

## WARNINGS Read Before Using Your Sega Dreamcast Video Game System

### CAUTION

Anyone who uses the Sega Dreamcast should read the operating manual for the software and console before operating them. A responsible adult should read these manuals together with any minors who will use the Sega Dreamcast before the minor uses it.

### HEALTH AND EPILEPSY WARNING

Some small number of people are susceptible to epileptic seizures or loss of consciousness when exposed to certain flashing lights or light patterns that they encounter in everyday life, such as those in certain television images or video games. These seizures or loss of consciousness may occur even if the person has never had an epileptic seizure.

If you or anyone in your family has ever had symptoms related to epilepsy when exposed to flashing lights, consult your doctor prior to using Sega Dreamcast.

In all cases, parents should monitor the use of video games by their children. If any player experiences dizziness, blurred vision, eye or muscle twitches, loss of consciousness, disorientation, any involuntary movement or convulsion, IMMEDIATELY DISCONTINUE USE AND CONSULT YOUR DOCTOR BEFORE RESUMING PLAY.

To reduce the possibility of such symptoms, the operator must follow these safety precautions at all times when using Sega Dreamcast:

- Sit a minimum of 6.5 feet away from the television screen. This should be as far as the length of the controller cable.

- Do not play if you are tired or have not had much sleep.
- Make sure that the room in which you are playing has all the lights on and is well lit.
- Stop playing video games for at least ten to twenty minutes per hour. This will rest your eyes, neck, arms and fingers so that you can continue comfortably playing the game in the future.

### OPERATING PRECAUTIONS

To prevent personal injury, property damage or malfunction:

- Before removing disc, be sure it has stopped spinning.
- The Sega Dreamcast GD-ROM disc is intended for use exclusively on the Sega Dreamcast video game system. Do not use this disc in anything other than a Sega Dreamcast console, especially not in a CD player.
- Do not allow fingerprints or dirt on either side of the disc.
- Avoid bending the disc. Do not touch, smudge or scratch its surface.
- Do not modify or enlarge the center hole of the disc or use a disc that is cracked, modified or repaired with adhesive tape.
- Do not write on or apply anything to either side of the disc.
- Store the disc in its original case and do not expose it to high temperature and humidity.
- Do not leave the disc in direct sunlight or near a radiator or other source of heat.
- Use lens cleaner and a soft dry cloth to clean disc, wiping gently from the center to the edge. Never use chemicals such as benzene and paint thinner to clean disc.

### PROJECTION TELEVISION WARNING

Still pictures or images may cause permanent picture tube damage or mark the phosphor of the CRT. Avoid repeated or extended use of video games on large-screen projection televisions.

### SEGA DREAMCAST VIDEO GAME USE

This GD-ROM can only be used with the Sega Dreamcast video game system. Do not attempt to play this GD-ROM on any other CD player; doing so may damage the headphones and/or speakers. # INTRODUCTION

Welcome to NFL Quarterback Club 2001! This year promises to bring the best football game into a new millennium. NFL QBC 2001 combines a crop of great new features like the addition of the "Shoulder Charge" to your offensive arsenal for busting through the line and pass icons on run plays (it really throws your opponent off the scent!) There's also a whole network-worth of camera angles and an improved catching and play select system. My personal favorite is the new savable instant

replays so you can create your own highlight film!

Playing a season can be grueling. I like to warm up in Practice mode, stretch out in a few Exhibition games and then I'm ready to march downfield to the Playoffs. After that it's on to the big game and, hopefully, another ring! But, if you don't grab that ring, you can re-create your winning situation in QBC 2001's Custom Simulation mode where you call all the shots! I have a few game memories that I'd love to replay. If you have a few or, if you're a history buff, you can recapture bygone eras in the Historic Simulation mode.

So, grab your pads and cleats and join me on the gridiron for some NFL QBC 2001 action!

# PLAYING A GAME

## COIN TOSS

Once you take the field, a coin toss determines which team will kick and which will receive. The coin toss is called in the air by the visiting team. The team who loses the toss chooses which goal they wish to defend.

## KICK OFF

You can aim your kick by moving the **DIRECTIONAL BUTTON/ANALOG THUMB PAD LEFT, RIGHT, UP and DOWN**. Kick power is determined by when you press the **A BUTTON** in relation to where the bouncing meter is at the time. Follow the same procedure for punts, field goals and extra points.

# CALLING PLAYS

The play select screen is divided into 3 Defensive and 3 Offensive play calling boxes and a game status area showing the current game situation (down, yards to go, time remaining, etc.). If you have created a custom playbook, you can access it from this screen. In multiplayer games, the player with the lowest controller number controls the offense and the next lowest controls the defense.

## TO CALL A PLAY

- Scroll formations and plays using **ANALOG THUMB PAD LEFT** or **RIGHT**.
- Press the appropriate control (**B**, **A**, or **X**) for the formation and play you wish to use.

**NOTE:** You can flip plays by pressing the **LEFT TRIGGER**.

**VMU Play Art** After you select a play, the **VMU** will display your play! If you call an audible, the display will change to show the play that was called in the audible. Great for those of us who really want to study the routes!

Once both teams have called plays, the teams break their huddle and go to the scrimmage line.

# USING A CREATED PLAYBOOK

Once you have created and saved a custom playbook (see page 21), it will be available on your list of playbooks and can be used at anytime for any team.

## To Use A Created Playbook

- In-Game Options on the Game Setup screen.
- Scroll to either the Away Playbook or Home Playbook.
- Press **LEFT** or **RIGHT** on the **DIRECTIONAL BUTTON/ANALOG THUMB PAD** to highlight the desired playbook.

# CONTROLLING PLAYERS

You can switch control of players by pressing the **LEFT TRIGGER** to toggle through the players.

## PASSING

The passing system allows you to control both how hard a pass is thrown and exactly where it's thrown. This allows the quarterback to respond to pass coverage dynamically. Each pass tag corresponds to a particular receiver. Tap the button of the receiver you wish to throw to for a lob pass. Hold the button down longer for a bullet pass. Once the ball is thrown you will have control of the receiver.

# GAME TYPES

## PRACTICE

Let's shake the off-season cobwebs from your game. Start by setting Practice options:

**Offense** Toggle to the team of your choice or offensive scheme of your choice, including classic historic offenses like the '88 49ers and custom schemes of your own devising!

**Defense** Choose to run plays without a defense to challenge you (None), or against any defensive scheme in the NFL!

**Field Position** Select which yard line you'll run plays from. The **UP** arrow indicates you're in enemy territory, **DOWN** that you're in your own half of the field.

**Hashmark** Place the ball at the left, center or right of the field.

**Offense Playbook** Select the offensive scheme of your choice.

**Facility** Choose an Indoor or Outdoor facility.

**Weather** In Exhibition mode, set the game conditions in outdoor stadiums, or have the CPU choose (Auto).

Once you've set your options and chosen which team you wish to control, you'll see the playbook screen, with a number of appropriate plays to choose from. Make your choice, then it's on to the field to master your attack!

# EXHIBITION

A one-game contest between any two teams, Exhibition games don't count towards your record. Many of the screens, features and options available in this mode pertain to other modes, too, so take a moment to learn these basics. After selecting Exhibition, you'll come to the team select screen, showing two teams and their respective NFL rankings in the most important offensive and defensive categories. Toggle through teams by pressing **DOWN** or **UP** on the **DIRECTIONAL BUTTON/ANALOG THUMB PAD**. Alternate team select areas by pressing **LEFT** or **RIGHT** on the **DIRECTIONAL BUTTON/ANALOG THUMB PAD**.

**Importing a Created Team** If you want to bring a saved custom team into play, press the **RIGHT TRIGGER** at the Team Select screen. At the Restore Team screen, you can select from any one of up to 3 custom built teams. Once your teams are selected, choose which one you wish to control.

## GAME SETUP SCREEN

## NEW SEASON

Do you have what it takes to claw your way to Super Bowl victory? Season play proves that every week counts in this game of inches. You can play each and every game every week, simulate games and play only the choice match-ups, manage your roster, create and import custom players, team and playbooks and lots more!

## SEASON SETUP

Before you get into a season's worth of play, you'll need to select a few options.

**Play Pre-Season** This option can be set to **ON** or **OFF**. When **ON**, your team will compete in 5 exhibition games before the season begins. You can choose to simulate all the games for a particular week or not.

**Player Development** When **ON**, this feature tracks each player's performance in several categories during each game and rates them by how they did. Categories reflect the demands of each position. The rating is cumulative and may result in a player improving from good performances or getting worse from bad performances.

**Player Streaks** When set to **ON**, players will get hot or cold depending on their game performance. A great performance one week makes a player more likely to pull off great moves in the future, while a poor performance can mean a slump is in your future!

## SEASON MENU

After the Season Setup screen, you'll go to the Season Menu, with a complete range of choices. Note that if Pre-Season is set to **ON**, you'll see the same menu, but your choices will relate to Pre-Season play. Once you've selected a particular option, press the **Y BUTTON** (Help) for control details for that option.

**Weekly Schedule** This screen details all the scheduled pre-season or season games week by week. You can play or simulate any of the games for any given week.

**Team Schedules** View a list of each team's schedule, along with win/loss record for any weeks already past.

**Team Standings** View teams standings within each conference and division to date.

**Power Rankings** Power rankings gives you a good indication of which team has the power to go all the way!

**Season Stats** All the stats you could ever want, updated as the season progresses.

**Season Leaders** See at a glance who the top performers in all stat categories are.

**Team Stats** Complete team stats for the season thus far.

**Injured Players** If injuries are turned **ON**, a visit here will tell you the current status of injured players on any team.

**Weekly Matchups** Compare the rankings of each pair of teams scheduled to play on a given week.

**Manage Rosters** Draft, trade, and sign players and access custom creation features. See Managing Your Rosters (page 19) for details.

**Quit Season** Quit the current season and return to the main menu.

## PLAYING A SEASON

Once you've selected which game(s) you wish to play or simulate (using the Weekly Schedule option), press the **A BUTTON**. The computer will simulate any games you didn't mark to play. To mark a game for play, press the **X BUTTON**. You will then go to the controller select screen, where up to 4 players can decide which team they wish to control (by moving their controller under the team's logo). If you've marked multiple games to play in any given week, they are played in the order presented.

## GAME SETUP

**NOTE:** If you press the **A BUTTON** without marking any match-ups for play, you will be asked if you wish to have the computer simulate all games for that week.

## TO PLAY ALL WEEKS WITH A PARTICULAR TEAM

- Highlight the box next to a particular team and press **X BUTTON**.
- Press **A BUTTON** to play games.

Remember, you'll have to select your team for each week you want to simulate.
