1. Controls

With any video game there are controls you will have to learn and understand. This is especially true with a fighting game. Many fighting games require very fast-fingered action and coordination. For the most part, wrestling are the same to an extent. They don't require you to memorize an eight or ten button combination, but they usually require you to do them somewhat quickly. Anywho, let's get on with the list of controls, shall we?

Button	Effect
L1	Dodge Left
L2	Climb
R1	Dodge Right
R2	Run
Triangle	Punch
Square	Kick
Circle	Tie Up/ Pin
X	Block

2. General Gameplay Information

The Power Meter

When you begin a match, your Power Meter is green, which more or less says you have plenty of energy to continue fighting. As you get more and more involved in the match, you will see your meter turn orange. Orange says you are getting tired and you should "mash" buttons to escape from submissions and pins. It's more or less saying that maybe you should start fighting! When your reach red, you are in trouble. If your opponent hits you with his/her finishing move, you done. If you are in the red, and you are being pinned, "mash" the buttons and see if you can escape. Sometimes you can, others you can't.

Recovery Meter

When you or your opponent are "stunned," you lose control for a short period of time. The Power Meter will say Stun, indicating that the Power Meter is now

acting as a Recovery Meter. The meter turns blue, and empties as the "stun time" decreases. If your Recovery Meter is on, "mash" the buttons to make the meter move faster. On the other hand, if your opponent is the one who's stunned, stomp a mudhole in his ass and walk it dry! As the match continues on, the "Stunned Time" will be increased due to the fact that he's tired and unable to rejuvenate his energy and strength as quickly.

Hold Meter

When a wrestler is in a normal hold, the Power meter will say "Hold." The meter will turn red and slowly deplete as the "hold time" decreases. This works the same, for the most part, as the Recovery Meter.

Pain Meter

When a wrestler is in a submission hold, the Power meter will say "pain." It starts out empty and increases as more pain is inflicted. If the Pain Meter fills up, then you will lose the match. This meter works the same way as the two previous meters.

Pin Meter

When a wrestler is being pinned, the Power Meter will say "pin." The meter will slowly diminish when the "pin time" decreases. Sometimes, you can "mash" the buttons and kick out of a pin.

Move Damage Meter

Below the Power Meter is the Move Damage meter. This simply indicates how much damage the move is having on your opponent.

4. Cheats and Secrets

You can enter the following code at the Title ("Press Start") screen to view all the FMV (Full-Motion Video) movies in the game:

- 1) Up+Triangle, Right+O, Down+X, Left+Square x4
- 2) R1+L1, R2+L2 x2

You'll see "Movie 1". Use Up and Down to scroll through them and hit X to play it.

Random Select

To let the computer choose a wrestler for you at the selection screen, hold Up and hit Block.

Choosing Your Outfit

Most of the wrestlers have two outfits, Austin and Goldust have four. For your first outfit, you can hold L1 when choosing your wrestler or just choose him normally. For the wrestler's second outfit, hold L2 while you choose him. For Austin or Goldust's third outfit, hold R1 when choosing, or for their fourth outfit, hold R2 when choosing.

Call for a Run-In

To call for a certain wrestler to run in during a match, hold all four top buttons (L1+L2+R1+R2) and press a direction + a button. Each combination of a direction and a button corresponds to each of the 16 wrestlers in the game. Note: it becomes a Handicap match with you and whoever you called in against your opponent, but no matter what happens, your opponent will win by Disqualification. Also, it can only be done in a 1-on-1 Match (either VS or Challenge mode). Here are the combinations corresponding to the wrestler it calls out:
