INTRODUCTION

Maybe some of you found it annoying to get thru Snowfly Forest for the sake of map completion, without having yourself get unwantedly warped all around. The purpose of this guide is to help you with it.

It won't offer you any maps coz I KNOW there are lotsa them already and I know how sometimes even the map will be a useless stuff due to the warp-a-bout, but it will tell you which way where and next road to take. This guide's route, of course, is not the only way to have the forest's map completed, but it IS a way.

Now, the good side of this guide is you'll have an easier time to choose a direction rather than just to pick any and hoped you didn't get the warping ones and thrown all the way back to the beginning (I get that a LOT), and eventho you did get warped, it is because you wanted to be warped.

But the down side is you'll still gonna get some unavoidable warpings due there's no other route available, as I know of, and also the fact that there will still be areas where you have to take several times coz, again, as far as my knowing, it's the only route there is. So, forgive my lacking of making the path a much more simpler than it already is.

There's an extra explanation at the end of the guide for those of you who wish to know what'll happen if you take the other directions rather than what I gave you already.

Goodluck with you.

WALKTHRU

(1) The Faerie Circle - This is where you start, go South to arrive at:

(2) The Hunt Begins - yup, the hunt of map begins from here :D, take South again to get to:

(3) Which Way Home - you'll still know which way home from here, but you need to continue your journey, rite? :P So,

take the East way to be at:

(4) Wounded Boar - I wonder why it get wounded?? Anyway, go East again:

(5) Golden Egg Way - really, from a boar to a golden egg?? Take another South:

(6) The Yellow Wood - maybe it's yellow coz it was covered with golden eggs.... Run South once more!

(7) Where Soft Rains Fell - but where's the rain? Get to South (why did I always get South??)

(8) Forest River - finally, a place that literally shows it's true nature! Kill the beast, use the container, save or whatever, but be sure to jump over while hacking those zombies and go North East:

(9) Lamenting to the Moon - if you're a fan of monsters, you should guess the names of the next areas, coz the first one already sound like this, the next ones will have a monster related as part of it name. Well, went North this time:

(10) Running with the Wolves - did you guess correctly?? Go West:

(11) The Hollow Hills - I like hollows, it's even more beautiful than rainbows in my opinion. Walk over the North:

(12) Howl of the Wolf King - despite the name, don't hope for anything fancy. Turn around to East now:

(13) The Silent Hedges - ok, seems to be more quite now.... Straight to West you go!

(14) The Spirit Trees - WARNING: The Spirit Trees will soon be an area where you'll be visiting oftenly. Why? Coz this is one of those areas that you'll arrived at if you get warped, purposely or accidentally. All those spirits are annoying.... Since it'll take you pretty back away, be careful. Ok, hop to the East road and be at:

(15) The Giving Trees - don't let the name fool you. It's not 'givin' at all! Anyway, it's South again to take:

(16) They Also Feed - who also feed?? Take East:

(17) The Birds and the Bees - were they the ones who also feed?? O well, South to off!

(18) Traces of the Beast - 'the beast'? Hmm, I wonder.... West now!

(19) Fluttering Hope - yup, you surely will hope this would end soon. Unfortunately, it wouldn't. South, again, to be:

(20) Return to the Land - I don't think we ever left the land.... Another South to take:

(21) Now, this one's tricky. You are now back at The Spirit Trees area (I've warned you before!!), that's number (14) on this guide. From here, follow the previous route number (14)-(16). You'll once more arrived at They Also Feed (16). This time, however, take the West road to arrive at The Yellow Wood (6), again. Now, again, follow the route I've gave you before for number (6)-(9) areas and you'll once more arrived at Lamenting to the Moon (9). From here, don't take the North, but the West road instead and arrive at:

(22) Wolves' Choice - dear Square, why did you make the wolves choose? Can't they live peacefully, quietly, ow, I'm rambling again. Hop on to another West!

(23) The Woodcutter's Run - who or what did the woodcutter hafta run from?? Maybe it's the wolves. Head South:

(24) You might be groaning now, realizing that, for the final time I promise you, you are now back at The Yellow Wood. Again, follow the same route from here as I've wrote before to get back at Running With the Wolves (South - South - North East - North - West, incase you're too lazy to read over....). At Running with the Wolves, head East instead:

(25) You are the Prey - yeah, rite. Walk North now:

(26) The Secret Path - what's so secret about it?? North again:

(27) Hewn from Nature - you can say that again. For the final time, North!!

(28) The Wood Gate - FINALLY!! This is where your journey ended! Whew....

ROAD DIRECTIONS

You've got your ways up there, now below is the other direction that I didn't told you to go, if for some reason, you need to know.

N is North, S is South, W is West, and E is East. Applies for combinations (NE means NorthEast, etc.). (WARP) means if you pass thru this direction, you will NOT arrive at the previous location if you backtrack, since you're warped and if you did backtrack you will arrive at the area's respective corresponding next area.
