2] INTRODUCTION =====
=====

Hi there fellow Triggeronians! Or something like that :P
I wrote this FAQ because I noticed a definite lack of good codes for one of favorite games of all time, Crono Trigger! I'm only including codes that have NOT been found already, so if you notice any of these codes anywhere else, please let me know!

These codes are all made for the Pro Action Replay, and they will not work on a Game Genie. They unfortunately also cannot be converted into Game Genie codes, so sorry Game Genie users! You're out of luck with my codes :P

=====
3] CHEAT CODES =====
=====

Okay! this is what this FAQ is all about! The codes below were all hacked by me. If you wish to use them on your website, please e-mail me and ask for permission. As long as you have a free site, i'll probably let you use my FAQ.

ONTO THE CODES!!

3A] Item Codes

Use these codes to change the your items and their quantities. This is a handy code to have if you missed an item you want, or just want more items. You must save your game with the codes on or move the item you changed to keep the changes!

WARNING: If you move an item into an item slot where you have a code turned on you WILL CHANGE THAT ITEM into whatever the code says! So be careful!

WARNING: Remember to enter a quantity code if you are making an item appear in a blank spot! Also, don't enter a quantity code for a blank spot without entering an item, or any item you later place in that spot will suddenly have whatever quantity you put there!

NOTE: In the codes below, replace the QQ and with a value from the quantity list below the codes, and replace the ?? with a value from the item list below the quantity list.
