About FAQ

Another FAQ for Yu-Gi-Oh Forbidden Memories from me. Are you stuck on Kaiba? Do you want to know what cards he gives out and how often? Well that's why I'm here to help. I'll tell you everything you need to know so you can beat him easier and you won't be wasting your time dueling him. Kaiba gives out lots of good trap and magic card but he can also be hard to beat at the beggining of the game. After you read this FAQ he should be no problem to beat. Thanks for checking out another FAQ by me and good luck with Kaiba. :)

Kaiba

Legend: Here's how everything is going to be inorder.

Location: Where do you duel him.

Recommended Cards: The cards you should have to make him easier.

AMA: (Average Monster Attack)

AMD: (Average Monster Defense)

Strategy:

Kaiba

Location: Tournament Final

Recommended Cards: Labyrinth Wall or Millenium Shield, Dragon and Thuder Monsters, Equip Magic Cards, Raigeki or Dark Hole.

AMA: 800-3000

AMD: 700-3000

Strategy:

1. This guy got pretty good cards up his sleave so you should be careful. What kind of cards does he have? Well if you already know the unstoppable Blue Eyes White Dragon! That's right 3 Blue Eyes White Dragon (3000/2500). That's not all he also use cards over

2000 attack point, like Mystical Sand (2100/1700) , Flame Cerberus 2100/1800 and many others. Check the Kaiba Cards section for more information of what cards he use.

2. If you have buy Millenium Shield or Labyrinth Wall it'll be very helpful. Why? Because both of them have defense 3000 so Blue Eyes White Dragon can't hurt you. Check the Require cards section for the password for them.

3. This is the best way to beat him. Try to fuse as much Twin Headed Thunder Dragon (2800/2100) as you can. It won't stand up to Blue Eyes but it'll help you with his other strong monster. But if you have some equip magic for him then you can take on Blue Eyes.

4. If you don't have some equip card for Twin Headed Thunder Dragon (2800/2100) then try using Dark or Raigeki. Why? Kaiba also have Millenium Shield and Labyrinth Wall (both 0/3000) so you need somethin to destroy it.

There you have it 4 easy way to beat him. Check the bottem secrtions for more information about him.
