===== I ABOUT THIS FAQ =====

What is challenge FAQ? Well it is a faq that makes a game a little bit harder by giving the player challenges that are harder than what the

game presents, to increase the replay value of the game. First off, I got this idea off the gamefaqs.com message board so technically, this is not an entirely original idea. Second, I don't care if you print it out or post it on another website, but since it is a copywrited work of Mike Truitt you will need to e-mail me and ask if you can use it. Other than that, I really do not care what you do with it. If you want to give me a challenge to post on here just e-mail me at mat2810@cs.com and I'll try to post it on here. Try not to repeat the same one over and over. If you do send me one, tell which cheats if any you will need to have on to complete your challenge.

TIPS

=====
There are quite a few tips that you will need that will help you out to complete most of the challenges. Here, I will try to get most of them in here.

1. Always, skate around and figure out what exactly you will need to do to finish the challenge
2. Try to get at least one of your skaters stats up to the max that they can be
3. Manualing is the key to everything, you can not get most of the challenges with out being able to manual very well.
4. You should get used to the level that you are going to try the challenge on, if you don't you will have to go through a lot of needless frustration.
5. Try not to go too fast or too slow, both can destroy the attempt.
6. Try the challenges in free skate mode, it would be pointless to do in anything other that free skate.
7. Don't give up too easily, some off the challenges are frustrating

at first, and will even take a few hours to do them correctly (not the trick itself, but to finally do it right)

8. Look for a shortcut, some times you think that you have to do the challenge on way but instead, you can do it another, and it makes it extremely easier.
9. Learn how to balance yourself well on grinds, even if it is not a part of the challenge, it will help you rack up you point totals.
10. When ever you are loosing you balance on a manual or a grind to a point when you know that you will fall, jump, pull of a trick, and land in a manual or a grind again, sometimes you will fall, but others, for some reason, will balance you out perfectly.
11. Pay attention to some of the challenges, if you have trouble getting high scores, they might help you to figure out some that work good for you.
12. If you cannot do the challenge, try putting in a cheat like all stats at 13, I could have forgotten to put it in the faqs.
13. Use a skater that you are used to, this way you know how to balance him or her on manuals, and you know just how they will react.
14. If you are trying to get high scors, follow some of the lines for the challenges and add a needless amount of jumps into manuals, and also put in special grinds and special manuals.
15. If you are not good at performing quick tricks, turn on the slow-nic code, it will slow down time while you are performing tricks. This will allow you to pull off tricks that you normally would have the reaction time for.
16. Wall ridding also helps, it can get you to some hard to get places like on top of buildings, or it can get you huge air if you jump at the right time, you can even pull of "The 900" if you jump at the right time
17. If you are trying to get a huge combo, and are going too fast, jump up and land into the wall while still in the air, if you can master this, than you can get your combos much higher than what they are right now.

 A L L A R O U N D

Challenge #1

Difficulty 9/10

Secrets Needed- none

What you need to do-

Find any long rail and get your base score above 100,000 points. This can be achieved on any of the main levels except for Marselle.

Challenge #2

Difficulty 6/10

Secrets Needed- none

What you need to do-

Find a quarter pipe near a rail and pull off a 1080 into a special grind. This can be done in New York, Venice Beach, Skatestreet, and the Bullring.

Challenge #3

Difficulty 10/10

Secrets Needed- none

What you need to do-

With out using any specials or grinds or ramps, get a score of 100,000 by just jumping and manualing. There is a trick to doing this, if you can not think of it check out the All Around High Scores Section.

Challenge #4

Difficulty 8.5/10

Secrets Needed- none

What you need to do-

With out using any specials get a combo of more than 1,000,000.

Challenge #5

Difficulty 9.5/10

Secrets Needed- 2x Moon Physics and Moon Physics

What you need to do-

Jump off of a ramp any where and pull off a full front flip and land it. (not a special front flip, just keep pressing up).

Challenge #6

Difficulty 9/10

Secrets Needed- none

What you need to do-

In any level get to a part of flat land and start a manual, keep on manualing until you have a score of over 1000.

Challenge #1

Difficulty- 5.5/10

Secret Needed- none

What you need to do-

At the start of the level go down the rollin and turn left, you will see a wall get to the other side of that wall by using the long kicker ramp, if you notice, there is two small wooden kicker ramps on either side of the helicopter. Jump off one of the kicker ramps, it doesn't matter which one and land on a grind on the long kicker ramp next to the plane, and from there, jump up and grind along the wall getting the "Rail Guided Missile" gap.

Challenge #2

Difficulty- 6/10

Secrets Needed- none

What you need to do-

At the start of the level go down the rollin and turn left there will be a long kicker ramp, jump off of it, and land on a grind on one of the light rails that are in the room with the helicopter, when you come to the end of the rail, jump off and land on the light that is parallel to the back wall, when you get at the end of that, jump off and land on a grind on the last rail, so in a sense, you just did a huge U-turn.

Challenge #3

Difficulty 4.5/10

Secrets needed- none

What you need to do-

At the start of the level go down the rollin and turn right, you will see a half pipe and by the wall in the half pipe a propeller, grind the propeller opening up the secret room, go in face the wall that has the door in it, there will be two separate quarter pipes, jump from one of the quarter pieps over the door, getting the "Flying High" gap, and land in a grind on the top of the other quarter pipe.

Challenge #4

Difficulty 6.5/10

Secrets Needed- none

What you need to do-

At the start of the level go down the rollin and turn left, you will see a wall get to the other side of that wall by using the long kicker ramp. On either side of the helicopter is a small wooden kicker ramp. You will need to jump from one of the two kicker ramps and land on a grind on the light rail that is on the opposite side of the room.

Challenge #5

Difficulty 9.5/10

Secrets Needed- none

What you need to do-

Skate down the rollin at the start of the level, there will be a half

pipe, jump over it getting the "Halfpipe Hangtime" gap, and land in a manual, then turn to the left you will see an old plane, jump from one side of the plane to the other getting the "Wingtip Hangtime" gap, land in a manual getting the "Instrument Landing" gap, then turn to the right and jump over the wall using the long kicker ramp, on either side of the helicopter is a small wooden kicker ramp. You will need to jump from one of the two kicker ramps and land on the other getting the "Skycrane Hangtime" gap.

Challenge #6

Difficulty 8.5/10

Secrets Needed- none (But you will need the special "The 900" equipped)

What you need to do-

Skate down the rollin at the start of the level, to the right is a quarter pipe, and straight ahead is a ramp that is on the outside of the half pipe, get some points on the quarter pipe, enough to fill up your special meter, jump off of the ramp, wall ride the wall, and then pull off "The 900" landing it.

Challenge #7

Difficulty 7.5/10

Secrets Needed- none

What you need to do-

At the start of the level, go down the rollin and when you come out, go to the left, you will see a wall, get to the other side of the wall by jumping off the long kicker ramp; in the room there is a helicopter, grind one of the helicopters propellers making it fly away, now if you face the back of the room, there is a small wooden quarter pipe, get some air and points off of the middle of the pipe, then when you land you will see another quarter pipe on the other side of the room, jump out of the room from the quarter pipe, and land in a grind on the middle light getting the "Big Light Hopper", continue to grind the rail until you are somewhat close to the end, jump off of the light and land in a grind along the outside of the half pipe that is in the main room.

Challenge #8

Difficulty 7/10

Secrets Needed- none

What you need to do-

At the start of the level, go down the rollin and when you come out, go to the left, you will see a long kicker ramp, get to the other side of the wall by jumping off the long kicker ramp and grind along one of the helicopters propellers.

=====
V I I HIGH SCORE CHALLENGES
=====

There are a few ways to get high scores. There are two parts of your score, a base score and a multiplier. The base score is the score before the multiplication sign and the multiplier is the number after the multiplication sign. If this is confusing here is a diagram

8564 is the base score and 12 is the multiplier. To figure out the score of your combo the game figures out 8564*12. If this was the score of your combo then you would get a score of 102,768.

Some people have a hard time getting the base score while others have a hard time getting the multiplier up. If you have trouble with one then you can still get decent combos, but if you have problems with both then you will not get anything over 100,000 with the average combo. To get a high base score is hard to do at first until you figure out the secrets of it (You don't think that it is just the line that you take did you?). The first thing that you will need is a long rail or quarter pipe to grind. But just grinding will not help, you need to have your skater equipped with an expensive special grind that you can balance easily, most people find that Heelflip Darkslide is the easiest. Instead of just using a special grind to a huge spin into the grind, and here is why... The more that you spin,

Table with 3 columns: Degree of Spin, Times your score is higher, the more the trick will be worth. The increase is shown on the left. So if you do a 360 Heelflip Darkslide for 5 seconds

900	6	it will be 2x the score
1080	8	if you did just Heelflip
1260	10	Darkslide. So the more spinning you do the

higher the base score will be. Often times people ask "How do you get such huge spins into a grind?" Well it is hard, I can only do the 1260 once every blue moon and the 1080 is still a freak the 900 is easier to do. To do them you will need to do one of three things: do a quick wall ride then a spin into a grind, or jump off of a building into a grind, or jump off of the side of a quarter pipe into a rail. This is one of the hardest part of getting the huge score is the spinning. Instead of just spinning while you are going into a grind, do a special grab that is quick to pull off and also easy to spin with, the best one to do his with is the Pogo Air. Once you get this down you will have a huge base score. Getting your multiplier up is a little bit easier once you know what to do. After your grind you won't have much grinding balance so you will have to get your multiplier up another way. This way is easy. The easiest way and most obvious way to do it is jump kick trick then manual the repeat as much as necessary. The other way will get your multiplier up faster but you have to be a little bit more careful. You have to wall ride and jump off, while you are in the air you can pull off two to three kickflips before you land into another manual, and if you wallride in a corner you can get some serious air, while doing this it is easier to do a grab trick and get a little bit higher. Be careful when going into the corner because often times you will get a Big Drop and you could fall. Once you have a high base score and a high multiplier (the highest possible is 28.5 so try to be at around 20-25) you need to do something to finish it off. The easiest way to do this is by jumping off of a quarter pipe. While you are in the air you have to options to finish it off, one is to do one long grab trick while spinning to get the base score a little bit higher, and the other one is to do a few fast grab tricks to get you multiplier up a bit more. When you land there is only one way to land and that is perfect. There are quite a few people who have problems with this, the easiest trick to do that helps you land perfect is the Benihanna, it pretty much just points the direction in which you are going to land. Landing perfect will in some cases over double your score. When you start to use the same move multiple times in one move (or one run if you are in Career Mode or single Sesson) the score you will get for that trick will go down. As you can tell from the chart that I made the first time

1st time-	100%	that you do the trick you will get 100% what the
2nd time-	75%	trick is worth, then the second time that you do
3rd time-	50%	the same trick you will get 75%, then the third
4th time-	25%	time you do that same trick you will get 50% of
5th + time-	10%	what the trick is worth, and the fourt time you
		will get 25% of what the trick is worth, and every
		after that you will get 10% of what the original

trick was worth. If you use this corectly, especially in a run where you are trying to get in the 10 million range this will help you out. If you know the first time you do a special grind it will be worth a certain amount, then after you use it again it is worth less, you might want to find a couple of special grinds that you are good at to get a huge run, instead of using the same one over and over again.

Bullring, Mexico
.....

Unlike some Raging Bulls, you don't need to gain 50 pounds to get in here. Not too good for getting huge scores, it still can be a fun course if you like that sort of thing.

Line #1
Difficulty 7/10
Score ~ 2 000 000
What you need to do-

At the start of the level build your special up on each side of the half pipe, then jump off of the quarter pipe that is across from the loop to the right and do a 900 Pogo Air and land on the rail in a special grind, at the end of the rail jump off to the right and go around the quarter pipe and do the same thing as you just did, when you jump off this time, go to the quarter pipe that surrounds the track, pull off a few tricks and land perfect.

The Mecca of all that is good in skating. Only the best of the best will be able to get here.

Line #1
Difficulty 9/10
Score ~ 4 500 000

What you need to do-

Using the Skip to Restart option, go to Tony's Ramp. When you start out, turn to your right, and go towards the edge. Face the building that was to your left when you started, you should see one part of the roof sticking out. Get your special up and jump up to that part. Then jump off of the roof and do a 720 or a 900 Pogo Air and land on the outside edge of the Sadlands area. Grind until you get past the set of trees. Jump off and manual to the left, follow the trail all the way around, past the Bench Gap Series, and back to the area where the steps lead to Tony's Island. Jump up those steps (You may need to do a FAST grind) and land in a manual, keep going, through the full pipe and into the snake run. Jump off of the quarter pipe and do a few tricks and land perfect.

Line #2

Difficulty 7/10

Score ~ 2 750 000

What you need to do-

Using the Skip to Restart option go to Tony's Ramp. In front of you when you start is a quarter pipe. Get some air off of the right side as well as your special up, then jump off of the side that is by the building to the right. Do a 720 Pogo Air and land in a grind on the rail that connects the building and the full pipe. Grind this rail until you get to the area with the steps, then jump down and go down the steps. When you get out go to the left, and follow the path until you get to the big blue half pipe. Jump off of one end, do a few tricks and land perfect.

Line #3

Difficulty 7/10

Score ~ 3 750 000

What you need to do-

At the start of the level turn around and follow the path down the hill, when the path splits go left. Follow this path past the Bench Gap Series, until you get to where it splits and there is a wooden quarter pipe box. Get to the back end of the box and you should see a wooden quarter pipe in the middle of the path. Jump off of the side of the box that is parallel to the other quarter pipe and get your special up, then jump off of the wooden quarter pipe to the right. While in the air do a 720 Pogo Air and land in a special grind on the outside of the course. Grind until you can not grind any more, then jump off and get onto the path. Follow that path until you get to the area where the path split for the first time (the entrance of the Sadlands area) then go left up the path. Keep going until you get to the blue half pipe. Jump off of one side, do a few tricks and then land perfect.

Line #4

Difficulty 6/10

Score ~ 2 250 000

What you need to do-

At the start of the level there should be a large blue half pipe in front of you. Get some air off of the left side and get your special up. Then jump off of the left side of the other one at a steep angle. While in the air do a 900 or 1080 Pogo Air and land in a special grind on the bench. At the end of that bench, jump to the next, then the next, and then the rail leading to the snake run. You should start to all back down, then jump and grind the bench series again. At the end,

Other than that there are no predictable glitches, just the usual floating skater and so on.

FREQUENTLY ASKED QUESTIONS

=====

There are many questions that people asks, here I hope to answer some of them.

1. How do you open up the gym in School II?

This needs to be done in either career mode of single session, both for one player. At the start of the level turn right, there will be a kicker ramp, just past the kicker ramp is an opening, go in the opening when you come out, turn to the left, there will be alot of benches, skate past the benches and through the hall; turn to the left, there will be a rail, grind that rail, you need to start grinding that rail before the clock hits 1:41.

2. How do I open up the secret areas in Skatesreet?

Turn around at the start of the level, to your right is a half pipe witha rail that connects each side of it, grind around it and you will get the "Van Secret Area Key" gap, this will open up the fence that is along the same wall as the bowl and half pipe.

Skate forward to the giant quarter pipe that has the wave on it. Start to grind on it from the right side going to the left, get the gap "Surfin' USA" continue to grind until you get to the end of the grind, and jump off and land in a grind on the rail that is hanging to get the gap "Wave Wall Mini-Gap" and "Rail Secret Area Key" gaps this will open the fence that is to the right of where you are.

3. How do I get into Chopper Drop?

You need to go into career mode with all characters (except Private Careera) and get a gold medal in all three competitions with every character. Doing this will access the secret course Chopper Drop.

4. How do I get into Skate Heaven?

You need to get into career mode and with every character (except Private Careera) and get 100% for every course with each person.

5. Are there any Secret Characters?

Officer Dick, who you get by beating the game for the first time, Spider-Man, who you get by beating the game with a created character, and Private Careera, who you get by getting all the gaps in the non-secret levels, McSqueeb, 80's Tony Hawk, who you get by beating the game with Tony, it is his third outfit.

There are more people that you can get by holding L1 at the Main Menu screen and press U,S,S,T,R,U,C,T the screen will shake in confermation, then go to create a skater and enter these names...
