                                 WELCOME NOTE
================================================================================

Hey guys! mslpanthers here with yet another guide for GameFAQs.
This game is a game you will probably never find since it is
very rare. It is also a short game. In this game you do sports
like body boardind, skiing, skateboarding and more, and try be
the Totally Wild Californian Dude. Well Here we go!

================================================================================
                                    GUIDE
================================================================================

<->-<-><->-<-><->-<->
    Hang gliding
<->-<-><->-<-><->-<->
A: Takeoff
X: Drop balloons.
+ Pad: Control Hang glider

This game is actually kinda of tough. You must hang glide over the ocean and
rack up points. Here are the ways to rack up points:

Stalling: Stalling is when you try to move upwards and you get to much air.
You will start falling down quickly. You will notice that you will do this
a lot. Once stalling you need to fall and then pull up. That is the best way
to rack up points.

Balloon Drop: You can drop balloons also. You can drop them on the sharks
below to gather points. You can also drop them on little circles floating
in the water. This is once of the best ways to gather points because you will
find about 3 of this in a row.

<->-<-><->-<-><->-<->
    Jetsurfing
<->-<-><->-<-><->-<->
+ Pad: Control Jetsurfer and increases and decreases speed
X: Turbo
A: Sticks hand in water (used for turning)
Y: Jumps

Jetsurfing is also known as jetskiing. This is one of the easiet levels.
You must stay between the different color circles and keep moving. The more
you move and stay in the circles, the more points you rack up. It does not
subtract any points or anything if you get out of the circles, just get
back in and gather up more points. The game ends once you crash or the time
ends.

<->-<-><->-<-><->-<->
    Snowboarding
<->-<-><->-<-><->-<->
+ Pad: Moves snowboarder around
A: Jump
X: Trick

You start at the top of a huge mountain. You must jump over a few objects
and some huge holes where the cliff has broken. While doing this you must
use A to jump and then why in the air push X to do tricks. Gather up points
```

and the high score is yours. Once you crash 5 times your game is up or if
the time runs out.

<-><-><-><-><-><->
   Bodyboarding
<-><-><-><-><-><->
+ Pad: Move up and down wave
R and L: Turn around/TRICK

This is not surfboarding, it is bodyboarding so stop trying to figure out
how to stand up on your board. This level is pretty simple. Just stay on
the wave and press L and R to do tricks on the waves. Once the wave gets
near shore there will be obstacles like rocks and surfers and many other
things. Dodge these and gather up points and the high score is yours. If
you go over the wave or hit something than the game is up. The time runs
out once you reach the shore.

<-><-><-><-><-><->
   Skateboarding
<-><-><-><-><-><->
+ Pad: Move around the pipe
A: Trick
X: Trick
Y: Trick

This is one of the best games yet. You are in a half pipe and now you must
gather speed to jump from the edges and do tricks in the air. Further into
the pipe you should enter a full tube. You can gather a lot of points by
going all the way around the pipe. One crash and you are out of the game.
So try not to go over the edges and be sure to pull tricks at the right
time come off of the pipe.

                                QUESTIONS/ANSWERS
==

Q: Is there a maxium amount of points you can get in a level?
A: Yes, 999,999

Q: Are these the only games, and is there any bonus games?
A: Yes these are the only games, and there are no bonus games, sorry.

Q: I can't land a trick on my JetSki, I jump but no trick happens, how
am I supposed to gain points?
A: There is no way to do tricks on the JetSki, the only way to gain points
is to stay in the circles and keep at a decent speed.
