I wrote this FAQ because there weren't any in depth skill FAQ's and cause I think its high time that folks get to see the English names for this guys skill's on an FAQ and be able to know what they are doing. Steal this FAQ and I'll be forced to go to your place of living, smash your computer, and Steal all your Kit-Kat Bars.

DISCLAIMER

This FAQ is for your private and personal use only. DO NOT try and sell, print, copy, or redistribute this FAQ for your own personal profit. Doing the aforementioned will result in much pain and suffering on your part and perhaps the loss of many vital cellular functions.

Note on E-Mail

If you want to send me E-Mail then please feel free to do so. Just send you questions, praise, comments, or suggestions to DestinyStrike@hotmail.com. Please make sure to label the subject so that the name of this FAQ is mentioned. DO NOT send email that is irrelevant to the FAQ I.E: you suck, get off the net, and so on.

I. Reid as a Character

II. Combo's for Ried

III. Learning his Moves

IV. Conclusion and Credits

I. Ried as a Character

Name: Reid Hershel

Age: 18

Height: 5'10"

Weight: 137 lbs.

Most Notable Characteristic: Gluttony

Weapon: Sword, L-Sword, Knife, Axe,

Lance, Spear, Pole-Arm

Ried is a great character; he has personality, a bottomless pit of a stomach and great skills as a swordsman. In this FAQ we will be focusing on the last part, his Sword Skills, how to learn them, abuse them, and so on.

II. Combo's for Ried

Ried is more difficult to make independent combos with than Farah. This is because his special moves don't link into each other and can sometimes get on your nerves because of it. He CAN combo, just not as ludicrously. Here is how it is done

Normal String ---- Special Skill ----- Sacred Skill

III. Learning his Moves

NORMAL STRINGS

(The descriptions are taken as though you are in manual mode and not semi auto)

*X, X, Down+X

*X, Down+X, Down+X

*Down+X, X, Down+X

*Up+X, X, Down+X

*X, X, Up+X

*Down+X, X, X

SPECIAL SKILLS

If you see the skill listed but it is in blue lettering then you need

to raise your slash or thrust level as listed in the FAQ. Too bad there isn't a numeric measure of the level, only a bar. But if you feel like keeping track, the bar starts off at level 1 for both Slash and Thrust, keep track and you won't get too lost.

Sonic Blade TP 4
Slash LV 2, Thrust LV 1

Thunder Blade TP 4
Slash LV 1, Thrust LV 2

Swarm TP 7

NOTE: The amount of times you use a skill may be less than listed. Just keep checking the skills menu when practicing to learn the next move. When you see the name of the move you are looking for in blue letters, you can stop practicing.

Credits

I would like to thank Yeblos for translating the Japanese moves. I would like to thank Kung Lee for writing the FAQ that I based these off of. I really didn't do much, this is just an FAQ to make peoples life a wee bit easier. I would also like to thank RPGFreaks for clarifying how to do the extension for Omega Demon Chaos and Omega Seal. Thanks to all of you I was able to compile your information into this FAQ for all of us to enjoy.
