabin Key nearby and use it on the locked back door. Carefully run passed the zombies until you reach some stairs. Enter the gate. You're now in the Raccoon City Police Department's Roof. Watch the FMV.

=====

RACCOON CITY POLICE STATION

=====

Head into the Bird Hallway and down the East Staircase. In the Detective's Office, grab the Valve Handle. Head to the nearby safe in the adjacent room. Remember the code I told you to remember in Leon A? It was 2236. Enter for an RPD Map and some Acid Rounds. Head back up the East Staircase. Pass through the Save Room and into the Main Hall. Dispatch all the zombies on the ledge and grab the Unicorn Medal on the other side, passed the 2 doors.

Activate the Emergency Ladder and head down. Grab the G. Launcher. Go to the giant statue and like in Leon A, use it to grab the Spade Key. Head back to the roof via the ladder. There, head left and use the Valve Handle. Check the chopper for Acid Rounds. Equip the G. Launcher. A boss is coming. Head inside the Bird Hallway. Mr. X, a Tyrant designed to hunt William Birkin down comes in.

=====  
BOSS # 1: MR. X  
=====

DIFFICULTY: EASY

Launch grenades into this evil, evil man. Switch to the Acid Rounds when you run out. Mr. X drops a random item.

=====  
BOSS # 1: MR. X  
=====

Travel to the room here Leon used the 2 Red Jewels. Inside, grab the Blue Card Key. Head for the Main Hall. Head to the computer on the reception desk and then use the Blue Card Key. The locked doors except for the one where Leon saw Marvin unlock. Head to the first door on the left. There is an Item Box in the room. Grab two and deposit the Knife.

Exit through the other door in this room. You're now in Green Hallway # 1. Walk forward to the first door. Grab the Green Herb. Now use the Spade Key and discard it. Inside, push the ladder to where Leon found the crank. This time, though, she finds the Lighter. Outside, exit to Green Hallway # 2. There, enter the double doors on the side.

In this room, head to the back area and use the lighter on the fireplace. The painting above burns away and a Red Jewel falls out. Grab it. Return to Green Hallway # 2 and exit through the next door. In this hall, dispatch the zombies. Head right, near the staircase and grab the 2 Green Herbs. Mix all of them and enter the door.

You're now in the second Save Room, which has a Dark Room in it. In the back area, you can develop film you find throughout the game. Exit the room and climb the staircase. Once up, turn right and run until you see the 3 statues. To solve the puzzle, you have to have both statues facing the middle statue. Push the statue to the right of the middle statue into the brown rectangle shape in the floor next to the blocked-off door.

Then take the other statue and push it into the other brown square shape next to the unblocked door. Another Red Jewel will fall out of the middle statue's fist. Grab it. Now head through the door next to the right statue. This is the STARS Office Hallway. Enter the STARS Office in the middle of the hallway.

Leon is here. After the talks, look around the room. In this room, find the locker left of the door. Open it to find the Bow Gun. Grab it and head over to the middle desk. Get the Diamond Key from the same desk. After getting the Diamond Key, leave the room. You'll see Sherry run away.

Go back to the Statue Room where you got the second Red Jewel and head down the staircase. Once back on the first floor, reenter the Save Room with Dark Room in it.

Save up and reorganize your inventory. Make sure you have the Diamond Key, 2X Red Jewels, G. Launcher w/ Acid Rounds, Handgun w/ Bullets. Head into the door leading to the Cabinet Room. Inside, pick the flashing cabinet for a Bomb. Exit into the Marvin Room. Go to where Leon got the Heart Key and grab the Detonator. Combine it with the Bomb to make the bomb and detonator.

Travel back to the Chopper Hallway. Head inside the room where you found the Blue Card Key and use the 2 Red Jewels. Grab the Half Jaguar Stone.

Travel to the damaged door and use the Bomb and Detonator. Pass through the clear hall now. Enter the Chief's Room. Examine the body and talk to Brian Irons. Take the other door in this room.

Follow the hall to the Chief's Side Room. There, meet up with Sherry. Head back to Irons and grab the Heart Key. Travel down the East Staircase and down to the door leading to the basement. Use the Heart Key and discard it.

Now travel to the sewer entrance Leon used to get to the sewers, just outside Ben's Cell. There, grab the Crank on the floor near the locked sewer. Detour into Ben's Cell (He's now dead) and grab the Bow Gun Bolts. Now head back to the first floor of the Police Station.

DIFFICULTY: EASY (IF USING CANISTER) HARD (IF USING WEAPONS)

Run back down the tunnel. Fire a shot from the Submachine Gun or G. Launcher to slow it down. Run to the canisters and examine them to press them down. Arm the Bow Gun now, because it has a wide shooting range. Run back to the entrance and wait for the Alligator. It should now have the canister in its mouth. Now SHOOT it with the Bow Gun! The Crocodile's head should blow up!

You can also battle it out with this terror. Arm the Submachine Gun and fire. Turn and run and then fire some more. Keep repeating this pattern, since the Submachine Gun fires fastest. The alligator hits hard, so have healing items handy. If you run short of Submachine Gun ammo, which probably won't happen unless you wasted it against William I and Mr. X, or you took the Submachine Gun as Leon, use the G. Launcher!

BOSS # 6: GIANT ALLIGATOR

=====

=====

GETTING OUT OF THE SEWERS

=====

Now we need to get out. Head to the giant door in the alligator hall and unlock it. Head to where you saw the Giant Crocodile. Climb up the ladder to where Ada fought Annette. Go to the corpse in the room and grab the Eagle Medal.

Now go back to where you fought that Alligator. Head back to the bridge room and use the valve handle to lower it. Now return all to the waterfall and use the Eagle Medal. Pass through the new door now.

Through it is a tunnel to cross. Passed that is the tram. Activate it with the console to the right. Sherry will come in. Ride the tram.

After the tram ride finishes, search the corner right of the flare for a Locker Key. Proceed through the next door. Follow the tunnels and sway left. Grab the Spark Shot!

Follow the other side of the tunnels. Take through the door and up the ladder in the next tunnel. You are in the Factory Save Room. Reorganize your items because there is yet ANOTHER boss battle coming.

Head out and down the lift. Follow the tunnels and grab the Control Panel Key. Another boss comes in.

=====  
BOSS # 7: MR. X  
=====

DIFFICULTY: EASY

Mr. X is back, so use the same reflexes from the previous battle. Use the Submachine Gun and G. Launcher simultaneously. Mr. X falls- grab the random ammo!

=====  
BOSS # 7: MR. X  
=====

get back to the Control Room where Sherry is at. Use the Control Panel Key on that machine and head to the Elevator Car. Power it up like in the previous game (Leon A) and head in.

Once in, talk to Sherry and fight boss number \*8\*!

=====  
BOSS # 8: WILLIAM III  
=====

DIFFICULTY: MEDIUM

This guy is William III, not II. In the corresponding scenario, Leon A, Leon fights William II in the elevator car. Get FAR, FAR away from William. Now fire the Spark Shot at it. Its wide range can secure a clean hit and it is also pretty fast. Fire clean hits and switch to the G. Launcher after 15% of the Spark Shot.

William falls down- dead? Nah.

=====  
BOSS # 8: WILLIAM III  
=====

Back inside, Sherry is fine. You arrive in William Birkin's lab. Now to beat Claire B!

=====  
THE LAB  
=====

After talking to Sherry, head out. Head through the vent and an FMV will occur. You are in the Elevator Hallway. Leon never came here. Head down the tunnel and to the right. Inside the Power Area, push the steel box down the lift. Push it to the other set of crates in the room. You can climb them and see a locked door. You need to get to the Power Room.

Back in the Power Area, ride the second lift down (down from the first lift. Down there, kill the Super Lickers and flip the switch. Head back to the elevator hallway and up the elevator at the other end. You will be in the lab's main area near the save room Leon left Ada in. head through the door to the fuse area.

Through the next door, turn to the very left door. Inside the Cold Room, grab the Fuse from the cart and use it on the nearby machine. After the Main Fuse is done, head back to the fork. Use the main Fuse there.

Now travel down the right fork. Inside, kill all the plants and turn

right. Grab the Lab Card Key and exit. Head to the locked shutter and raise it. Through it is a door. Beyond that is a ladder.

Climb down. Take the next door. Go down the tunnel and use the Flame Rounds on the 3 Super Lickers. Grab the 3 herbs and pass the shutter. You don't need to head through there, unlike Leon A.

Through the next door is yet another save room. Run passed this room. In the next room, take the left door. Inside, use the Key from the tram area on the lockers here. You get Grenade Rounds! YAY! Add that to the G. Launcher and you have a killing machine! Use the Bow Gun on the super zombies.

Grab the Power Room Key! Outside, head to the other door, passed the larva. Arm the Flame Rounds. Use the Lab Card Key to gain entrance. Sigh. Another boss battle.

=====  
BOSS # 9: GIANT MOTH

=====  
DIFFICULTY: EASY

Use the Flame Rounds against big ugly. After about 3 rounds of it is gone, this moth dies a HORRIBLE and hot death. Meh. This guy shouldn't be CALLED a boss!

=====  
BOSS # 9: GIANT MOTH

=====  
Head to the computer and use the Handgun on the larva. Enter the computer and enter the password "GUEST." Now head back to the room outside the Cold Room. Annette will be on the way. Head to the right shutter. Open it up and register your fingerprint in the nearby computer.

Enter through the door if you registered the print in Leon A. Through it is 3 Super Lickers and either Submachine Gun or Submachine Gun Ammo, depending on what Leon did in Leon A. Head outside.

Head back to the Power Area and up the crates to the locked door. Use the Power Room Key. Through it is a confrontation between Sherry and Mr. X! The self-destruct sequence also commences.

Travel to the Fuse Room and grab the Master Key from Annette's body. Head to the elevator next to the save room (where Leon left Ada). Inside the elevator is a computer. Use the Master Key to open up an escape route. You are taken to the Train Area shown at the end of Leon A.

Head into the train and head into the second car. It is a Save Room. Grab the Platform Key nearby. Make your inventory look like this:

Submachine Gun  
Spark Shot  
G. Launcher  
Platform Key  
3 Full Healing Items

Head outside and to the gate. Use the Platform Key. Now there is 5 minutes left before the base explodes! Through it, go up the stairs and grab the Joint Plugs on a console near the stairs. Head through the next door.

Through it, attach the Joint Plugs to the console at the other side of the room. Another boss battle comes in!

=====  
BOSS # 10: MUTATED MR. X  
=====

DIFFICULTY: HARD

Mr. X has mutated, so arm the Submachine Gun. You should have one now no matter what Leon did in the RPD. Fire and run to the side- Mr. X can sway in many directions. Heal when in Orange Caution. Mr. X is also VERY fast. Moreso than Nemesis from RE3.

A shadow of Ada Wong will eventually come in and throw a ROCKET LAUNCHER to Claire. Grab it and fire one rocket into Mr. X, killing it permanently!

=====  
BOSS # 10: MUTATED MR. X  
=====

Run back to the escape train. Near the tunnel where Leon emerges in Leon A is a gate control machine. Flip the switch and run into the control room of the train. Flip the switch and see the ending from Leon A.

After the Leon A ending, we have to fight ONE MORE BOSS as Claire.

Head to the back of the train and fight the final William Birkin.

=====  
BOSS # 11: WILLIAM V  
=====

DIFFICULTY: EASY

Fire 10 G. Launcher shots into this ass. After about 10 shots, it finally goes down. For good? Yes. Glad? Yes.

=====  
BOSS # 11: WILLIAM V  
=====

Now watch the extended ending! You have just watched the OFFICIAL events of RE2! Now try the opposite scenario, Claire A and Leon B!

## 8. EXTREME BATTLE GAME

---

Extreme Battle game is an extra mode that needs to be unlocked in the PlayStation Dual Shock and the U.S. Dreamcast version. Unlock it the same way you would unlock the Hunk game; simply beat Scenario A and Scenario B on Normal Mode with an A Ranking. In the PC version of the game, it is available from the start, with all characters, so you don't have to do anything to earn it.

In the PlayStation Dual Shock and Dreamcast versions, the player starts out with Leon or Claire, at Level 1. Once the game is beaten with either one of them, Ada will be unlocked, as well as Level 2. Beat Level 2 with any character and you'll unlock Chris Redfield and Level 3. In the PC version, all the levels and characters are unlocked. Your goal in this game is to go from the Birkin lab to the RPD and find 4 Antivirus Bombs.

September 20th 9:30pm Reported: Sgt. Neil Carlsen

We received a report of a suspicious individual skulking around the sewer in the outskirts of Raccoon City. I searched the area and located the individual, but he ran away before I had a chance to question him. I recover the following items: - A small amount of C4 plastic explosives - An electronic detonator - 9x19 parabellium rounds - Infrared scope (broken) End of report.

FILE: OPERATION REPORT 1

=====

-Operation Report-

September 26th

The Raccoon Police Dept was unexpectedly attacked by zombies. Many have been injured. Even more were killed. During the attack, our communications we have decided to carry out an operation with the intent of rescuing any possible survivors as well as to prevent this disaster from spreading beyond Raccoon City.

The details of the operation are as follows: Security of armaments and ammunition Chief Irons has voiced concern regarding the issue of recent unresolved incidents. On the very day of the zombies' attack, he made the decision to relocate all weapons to scattered intervals throughout the building as a temporary measure to prevent their possible seizure. Unfortunately, this decision has made it extremely difficult for us to locate all ammunition caches. It has become our top priority to recover these scattered ammunitions.

To unlock the weapons storage. As stated earlier, it will be extremely difficult to secure all ammunition. However, a considerable supply still remains in the underground weapon storage. Unfortunately, the person in charge of the key card used to access the weapon storage is missing and we have been unable to locate the key. One of the breaker's went down during the battle and the electronic locks are of functioning in certain areas. It has become a top priority to restore the power in the power room and secure those locks.

Recorder: David Ford September 27th 1:00pm.

The west barricade has been broken through and another exchange ensued. We sheltered the injured in the confiscation room on the first floor temporarily. Twelve more people were injured in the battle.

Reporter : David Ford -Additional Report-

Three additional people were killed following the sudden appearance of an as yet unknown creature. This creature is identified by missing patches of skin and razor-like claws. However, its most distinguishing characteristic is its lance-like tongue capable of piercing a human torso in an instant. Their numbers as well as their location remaining unknown. We have tentatively named this creature the "Licker" and are currently in the process of developing countermeasure to deal with this new threat.

FILE: OPERATION REPORT 2  
=====

-Operation Report-

September 28th Early Morning 2:30am.

Zombies overran the operation room and another battle broke out. We lost four more people, including David. We're down to four people, including myself. We failed to secure the weapons cache and hope for our survival continue to diminish. We won't last much longer...We agreed upon a plan to escape through the sewer. There's a path leading from the precinct underground to the sewage disposal plant. We should be able to access the sewers through there. The only drawback is that there is no guarantee the sewage disposal plant is free of any possible danger. We know our chances in the sewers are slim, but anything is better than simply waiting here to die. In order to buy more time, we locked the only door leading to the underground, which is located in the eastern office. We left the key behind in the eastern office since it's unlikely that any of those creatures have the intelligence to find it and unlock the door. I pray that this operation report will be helpful to whoever may find it.

August 8th

I talked to the chief today once again, but he refused to listen to me. I know for certain that Umbrella conducted T-virus research in that mansion. Anyone infected turns into a zombie. But the entire mansion went up in the explosion; along with any incriminating evidence. Since Umbrella employs so many people in town, no one is willing to talk about the incident. It looks like I'm running out of options. August 17th We've been receiving a lot of local reports about the strange creatures appearing at random throughout the city. This must be the work of Umbrella.

August 24th

With the help of Jill and Barry, I finally obtained information vital to this case. Umbrella has begun research on the new G-virus, a variation of the original T-virus. Haven't they done enough damage already? We talked it over, and have decided to fly to the main Umbrella HQ in Europe. I won't tell my sister about this trip because doing so will put her in danger. Please forgive me Claire.

Mr. Chris Redfield Raccoon City Police Dept S.T.A.R.S. Division

As per your request, we have conducted our internal investigation and discovered the following information:

- 1) Regarding the G-virus currently under development by Umbrella Inc. So far it is unconfirmed that the G-virus even exists. We're continuing with our investigation.
- 2) Regarding Mr. Brian Irons, Chief of the Raccoon Police Dept. Mr. Irons has allegedly received a large sum of funds in bribes from Umbrella Inc. over the last five years. He has apparently involved involved in the cover up of the mansion case along with several other incidents in which Umbrella appears to have direct involvement. Mr. Irons had been arrested under psychiatric evaluation as a result of the charges but released due to circumstantial evidence as well as his phenomenal academic standing. As such extreme cautions advised when dealt with him.

September 23rd It's all over. Those imbeciles from Umbrella have finally done it...Despite all their promises, they've ruined my town. Soon the streets will be infested with zombies. I'm beginning to think that I may

be infected myself. I'll kill everyone in town if this turns out to be true!!!

September 24th

I was successful in spreading confusion among the police as planned. I've made sure that no one from the outside will come to help. With the delays in police station, no one will have the chance to escape my city alive. I've seen to it personally that all escape routes from inside the precinct have been cut off as well. There are several survivors still attempting to escape through the lower levels, but I'll make sure no one gets out.

September 26th

I've had a change of heart about the remaining survivors inside the precinct. I've decided to hunt them down myself. I shot Ed in the back through the heart less than an hour ago. I watched him writhe in pain upon the floor in a pool of his own blood. The expression on his face was positively exquisite. He died with his eyes wide open, staring up at me. It was beautiful. I wonder if the mayor's daughter is still alive? I let her escape so I could enjoy hunting her down later...I'm going to enjoy my new trophy. Yes, frozen forever in the pose I choose to give her.

FILE: INVESTIGATE REPORT ON P-EPSILON GAS  
=====

This report demands immediately attention. The P-Epsilon gas has been proven capable of incapacitating all known B.O.W.s. As such, it has been designated for emergency usage in the event of a B.O.W. escape. Report based on data collected during the prior incidents indicate the potential for negative side effects. The P-Epsilon has proven to weaken the B.O.W.s cellular functions.

However, prolonged exposures will result in the creation of adaptive antibodies to the agent. Furthermore some species have been observed to absorb the P-Epsilon gas as a source of nutrition and use the toxins extracted against anything that is a threat. Use of P-Epsilon gas should be severely limited to extreme cases only. We strongly request the authority to re-evaluate the P-Epsilon gas development system. We would like this re-evaluation take place immediately.

April 6th

I accidentally moved one of the stone statues on the second floor when I leaned against it. When the chief found out about it, he was furious. I swear the guy nearly bit my head off, screaming at me never to touch the statue again. If it's that important, maybe they shouldn't have put it out in the open like that...

April 7th

I heard that all the art pieces from the chief's collection are rare items, literally worth hundreds of thousand of dollars. I don't know which is the bigger mystery: where he finds these tacky things, or where he's getting the money to pay for them.

May 10th

I wasn't surprised to see the chief come in today with yet another large picture frame in his hands. This time it was a really disturbing painting depicting a nude person being hanged. I was appalled by the expression on the chief's face as he leered at that painting. Why anyone would consider something like that to be a work of art is beyond my comprehension.

The last time was when I bumped into that statue, only this time he looked even more agitated than ever. I serious thought for a moment that he was going to hurt me.

June 15th

I finally discovered that the chief has been hiding all along...If he finds out that I know, my life will be in serious danger. It's getting late already. I'm just going to have to take this a day at a time...

FILE: MAIL TO CHIEF

To: Mr. Brian Irons, Chief of the Raccoon City Police Dept

We have lost the mansion lab facility due to the renegade operative, Albert Wesker. Fortunately, his interference will no lasting effect upon our continued virus research. Our only present concern is the presence of the remaining S.T.A.R.S. members: Redfield, Valentine, Burton, Champer and Vickers. It comes to light that S.T.A.R.S. have any evidence to the activities of our research, dispose of them in a way that would like purely accidental. Continue to monitor their progress and make certain their knowledge does not go public. Annette will continue to be your contact throughout this affair.

William Birkin

To: Mr. Brian Irons, Chief of the Raccoon City Police Dept

I have deposited the amount of \$10000 to the account for your services this term as per agreement. The development of the G-virus scheduled to replace the T-virus, is near completion. Once completed, I am certain that I will be appointed to be a member of the Executive board for Umbrella Inc. It is imperative that we proceed with caution. Redfield and the remaining S.T.A.R.S. members are still attempting to uncover information on the project. Continue to monitor their activities and block all attempts to investigate the underground research facilities.

William Birkin

To: Mr. Brian Irons, Chief of the Raccoon City Police Dept

We have a problem. I have received information informing me that Umbrella HQ has sent spies to recover my research on the G-virus. There are a number of unknown agents involved. They must not be allowed to take this project away from me as it represents my entire life work. Search the city thoroughly for any suspicious persons. Detain any such individuals by whatever means possible and contact me immediately through Annette. With these precautions, any possible threat should be eliminated. I will not allow anyone to steal my work on the G-virus. Not even Umbrella...

August 11th

I finally had the chance to see blue skies for the first time in ages, but did a little to lift my spirit. I was reprimanded by the chief for neglecting my duties while I was up on the clock tower. There's only one thing I still don't understand: the chief seemed more concerned about the fact that I was up on the tower rather than that I was neglecting my duties. Why was access to the tower prohibited in the first place anyway ?

September 5th

I recently talked to the old man who works in the scrap yard out back. His name is Thomas. He's a quiet man and really seems to enjoy chess. He even went so far as to design a special key and lock engraved with chess pieces on them for one of the doors in the disposal yard. We made plans to play chess tomorrow night. I can't help but wonder how good he is. One thing that's been bothering me about him is the way that he's always scratching himself...Does he have some sort of skin disease or is he rude?

September 9th

Thomas is a much better player than I has imagined. I used to think of myself as a fairly decent player, but he did a pretty good job of humbling me. About the only thing I imagine that could match his skills in chess is his appetite. All the guy did was talk about food throughout the entire game. He sounded fairly healthy, but he didn't look quiet right...I wonder if he's okay.

September 12th

I was supposed to play another game of chess with Thomas, but we had to cancel because he hasn't been feeling too well. He stopped by to see me, but I told him to go back and rest since he literally looked like the walking dead. He insisted he was just fine, but I could tell he was really having problems. Come to think of it, I haven't been feeling too good myself lately...

FILE: SEWER MANAGER'S DIARY

=====

June 28th

It's been a while, but I saw Don today and we talked after completing our work. He told me he had been sick in bed until yesterday. It really doesn't come as much of a surprise given how long he's been working here. He was sweating like a horse and kept scratching his body while we were talking. I asked if he was hot, but he just looked at me funny. What's wrong with him anyway?

July 7th

Chief Irons has been visiting the lab quite often lately. I don't know what he's doing over there but he always looks grim. The expression on his face has been even more unsettling than usual... My guess is that it's because of Dr. Birkin's impossible requests. The chief has my sympathies though. After all he's done for the town, he doesn't deserve this.

July 21st

I rarely drink because I'm on the graveyard shift, but I don't suppose I have much to complain about it since this is how I make my living. August 16th Chief Irons came in late today, looking grimmer than his usual self. I tried to joke with him to cheer him up but he wasn't amused. He pulled his gun and threatened to shoot me! I was able to calm him down, but that guy must have some serious problems. He knows he can't enter the lab without my help and my medal. This is what it means for the chief "to serve and protect" !?

August 21st

William informed me that the police and media have begun their investigation on Umbrella's affair. He said that the investigation will be citywide and that there is a possibility they'll even search through the

sewer. He asked me to suspend all Umbrella sewer facility operations until the investigation has concluded. The sewer will still be used for passage, but he stressed that I have to be extremely cautious and that I'd lose my job if anyone finds out about this operation.

-Security measure in case of an emergency-

In the instance of an uncontrollable biohazardous breakout, all security measures will be directed toward the underground transport facility. In the instance that any abnormalities are detected among cargo in transit, designated high-speed train. At which point, all materials will be isolated and disposed of without delay. In the instance of a Class 1 emergency, the entire train will be purged and disposed of without delay. In the instance that the lab itself becomes contaminated, the northern most route currently used to transport materials to and from the facility will be designated as an emergency escape route. This route will secure passage to the relay point outside the city limits. Disclosure about any information regarding research conducted here, or the existence of this facility, is strictly prohibited. Since it is top priority to keep all research classified, escape access may be denied under certain extenuating circumstances.

G-VIRUS ANTIGEN : G-VACCINE CODE NAMED  
"DEVIL."  
=====

Any beings infected by the G-virus will reproduce through the impregnation of an embryo within another living being. Unless rejected by the host, the embryo will undertake a process of gradual cellular invasion, infecting the host's cells on a molecular level as it rewrites their DNA. Once the metamorphosis is complete, the host will be capable of continuing this cycle of self-replication. The duration of time for the process to run its course will vary from subject to subject. In the early stages of cellular invasion, it is possible to halt progression of the metamorphosis through the administration of the G-vaccine antigen. The following procedure details its synthesis. The vaccine creation requires the base vaccine.

This can be arranged by the activator VAM. First set the empty cartridge to the VAM and activate it. After the several moments the process will be complete and the white-color base vaccine will be set in the cartridge automatically. Then confirm the green light is on, remove the cartridge and proceed to the next step. Once the base vaccine has been prepared, set it in the vaccine synthesis machine located in the P-4

level experiment room. The machine is fully automated and only requires the user to push the sequence start switch. At this point, the program will run automatically and synthesis will be complete within approximately 10 seconds. As the synthesis of DEVIL is an extremely delicate process, the quality will vary with slight shocks or changes in temperature. Careful handling is required for the proper results.

How could this have happened, Barry? The town's been overrun by zombies and has literally become a nightmare on Earth. As you know, my concern for the town is as great as your own. I have waited for your arrival on the assumption you were still in the area, but the threat of my shop being overwhelmed by zombies has become too great. I've already distributed the majority of weapons and ammo to the town's survivors including the Raging Bull you specially ordered. I hope you understand, given the circumstances. At any rate, I have no intention of pointlessly sacrificing my life and will be retreating to Stoneville. If you get this message, meet me there. We'll go fishing...

It all began as an ordinary day in September. An ordinary day in Raccoon City. A city controlled by Umbrella. No one dared to oppose them. That and the lack of strength would ultimately lead to their destruction. I suppose they had to suffer the consequences of their actions, but there would be no forgiveness. If only they had had the courage to fight... But it's true that once the wheels of justice began to turn, nothing could stop them. Nothing! It was Raccoon City's last chance... And my last chance, my last escape...

Code: Fi-3 Neptune Dev.

Code: T-002 Tyrant

In addition to the above, it is believed that several other B.O.W. were created by means of accidental infection. During the course of the tests, it was discovered that the contagion is not limited to human

beings, and may pose a hazardous risk to plant and animal life forms.  
Effective means of controlling this contagion have yet to be found.

September 1st  
Following six months of intensive training, my body's edge had returned. I was a good soldier, but they ordered my execution with no reason given. I was tortured and forced to give a false confession. But on the morning of my execution, a miracle happened. The company had helped me out, giving me a second lease on life.

September 15th  
I ended my vacation shortly and returned to the HQ office. It looks like my UBCS unit's been called into action. Umbrella maintains its own paramilitary unit to counter corporate terrorism and VIP abduction. In addition, they have night men who specialize in handling problems caused by illegal products. I'm currently a member of the latter.

September 28th  
Dawn's here, but we're still slogging through this nightmare. There are no provisions of any kind here. The undead walk the streets feeding upon the flesh of the living. Given the choice again, I would rather have been executed. Death row was a heavenly asylum compared to this place. I've chosen to pull the trigger myself, in the hope that my dead body won't come back to life.

On July 23rd, an MP vehicle was found inside the Arklay Mountains. Corpses of MP members and an unidentified body were found near the vehicle. According to the information from military authorities, the unidentified body was identified as former ensign Billy Koen, who was sentenced the death penalty following a court-martial on July 22nd.

While Koen was on transfer via Navy MP escort, they must have experienced some kind of accident. The corpses were severely mauled, apparently torn apart by unidentified wild animals. The following day we returned to the location to recover the bodies but they were nowhere to be found. Military authorities have requested that we turn over Koen's body as proof of his death. But due to the circumstances described above, it will be a difficult task to recover the corpse. I am requesting that this case be temporarily closed until further notice.

EX FILE: CHRIS' REPORT

=====

Dear Chief,

Below is my account of what led up to the explosion of the mansion:

On July 23rd, S.T.A.R.S. Bravo team, led by Captain Marini, went to investigate the bizarre homicides that occurred in the Arklay Mountains. After contact with team's chopper was lost, S.T.A.R.S. Alpha team, lead by Captain Wesker went in.

We found the remains of Bravo team's helicopter on the ground. After landing we were immediately attacked by bloodthirsty dogs. We later discovered that these dogs were actually zombie dogs as they did not even feel our gunfire. After Joseph Frost was killed, we were forced to

retreat to a nearby mansion. After further investigating the mansion, we learned that it was actually a secret laboratory of Umbrella Inc.. All researchers were turned into zombies by some type of unknown virus. We also discovered that Umbrella was using that lab as a testing area for new Bio Organic Weapons.

We found the dead bodies of some of the Bravo team members including Enrico Marini, Kenneth Sullivan, Forest Speyer, and Richard Aiken. We believe that those Bio Organic Weapons caused their deaths. After that we discovered that Captain Wesker was actually working with Umbrella and that both Alpha and Bravo teams were being used as live test subjects for the Bio Organic Weapons. Wesker had betrayed us! We barely managed to survive that nightmare. However, since the mansion exploded, there is no evidence to support our claims of Umbrella's secret lab or the Bio Organic Weapons.

The zombie phenomenon that has been occurring in the city is extremely similar to the zombies we saw at the mansion. We suspect that Umbrella is somehow linked to all this. In order to solve this mystery and put an end to the zombies that are roaming the city, I propose we launch a formal investigation into Umbrella. Thank you for your attention to this extremely important matter.

EX FILE: MOTHER VIRUS REPORT

The Mother Virus was first discovered by Ozwell E. Spencer. And it was him, who founded Umbrella Inc. As time passed, Spencer's research was succeeded to Dr. J. Marcus. However, Dr. Marcus abused his power and had to be fired. Following Dr. Marcus came Dr. William Birkin. Dr. Birkin's experiments delivered many outstanding results including the T-virus. It is presumed that that he will be finishing work on the more powerful G virus in the near future. Currently, research on the Mother Virus takes place at our laboratories all over the world. In the near future, we hope to discover many new viruses.

A. Synopsis of Resident Evil Series  
-----

I will give you a brief summary of all the games. If you want detail, check out TWILDE'S RESIDENT EVIL PLOT ANALYSIS, found at GameFAQS.com, where this guide can be found.

=====  
RESIDENT EVIL 1 (REBIRTH VERSION)  
=====

NOTE: This synopsis combines Chris and Jill's games.

July 1998

Raccoon City, a mid-western U.S. town is experiencing reports of cannibalism near its forest. The local police department sends in a special force to stop it, called STARS, Special Tactics and Rescue Service, to seek information about it. Umbrella Inc, a pharmaceutical, also controls Raccoon City. The STARS are divided into 2 teams, Bravo and Alpha. Bravo heads in first. Bravo team is consisted of Rebecca Chambers, Enrico Marini, Forest Speyer, Richard Aiken, Ed Dewey and Kenneth Sullivan. Enrico Marini was the team's leader.

Bravo Team heads to the forest in the Arklay Mountains. They investigate the origins of the zombies that wandered into Raccoon City. A day later, Alpha Team loses communication with Bravo Team. Albert Wesker decides to send in the other STARS Team to find them.

When their helicopter sees wreckage, they land. Wesker, Jill, Joseph, Barry and Chris examine the chopper. Inside are the remains of Kevin, the pilot of the Bravo Team. Joseph looks around, and is shocked by the sounds he hears. As he searches... he sees nothing.

Suddenly, a skinless dog mauls Joseph. Jill Valentine, nearby, shoots

the dogs several times, but the dogs don't seem to feel the bullets (or she's missing; it isn't clear). She runs out of ammo, and after the dogs finish Joseph off, a dog lunges toward Jill. Chris shoots the dog just before it gets Jill, and Jill and Chris start running for the others.

Brad Vickers, the pilot, flies away because he is scared of the monsters he sees. Chris pauses in shock, and a dog is about to lunge at him, but Wesker saves Chris and shoots the dog into its death.

After a merry dash to avoid the zombie dogs, the remaining STARS members run into a nearby mansion which belonged to Umbrella, Inc. It was the home of Oswell Spencer in the 1960's, and was supposedly abandoned for years. Inside, Jill, Barry and Wesker realize Chris is missing. They hear a gunshot nearby, and Jill and Barry check it out.

Jill Valentine and Barry Burton discover the destroyed body of Kenneth Sullivan of Bravo Team. Jill seems suspicious as she and Barry discover Forest Speyer's body, because of Barry's weird attitude.

As Jill and Barry separate, Chris reaches the guardhouse behind the mansion, passed the courtyard. There, Chris and Rebecca duel with a vicious and giant plant called Plant 42. They destroy the plant with the help of a chemical and a little luck from draining a shark of its water.

Jill, back at the mansion, destroys a giant snake. She then explores the basement of the mansion. Chris and Rebecca head to the mansion with nowhere else to go for now. There, they discover the scarred snake that Jill just fought. With new ammo from the guardhouse, the snake dies for good.

As Chris and Rebecca look around, a new type of monster invades the mansion. It's called the Hunter. They are a lot worse than the zombies Jill, Barry, Chris and Rebecca have been running into.

[Jill finds her way outside the mansion. She finds a cottage beside the mansion and its courtyard. Looking around, she is momentarily knocked out by a creature in chains. After regaining consciousness, she tries to shoot her attacker, but it seems she cannot even hurt the thing with even a Magnum (which she found in a graveyard beside the courtyard). Running away, she too explores the guardhouse. She hears a conversation with Barry and someone else, with Barry muttering something about his family. Barry discovers Jill and tells her that he was talking to himself. (O\_O)]

Jill finds her way into the underground tunnels with Barry. There, Jill finds Enrico Marini. He tells Jill Umbrella had planned this just before he is shot by a traitor. Marini was killed right before he can expose the perpetrator.

[Jill chases the killer into some weird tunnel, where after a long chase, she finds Barry Burton. Taking a lift down into a big pit, she runs into that monster that attacked her in her in the cottage. Dodging it, she finds that Barry has ridden the lift up to abandon her. She gets irritably pissed off at that stunt.]

[Dodging that thing once more, she finds a ladder leading up to the cottage where she was knocked out by that inhumane creature. Circling back to the mansion, she discovers a pathway to an altar, beneath where it all started; the mansion main hall.]

[She sees Barry there, mysteriously. After an argument where Barry attempts to ambush Jill, that creature now known as Lisa returns (the chains monster), and a clear view shows it has tentacles and a giant eye on her back. Jill gives Barry his gun back, and Barry and Jill shoot the thing until it falls into a deep pit. Barry volunteers to keep out for it, in case it returns.]

Jill follows the path into a lab from the altar.

Finding some notes Jill and Barry left near some typewriters, Chris and Rebecca find their way to the tunnels. Chris and Rebecca kill a Giant Spider and find their way into a lab.

Jill discovers Barry and Wesker were working together to kill all the STARS and to collect combat data. Barry didn't want to, but his family was in danger. Wesker also is planning to blow the lab up, and to betray Umbrella Inc. Barry betrays Wesker and gets him to get impaled by Tyrant, Wesker's creation.

[Barry is knocked unconscious by the Tyrant. Jill battles the thing, and wins a close battle, thanks to a Grenade Launcher. Barry recovers from the Tyrant's attack. Outside the Tyrant room, they realize that the mansion is now going to explode. How?]

Jill and Barry hurry out of the mansion. They run into Chris and Rebecca, and join each other to escape. They make it to the roof of the mansion, but the Tyrant has recovered from Jill's assault and catches up to the quartet.

[Chris Redfield is knocked out by the Tyrant on the roof. Jill, Barry and Rebecca use their weapons to kick the Tyrant's ass. No weapons work, however, but Brad Vickers sends a bazooka out of the helicopter window after flying about the mansion roof.]

[Chris recovers and catches the launcher, and destroys the Tyrant with it. After the thing is destroyed, all 4 people get on the helicopter and escape into the morning right before the mansion explodes.

=====  
RESIDENT EVIL 3 NEMESIS: PART 1  
=====  
SEPTEMBER 1998

Chris, Jill, Barry and Rebecca must stop Umbrella for spreading the virus through the mansion. Chris and presumably Rebecca go to Europe to take out Umbrella, while Jill and Barry stay behind.

On the 22nd, a scientist named William Birkin finishes his G- Virus, an upgrade of the T- Virus. Umbrella, impatient, sends a squat team that attacks Birkin and steals his virus. Birkin injects himself with his G- Virus and becomes a monster. He kills off the squat members. Because Birkin is now a monster, he causes a T- Virus leak and now the Raccoon citizens are zombies, courtesy of a virus spread through rats in the sewer.

SEPTEMBER 28, 1998

Jill Valentine escapes infection. On the 28th of September, armed with an Assault Rifle, Jill fights her way out of town. She runs into Brad Vickers, the pilot of STARS. He tells Jill that something is coming for

STARS members. What?

As Jill makes it into the RPD Building, that thing Brad was speaking of arrives. Brad Vickers is murdered by the Nemesis. Jill's weapons don't damage it too much, so she retreats into the RPD Building.

[The Nemesis bears a jump and tentacles similar to that of what Lisa had in the Spencer Estate. Hmmm.]

The RPD STARS Office is untouched on the RPD second floor. Jill finds a Magnum, which is effective against Nemesis. After finding a set of lock-picks, Jill fights her way out of the RPD. Nemesis returns, but Jill's Assault Rifle and her new Magnum are powerful enough to put the thing down, but it rises up again quickly.

Jill runs as fast as she can, loses the Nemesis and reaches the downtown area. She runs into a man named Carlos Oliveira. He is part of Umbrella BioHazard Countermeasure Service. They were sent by Umbrella to save Raccoon Citizens. But they don't know anything that Umbrella does. They are grunts, as in the lower Umbrella class.

Jill runs into Mikhail Victor and Nicholai Ginovaef, more UBCS. Nicholai seems suspicious, while Mikhail is fine. Mikhail is seriously injured, though. Jill runs to a trolley and plans for escape with them. Jill explores a power station over by the RPD and grabs a needed fuse.

She also finds even more added power- a Grenade Launcher and a Shotgun. When she runs into Nemesis again, the Grenade Launcher puts it down almost instantly. The Shotgun puts zombie groups down with relative ease. Jill finds some oil at a gas station and some cables around town and prepares the trolley.

On her way back, she sees Nicholai shoots someone and is then attacked by zombies. Thinking Nicholai is dead, she finds Carlos and Mikhail and ride the trolley out of town.

The Nemesis returns. Mikhail takes a grenade and blows himself and Nemesis out of the car. The car breaks and crashes in the clock tower. Carlos and Jill, now with Mikhail sadly dead, try to signal a helicopter by ringing the clock building's bell.

Jill finds the keys to them and rings them with ease. As she signals, Nemesis uses his own Bazooka to destroy the chopper. With the help of Carlos, Nemesis' Rocket Launcher is destroyed.

Nemesis then infects Jill with the virus. With her Magnum, Shotgun and Grenade Launcher, Jill manages to put Nemesis down. She then blacks out...

SEPTEMBER 29, 1998

As Jill lies unconscious, Claire Redfield, the sister of Chris Redfield, rides into town to find him. Leon Kennedy rides into town on his first day of job. Leon and Claire run into the zombies. Leon tries shooting them to no avail, and Claire tries running from them at a diner. After running from them, Claire runs into Leon.

They work together to get to a police vehicle. Claire gets a hold of a gun. Suddenly, their police vehicle crashes thanks to a zombie. Since the RPD Building is nearby, they decide to meet there.

(Notes: When Jill was in the RPD the day before in RE3, half the place was blocked off. It isn't anymore by the time Claire and Leon arrive because zombies broke through the barricades after Jill left.)

Leon and Claire take different paths to the RPD Building. Leon enters through the front. Claire enters through the back. Leon finds a wounded cop who helps him unlock some doors.

As Claire wanders, Umbrella drops a Tyrant into the RPD for an unknown reason. Claire sees Tyrant, which she nicknames Mr. X. She runs away from the terrorizing creature.

They eventually meet in the STARS Office. Leon finds a Shotgun in the STARS Office and Claire finds a much needed Grenade Launcher in the main desk of the main lobby. Leon and Claire decide to find any survivors so they can have more weapons to get through the streets.

Claire runs into a young 12-year old named Sherry Birkin, the daughter of William Birkin, who is now a monster. Leon runs into Ada Wong, a women looking for her boyfriend, John. Claire and Sherry meet the RPD chief, Brian Irons. He is obviously strange, and really, really creepy. At his possession is Ms. Warren, the daughter of the mayor of Raccoon City. Irons claims she died of zombie bite... but it looks like a bullet hole.

Ada and Leon meet up with Ben Burtolucci. He seems to know something about John, but isn't cooperating. Ben encourages Leon and Ada to escape the city via the sewers. Doing just that, Ada and Leon try to escape via the sewers. Ada climbs into an area Leon cannot reach. She finds a key for some locked doors in the RPD. Passing them on to Leon, she finds a way to get back to him.

Leon, impatient, decides to search the rest of the RPD on his own. He informs Claire that the cellblock is accessable now.

Claire and Sherry reach an area under the RPD. Sherry hears her dad supposedly scream, and runs into an area Claire cannot reach. Basically she ends up in the area Ada explored, and only finds Acid Rounds for Claire's grenade launcher. She decides to take a roundabout route to get back to Claire.

Leon explores the rest of the RPD, and finds 4 chess plugs which might work for a door near the cellblock. Using a chute from the RPD 3rd floor, he gets back to Ben and hears him scream...

As Claire returns to explore the RPD thanks to a call from Leon, she runs into Mr. X 3 times. Eluding the thing, she finds keys for Chief Iron's office.

She finds Sherry at the office. Using the keys, she discovers the chief's secret dungeon. He explains that Sherry's father, William, invented the G-Virus. Before he can shoot her, William Birkin attacks and cuts Irons in half. Eww... she goes down a ladder to confront William Birkin.

Leon returns to Ben.

William Birkin, the monster, implanted Ben with a parasite. The parasite escapes Ben's body, cutting him up. Leon contacts Sherry and Claire to go back to the sewers for escape.

Leon sees the growing parasite. Earlier, Leon found a Magnum. It and his Shotgun are very effective against the G-Imago. The G-Imago dies.

Earlier, Claire found a Submachine Gun. It and her Grenade Launcher are effective against William. William falls into a pit. After receiving the call from Leon, Sherry and Claire find their way off the RPD building via an underground sewer connected from Chief Iron's office.

Leon and Ada find the exit of the RPD to the sewer at last. As Leon and Ada go down a lift, a woman in a lab coat shoots Leon. Leon blacks out, but Ada chases the woman through the sewer. The sniper then corners Ada after a merry chase through the sewers.

Sherry and Claire see Mr. X continuing its unknown search. They run away. As they enter the sewer proper, leaving the RPD for good, Claire sees Sherry fall down a drain. She looks for her and runs into Leon, who just woke up from that bullet wound in his arm. Leon tells Claire to find Ada and Sherry. Claire moves ahead, leaving Leon to rest.

Ada and the sniper are talking. Annette Birkin is William's husband and Sherry's mother. Annette tells how Umbrella stole the virus. Then Ada pushes Annette over the railing and she falls into a sewer after telling her that her boyfriend John is dead.

Wanting to rejoin Leon, Ada runs down into a pit and sees... a GIANT ALLIGATOR! Claire runs into where Annette fell. She tells Annette that Sherry is in the sewer. Annette faints, just after telling Claire that Sherry has a sample of the G- Virus somewhere.

Leon wakes up. He decides to look for Ada, Claire and Sherry. He eventually finds Ada being attacked by an alligator. He puts an explosive canister in its mouth, shoots it and the alligator goes kaboom. Ada tells Leon that John is dead. After healing his wound, Leon and Ada go to the tram and ride it across town.

Claire finds Sherry eventually. She asks Sherry if she has G- Virus, like Annette had told her, but she says no. As Ada and Leon ride the tram, William Birkin attacks them. They shrug him off, though.

Unable to find Leon and Ada, Sherry and Claire ride another tram to follow Ada and Leon. Ada and Leon ride an elevator car down. During the ride, Birkin wounds Ada. Leon uses his artillery to stop him.

Claire and Sherry recall the elevator car. Mr. X interrupts as Claire recalls it, but she kicks its ass. They eventually take the car down.

Birkin, who just awoke from mutation sleep, since Leon had hurt it, is now mutating again. Birkin is about to lose the match, but runs away.

In the lab, Leon decides to heal Ada. He looks around the lab.

Claire loses Sherry again thanks to a power loss in the elevator car. She runs into Annette, who sees Sherry being stalked by Mr. X on a

TV screen. She tells Claire that the G-Virus is in Sherry's pendant. Annette runs off, running into Leon.

Leon runs into Annette Birkin. Annette is about to shoot Leon, but Birkin attacks Annette. Annette drops a G- Sample. Leon takes it and runs into Ada, who is now threatening him.

Apparantly, Annette said Ada worked for some company out for the G-Virus. Ada then falls down a chasm, thanks to Annette. Leon, in a rage, throws the G- Sample over. Since the lab's explosion sequence has now started, Leon must get out quickly.

Claire runs to where Mr. X and Sherry are. Claire takes Sherry's pendant, and throws it into a lava pit, with Mr. X diving in for it. It's the end of Mr. X...

Leon gets to the escape elevator. Birkin returns, but Leon deals with him accordingly. Claire and Sherry reach see a hurt Anette near where Ada fell. Annette tells Sherry to escape. Annette falls unconscious, giving Sherry and Claire an escape key.

Claire and Sherry use an elevator to get to the train area. As Claire and Sherry power the train up, a hot and flaming Mr. X returns and now has grown a claw. Claire's weapons only slow it down. Claire knows she's about to die... but suddenly, Ada, a dark shadow of herself, throws a rocket launcher to save Claire! Ada runs off...

Claire destroys Mr. X once and for all. Seeing as Ada is nowhere to be found, Claire powers up the train and Leon comes in. The lab then explodes in a blast, the train barely making it out. In the back of the train, Birkin returns from his fight with Leon. Since Leon was injured in his fight with Birkin, Claire tried to shoot Birkin with all the ammo she has left. It only holds it at bay for a few seconds.

Birkin is still alive. The only solution is to destroy him in a blast. The train activates the train's explosion sequence, unexpectedly. Sherry, with Claire's help, stops the train and they all get out. Birkin is consumed in a blast with the lab's escape train.

SEPTEMBER 30, 1998

Outside, Leon, Claire and Sherry recuperate. After a small argument, Claire runs off toward Europe to find her brother Chris. Leon and Sherry are captured by an unknown organization...

[Meanwhile, down in the sewers between the Umbrella lab and the Police Station, HUNK, the man who had shot William Birkin, awakens from his sleep in the sewers. He seems to have gotten a sample of the G-Virus, and notifies his men. He is to get to the roof of the RPD to escape.]

[He runs up to the RPD, and shoots many zombies, dogs and crows. On the second floor RPD, it seems that a Mr. X unit is after him. Avoiding the terror, he makes it the hallway leading to the heliport. Another Mr. X seems to be attacking him. Unloading all the ammo he has left, the creature falls unconscious. HUNK makes it to the helicopter and is picked up by his men.]

[After riding away from the city, HUNK's comrades are congratulating him on another job well done. He is known as Mr. Death, and has survived once again.]

RESIDENT EVIL: GUN SURVIVOR

NOVEMBER 1998

On an isolated island in the Atlantic, a guy named Ark Thompson sneaks into an Umbrella controlled city. He was sent by RE2's Leon to check up on the base and its commander, Vincent. When Ark gets to the base, he fights Vincent. Vincent, who was ready to get kicked out of Umbrella, spilled the T- Virus into the island, called Sheena Island.

Ark Thompson loses his memory. The place has been zombified like Raccoon City. Ark only has one gun for protection. After a phone call from someone he questioned, Andy Holland, Ark thought he was Vincent. Ark goes through the city, uncovering secrets about Umbrella and how they created Tyrants. Mr. X, a Tyrant Claire ran into in Raccoon City, chases Ark around the island.

Ark, still thinking he's Vincent, runs into Lott and Lily Klein. After joining them in an escape, Umbrella sends in a "Cleaner" crew team to wipe them out. Ark and the others eventually discover that many Mr. X were being produced on the island.

Ark, Lott and Lily encounter a new type of Tyrant, similar to the one Chris Redfield saw on the Spencer Estate. They slay it and finally escape, before Vincent, the Cleaner crew and Andy Holland are consumed in a blast.

One month after the Sheena Island incident and 3 months after the Raccoon City incident, Claire Redfield goes to Europe to find Chris. She eventually gets captured for trespassing on Umbrella's Paris Lab. She is taken to an island near Antarctica and that's where RESIDENT EVIL CODE: VERONICA X begins...

=====  
RESIDENT EVIL CODE: VERONICA X  
=====

Here is a detailed description of the story of CODE: Veronica. This will explain what's behind the Ashford Family, Albert Wesker's intentions, and the whereabouts of Steve Burnside. Unlike RE2 and RE3, there are VERY many things leaving you out in the blue.

CODE: Veronica X first starts December 17, 1998 in Paris as Claire gains some leads on her brother, Chris and his whereabouts. It has been 2 and a half months since Claire and her new partner Leon escaped Raccoon City just a day before it was bombed.

Claire and Leon traveled to Paris, once again, to gain a lead on Chris Redfield. Unable to contact his partners Jill, Barry and Rebecca, Claire and Leon invade Umbrella's Paris Lab. Leon and Claire are separated because the guards of the base see them.

Leon manages to escape during the attack, but Claire isn't so lucky. Suddenly, a chopper loaded with a Gatling Gun begins to attack Claire.

(In the Beta Version, Jill's enemy from RE3 (Nicholai) is piloting the chopper.) The guards are still chasing her. She ducks into a hallway. The guns kill the guards chasing her.

Claire runs down the hallway, barely missing the choppers' guns. She ends up on the base's rooftop. She uses a slick move to wipeout the guards. Suddenly, a Hispanic man captures her at gunpoint. Claire is captured.

10 Days later, she is taken to an isolated Umbrella Base, called Rockfort Island. After being told her identity number, she is butted in the head by a rifle butt. Time passes and Claire wakes up to a huge explosion. Up above her seemingly underground cellblock, she hears guns roaring and people screaming. Moments later silence hits.

The door to the cellblock opens. A heavily breathing man comes in. Somehow the guards managed to not see Claire's lighter. She lights the lighter and she sees the man who captured Claire at Paris. The man frees Claire and sits down because he was wounded in the chaos above.

Claire discovers he needs Hemostat. Looking at the list, Claire finds out his name is Rodrigo Juan Raval. Grabbing a nearby Combat Knife, Claire leaves the cellblock. She eventually climbs a flight of stairs to a graveyard.

As she passes through, a burning truck explodes. A burning man goes toward Claire. It's A ZOMBIE! It seems the attack caused a viral leak in the area. Claire was luckily to avoid the zombies.

Claire arrives in the main hall of the prison complex. She is then attacked by a Gatling Gun. Claire sees a pistol and dispatches the gun. Apparently, Steve Burnside, a prisoner, sees Claire and thanks her for not being a zombie. After rudely introducing himself, Steve runs off for the island's rumored airport.

Claire looks around the prison, which is now a zombie's hell house. As she explores the prohibited areas, Claire catches up to Steve, who is looking up on Chris Redfield on a computer. Steve asks Claire to contact Chris to come save them. Claire does that, though Steve wasn't serious about the idea. Claire can't contact Chris directly, but she figures Leon can. She e-mails Leon to get Chris to help them. She gives Leon the coordinates of the island and Chris himself. Steve runs off angrily.

[Chris Redfield, somewhere in the world, receives an e-mail from Leon, and discovers that Claire Redfield was caught by Umbrella...]

After finding the right keys, Claire escapes through prison's main gate, near where she met Steve. After finding her way up a cliff, Claire sees a military training complex. She explores the area, but shutters block off most of the complex.

She manages to find a Bow Gun, though. And she also sees a man get slaughtered by a yellow zombie in a locked lab. Claire sees a picture she think may be important later on.

Claire decides to find the key cards elsewhere on the island. Leaving the military complex for now, she sees a big palace up ahead.

She enters the palace and looks around for the key cards. She finds a

few locked doors. One of them is different. It needs to be unlocked using 2 special pistols. Claire looks on the first floor and after unlocking a strange movie, she finds the 2 guns she needs. The movie was shot, showing 2 twins, a boy and a girl, feeding a wingless dragonfly to a hill of ants.

Claire grabs the pistols, but then the room locks her in and the room heats up. She inserts them back in. She decides to exit the palace to look for the military complex's keys elsewhere. But as she exits, she hears Steve's scream. She runs back to the Luger trap to see Steve caught in it.

Using the reflexes she learned in Raccoon City, she saves Steve. Steve has the Lugers Claire needs for the door. He offers to trade for 2 fully automatic weapons. But Claire's 3 pistols and her bow gun don't satisfy Steve.

As Claire gears up to leave, she sees Alfred Ashford, the owner of the island. Alfred tells Claire she attacked the island. Alfred continues to shoot and miss at Claire with his sniper rifle.

Alfred also says his grandfather founded Umbrella originally. Alfred leaves with a death threat to Claire. Seemingly not intimidated, Claire continues her mission to find the military complex's card keys.

Claire sees a submarine beside the palace. She works the controls and sees it going down. It stops. She gets out to see she's at an underwater military airport.

She looks around and finds an airplane she can use to get out. She needs 3 special keys to activate the plane, though. She looks around to find another locked shutter. Looking at some maps, she sees a giant elevator behind the shutter and remembering the maps of the military complex, she thinks the broken elevator in the military facility's yard leads down the airport.

To her surprise, Claire finds a key card she needs for the military complex. Taking the submarine back to the palace, Claire continues for the military complex. As she passes by the palace gates, she notices a smaller private mansion on top of a hill behind the palace.

Continuing for the military complex, Claire eventually arrives. In the yard, she sees a giant worm attack her. Like the dead alligator she saw in the sewers of Raccoon City, this thing is huge, but not too smart. Claire escapes the thing by ducking into the facility.

She gets through the locked shutters. In a room, Claire is ambushed by Alfred, but thanks to his bad aim, Claire chases Alfred further into the complex. In a medical room, Claire finds the hemostat she needs for Rodrigo.

Claire gears for the prison, but she then discovers that Alfred lowered a shutter that leads to the exit. Claire goes further. That yellow zombie that killed the scientist then attacks her. It is a cross between a zombie and tyrant. Using her twin pistols, she shrugs them off.

Continuing, the another yellow zombie attacks her. But Steve then saves her with the Lugers. Claire trades Steve the Lugers for the Submachine Guns she found a few moments ago.

Alfred suddenly lowers them into the complex's basement. Steve runs ahead of Claire and destroys a fresh set of zombies for her. Claire catches up to Steve. Questioning him about his family, Steve runs off.

She catches up to Steve in an unstable balcony. They fall through. Suddenly, a zombie rises and then runs toward Claire. Steve hesitates to shoot it. When it is about to eat Claire, Steve unloads the rest of his bullets into the creature, while yelling, "father!!!" After the zombie dies, Steve starts crying.

He tells Claire that his father took Umbrella info and sold it. Steve and his family were caught, his mom was killed and Steve hates his dad for doing this to him. Claire leaves Steve to mourn his dad's death. Apparently, Steve just shot his zombie dad.

Claire finds Alfred's crest in a room with the facility's diorama. She uses it on a little box she found earlier. She finds the last key card needed to explore the facility. She finds a key for the airport's plane.

Claire also finds her way into the lab where the yellow zombie killed that scientist. Claire sees the painting she wanted. Noticing a resemblance to a painting she saw in the facility's diorama room, she hooks it on to the wall where the eagle plate was. As she leaves, albinoid experiments escape the lab and run up vents. Claire escapes before the lab is locked.

A wall in the diorama room is raised, revealing the actual diorama the wall was hiding. She sees a key, gold colored. Claire sees that this can open a door at the palace.

Claire races for the palace. She opens the door she wants to open and sees a room full of paintings of Alfred's ancestors. After looking around, Claire finds a strange queen ant model.

Claire travels to the door with the luger engravings. Using the lugers, Claire unlocks the door to an office. There, she discovers that Alfred has a twin sister, Alexia, and according to Alfred's butler, he's seen her in Alfred's private house.

Claire finds her way to a bridge. Up ahead, Claire sees the private house on the hill she's been wanting to explore for more clues. She explores the house and nearly runs into Alexia Ashford. She's talking to her brother about Claire and Steve's destruction. They then leave.

The house has been damaged by the island's attack, but Claire finds a key she needs for the palace's remaining doors. Heading back to the palace, Claire finds another eagle plate. She then remembers a door she saw in the prison complex that had an eagle engraving.

After looking in a slot room, Claire decides to head back to the prison. There, she goes to the cellblock and sees a dying Rodrigo. Fortunately, Claire saves him in time with hemostat. After thanking each other, Claire trades her lighter for Rodrigo's lockpick.

Claire explores the door behind the one with the eagle plate. Claire discovers an infirmary. After confronting a powerful zombie, Claire unlocks the path to a secret basement.

There, she finds a piano roll that fits perfectly into the piano at the palace. Claire gears for the palace. In the yard, someone familiar attacks her: Albert Wesker. Wesker tells Claire he attacked the island and is after Chris now. As Claire is attacked, she notices a key she needs for the airport. Wesker tells Claire he'll use her to get to Chris.

Wesker, after getting a call from his men, jumps over a wall, toward the palace's dock. Collecting the airport key, Claire heads into the palace's piano. Claire finds a king ant model, like the queen model she found earlier.

Heading back to the private residence, Claire discovers the ant models where keys to a secret lair above Alfred and Alexia's bedrooms. Claire discovers the final airport key and decides to find Steve and Rodrigo and leave.

Alexia Ashford attacks Claire on her way out. She has a sniper rifle like Alfred's. Suddenly, Steve comes in and shoots Alexia through a door. The door is easy passage between Alexia and Alfred's bedrooms.

Claire sees Alfred with make up on. Apparently, he's been dressing like his sister. Claire decides that Alexia is just Alfred's imagination. Alfred runs off crying. He sets off the self-destruct sequence.

Claire and Steve run to the palace gates, near where Claire was attacked by Wesker. Steve leads Claire to the airport. Claire inserts the keys to the plane. Unfortunately, the drawbridge is in the way of the plane. Claire volunteers to raise it.

Claire runs to the controls and raises them. In a room she couldn't access before, Claire finds the keys to the shutter blocking the elevator.

Claire decides to ride the elevator up to the military complex and head back to the plane via the palace's submarine. She does just that. After fixing the elevator, the 5 minute timer for the explosion begins. As Claire rides the elevator up, Alfred releases a monster after Claire... Can it be? Yeah it's...

Claire steps out of the elevator and as she expected, she ends up in the military complex's yard. Dodging the giant worm, she gears for the palace.

On her way, a fire traps Claire. Tyrant comes from the fence. Apparently, it's the monster Alfred released. Claire uses her bazooka she found earlier and manages to put Tyrant down. Claire dashes passed the palace and down the submarine into the airport.

Steve manages to pilot the plane and then the plane lifts off from an exploding island. As the plane circles the island, the prison, palace and private mansion are consumed in the blast, but the military complex seems to withstand it.

Not caring, Claire and Steve fly off. They apologize for everything mean they said to each other. Suddenly, the plane rocks. In the back, Claire sees Tyrant. Claire uses her bazooka to weaken it and then catapults it off the plane. It looks like her encounter with Mr. X on Raccoon City did her some good.

Back on the exploding island, Alfred runs into the somehow surviving military complex. He sees the tank and moves it to reveal a secret lift. The lift leads to a different area of the airport. Alfred hitches a ride on one of the 2 harrier jets and flies away from the island.

On Claire's plane, Alfred controls the plane and changes it's direction. Steve can't change it so they have no choice. Hours later Steve attempts to kiss a sleeping Claire, but fails. Moments later, the plane crashes into an Umbrella Base in Antarctica.

Claire and Steve get off the broken plane and look around separately. Claire finds the diary revealing that a monster named Nosferatu is trapped somewhere in the base. Also, it seems Alfred Ashford spilled the T- Virus around the base, so there are now zombies in the area. Looking in a private office, Claire finds the evil monster trapped in a chair beneath wire mesh. What has Alfred been up to?

Claire looks around and asks Steve to lift a digging car with a crane. Steve looks at Claire and causes a gas leak in the room. Claire fixes it. Suddenly, Alfred, still wearing make up and talking like Alexia, tries to shoot Claire, but Steve comes in and shoots Alfred down a deep chasm.

Nosferatu suddenly feels agitated. He breaks free of his prison and runs off... Claire grabs Alfred's sniper rifle and Steve and Claire dig out of the room with the digging car. They eventually get to a heliport above the base.

Nosferatu suddenly attacks Steve. Steve is KO'ed, while Claire must fight him on his own. Using the sniper rifle, Claire punctures Nosferatu's once human heart and kills him. Claire rescues Steve.

They find a car and drive off to an Australian Base. Meanwhile, Alfred, nearly dead, releases his sister from cryogenic sleep. Alfred tells Alexia to kill Claire. Alfred then dies of blood loss.

Alexia uses her mind to attack Claire and Steve's car. The car burns. Did Claire and Steve survive?

Meanwhile, on Rockfort Island, Chris Redfield arrives. Leon managed to contact him. Chris climbs a cliff and arrives in a cave. There, he sees Rodrigo. After Rodrigo tells Chris he saw Claire and Steve leave the island, that worm Claire saw swallows up Rodrigo.

Chris chases the worm throughout the cave. Finding some Submachine Guns, Chris kills the thing. Rodrigo is swallowed up, but dies shortly after, giving Chris the lighter before he dies. Chris finds his way into a lightly damaged military complex.

Chris looks around and finds his way to Alfred's harrier jet bay. He needs a halberd that was on the eagle plates Claire found to open the harrier doors.

Chris finds his way to the control room. He sees Alexia Ashford singing on the wide screen. Down in the airport where Claire boarded the plane with Steve, Wesker is happy that Chris is finally here. He sends Hunters after Chris.

Chris finds the eagle plate Claire used to open the box. But unfortunately, it falls down into the sewers below thanks to a giant

hole caused by the explosion. He finds his way into the lab area thanks to a hole in the wall.

Chris sees a knob-less door Claire didn't explore. Chris decides to find a doorknob in the basement. There, he explores a lab where the T-Virus was leaked from.

He finds a chemical he thinks he needs for getting the halberd. It's called Clement E. It, mixed with Clement A, can melt the alloy part of Alfred's eagle plate.

Chris finds his doorknob and then is scanned by a scanner. Moments later, the Hunters Wesker sent attack Chris. Chris, using a shotgun he found, kills them. Chris sees the scanners when he gets back to the knob-less door.

Avoiding them, Chris ends up on the other side of the broken balcony that Steve and Claire fell through right before Steve assassinated his father. Finding a small tank object resembling the tank outside the facility, Chris inserts it to the little hole in the diorama on the first floor. The paintings in the room slide to reveal 3 little keys needed and a turntable key.

There's also a note from Alfred saying there's a passage beneath the diorama that takes Alfred from the military complex to his private residence. Chris notices the 3 key holes and notes them.

On his way, Chris sees Albert Wesker. Wesker attacks Claire and says Claire won't live long and that she's in the Antarctic with Steve and the evil Alexia. Suddenly, Alexia Ashford appears on a screen and laughs, as if she is expecting something to happen. Wesker seems to have super powers, as he has yellow eyes... Wesker vanishes and a yellow zombie attacks Chris. Using his submachine guns, he kills it.

After finding his way to the main yard thanks to the turntable key, Chris sees that he can't get to the palace thanks to rubble blocking the entrance to the passage.

Alternately, taking the elevator down to the airport, Chris sees the keys Claire used to board the plane. They also fit into the 3 key holes in Alfred's diorama room. Grabbing them, Chris tries to use a submarine he saw on a map to get to the palace.

Unfortunately, the submarine somehow got docked up at the palace, so access to the palace is impossible. Taking the 3 keys back to the diorama in the military complex, Chris manages to find the ladder.

Following a tunnel, Chris discovers that the door leading to the private residence is locked. But nearby, Chris sees Alfred's private swimming pool. In it is the eagle plate. There's also a monster on the pool.

It's the albinoid Claire released from the lab. It matured really fast. Chris uses his shotgun to dispose of the electric monster. Chris grabs the eagle plate. But Clement E alone can't dissolve the alloy.

Chris backtracks to the basement area, where Steve had a shooting spree. The explosion caused a gas problem, but a lever fixes the problem. He finds the final Clement A and then mixes it with Clement E. The mixture solution causes the eagle plate to dissolve, leaving the halberd.

Using the halberd, Chris gains access to the harrier bay. He jumps on the last plane and flies to Antarctica.

After he leaves Rockfort, he travels across the blue ocean. When he reaches the base, a docking bay at the base welcomes him. It seems as though Alexia has been expecting Chris.

There, Chris immediately looks for Claire. It seems that the place was filled with ice from when Claire and Steve tried to escape. This helps Chris access new areas.

In an area that looks like the Spencer Estate, Chris finally finds Claire. After saving her, Claire and Chris decide to find Steve. Alexia comes and curses at them, and threatens them. Claire and Chris give chase toward Alexia, but a giant tentacle separates them.

Claire wakes to see Chris' foot and knees injured. Chris tells Claire to find Steve. Suddenly, they hear Steve scream. Obeying Chris' request, Claire chases Alexia through a few doors.

Using her guns, she kills a few of Alexia's tentacles. Claire finally sees Steve in a prison, after nearly risking her life to find the appropriate keycard to enter. It's the room Nosferatu was stuck in. Steve tells Claire that Alexia performed the same experiment that she performed on her own father.

Steve suddenly grows and mutates into a giant toad-like monster, unlike Nosferatu. It then begins to attack Claire with a giant ax. Claire runs off to the exit and makes it just as the gate lowers. But since the door was locked by Alexia, Steve begins to attack Claire.

Suddenly, a tentacle grabs and constricts Claire. Steve is about to kill Claire, but his human personality comes back and Steve cut the tentacle. The tentacle whacks Steve at about 50 miles an hour and Steve is flung into the wall.

Steve tells Claire he loves her and that he can't keep his promise of leaving with her. Slowly, Steve dies due to a violent strike, as if he were hit by a truck. Claire cries and cradles over the body of Steve Burnside, crying.

During the death of Steve, Wesker calls Alexia to come with him because she has her experiment, T- Veronica Virus, in her. Somehow, Alexia managed to elude Claire and returned to the main hall Alexia walks down the grand stairs of the Spencer estate-esque place, and then begins to burn. Her clothing begins to shrivel. Alexia's choker falls to the floor at her feet, Chris taking notice over in the corner.

Alexia is now a gray evil mad woman. She looks like a cross between a dragonfly and ant. Wesker attempts to capture her. Alexia raised her gray hand and Wesker gets punched across the room. He moves across, tells Alexia he's coming with her and then punches Alexia via a long spring from the walls. After punching Alexia, Wesker notices Chris. And he is armed with a weapon. Realizing that Wesker can't defeat Alexia, Wesker sees Chris take care of Alexia.

Chris uses his shotgun to kill Alexia. He keeps moving and eventually 10 shotgun shells put Alexia down at Chris' feet. Chris, judging from a file he found earlier, thinks Alexia's choker can access a door behind

the painting above the staircase of the mansion main hall replica. At Chris' feet is the choker. He uses it on the painting.

Chris looks at the file some more and sees that Alexander Ashford was turned into a monster thanks to Alfred and Alexia. Chris leaves the main hall and then heads down an elevator. As Chris exited the mansion, Alexia rises to her feet from her slumber. She's still alive. Chris is now in a room with a giant anthill.

Searching around, Chris finds the room Alexia was stored in for 15 years during her coping of the T-Veronica Virus. He plays with the controls and then out of the tube falls Alfred Ashford's dead body. At Chris' feet is Alfred's Ring. Chris grabs Alfred's ring. Looking around the base a second time, Chris learns that Nosferatu was implanted in the ice thanks to Alexia.

In the file, Alfred said Alexander Ashford was turned into a monster. Thinking the dead Nosferatu will have the 3rd jewel to open up the Painting, he decides to look in the ice.

At Chris' feet below the ice is Nosferatu's body.

Using a crane to get Nosferatu's body, Chris grabs the 3rd jewel, after an argument with a gigantic spider similar to the one Jill saw beneath the real Spencer Estate.

Chris opens up the painting in the Spencer Estate imitation hall and finds a lab just passed it. It's where Alexander Ashford tested the T-Veronica Virus. It also reveals Alfred and Alexia where created through inserting a sperm cell into an embryo that belonged to Veronica, their ancestor.

Nearby are replicas of the bedroom from Rockfort Island's Private Residence. There, Chris finds a key detrimental to unlocking a room where he can blow the base up. That is all he finds, however. He returns to the lab, and goes through a door he hasn't gone through yet.

The lab leads to where Steve died. Unfortunately, there's a locked door between Chris and Claire. Claire tells Chris that Steve is dead and tells him to set the explosion sequence like in the real Spencer Estate, Raccoon City and Rockfort Island. Chris does just that.

Chris runs for the door leading to the computer which can set off the base's exploding sequence. Using the key he found above Alfred and Alexia's imitation bedrooms passed the lab, he unlocks the room and finds the appropriate computer, after killing off 2 zombies.

After inserting the CODE: Veronica thanks to the file, Claire and Chris rejoin each other. Suddenly, a tentacle separates them once again. Alexia has returned.

Chris and Claire see a good weapon to use nearby, called the Linear Launcher. Claire and Chris turn the keys simultaneously, but now it has to charge. Chris decides to keep Alexia busy as Claire decides to run off.

After nearly destroying Claire, Chris shoots Alexia with a bullet and causes her to mutate into a large monster. Claire attempts to run for the elevator. Chris fires every weapon he has against the giant Alexia.

He uses the Shotgun, his Handgun, the Submachine Guns and the Grenade Launcher against the mammoth beast that was Alexia. Dodging a bunch of tentacles and little parasites attacking him, his abuse to Alexia pays off.

Suddenly, the ants beneath in the hill start to attack Alexia.

Alexia shrugs them off by growing wings and is now flying. The bulk of her body dissolves just after Alexia leaves it. Apparently the bulk of the giant Alexia was a feeder for Alexia to grow wings.

Coincidentally, the Linear Launcher has finished charging. Chris grabs it and shoots a ray into the base, with the plasma slamming into the walls of the base. The thing is heavy, and with Alexia spewing fire like her first form, it is hard for him to get a clear hit.

But Chris gets lucky, and shoots a ray into Alexia's chest. Alexia screams and then the next second, she is liquefied by the impending blast, and is finally dead.

Chris drops the Linear Launcher and starts to run as explosions begin to occur. As Chris gets down to the prison cells and to the elevator, he sees Wesker holding Claire by the neck. Nearby, the door leading to where Steve died is open...

Wesker pushes Claire through a hole in the wall. Chris chases Wesker through a horde of zombies and catches up to them, in a submarine dock, which seems to be far enough from the base's explosion. Chris and Claire discover Wesker took Steve Burnside to get the T- Alexia Virus.

Chris and Wesker decide to kill each other once and for all, and Claire returns to the plane. At the plane, Claire looks into the elevator to wait for Chris...

Chris and Wesker battle. Chris tries using a pipe to hurt Wesker, but Wesker basically kicks Chris' ass. Wesker's superpowers are simply unbeatable for Chris. Explosions are still rocking the base.

Chris sees a ton of iron bars supported by a rope. Chris trips the rope, causing the bars to land on Wesker.

Too bad they were ineffective.

Wesker rises to his feet, and stumbles a little, and gets ready to kill Chris for that stunt.

Suddenly, an explosion rocks the entire room.

Wesker and Chris are separated in a blast of fire. They vow to kill each other next time. Wesker laughs his ass off, as Chris runs back to the plane.

Passing back through the zombie hall, the place is now on fire, and is ready to collapse. Chris calls the elevator and ducks his head to avoid the explosions and debris flying all over the prison cell walls. Luckily, they are made out of solid stone, and hold up for the time being.

The elevator arrives, and Chris rides down. Amazingly, the glass around the elevator holds up as explosions rock it. Then the glass breaks all

over Chris, but luckily the elevator door opens, and the final explosion blows him out of the elevator onto the plane, landing on his stomach. Ignoring it, he gets on the plane.

Piloting the plane, he escapes the blasts and flies out of the base.

Claire is happy to see Chris once again.

They apologize for leaving each other and then decide to take out Umbrella once and for all.

In the distance, the Umbrella Ashford Antarctica Base completes its detonation sequence, and the entire building explodes and collapses as they fly away.

Well, that is CVX's story. I personally think the Plot Guide has a better synopsis. Check it out!

## B. Wesker's Report

---

If you pre-ordered the American Version of Resident Evil CODE: Veronica X, bought the Japanese PS2 or DC version of CODE: Veronica Complete, or bought the BioHazard 5th Anniversary Briefcase, you got the Wesker's Report DVD.

If you didn't, it's here for you to read, because it bursts with seams of the original PSX RE, RE2 and RE3 information. Others may hate the Report because they can't think what Capcom is aiming with that, but I love it!

Sure, the information for the "Mansion Incident" may seem a little outdated when the remake is accounted for, since it covers the original PlayStation version, but it still contains the basic information about the storyline of Resident Evil.

This is also for people who do not understand the plot information for Resident Evil 2. This explains a lot about what happened in RE2, for those who are wondering.

## ===== INTRODUCTION =====

"My name is Albert Wesker. I aspired to become a leading researcher at Umbrella Inc. A pharmaceutical enterprise who covertly conducted Bio Organic Weapons, better known as B.O.W., for development. But at the leader development training ground situated in Raccoon City, I met a brilliant and talented researcher who decided to take a different path; William Birkin.

In time I shifted my position to S.T.A.R.S., a special force unit of the Raccoon Police Department. Umbrella, for crisis management reasons of their illegal Bio Organic Weapons development had many of its people working in the police department.

I became the leader of S.T.A.R.S. and conducted all sorts of intelligence activities for Umbrella. As I continued to serve I devised

my own plans and waited for the right time moment to execute them. Then at last, opportunity knocked.

=====  
1998 July 24th  
=====

The freak murder incidents that had occurred in the forest near the mansion started it all. The mansion was Umbrella's secret BOW laboratory and it was clear that the indevelopment T-Virus was the cause of the murder. Initially, Umbrella instructed me secretively to keep S.T.A.R.S. to the mansion, dispose of them, then report the situation to headquarters so that their combat with the B.O.W. could be used for data analysis allowing Umbrella a comprehensive portrait of the B.O.W.'s combat abilities.

From the two S.T.A.R.S. teams I first pitched in the Bravo Team. As expected, the top elite of S.T.A.R.S. gave all they had and became useful sample data. Then following, I geared up the Alpha Team to "search and rescue" the lost Bravo Team. The members of Alpha Team also proved their worth and as expected many died.

There were five survivors from the initial eleven S.T.A.R.S. members. From the Alpha team were Chris Redfield, Jill Valentine and Barry Burton. And from the Bravo Team were Rebecca Chambers and Enrico Marini. It was time to begin executing my plans.

In the midst of the whole affair I could take Umbrella's ultimate Bio-Organic Weapon, the Tyrant, and join forces with an opposing corporation of Umbrella. To buy into that opposing corporation I would need the actual combat data of the Tyrant. The surviving privileged members of S.T.A.R.S. were just the perfect bait.

I decided to have one of them play the Judas and draw them to the Tyrant. That Judas was Barry. Barry was the strong truth and justice kind and cherished his family more than anything. His type is easy to manipulate. I just took that most important thing away from him.

My only miscalculation was the high potential of Chris and Jill. But with the family man Barry playing Judas the scheme went as planned. Then the winds turn unexpectedly. I had to eliminate Enrico who found out what was behind it all. I used Barry to get to him.

After I successfully got rid of that nuisance I awaited the sample specimen that Barry would bring to me in the Tyrant room. I injected the virus I obtained from Birkin in advance. If I made Umbrella believe I was dead, it made it far more convenient to sell myself to the opposing corporation.

According to Birkin the virus had profound effects. It would put my body in a state of temporary "death". It would then bring me back to life with super human powers. Therefore I unleashed an awesome Tyrant from its slumber and let it attack me. As my consciousness faded away I was certain that the whole scheme would end in success.

Never did I imagine that S.T.A.R.S. could slay the evil creation. I lost the Tyrant and the plan I devised which cost me my humanity ended in failure. Now anything and anyone who stood in my way would be terminated. It's been that way for a long time and it always will be. At all costs I had to make S.T.A.R.S. pay.

=====

September

=====

Two months had passed since the mansion incident.

To regain everything I had lost in my new organization I joined hands with Ada Wong, a female agent who was also sent to spy on Umbrella. I knew in my bones that the key developer was William Birkin, but what he didn't know was that Umbrella did not play games...with anyone.

Eventually, Birkin would be assassinated, and the G-virus would be in the hands of Umbrella. But the salvage team led by Hunk was ahead of us. By the time they got to Birkin, he'd already injected himself with the G-virus...he became his own creation, and decimated them. Soon after, the T-virus carried by rats spread throughout Raccoon City, and Umbrella faced its worst scenario.

=====

September 28th

=====

The good citizens became zombies, and the city had headed for its devastating fate. Humans were no match against zombies. In the chaos, Umbrella Europe applied a new type B.O.W., called "Nemesis". The Nemesis would hunt down and destroy the surviving member of S.T.A.R.S., Jill. It became imperative that our organization would also obtain the Nemesis data.

=====

September 29th

=====

To cover up the whole affair, Umbrella jettisoned a Tyrant to take care of Leon and Claire, who were trying to unveil their secrets. Then, there was a new revelation. Birkin used to hide the findings of his studies in his daughter Sherry's pendant.

It was very possible that the G-virus was there. While Umbrella was busy with their cover up, we had to capture Sherry before they did. I sent Ada undercover to seek the location of Sherry. I, the "dead man" on the other hand, had to work in the shadows.

A spy's obligation and priority is in mission, to carry out the mission like a machine without any emotional interference. But through her interaction and involvement with Leon Scott Kennedy, there had been an affection growing inside her. My instincts sensed danger. Something had to be done, quickly. My instincts did not disappoint me.

Even though Ada almost had her hands on the G-virus, which Leon had acquired from Sherry, that affection of her drove her to her death. But she was still of some use. I had to save her life. My people hurried to retrieve the G-virus that Leon threw away.

But Hunk, the only survivor of Umbrella's salvage team, was there before us.

=====

September 30th

=====

Our only option left was to bring back Birkin, the monster, as the sample specimen and have him finish Leon and Claire in order to obtain his combat data.

Although Birkin lost the battle to Leon and Claire, we succeeded in gathering samples of the G-virus from his dead body.

=====

October 1st

=====

In the morning the government bombed Raccoon city in an attempt to stop for the viral outbreak. This was, of course, their feigned reason...

Later, Claire left to Europe to find her lost brother Chris, and Leon joined forces with an underground anti-Umbrella organization.

Sherry is safe in our hands. I would never underestimate Birkin. There's something about this little girl..."

This contains SPOILERS. Please consider that before reading. You have to have ALSO played Resident Evil 2 and Resident Evil CODE: Veronica X at the very LEAST to understand this. Play Resident Evil: Survivor and Resident Evil 3: Nemesis for a complete understanding.

This was translated by GameFAQS user: Saiki. Thanks to him for the translation. I have done some editing.

This is also here mainly because it deals a lot with William Birkin. As we know, he plays a large role in Resident Evil 2, so if you want to know more about him, read this transcript.

To Ada Wong:

When I first visited that place, I was 18 and it was summer, twenty years ago. I still remember the smell when the helicopter landed and the rotor caused the wind to stir. From the air, the mansion seemed normal but from ground level, something was different. William Birkin, who was 2 years younger than me, seemed only interested in the research files he had as usual...

July 31, 1978 (Monday)

Two days ago, the two of us were assigned to that place. Everything could have been planned out from the beginning or it could have all been a coincidence. The only person to know the truth is most likely, Sir Ozwell Spencer. Spencer at that time, was using the Arklay labs for the research on the T-Virus.

As soon as we got off the helicopter, the president of that lab stood in front of the elevator.

I don't even remember that man's name. It didn't matter what was said officially. From that day, that lab belonged to Birkin and I. We were assigned to be chief researchers at the facility. This of course, was Spencer's will.

We were the chosen ones.

The two of us ignored the president as we entered the elevator. We had already been briefed about the layout of the area and Birkin, with no bad intentions, ignored everyone as usual.

Usually, when someone sees our actions, they would react within 5 seconds. But the president didn't even react at all.

At the time, I was only a youngster so it didn't bother the president. The president understood what Spencer was thinking and didn't take notice of someone like me.

While the three of us were on the elevator, Birkin still kept his eyes on the research files. The files contained information about a new faro-virus found 2 years ago in Africa called Ebola.

Even now, there are thousands of people researching the Ebola. But the people are always divided in half, one group to save people from the virus and the other to kill people with the virus.

As known, if a person is infected with the Ebola, the chances of dying is 90%. It has the capability to destroy the physical structure within 10 days and even now, a cure hasn't been found. If this is used as a bio-weapon, it would display incredible destruction.

But because making a bio-weapon is against the law, we would not use the virus as a weapon. But I'm certain that someone out there would use this as a weapon. So to prepare for a case of like the virus being used as a weapon, it is good to do research on it now. But the line between finding a cure and making a bio-weapon is thin. This is because the actual research conducted does not differ at all between the two. So one could say that they are researching for a cure and be making a bio-weapon.

But to Birkin, he was not interested in either cause just wanted to research the Ebola itself. The virus had too many things unknown at the time. One was that the fact that virus would die within a few days by itself and would die instantly when hit by sunlight. The second was the speed that it would kill its host. It kills the host extremely quickly that there is almost no time for the virus to infect another person. The third is how the virus is spread. The virus has to physically touch another person in order to infect them and therefore can easily be quarantined. But I would like to bring up the following thought.

What if a person that was infected with the Ebola virus could stand up and walk around? And that infected person would have a disrupted chain of thought, and would infect others that weren't infected?

What if the DNA of the Ebola, the RNA, had a direct impact on the DNA of a human, and due to that, would make the person not die so easily?

The person would be dead from a human's point of view, but would still go around as a bio-weapon spreading the virus around.

It is fortunate that the Ebola may have features like this. Even from now, we will be the only one to know about this.

Umbrella, with Spencer as the head, was an organization made to do research on viruses with these qualities. As a cover, they tell the

world that they are a company making cures, but the truth was a bio-weapon developing organization.

The finding of the original virus which restructures the human DNA was the start of everything.

Using the original virus as a base, an enhanced virus would be made to be a bio-weapon. This was the plan for the T-Virus.

The original virus was also an RNA virus and would cause abnormalities, thus enhancing a host.

Birkin was interested in the Ebola because he planned on combining the two virus's (Ebola Virus and T-Virus) to create an enhanced virus. Luckily, the sample of the Ebola had already been brought to this research facility.

We had gone through many elevators and had finally reached the destination.

When we reached that place, even Birkin had raised his face to the sight.

This was our first encounter with that woman.

We were not told anything about that woman. Everything relating to her was kept top secret and the data was not to be leaked anywhere outside the lab.

From the records, she was here since this lab had been created.

She was 25 at that time. But what her name is and why she is here is a mystery. She was a test subject for the research on the T-Virus. The research begun in November 10, 1967. For 11 years, she had gone through tests with many viruses.

I heard Birkin whisper something. Whether those words were cursing, swearing or praising, I don't know.

But we had come to a place where we couldn't back out of.

We were to take the research to its completion or to be captured, and end up like the woman. For us we, only had one choice.

The woman who lay on the pipe bed had moved something within both of our minds.

Was this part of Sir Spencer's plan?

Alexia - 1

July 27, 1981

---3 years from the previous report

Today, Umbrella assigned a ten year old girl to be the chief researcher at the Antarctica facility.

Her name is Alexia Ashford. As of right now, I am 21 years old, and

William Birkin is 19.

It is very provoking that even in our own Arklay lab, everyone is talking about Alexia and the Antarctica facility. It is because all the old high staff members consider the Ashford family a legendary family.

Every time something goes wrong with our research, those old fools always say the same thing. "If only Edward were still alive."

It is true that he was the first one to find the original virus, and he may have been an incredible scientist for starting the T-Virus plan.

But soon after Umbrella was formed, Edward Ashford had died. It has been 13 years since then. There would be no meaning in expecting anything from the Ashford Family.

In fact, ever since Edward's death, the Antarctica facility that his son (Alexander) built has done nothing.

This granddaughter of his is probably nothing useful as well...

But one day, our useless workers started to say these statements. "If Alexia was here....."

It angers me to think that our workers and researchers are filled with mindless people that judge people by their status. Because they think like that, they cannot do anything themselves and always have to be told what to do! But I, I still had good judgement.

If I had let all of that go to my head, the research at the Arklay lab would have been delayed. As the head researcher, I always have to keep myself under control or success would not be possible.

Then, a thought came to my head. I could use those old staff members to gain my success. Those old fools could die at any time and would serve as perfect test subjects. To be able to rise above everyone, I must be able to use all resources to my advantage.

But the problem was Birkin. His reaction to Alexia was great.

Although he never spoke of it, Birkin took pride in the fact that he was 16 when assigned to this lab. But his pride was completely destroyed by the fact Alexia was a genius at 10 years of age. Born as a genius, he had tasted his first defeat, since Alexia was ahead by a full 6 years.

He could not handle the younger, legendary family, girl. To be out-done by a girl who hadn't even made any progress...

The main thing was the fact that she was still a child.

But for reasons, I have to have Birkin get back to his normal self again. The William Birkin I knew before he met Alexia. We had already reached phase 2 in our plan in the past 3 years.

Currently, the T-Virus could be used to create a biological weapon also known as the zombie. But the effects of the T-Virus varies greatly between people and there is no 100% guarantee for it to work yet. Every person has a different DNA structure and some may react differently.

Even then, 10 percent of those who turn into zombies die. This we can do

nothing about. With the remaining 90%, it is easy to use them as a weapon, but Spencer thinks differently.

He wants 100% and wants a perfectly confined weapon.

Originally, the bio weapon was to be a weapon that could be made with very little cost. But now, the bio-weapon that we research now costs great amounts. If Spencer just wanted to make money, he would not have chosen this path.

If used at the current state, we could easily make a profit from it. But to continue research would not add up.

Why would he continue research if he would lose money?

I don't understand what the hell Spencer was thinking.

But going back to Birkin, the research that Birkin is currently in is a bio-weapon that possess combat skills. By using other DNA samples, we could create this bio-weapon. It was made to fight off any forces that opposed us. It was a fighting bio-weapon, also to known as a Hunter. But that research had to put on hold for now so we could protect the test subject from Birkin.

To compete against Alexia, Birkin started to act differently than usual. He would stay at the research lab 24 hours a day, and would do tests without any perceived plan.

I would usually use other researchers to collect samples and data from the test subjects before they died, but at the speed that Birkin goes at now, is impossible to keep up with him.

The president would keep getting new test subjects as if nothing happened and that subject would die shortly after. It was hell in there.

But even in that hell, that one test subject, the women, still lived.

She was 28 and had spent 14 years in the lab.

Over the 14 years, the effects from the Ebola Virus must have corrupted her mind. But if she were to still have a conscious mind, death is what she would want. But she lived on. How would she live on for so long? There is nothing different from her data and any other data from the other test subjects.

More time is needed to solve this mystery.

---the next report takes place 2 years later

December 31, 1983 (Saturday)

It had been the 6th winter since I began working at the Arklay facility.

During the last two years, we had made no real progress with our research as time passed by. But this had come to an end. We had received word that Alexia had suddenly died. The reason was the virus that Alexia herself created; the T-Veronica Virus. It seemed like the 12 year old Alexia was too young for such dangerous research.

I had heard rumors that Alexia had injected the T-Veronica Virus in herself but I couldn't believe this. She probably couldn't handle her father's death a year ago and perhaps made a simple error in her research.

Later, the research at the Antarctica facility was continued by Alexia's twin brother, but no one had expected anything from him. In the end, the Ashford family couldn't bring any results and fell.

Like I had stated earlier, the Ashford family was a legend and will stay as a legend only.

With Alexia's death, Birkin had changed, or I should say, changed back to what he was. But now, there was no one who could surpass him and all those researchers had to acknowledge him. But it was still a taboo to talk about Alexia in front of him. Even when I tried to get a sample of the T-Veronica Virus, he had strongly objected.

I had to put aside finding out about Alexia's research for later. In the end, Birkin had changed not one bit when everything around him had changed.

But to me, I had a much bigger problem in my hands.

Our facility was located in a very dense forest. I went out walking into the woods many times, but because this facility was in the near center of the forest, we would never encounter any other human. The only way to get here was by a helicopter. It was a needed precaution dealing with a bio-weapon. Since if by chance, the virus is leaked out, it would prevent the chances of spreading.

But a bio-weapon isn't so simple. The virus can also affect non-human beings as well.

Any virus isn't guaranteed to only affect one kind of organism. For example, the Influenza virus not only affects humans, but birds, pigs, horses and even seals. And even in 3 each of these species, only certain ones are affected. For example, seagulls and chickens are affected by viruses, but all other birds are not. And the same virus may have different effects on different species.

The problem lies in how the T-Virus can affect many different life forms.

During the time when Birkin was useless, I had done my own research on the T-Virus. I had found out that the T-Virus can affect most life forms out there. And not just mammals, but plants, bugs, and fish can also be affected by the virus. Every time I walked in the woods, I always asked myself, "Why did Spencer choose this place?"

There are many different forms of life in these woods. What would happen if the virus were to leak out? If only an insect were infected, it is small in size and probably would not go through a big mutation. But these insects could spread the virus at an incredible rate. If this were to happen, how far would the T-Virus spread?

If it were a plant that was infected, the plant itself could not move and would seem safe. But what about the seeds the plants give out?

It would be very dangerous for such a case to happen. Now that I think

about it, it was very smart for the Ashfords= family to locate their facility in Antarctica. But here, it almost seems like someone wants the virus to spread. But that could not be possible. What is Spencer trying to make us do?

This issue was far to great and I could not discuss this with any other researcher. The only one who I could talk to was Birkin, but he probably would not even be interested.

I need more information.

I had started to realize my limits as a simple researcher. To find out what Spencer was truly thinking, I need to be at a position where I could obtain more information.

For that, I would throw away all my current positions. But I cannot do this quickly. I cannot let Spencer notice my plans for if he does, everything would be over.

I had continued to do research with Birkin so that no one would know my intentions.

During that time, that woman test subject was forgotten. She was a "failure" that just lived on until that day, 5 years later...

The 11th summer had come since we started working at this facility. I was 28 at the time. Birkin had become a father to a 2 year old girl. The wife was a also a researcher at the facility. It was natural that people who conducted the same research at the same facility fell in love with each other and end up having children.

But a normal person would not be able to continue research at this place. Anyone still here is crazy.

We had gone into phase three of our plan in the ten years. A programmed life, to be used a soldier, is a bio-weapon for combat. It was to be called "Tyrant." But this project had a huge problem from the start. Gaining the test subject for this Tyrant was a problem. There were very few who were compatible with becoming a Tyrant.

This was due to the nature of the T-Virus.

Any human could be used to make a zombie or a hunter but their intelligence would be lost in the process. A certain amount of intelligence is needed to create a Tyrant. Birkin had used a different way of creating the Tyrant to compensate for this problem. But only a very small amount of people could be used for this different way. In the simulation, only 1 out of 100,000,000 turned into a Tyrant and the rest became zombies.

If our research continued, we could create a different kind of T-Virus that was compatible for more people. But for this to happen, we needed another test subject. But even if we searched through all of America, we would only find ten or so people that were compatible for becoming a Tyrant.

Other research facilities had reached the same problem. We had run into a wall even before our research began.

But we had received word that the Europe facility had thought up of a

plan to conquer this problem in phase 3. This was the "Nemesis Project."

I had urged to get a sample of the project to put our research further.

Although Birkin had strongly opposed, I had convinced him.

Until we found a compatible host, our research would not move and Birkin needed to admit this.

We had received the package a few days later with a number of precautions written on it. The package brought to heliport was a small box, titled "Nemesis Project"

To gain this sample from the France facility required quite an effort but was mainly due to Spencer backing us up.

Birkin took no interest in the package until the end but he had at least admitted to tests. The Sample was totally new and was thought up for test purposes.

The Nemesis was a biological life form created by manipulating DNA.

The intelligence was the only thing enhanced and this life form alone, could not do anything. But once it finds a host, it becomes a parasite and would take over that host and would cause it to have incredible combat ability.

The host for the weapon and the parasite would be made separately and later the intelligence of the parasite and the body of the host would be combined to create a bio-weapon. If this were to succeed, it would overcome the problem of the intelligence and we could create a bio-weapon.

But the problem was when the parasite takes over the host.

In the research files, all that was recorded was the death of each host once taken over by the parasite sample. Within 5 minutes of the parasite taking over, the host would die. But we were already aware of the danger that lied in the prototype.

My plan was to prolong the time in which the host would survive, so that we would gain the credit to the "Nemesis project". The host would be that women test subject.

Her incredible life rate could survive longer against the Nemesis prototype. And even if it failed, nothing would change on our side.

But the test had created a result I had not expected. The Nemesis prototype that tried to enter her brain had disappeared. At first, we could not tell what had happened. We did not expect her to consume the Nemesis.

That was the beginning.

Something was happening inside of that failed experiment. We had decided to start research on her from scratch.

In the past ten years, we had conducted every research possible on her, but we had decided to throw all those files away. Within the 21 years that she lived, something was beginning to show.

Only Birkin had begun to notice the change.

Indeed, something had begun to change inside her.

But that was something totally different from the T-Virus project.

Something new and would bring a new idea to us.

The "G-Virus" project was the project that had changed our destiny.

---7 years from the previous

When I came back to that place, it had been 17 years since I first came. Every time I came here, I remember the smell of the wind of that day. The buildings and the surroundings all looked the same from before.

On the heliport, I could see Birkin. It has been a long time since I've seen him. Four years have passed since I left Arklay labs.

4 years ago, when Birkin's G-Virus project was authorized, I had requested to transfer to the secret (intelligence) service and this was easily approved. From everyone's point of view, it was a natural thing for me to stop my road as a researcher and go onto a different field.

And in reality, the research conducted on the G-Virus was far above my level. Even if I didn't have a different motive, I could feel my limits as a researcher when finding out what Sir Spencer was up to.

In the midst of the wind blowing, Birkin, as usual, didn't take his eyes off the research files. Birkin came to Arklay quite often, but Birkin was not under Arklay anymore.

A little while ago, an underground lab under Raccoon City was made and this was the place that his G-Virus project would be made.

But to be honest, I didn't think that Spencer would authorize "G". This is because "G" was far from being a weapon, and had too many unknown things about it.

The reason the "G" was slightly different from "T-Virus" was that the host would keep spontaneously reacting to the virus. It was very easy for a mutation to occur since the DNA would be open to a virus. But this is just in the case of the virus itself and not the hosts DNA.

Even if the virus did cause some form of change, the DNA of the host becoming mutated was a rare case. If there was an outside force like radiation, it would be a different story though.

But the case of "G" was different. Even without an outside force, the "G" would keep mutating the host until death.

Something very similar to this did exist in the T-Virus as well. When a bio-weapon is put in a specific area, the virus inside the host would causing some form of mutation has already been confirmed. But for this, an outside force was always needed.

But the "G" had no need for such a thing.

No one can even expect what lies ahead with the mutations. And even if we think of a way to stop the mutation, the virus would just mutate to accommodate.

7 years ago, Birkin found this in that woman. At first look, the woman had no changes on the outside, but inside, various mutations had occurred and had kept on consuming each kind of virus injected and had lived on.

And over the 21 years of mutating, it had mutated so much that it would even consume the Nemesis.

The G-Virus project was to take this mutation to highest point possible. But this could lead to the "Ultimate life form" or it could end due to a disaster .....could this even be called a weapon?

What was Spencer thinking when he authorized this project? Even when I moved to the secret (intelligence) service, I could not find out anything about what Spencer was thinking during these 4 years. And now, Spencer doesn't even show up in Arklay labs. It seems he was expecting something to happen there.

Spencer was slowly drifting away from me, just like an oasis in a desert.

But my chance will come soon enough... That is, if I can live until then.

The elevator took me and Birkin to the highest level in the lab. It was the place where Birkin and I first saw that woman.

There, we met the new research leader, John.

He had come from a Chicago lab and was an excellent researcher, but he was too normal to work in a place like this. He had started to question the motives of the research there and had repeatedly questioned the superiors.

This had even reached my ears in the secret (intelligence) service. If information has been leaked out, he would be the first to go. This is what everyone had started say.

We had both ignored John and had started the clean-up of that woman to kill her.

When she consumed the Nemesis, although she had started to regain some intelligence, her behavior was extremely peculiar.

Each time it would escalate. She would start to rip another woman's face off and would wear it herself. According to the records, she showed the same behaviors when she was first injected with the original virus.

No one knew why she would behave like that, but recently, three researchers had been killed that way and this is when she was authorized to be killed. Because "G" was progressing steadily, there was no use for her.

Her death was confirmed over the course of 3 days, and her "dead body" was carried somewhere by the president.

In the end, no one knew who she was and why she was here. But this was also the case with any other test subjects.

But if she had not been here, the G-Project would not have existed. If this were the case, both I and Birkin would have been in a different situation than the one now.

I had this on my mind as I left the Arklay labs.

How far was Spencer planning?

---the "incident" would happen 3 years later...

(That incident, of course, is the "Spencer Mansion Incident," where the residing scientists are turned into zombies and the STARS members are forced to survive hell.)
