"Sotsugyou Crossworld SS hidden commands"

SPOILER ALERT

- To unlock the Special option in the main menu in the Game Start screen:
In the title screen (the screen with the words "Press Start"), press A, B, C, B, C, B, A, then press Start.

Once unlocked, this command stays in the main menu until the player resets the SS. It allows the player to hear or see the BGMs (24 tracks), sound effects (25 tracks), voices (from 69 tracks (Saori) to 282 tracks (Yurika per gal), background illuasts (83), chara illuasts (103), and Event illuasts (207).

(Cindy fans may or may not be upset by her fan service illuasts. 8(Does the chara designer/illustrator hate Reiko-sama? >8(IMO her chara design somehow doesn't look right.

I didn't notice Yurika chatter so much.)

- To unlock the Voice Dramas:
In the main menu, move the cursor to Omake, then while holding L+X+Z, press C. (Hmm. The manual says the L, R, X, Y, and Z buttons aren't used in the game.)

Once unlocked, this command lets the player hear five more tracks of Voice Dramas: Episodes 1 to 4 and the Epilogue. Unless the player unlocked the Voice Dramas normally by ending the game with one or more gals, the extra Voice Dramas are hidden again when the player returns to the main menu. The track of Voice Drama, Prologue, is always available.

- To choose the background illuast used as the jigsaw puzzle while the player's listening to a Voice Drama:

To normally play a Voice Drama, in the Omake menu, move the cursor to a Voice Drama title and press C. The Prologue doesn't and can't have a background illuast. The other Voice Dramas, either unlocked by achieving Happy Endings with the gals or by another hidden command, have background illuasts. The game randomly chooses one of eight background illuasts.

To manually choose the background illuast, in the Omake menu, move the cursor to a Voice Drama title, then press C while holding one of the following button combos:

L+X+START. Maki (in a tux) and Megumi (in a dress).

L+Y+START. Cindy, Kiyomi-san, Mika, Misako, and Yurika.

L+Z+START. Cindy, Maki, Megumi, Misako, and Saori (all in sailor fuku).

L+X+Y+START. Maki (wearing her gloves) and Megumi (holding a naginata).

L+X+Z+START. Kiyomi-san, Mami-chan, Mika, Reiko-sama, and Shizuka (all in sailor fuku) in foreground. Maina and Yurika in background.

L+Y+Z+START. Maina, Mami-chan, Reiko-sama, Saori, and Shizuka.

L+X+Y+Z+START. Maina, Maki, Mami-chan, and Megumi in foreground.
Kiyomi-san, Shizuka, and Yurika in background.

L+START. Maki and Megumi in the middle, surrounded by cutely deformed versions of the other gals (all in sailor fuku). (The same illust on the front cover of the funny Sotsugyou Crossworld Fan Book (Koei, 1996).)

PS While listening to a Voice Drama, when the player presses B to stop the Voice Drama, the SD icon seems to default to Kiyomi-san. 8D When the player starts a new game, if Kiyomi-san doesn't ask one of the first two questions, and if the first two gals dislike the player's answers, then it seems probable she'll ask the third question. Later in a game, the player knows Kiyomi-san really likes Hayato when even her father calls Hayato "Hayato-KUN." Then again, Reiko-sama also calls Hayato "Shinjou-KUN." BTW, though Maki looks like Ten'ou Haruka at first glance, I disagree with another reviewer that Maki acts like Haruka-san.
