Prologue

```
*****
```

The Year: 2493.
The Planet: Vega 4.
The City: New Shanghai.

Workers were digging a new
subway tunnel when they
uncovered dormant eggs of an
extremely dangerous parasitic
lifeform.

The colonists were helpless
against the alien horde.
They sent out a distress call
to the Earth-based authorities.
The distress call was received
and understood by a passing
spacecraft.

The predators were in search
of big game. They had been
thinking to hunt humans. But
now they would be up against
more challenging prey...

Cutscene 1

The aliens had been cleared from the streets. But now their underground hive would have to be destroyed before the city would be free of them.

Cutscene 2

The aliens may have been cleared from the city, but they had infested the forests as well.

The predators continued to hunt down the aliens.

Cutscene 3

The aliens had made a hive at the base of the waterfall. A number of human victims could still be rescued... ..as if the predators cared.

Cutscene 4

All the aliens in the city and in the countryside had been hunted down by the predators. But that still wasn't all the aliens on the planet. The last nest of aliens was at the spaceport.

Cutscene 5

The predators had now hunted down every alien on Vega 4, except the ones inside the spaceship itself. It was determined that the aliens had come to Vega 4 from the Orion Nebula long ago. The predators decided to follow the trail, flying the alien-infested spaceship to the source of the alien plague.

Cutscene 6

The aliens were firmly entrenched in the spaceship. The predators had their work

cut out for them.

Cutscene 7

It was a long journey to the Orion Nebula. Finally the predators could smell victory at hand.

Cutscene 8

The aliens had all been eliminated. The predators came at last to even richer hunting grounds, in the Orion Nebula. This should be the grandest hunt of all...

Cutscene 9

The surface was now clear of aliens. The predators entered the final alien hive.

The Ending

All races in the galaxy owed the predators a debt which could never be repaid. The predators didn't care for thanks, however. It had been a glorious hunt. Perhaps more of this new and interesting prey would someday be found on another planet...
