Ability points: Just make sure he has full points in Powerful Attack and at least 3 points in Roughneck Attack, the rest is up to you, although I don't think he needs too many points in speedy and technical!

Music: Cactus Jack (It's the closest to his music you can get I think)

Crowd Signs:

1. Bottom left of page 26
2. 2nd from left on bottom row of page 13

Logic: Attack, Grapple

Stable Idea: If you want to keep up to date with the show, you might want to put Kevin Nash and Shawn Micheals in a Stable simply called Shawn Micheals and Kevin Nash.

Many thanks to Magnus D for most of the current WWE CAWS , as well as making Most of the Fantasy CAWS. This is pretty much all I will post of this FAQ Because Smackdown 2 is pretty much dead (because of HCTP). Yet, I will add more CAWS as other People make new ones, but I have thrown in the towel for Smackdown 2 CAW making. Once again, if you have anything to say or have a CAW that you would like to see on this FAQ, please e-mail me at baseball_74_football@yahoo.com, or leave a message in my guestbook on my site. The link to that site is at the top of this FAQ. Thanks and have a great day.
