Atlanta, Detroit and Houston all play a run and shoot offense, They have 6 Wide Recievers and no Tight Ends, and a WR switches places with a RB.

Phoenix, San Deigo and Washington use a 3 Wide Recievers Formation. They also switch a RB with a WR, but still maintain having Tight Ends.

Playbook

Some plays are pretty dominate and some plays are an absolute waste of time. I will List the different plays and give you a rating of how good I think it is. In no way am I telling you to never use this play ;) just my opinion.

This play stinks. Play action is bad, especially when they blitz or even worst against an opponent. Even if they dont do either everyone can still be covered easily. 2/10

Against the Computer this play is great. Against a human it can be very subpar. It doesnt match any other plays except a QB Run though, so i'd stay away from this play against a human opponent. 8/10 against comp 3/10 against human.

Thus ends the playbook section.

Thats it. Hope you enjoy finding your favorite players Ratings and so on.
