

Hey there and welcome to my, Kain Stryder's, Monster List for Star Ocean for the Super Famicom. First off, I hope you find some use to this guide and that it'll help you out while playing the game. Let me just state for the record, as usual, since if you've ever read my other FAQs/Guides, I say this all the time, so bear with me. This guide is not to be on any other site, except GameFAQs and IGN and is to not be edited in any way, shape or form. I've written this guide to help others and the last thing I need is something grabbing it, editing it and claiming it as their own. Anyway, with that all said, let's get onto the guide, shall we? Enjoy.

= II. Current Updates [CURUP2] =

=====

5/14/07 - Just writing in to let any readers know if they E-Mail me any questions or comments, that my address still works. My willpower to write walkthroughs over the last few years died, mostly to college and real life, but I may just start this up again. Feel free to write in, thanks.

11/22/03 - I added the new layout to this FAQ. How's it look?

9/15/03 - Well, I've completed this guide as much as I could and I believe I've covered everything and with that, I've marked this as the final version. If I need to update it in the future, I'll do so, either with a submission from a reader, a correction, maybe an addition, who knows. If so, you'll see an update. Other than that, it's done and I'll correct or update this guide whenever it may need it.

Well, here's where I give credit to the ones that helped make this guide possible. Here's the following people I'd like to thank:

Enix - The company that made quite possibly the best game with graphics on the Super Famicom. God damn, I think this is the system's limits. Great job, guys, you sure gave Squaresoft a run for their money and it's great you two are one now, working together and all. Continue to pump out great RPGs and I'll be there to buy them. Thanks for making this game and

without you, this wouldn't be here.

Myself - For writing this guide. Thanks for reading it and I hope it helped you in playing the game.

It isn't too hard and I'm not asking for alot. If you have any questions regarding this game, also send them to me and label the subject as "Question-Star Ocean Monster" please. Again, not asking much here and it isn't hard to understand. Now for the legal stuff.
