About learning The Weapon Arts

Well There are a lot of People who Ask me about How is the exact way to learn the Arts.In this section i will try to give some information about how to get the Arts From the Group Battle.But First, I must say that the Information below are taken from Saga Frontier 2 Ultimania with the help from David Su(boko-kun@neteze.com) (Thanks for the explanation man :D).Hope this information Can help you and please remember that it is not 100% possibilities to get the art with only a single try on the Group Battle by using the chart below because there are may be have other condition too (Maybe about the weapon affinity(+Sign),The Enemy(Stronger enemy,better possibility).etc) and ofcourse you need a lot of luck to get them on The battle :P .Second,i'm not test all of them so don't blame me if it doesn't work and please tell me if it's really work ^_^.Now i will give you the explanation about the Chart below.

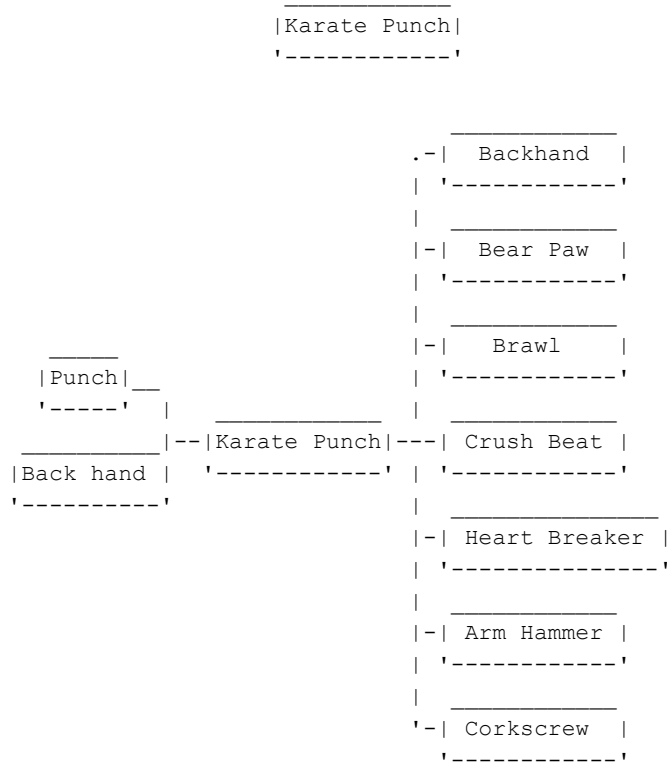

Ex:

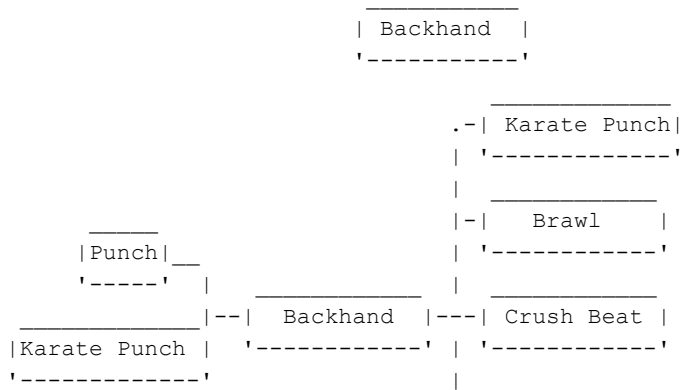

- 1.The Left side(Punch and Backhand) means you can use them(On the Group Battle) to get The Middle Side(Karate Punch)
- 2.The Middle Side(Karate punch) means There is a possibility that you can learn it by using the arts/move from the left side(Punch and Backhand)
- 3.The Right side(Crush Beat) means there is a possibility that you can learn it from the Middle side(karate Punch)
- 4.The *(On the left side) means it's really hard(very small possibility) to get the Middle side using that arts/move
- 5.The *(On the Right side)means It's really hard(Very small Possibility) to get the Art using the Middle side

Ok Let's start
