---Donkey Kong Country 2: Diddy's Kong Quest (SNES) Text Dump---

Come and say hello to your old grandpappy Cranky. I'm back by popular demand to offer you my wealth of gameplaying wisdom for this unnecessary sequel.

After my starring role in DKC, I thought I'd be the main character this time, not stuck in this gloomy shed!

What sort of name is Dixie anyway? In my day, you were lucky to have a name at all!

Girl heroes in video games, pah. I can't believe it! The main character should be really muscle-bound and carry a gun, not twirl their hair round!

Try all you like, this game will never be as good as DKC, which was rubbish anyway!

Just 'cos DKC sold a few lousy copies, I have to be included in another ludicrous adventure! It's the last time, I tell you!

I'd have never been kidnapped in my day, not like that fat fool Donkey!

I don't even get two screens to stand in! I'm sure K. Rool will have two, so why can't I? Pah!

Give up now before the kids realize you're not as popular as Donkey Kong was!

Where's Expresso? A clumsy spider and a fat parrot, is that the best they can think of?

Look at all this junk in here! Treat my home like a trash can

they do! No respect for their  
elders, that's the trouble...

I hate being stuck in this  
shabby barrel. I want to sit  
outside like last time!

K.Rool is gonna whup  
your hides this time,  
whippersnappers! I'd better  
take over before you embarrass  
yourselves!

Team up? I've never heard such  
rubbish in my life! When I  
played, I was on my own. I had  
no fancy backup!

Shouldn't Dixie just be a  
token female princess waiting  
to be rescued, instead of a  
main character?

I was hoping for more frames  
this time, but no! Don't let  
old Cranky do anything. Just  
give him some third rate stand  
frames!

I don't know why I help you so  
much. You don't appreciate me!

I bet this here Killer  
Instinct game is rubbish too!  
It hasn't got me in it, so it  
must be!

I'd have collected far more  
tokens than that by now!  
What's wrong, got holes in  
your pockets?

I hope you bought "Cranky Kong  
Country" last year. I was the  
one who made it so successful,  
not that lumbering Donkey!

Diddy, I thought you were a  
cheap character in DKC, but  
Dixie is even worse! It  
should be me on my own, that  
it should!

You must be really desperate  
to read all this! Having  
trouble on your miserable,  
boring quest are we?

You're looking a bit fat  
there, kid! Look at me, I'm

at my physical peak. I could show you a thing or two!

You think your fancy graphics and sound will work again! I think not. You'll be lucky to sell 10 copies this time!

Did you notice in DKC that my tune sounded like the title tune? How dare they! I'm worth two different tunes at least!

I'd sort out old K.Rool for you real quick, but I'd be spoiling the limited fun you're trying to get out of this shoddy product!

Look! They've even taken my chair from me. It's disgusting how they treat old video game heroes these days...

Haven't sold a single thing in weeks! If this junk was out of one of my games, the customers would be begging to get in!

I knew it! You've come to beg for my help again, haven't you! Well, I'm not going to tell you anything this time!

Have you been to see the other members of the Kong family? They're not as useful as me of course, but they might be able to help.

For just five bucks, you can buy my memoirs! What a dynamic and exciting life I've led. You'll be lucky to be in half as many games as I've been!

I knew you'd be back. Can't finish this ridiculous quest without my help, can you?

Howdy, young 'uns! Gather round and I'll give you some much needed advice!

I'll box your ears if you don't listen this time!

Need more help do we? Pah! If I tell you much more, I might as well play the game for you!

Back so soon? I thought you'd complete at least another level before you came crying to me!

Is that nasty fat crocodile beating you? Listen up, and I'll share my amazing knowledge!

Oh, it's you again. I thought it might be a real video game hero...

Surprise, surprise. Well if it isn't the so called video game heroes! I hope I'm getting paid for all my help!

Come on in! Have yourselves a look 'round and buy some of this trash, why don't you?

You spend as much time in here as I do!

See, you're back again! Everybody likes old Cranky. I bet my ugly, old wife doesn't get half as many visits!

Don't you ever knock? I know you're desperate for help, but remember your manners next time!

What do you want this time?

Go ahead, test my amazing knowledge!

Here's what I've got to offer.

Feast yer eyes on my menu!

Take a look at this lot!

Enough talk, let's see your tokens!

I reckon you should spend all your tokens here.

Here's a fraction of my enviable knowledge!

This stuff is cheap at half the price!

Gaze in awe, as you appreciate  
my knowledge!

O.K, which of these would you  
like?

Pick a subject! I know  
everything about this game!

I can recommend the really  
expensive ones, actually.

I'm not giving this stuff away  
you know!

You must be joking! You'll  
never have enough for that!

You'll have to play better to  
buy that, sonny!

My knowledge doesn't come that  
cheap!

You'd better stick to the free  
ones, whippersnapper.

Hey! If you ain't got any  
tokens, you can buzz off!

Keep yer grubby hands off if  
you can't afford it!

Find some more tokens, you  
useless monkey!

You ain't got enough tokens  
for that, cheapskate!

Not enough? Well, get  
lost then.

It's not a charity! I want  
more tokens for this!

That's not enough. I've got  
new frames to pay for y'know!

That one is too good for you.

That's enough help for now. I  
need some rest.

Now, go and sort out those  
stupid crocodiles!

Yawn! I'm getting tired. Go  
away and don't disturb me  
again!

It should be real easy for  
you now!

Even you can finish this silly  
game now!

I'm off to spend my tokens!

Time for a couple of games on  
this here Killer Instinct.

I don't want to help you  
too much.

Guess I'd better tidy this  
miserable dump up a bit.

When you need more advice,  
which you will, I might help  
again, if you're lucky.

Now, buzz off and let me work  
on my new game design.

Don't come back without a  
sackful of tokens!

I gotta go now, my wife is  
visiting any moment!

Remember, I'm the most useful  
of the Kongs, and the  
cheapest!

Don't be surprised if I'm gone  
next time. I'll be in a real  
game!

Try using your team throw at  
the start.

Below the letter K, you'll  
find a reward if you avoid  
the danger.

Jump for joy when crossing the  
longest horizontal rope.

I reckon the door at the  
bottom of the tall wall looks  
flimsy to me.

Those big blue goons ain't  
guarding that huge stack of  
barrels for nuthin'! Knock 'em  
off and get up there!

A hook, step and jump is all  
you need to look for near the  
two dragonflies above you.

Below the first seal, you'll  
find something worth getting  
your fur burnt for.

Is it my eyes, or is there  
just one chest at the start?

Take it easy, let the rhino  
use his head to get you  
through the first half.

A trek towards the Klobber  
with the spider is worth  
looking up.

Right is right, right at the  
start.

Those two hook throwing  
villains opposite each other  
are protecting something. I'm  
sure of it!

Find the only Krockhead  
stepping stone and you'll find  
your buddy Rambi.  
With only the dragonflies  
left, I'm sure you'll be  
alright.

When nearing the top, the  
ability to walk on water  
reveals all.

It might be dark and spooky,  
but don't let it get you down  
immediately.

Are you up to it at the start?

After four spinning barrels,  
all that's left is left  
itself.

An eight-legged friend would  
go halfway to helping you  
here.

Don't be in a hurry to enter  
Rambi's room. Think things  
over.

The fruit is always fresher on  
the other side of the thorns.  
Jump to it!

It's his track, so watch the  
Kremling car carefully. He  
might be down, but he's on his

way out.

A charge down the last  
straight with Rambi will  
ensure a crushing victory.

Start with a hook, stick and  
jumps, and you're bonus bound!

Things are starting to look up  
on this level.

Here's a tip that I think's  
great, the door is by the  
Klampon and so is the crate.

Finishing this level is cause  
for celebration. By all means  
go over the top.

Where you find one, there may  
be two.

To the left of the letter 'O'  
is where you should go.

K. Rool is no fool. He has got  
two big blue goons watching  
his horde near half-way.

After the start, a long jump  
and then a high jump will win  
you more than just a gold  
medal.

Brave an early attack of  
barrels and their hidden  
treasure is yours.

Watch very carefully at the  
end. There's something going  
down that could give you a new  
life.

I ain't helping you with this  
one. It's up to you to start  
looking yourself.

I've left a couple of animal  
buddies for you in here, but  
it's left for you to find.  
them.

When cannon balls are raining  
down on you, I suggest you  
look for a way past who's  
responsible.

Just before halfway, take  
time to look back at what

you've done.

After the slope with the letter 'N', press right as you fall and you'll have a ball.

Down may be out, but right picks you up.

The bananas point the way.

The end is not the end.

Well, well, well, if it isn't our trainee hero! I didn't expect you to find this place, sonny. You must have got lucky. Now that you're here, I'd better tell you about it. This here's the Kremling's 'LOST WORLD', and that big crocodile head in the middle is where you need to get to if you're going to finish this silly game properly.

But to get there, you have to beat Kaptain K. Rool and complete all the bonus levels as well, a task I'm sure is well beyond a whippersnapper like you!

I don't know why I'm doing this, but here are some ridiculously cheap hints for this world, which I'm sure you'll be needing as well.

I knew you'd do it, Diddy m'boy, but how could you fail having learned all you know from old Cranky here?

You've rescued that lazy grandson of mine, and dumped K.Rool in his own filthy swamp. Not bad for a novice!

Of course, if I'd been playing, I'd have made sure that K.Rool never tries a cheap trick like this again!

I reckon I'd have found all the Kremkoin's and completed the so called 'Lost World'. Oh well, can't expect everything from your first game, can we?  
One more thing, how many of

my special Video Game Hero  
Coins did you find? A real  
player, such as myself, would  
have found plenty, I'm sure.

Let's see how well you  
did, eh?

Well, I've got a second  
screen, and about time too.  
Now, shut up everyone while I  
read the eagerly awaited  
results of my prestigious  
Video Game Hero Awards.....

Hmmm... not too good at  
finding my coins, are you  
sonny? You might be a hero,  
but you've got some catching  
up to do, yes siree!

Well, at least you're on the  
podium. Who knows? If you  
keep on looking, you could be  
an even bigger hero!

Hey, not bad for a young 'un!  
'course, you're going to have  
to find a few more if you want  
to be as big a hero as I was!

I'm not afraid to admit it,  
Diddy m'boy. Even I'm wrong  
occasionally. You're as  
big a hero as they come. You  
must take after me and Donkey.

Well Done!

If you want to look at your  
limited progress on this  
screen, press the top left  
and right buttons while you  
are on any of the map screens.

Now buzz off and see if you  
can find some more of my  
coins, which I very much  
doubt you will.

Back to see me again, eh,  
sonny? Let's see if you've  
improved your hero status,  
shall we?

Nope! You ain't improved any  
since your last visit. Stop  
wasting time here, and find  
my coins, you useless bums!

Hey! What are you waiting for?

There ain't no secret stuff  
hidden here, sonny!

There is, however, a couple of  
special features on the game  
selection page, though I'm  
sure they're of little use.

To find these silly options,  
press down lots of times, but  
if I were you, I wouldn't  
bother.

Now switch this cartridge off  
and let me get some sleep. I  
reckon I've earned it!

N-n-nice going k-kid! I-I  
reckon only a t-t-true video  
g-game hero would h-have  
f-f-finished it all!

L-let's get out of t-this  
miserable d-dump, and g-get  
back t-t-to D-Donkey K-K-Kong  
Island!

Give them a big hand folks!

Awesome playing, Kongs! Go get  
that K. Rool. He just ain't  
cool!

Wicked! She's all tuned up  
and ready to go!

Pick it and kick it, Kongs!  
You're A-Okay!

Drop in on the other Kongs,  
dudes. We're all here to help  
you guys!

Way cool! Pick a flight and  
you're outta sight!

Sorry, dudes. That one costs  
more to run than you've got!

Uncool! That's costly cruisin'  
and you ain't in the picture  
guys!

Tough break, Kongs. She's too  
cool for your pocket!

What a bummer, eh? Try to find  
a few more tokens, y'know!

Aw no! Looks like you're gonna  
need to score some more  
to tour!

Not enough, man! I got a new  
surfboard to pay for!

Catch y' later, dudes!

Take it easy, Kongs!

Stay loose, guys!

Check me out again, huh?

Call again, good buddies!

I fly 24 hours y'know!

rays now!

Cool! She's all yours dudes.  
Catch y'later!

Hello, dearies. I'm Mrs.  
Wrinkly Kong, Headmistress  
here at Kong Kollege.

I'm available to teach courses  
on how to play this game, or  
you can just pop in when you  
want to save your little old  
game. Now then, how can I  
help you?

When you see Kaptain K.Rool,  
can you ask him if he has done  
his homework?

Hurry along! School is nearly  
finished! You need to study a  
little more if you're going to  
beat the Kremlings!

Those naughty crocodiles! All  
they want to learn is how to  
fight and squash monkeys, Tsk!

Have you been to see my  
husband Cranky? He complains  
a little, but he does know  
everything about this island.

Come on in and sit down,  
children. I'm sure all that  
running around has made you  
tired.

Well! Just look at those sums  
those Kremlings have done.  
Disgraceful!

You're looking a little weary  
dear. Would you like to save  
your game?

I hope you're better behaved  
than those reptiles. Why, I  
even caught one sharpening his  
sword in class yesterday!

Oh dearie me! That's not quite  
enough, is it?

My, that is a lot isn't it?  
Try to find some more tokens.

Sorry dear, but I've got to  
pay for a new blackboard.

Oh dear, I'm afraid you'll need a few more for that.

Education is not cheap these days. I'm sure you'll find a few more tokens if you look!

Those nasty Kremplings must have all the tokens! Go and grab some and come back later.

Goodbye, dearies.

Don't be a stranger now.

I'll be here if you need me.

Be careful now, Kongs.

Take care, dearies.

Try to make it to my next class.

Good luck, children.

Come back if you've got any problems now.

the screen and immobilize you!  
Be careful!
