:::Intro:::

Well comeing to terms with the fact that one no longer has a life is a hard thing to do. So in order to coop I decided to take on the tireless act of documenting all the Items dropped by the Baddies In Legend of Dragoon. Keep in mind that this list is Far from finished. All info in this faq is belived to be accurate and near complete. If you find any thing a miss or have other items to list that I have missed I will leave contact information at the bottom of this faq. Thank you and I hope that all my efforts have made some ones life complete.

:::Whats New:::

v2.2 Hey look More critters and Items along with a NEW E-MAIL ADDRESS.

v2.1 Ok I havent had ne real time to play. i think I added 2 or 3 new Items and fixed a few more Mistakes. PLEASE I need YOUR help. i am working way to much and need people to mail me there finds.

v2.0 I have just added a bunch of new items and a few new monsters. Again I have fixed a couple of spelling mistakes. Please if you guys find an item I dont have on here please e-mail me with it. I need all the help i can get, this is taking to much of my free time.

v1.1 I have fixed a few type-o's. I have also added a few more items. Other than that not to much new. Notice the Note I added at the start of the Item list. I have also added a few plugs.

v1.0 Well this is the first version of this faq so every thing is new. All I can say about the makeing of this faq is, never again. You would not belive how long it took for me to get some of the monsters to drop an item. As you can see I am still trying to get some of them to do so. I can really use your help with this.

:::A Few Quick PLug:::

My first plug is for my Girlfriends web site. She is an up and coming photographer, she deals with band porfolieos, weddings, and potriates, and just

about any thing else you can think of. If you are interested got to www.escapingreality.somewhere.net/ You will not be able to beat her prices, and unlike me she can spell. And please feel free to sign the guest book :)

My second and final plug is for the hardest hitting local band I have ever heard. They are local to the south-east part of Wisconsin. They are RICTUS GRIN. If you like your music hard, fast, and able to make your ears bleed check them out at www.geocities.com/rictusgirnforever/ The only thing you have to loose is your hearing.

:::On with the Show::~:

I am adding locations only to Rare and hard to find Enemys. If you are looking for battle tips, secrets to the game or any thing thats NOT related to monsters and the items they drop, take a look at Desmonds faqs. (R)=Hard to find or Rare monsters and (*)=An Item that is worth trying to get at that point in the game. *****NOTE***** PIGGIES DO LEAVE SACHETS. IT TAKES AN EXTREMELY LONG TIME, BUT THEY DO. SO PLEASE STOP E-MAILING ME WITH WHAT I ALREADY KNOW. Also the bosses do not always drop their items, so I know I have missed a couple of those. If you dont get any thing you can only reset your playstation and try again.

-----THANK YOUS-----

My Very Spelcial Thanks go to,

Desmond for the use of his monster list, making some of the best facts on the web, and being surportive on the LOD message Board. Also I would like to thank him for the Items that are dropped by The Loner Knights and all The birds as well as 00 parts.

Mountian Dew for caffine needed to stay focused on the task at hand.

Miller for the alchohal needed to become unfocused on the task at hand.

Sony for Making a Game that is not Crap.

Prima for absolutely nothing.

I would also like to thank some one who I only know as Sister from the "LOD" Message board for the items that Crystal Golem, Puck, Wildman, and many others left. She also donated a bunch more, but out of disoraganizaton, I seem to of lost them. But thank you once again.

A thank you also goes out to Belzac from the LOD board for his info on the Stern fish.

It seems I can not thank Sister enough for helping me. When ever I least expect it she helps me out.

A very warm thanx goes out to Andrew and John for whom have done a lot of playing and research for this faq. i couldnt be doing this without them.

Oh, Btw did I mention CopyWrite 2000 DragonMageNeo
