Opening

(On a TV, a sportscaster starts talking about the soccer game for that day.)

Sportscaster: It's a beautiful day for two teams are about ready to head onto the field.

(A bunch of explosions occur.)

Sportscaster: What?! What's going on?! Ladies and gentlemen, a giant explosion has just rocked the stadium. Wait a minutes, I think I can see something..... It's a bunch of... robots!?? The people are racing for the exits. It's pandemonium!!!!

(Dr. Light, Roll, and MegaMan - in human clothes - are watching the TV. All three of them look surprised.)

Dr. Light: What are they up to???

Roll: Those robots look awfully familiar.

Dr. Light: They should. They're Dr. Wily's.

MegaMan: I've got to go and stop them!

Dr. Light: Are you sure you can take them all on?

(A short pause.)

Dr. Light: Alright. I won't stop you from trying, but...
You're no match for them with your current abilities....

MegaMan: I've got to leave now!

Dr. Light: So I'll just make a few minor modifications to
your programming, and you'll be able to give them a game
they won't soon forget!!

(MegaMan steps into a machine, and summons his armor.)
