This FAQ contains all the combos that I have discovered in the American version of SaGa Frontier 2 by Squaresoft. I highly recommend this game! The combos are sorted alphabetically into groups. The groups are:

- Total Number of Combos
- Basic Combo Information
- Duo Attacks
- Triple Onslaughts
- All Out Attacks
- Enemy/Party Combos

Enjoy! :-)

Total Number of Combos

1,215

Basic Combo Information

-----

You should try to use combos in this game because the Arts do more damage when they are combined. To perform a combo, you must target one opponent and input the Arts in the exact order that is listed. There also cannot be any interruptions between each action. For example, lets say you wanted to do the Shadow Slayer + Turtle Killer + Heaven & Hell + Megahit combo against the Egg. If the Egg or another character performs an action between the Shadow Slayer and the Turtle Killer, it will not work. Also remember that even if you do get the moves in the right order, the combos happen randomly.

\*\*\*\*\*BONUS\*\*\*\*\*

Hey! For reading this far, I will give you some GameShark codes that were sent to me by Grafstar and Marbirdddd! Here they are:

Infinite Sp =	30010??8-00FF	(found by Grafstar)
Max Sp =	30010??9-00FF	(found by Grafstar)
Sp Recovery Rate =	30010??B-0063	(found by Grafstar)
One Hit Kills =	801F7150 0000	
	801F7340 0000	
	801F7530 0000	
	801F7720 0000	(found by Marbirdddd)

The ?? stands for which character you want the codes to effect. Thanks again to Grafstar and Marbirddd!

Also, here is a tip from Babusukumar. According to him, he says that during a Duel, if you are trying to learn a specific Art, try to use commands from different items. For instance, use Focus from an axe, Charge from a shield, and then two Throw commands from an axe. Doing it this way will let you have a greater chance of learning the Art. Thanks again to Babusukumar.
