\*\*\*\*\*  
Section I: Campaign Strategy Guide  
\*\*\*\*\*

This section is written as if it was your first time through the game. Tips on how to defeat each duelist are written for POW wins. The 'How to unlock' portion under each character has the assumption that each must be defeated in Campaign to be unlocked in Free Duel. There are only 2 exceptions to this rule: Heishin and Duel Master K (see their sections for specific details).

\*\*\*\*\*  
Simon Muran  
\*\*\*\*\*

How to unlock: After meeting Jono at the festival, go to the palace before returning to the dueling grounds. Simon will challenge you to a duel and you must accept.

How to defeat: Simon is weak and can be defeated with any starter deck. He almost never fuses using 2+ cards from his hand, but he will fuse with cards he has on the field. If you keep him from having cards on the field at the start of each of his turns, you will not need to fuse. If he does fuse, he will not make anything stronger than Ushi Oni (2150/1950) and will normally fuse for monsters weaker than this.

Cards used:

#009 Shadow Specter  
#017 Right Leg of the Forbidden One  
#018 Left Leg of the Forbidden One  
#019 Right Arm of the Forbidden One  
#020 Left Arm of the Forbidden One

#527 Milus Radiant  
#547 Griggle  
#548 Bone Mouse  
#635 Queen's Double

\*\*\*\*\*  
Teana

\*\*\*\*\*

How to unlock: Go to the dueling grounds any time before arriving in the 'present day'. Teana will challenge you to a duel; accept her challenge.

How to defeat: Teana is also a very weak duelist. She won't fuse 2+ cards directly from her hand, but will fuse with cards that are on the field. She can be beaten with any starter deck without fusing as long as you keep her from having cards on the field at the start of each turn. If she does get a chance to fuse, she will normally fuse a mid-level card with attack under 2000 that can be defeated by the fusions possible in any starter deck.

Cards used:

#009 Shadow Specter  
#024 Skull Servant  
#056 Larvae Moth  
#058 Kuriboh  
#105 Tomozaurus  
#123 Dark Plant

#397 Leghul  
#398 Ooguchi  
#399 Swordsman from a Foreign Land  
#402 Monster Eye  
#504 Fungi of the Musk

\*\*\*\*\*

Jono

\*\*\*\*\*

How to unlock: After meeting him at the festival, return to the dueling grounds. You can accept his challenge to duel either before or after dueling Seto.

How to defeat: Jono is crazy about fusing; he will both fuse from his hand and with other cards on the field. He usually fuses monsters in the 1200-2150 range and will most often make Ushi Oni, Mystical Sand, or Pumpking the King of Ghosts. So, if you get dealt a bad starting hand, it is still best to play a card in face-up attack mode. His base cards are very weak and can be beaten by any starter deck without fusing. The monsters in any starter deck should also have the ability to fuse monsters strong enough to defeat Jono's fusion monsters.

Cards used:

#004 Baby Dragon  
#009 Shadow Specter  
#016 Time Wizard  
#029 Mountain Warrior  
#123 Dark Plant  
#167 Ancient Jar  
#192 Key Mace

#344 Hinotama

#484 Ameba  
#504 Fungi of the Musk  
#547 Griggle  
#548 Bone Mouse  
#558 Pot the Trick  
#635 Queen's Double

\*\*\*\*\*

Villager 1

\*\*\*\*\*

How to unlock: He is found in the dueling grounds both before and after traveling to present day. Accept his challenge to duel him.

How to defeat: See Jono

Cards used:

#024 Skull Servant  
#058 Kuriboh  
#167 Ancient Jar

#527 Milus Radiant

#558 Pot the Trick

\*\*\*\*\*

Villager 2

\*\*\*\*\*

How to unlock: He is found in the dueling grounds both before and after traveling to present day. Accept his challenge to duel him.

How to defeat: Villager 2 uses base monsters stronger than the previous opponents. You should take some time to at least duel Simon Muran and Jono in free duel. Stack your deck up with monsters that make it easier to fuse like Dragons, Warriors, females, Beasts, Rock, Pyro, and Plants. Get rid of cards that don't fuse well like Reptiles, Insects, and Fiends. Villager 2 fuses a lot, so make sure that on your first turn you fuse if possible or play a card face up. He will sometimes (though rarely) fuse for Twin-headed Thunder Dragon, so it is important to get ahead the first turn to keep him from fusing.

\*\*\*\*\*

How to unlock: He is found in the dueling grounds at the start of the game, but only before you meet Jono at the festival. Accept his challenge to duel him.

How to defeat: Villager 3 uses monsters that are stronger than Villager 2, but he does not usually fuse 2+ cards from his hand. He will fuse Twin-headed Thunder Dragon if given the chance, so make sure to focus your attacks on any Dragon or Thunder cards he plays.

Seto  
\*\*\*\*\*

How to unlock: After meeting Jono at the festival, go to the dueling grounds.  
He will show up and you are forced to duel him.

How to defeat: Seto will probably be your first real challenge. He will  
often start with Gaia the Fierce Knight. Make sure that you are at least  
able to fuse for Ushi Oni and Stone D. before beginning this duel. It  
will be more helpful to be able to fuse for Twin-headed Thunder Dragon or

Thousand Dragon. Also be sure to include monsters that will fuse to make monsters that match whichever Field and Equip magic cards included in your deck.

\*\*\*\*\*

Heishin

\*\*\*\*\*

How to unlock: You are forced to duel him once you return to the Pharaoh's Palace. You must lose to continue the story and unlock him, although you can win as many times as you like before losing. He is the only character in Campaign that you can lose against and not get the 'Game Over' screen afterward.

How to defeat: Heishin is much too strong to defeat at this stage in the game. Simply accept the loss and wait to duel him in free duel until your deck gets a lot stronger. You'll need to be able to fuse for THTD quickly and have 4 powerups for it, at least. Ideally, you should have the THTD base card and have 2 or 3 MBDs, along with Megamorph and Bright Castle.

\*\*\*\*\*  
Rex Raptor  
\*\*\*\*\*

How to unlock: You are forced to duel him in Kaiba's tournament.

How to defeat: Most of the cards that Rex uses are under 1000 atk/def points.  
Like Villagers 2 & 3, he can fuse for Twin-headed Thunder Dragon. But,  
if you've spent time dueling the earlier duelists in free duel, Rex  
shouldn't be difficult to defeat even without fusing.

Weevil Underwood  
\*\*\*\*\*

How to unlock: You are forced to duel him in Kaiba's tournament.

How to defeat: If Weevil doesn't start with either Cocoon of Evolution or Jirai Gumo, you're lucky. It will be necessary to fuse to defeat him and it will be a good idea to not include Forest in your deck, as most of his strong monsters will power up on it. Include a lot of Pyro, Warrior, Beast, and Winged Beast monsters to fuse for Flame Cerebrus, Vermillion Sparrow, Flame Swordsman, and Crimson Sunbird. You will also want to be able to fuse for Twin-headed Thunder Dragon if you have room in your deck.

How to unlock: You are forced to duel him in Kaiba's tournament.

How to defeat: Before beginning this duel, get some wins against Weevil, but especially Rex and Mai, in free duel. They will give stronger base cards and you want to get Crawling Dragon #2 from Rex as well as some Winged Beast monsters from Mai. Bandit Keith will use Zoa occasionally and can fuse for Metalzoa. He can also fuse for Twin-headed Thunder Dragon, so be sure you can fuse for that monster as well. This is a good time to include Umi, as it will decrease the strength of Keith's machine monsters.

Shadi

\*\*\*\*\*

How to unlock: You are forced to duel him in Kaiba's tournament.

How to defeat: Shadi will fuse, especially if you play a monster face down or set a magic/trap card. Generally, the monsters he fuses for have an attack under 1800, so most of the fusions in your deck should be able to overcome his monsters if he does. Occasionally, he will fuse something stronger, and rarely for Thousand Dragon. But, his deck is filled with monsters that have an attack under 1000 so keeping him from fusing should not be a problem.

Yami Bakura

\*\*\*\*\*

How to unlock: You are forced to duel him in Kaiba's tournament.

How to defeat: Bakura plays powerful defense monsters, including Labyrinth Wall. Your deck should be able to defeat it 3 ways. First, with either Raigeki or Dark Hole (whichever your starter deck had). Second, be sure to be able to fuse Mystical Sand, put it in Saturn, and include equips for it. Third, include fusions for THTD, put it in Moon, and include Umi or Mountain and/or some equips for it. While you are waiting for these chances to beat Labyrinth Wall, put your weakest monsters in face-up defense mode so that he attacks, giving you a chance to lower his life points.

\*\*\*\*\*  
Pegasus  
\*\*\*\*\*

How to unlock: You are forced to duel him in Kaiba's tournament.

How to defeat: Pegasus can be trouble your first time through the game. He can tell what cards you place face down on the field so it won't do any good to play defense or place magic/trap cards face down because he will use Raigeki or Harpie's Feather Duster. Include as many cards in your deck as you can that fuse for THTD and Crimson Sunbird, as well as fusions for monsters that power up on whatever field you want to use. If you do use a field magic card, don't use Yami or Umi as that will power up most of the strong monsters he uses like Bickuribox, Roaring Ocean Snake, and Man-eating Black Shark. He will fuse to make Crimson Sunbird as well. Very rarely, he will have Meteor Black Dragon in his deck. If you're unlucky and he pulls this card, you're probably going to lose. If he doesn't, you'll have to get a strong fusion monster out on the field early on to keep him from building up his monsters or using Raigeki.

Isis  
\*\*\*\*\*

How to unlock: You are forced to duel her in Kaiba's tournament.

How to defeat: Isis uses all water monsters and will play Umi to power them up if given the chance, so start the duel by playing a monster face-up or

a trap or Raigeki/Dark Hole face down. She will also usually have either THTD or Black Skull Dragon. You'll need to have a THTD fusion deck and field magic cards other than Umi. It will also help to be able to fuse for Flame Cerebrus and put it in Pluto or Stone D in Uranus if you don't have enough Dragon and Thunder monsters to fill your deck.

Kaiba

\*\*\*\*\*

How to unlock: You are forced to duel him in Kaiba's tournament.

How to defeat: Kaiba uses both Labyrinth Wall and Blue-eyes White Dragon, so you will be at a disadvantage with the guardian star of THTD no matter which sign you put it in. The best strategy to use against Kaiba is a Mystical Sand fusion deck with Wasteland, as that Monster is at a guardian star advantage against both of Kaiba's strongest monsters. Include equipments for females as well as Invigoration, to power up Mystical Sand and the monsters that are used to fuse for it.

Jono 2

\*\*\*\*\*

How to unlock: Go to the old dueling grounds in the Metropolis area once you return to ancient Egypt after Kaiba's tournament. Jono will show up and take you to the hiding card shop, where you will be able to duel Jono 2 at any time up until all 5 high mages have been beaten.

How to defeat: He usually has at least 1 Red-eyes Black Dragon. Having a THTD fusion deck is a start but if you still don't have a full deck of Thunder and Dragon monsters, it can be helpful to have Mystical Elf and monsters that fuse for Judge Man. They get the guardian star advantage against Red-eyes so power-ups for them aren't needed.

Teana 2

\*\*\*\*\*

How to unlock: Teana 2 is found in the hiding card shop along with Jono 2 (see Jono 2 for details).

How to defeat: Teana 2 uses Fairy and Female monsters, so she shouldn't be difficult to beat. Any fusion deck should be enough to be her. She does equip a lot so make sure to play your first card face-up, which will keep here from playing a monster+equip combo straight out of her hand. It will

also help to have Yami to reduce the strength of her Fairy monsters.

Ocean Mage  
\*\*\*\*\*

How to unlock: He is the first opponent to beat in the Sea Shrine.

How to defeat: Ocean Mage fuses for THTD a lot. Either get a THTD fusion out first or play a card face up to keep him from fusing right away. His base cards will all get the field power bonus, so you should expect them to be in the 2200-2700 range. You should keep your deck full of THTD fusion monsters, but also add as many Mountains as you can. That way, you will still get the field bonus, while most of his monsters won't.

High Mage Secmeton  
\*\*\*\*\*

How to unlock: Boss of the Sea Shrine.

How to defeat: Duel Jono 2 in free duel to get Red-eyes Black Dragon and some stronger Warrior cards. Secmenton uses Crab Turtle, Suijin, and Labyrinth Wall. Your best chance against him is to either fuse THTD or change the field. Include as many Mountains as you can as well as Wasteland. You should also buy Labyrinth Wall and Millennium Shield so you have a strong defense and don't always need to fuse. If you still have enough star chips, buy either THTD, Seiyaryu, Judge Man, or any Dragon monster that has 2000+ attack.

High Mage Anubisius  
\*\*\*\*\*

How to unlock: Boss of the Forest Shrine

How to defeat: Most of the time, Anubisius will begin with Perfectly Ultimate Great Moth. To beat him, you will have to change the field and have a THTD fusion deck that is full deck of Dragons that have 1600+ atk. You should duel Ocean Mage and Secmenton in free duel to get more if you need them. Secmenton also gives Labyrinth wall, which should be included in your deck. Use either Mountain, Umi, or Wasteland and have at least 5 equips for the THTD. To get those, get TEC wins against Pegasus, Rex Raptor, or Shadi.

How to unlock: Boss of the Desert Shrine.

How to defeat: Martis is probably the weakest of the mages. The strongest monsters he uses are Summoned Skull and Dark Magician, which don't get a field bonus. He does use Labyrinth Wall some times, so you should have some equips or Field magic cards in case he plays it.

Meadow Mage

\*\*\*\*\*

How to unlock: He is the first opponent you face in the Meadow Shrine.

How to defeat: Meadow Mage's strongest monsters are Millennium Shield, Judge Man, and Empress Judge. You will should include Labyrinth Wall and Millennium Shield; he won't be able to get past this defense. Judge Man's guardian star is on Sun and Empress Judge is on Pluto, so THTD can be defeated no matter which sign you put it in. Alternate which sign you put THTD in so you aren't too vulnerable. Also include Mountain, Umi, and some equips.

\*\*\*\*\*

High Mage Kepura

\*\*\*\*\*

How to unlock: Boss of the Meadow Shrine.

How to defeat: Before going any further in this game, you will need to get more powerful monsters. Spend some time dueling Mountain Mage and Meadow Mage to get Meteor Black Dragon, Dark Magician, Skull Knight, and Meteor Dragon. Once you win these monsters, spend some time dueling Heishin to get other powerful monsters. Kepura is the first duelist to use Gate Guardian, so you'll need Meteor Black Dragon as a base and you should be able to fuse for it as well. Also include monsters to fuse for THTD and a lot of equips. Buy Bright Castle and Dragon Treasure if you have the starchips and haven't won them yet. Any time you play Meteor Black Dragon, set it in Sun. The best way to beat Kepura is to change the field and get Meteor Black Dragon on the field. If Gate Guardian is on the field, he may equip it and make it that much more difficult to take down. But, if you get caught in a tight spot, you can usually set a card in face down defense mode and he will not attack it. Most of the time you can get away with this for 2-3 turns. So, if it stalls Kepura a turn, take your next turn to discard all useless cards from your hand and attack his weakest monsters on the field if you will not need to take your one monster out of face-down defense position.

Labyrinth Mage  
\*\*\*\*\*

How to unlock: After defeating 2-5 of the shrines, go to the hidden card shop. In the dueling grounds, Jono will tell you that Teana has been kidnapped and take you into the Vast Shrine. After entering, the Labyrinth Mage will stop you and force you to a duel.

How to defeat: Labyrinth Mage has a deck structured very similarly to Kepura's. The difference between these duels is that Labyrinth Mage does not play on a field type, so this matchup should be easier. Use the deck I described for Kepura and you should not have much trouble.

Seto 2

\*\*\*\*\*

How to unlock: After defeating 2-4 shrines, go to the hiding card shop and enter the dueling grounds. Jono will take you into the Vast Shrine. After defeating the Labyrinth Mage, you must navigate the labyrinth by going right, right, left, right. Seto 2 will be at the end.

How to defeat: Seto 2 is a little tougher than Labyrinth Mage because he uses monsters like Black Luster Soldier and Blue eyes White Dragon in addition to Gate Guardian. But, if you could get past Gate Guardian in your duel with Labyrinth Mage to get here, then you should be able to defeat him.

Cards used:

#001 Blue-eyes White Dragon  
#002 Mystical Elf  
#007 Winged Dragon #1  
#015 Flame Swordsman

\*\*\*\*\*

Guardian Sebek

\*\*\*\*\*

How to unlock: After defeating all 5 shrines, you must enter the Vast Shrine. After navigating the labyrinth (see Seto 2 for path), Sebek will stop you and force you to a duel. Once you arrive here, you can not go back to save. So be prepared to run the final gauntlet!

How to defeat: This duel starts with the field set to Yami, which can be used to your advantage. Sebek will start with either Metalzoa or Zoa, so if you have Mystical Elf or Gemini Elf, they can be a big help because of the guardian star advantage. Any other Spellcaster and Fiend monsters with 2000+ atk or def that you may have in your library should be included in your deck as well, along with some equips for them. The rest of your deck can be made of THTD fusions. If you haven't won cards like Zoa or Dark Magician yet, you may be better off to just keep an all-THTD fusion deck with Umi as your field magic card so if you change the field, all his monsters will be negatively affected by it.

\*\*\*\*\*

Guardian Neku

\*\*\*\*\*

How to unlock: Forced to duel him after Sebek.

How to defeat: Neku uses a mix of Fiends and Spellcasters. He also plays on a Yami field but, unlike Sebek, all his monsters get a boost from the field. Your deck should include Skull Knight, Zoa, Dark Magician, and Meteor Black Dragon if you have it. Labyrinth Wall can help, too, and you'll want to change the field to Mountain or whatever card type your deck is based on. You should also include at least 3-5 equips.

\*\*\*\*\*

Heishin 2

\*\*\*\*\*

How to unlock: Forced to duel him after Neku.

How to defeat: If you have gotten 3 Meteor Black Dragons and can fuse for it as well, he shouldn't be difficult. Just make sure that you start your duel by playing a monster face-up because otherwise he may equip Megamorph to Gate Guardian or one of his other powerful monsters. He plays on a Yami field and, even though it won't affect his strongest monsters, it will power up others in his deck to make most of the cards he plays have an atk over 3000. Even if you still use a THTD fusion deck, Heishin 2 is beatable if you have enough equips (I would suggest at least 12).

\*\*\*\*\*

Seto 3

\*\*\*\*\*

How to unlock: Forced to duel him after Heishin 2

How to defeat: Seto 3 is the first duel that you will encounter Blue-eyes Ultimate Dragon and he almost always starts with it. Worse, he usually has at least 2 in his hand at the start of the duel. The best strategy is to have 3 of each of the following monsters: Meteor Black Dragon, Red-eyes Black Dragon, Meteor Dragon, Skull Knight, Zoa, and Twin-headed Thunder Dragon. It will also be helpful to have Widespread Ruin, Raigeki, and 12 equips (especially Megamorph and Bright Castle). It can be helpful to use Salamandra because it equips to Meteor Black Dragon. If your starting hand isn't strong enough to beat BEUD, then discard all but your strongest monster and equips for it. If you haven't gotten all the monsters I'm suggesting then you can use a THTD fusion deck, but it will have to have at least 1 base THTD in it and you will need 2-3 Megamorphs and around 15 total equips.

Darknite

\*\*\*\*\*

How to unlock: Forced to duel him after Seto 3.

How to defeat: Darknite is easier than Seto 3 or even Heishin 2. His strongest monster is Meteor Black Dragon, but his deck is loaded with traps and magic cards. If you play something face down to start the duel, he is likely to equip Megamorph to one of his monsters. Be sure to start off playing your first monster face up. If you start without any equips, discard everything from your hand except the strongest monster that matches up with most of the equips in your deck.

Nitemare  
\*\*\*\*\*

How to unlock: Forced to duel him after Darknite.

How to defeat: Nitemare is the other duelist to have Blue-eyes Ultimate Dragon in his deck. Like Seto 3, he uses every one of the most powerful monsters in the game. But, unlike Seto 3, Nitemare will often only have 1 or 2 BEUD and does not have any trap or magic cards, which makes him a little easier to beat. Since you don't have to worry about Harpie's Feather Duster, you can set Raigeki or Widespread Ruin to eliminate one of the BEUDs right off the bat if you don't draw the right monsters or equips.

Cards used:

#001 Blue-eyes White Dragon  
#037 Gaia the Dragon Champion  
#057 Great Moth

Duel Master K  
\*\*\*\*\*

How to unlock: Duel Master K is not available in Campaign; he is only in Free Duel and is always available there.

How to defeat: Since Duel Master K's deck is a clone of yours, the best strategy to take is to load up with about 20 monsters and 20 equips. A good THTD fusion deck is what I normally go with since he will not normally fuse and equip in the same turn. Even if he does both in one turn, he will not use more than one equip so you should use that to your advantage. Keep that in mind and you shouldn't have much trouble beating him.

Section II: Cards By Duelist  
\*\*\*\*\*

The list of cards given out by each duelist only contains those that I have confirmed in my current game files. I do not claim this to be a complete listing! Others have won some of the cards that I haven't or have won some of these cards from different duelists. For locations of cards that I have not personally confirmed, there are duelists listed next to cards in the Unconfirmed Cards section of this guide.
