1] VERSION HISTORY =====

=====

1.0      11-21-2003  
           This is the original version.

=====

2] INTRODUCTION =====

=====

Welcome fellow Final Fantasy fanatics! Here is my Pro Action Replay code guide for Final Fantasy VI(II american) on gameFAQs. All the codes on here I hacked myself, mostly because I couldn't find any other code guides out there! So if you like cheating, or putting dummied out items or abilites back into play, this guide is for you!

=====

3] CHARACTER CODES =====

=====

This section contains all my character modifying codes. Use these codes to change all of your characters' stats and abilities!

---

Use these codes to change your Hit Points. You can make your max HP higher to help you get past a tough part, or make your max HP lower to increase the challenge.

You can just use 1 slot and swap all the characters into and out of that slot to change all of their abilities.

NOTE: Replace the XX and YY in the following codes with a value from below the codes for Character Slot 5.

Character Slot 1:

7E1049YY  
7E2089YY  
7E104AXX  
7E208AXX

Character Slot 2:

7E10C9YY  
7E2189YY
