I. Introduction *****

This FAQ lists every level up bonus featured in Super Mario RPG: Legend of the Seven Stars for the Super Nintendo Entertainment system. If you're just checking here to see what the maximum level is, I'm sure you're surprised to find out it's thirty. I know I was when I found out. I've never played an RPG before with such a low maximum level. Needless to say this FAQ took a lot less time than expected.
