| PLAYERS ON VS MODE |  
\-----/
```

On Document 3, I have written the data of the players present on VS MODE  
The parameters of players are:

- a) shoot power (KICK --> K )
- b) head power (HEAD --> H )
- c) ball control (CONTR -> C )
- d) run (RUN ---> R )
- e) attack (ATT ---> A )
- f) dash (DASH --> D )
- g) jump (JUMP --> J )
- h) pass (PASS --> P )

S.T -> Sub Total  
S.P -> Special Powers  
TOT -> Total

Players and goalkeepers that have special powers, they have a parameter, sub-total, where I have calculated the values without special powers.

Special power have double points.

The goalkeepers have a different result, under the players one, because goalkeepers parameters are different:

- a) stop the ball (CATCH --> C )
- b) throw back the ball (PUNCH --> P )
- c) throw (THROW --> T )
- d) jump (JUMP ---> J )
- e) dash (DASH ---> D )
- f) reflexes (REFLEX -> R )

Parameter "REFLEX" is not expressed in numbers, but in letters that have this value:

- A = 10 excellent
- B = 8 good
- C = 6 sufficient

- S.T -> Sub Total
- S.P -> Special Powers
- TOT -> Total
