The battle system in here is not like RPG usually but the battle system like Chocobo Dungeon. Your hand must fast so press X many times for much attack. You can use item too. You will not meet random enemy again and you can fight with it or avoid it because the enemy is appeared not random. If you have item (like Thunder, etc) use square button, then aim it on your enemy and use Thunder. Use R1 button to to choose the diagonal direction. Therefore, you can attack enemy in your diagonal.

Tips: 1.Avoid your enemy when they collect all their power to attack you. It is very easy to avoid them with go one-step, but sometime this trick not works.

2. Make your enemy dance, sleep, etc. Do this, if your enemy strong.
