1. PROLOGUE

Long, long ago the world was in a state of chaos, where demons caused evil & darkness all. That changed when Solomon, a great king & magician, invented a magical formula which he wrote inside a secret book called "Solomon's Key". This book created and sealed away all evil demons into a constellation sign which was hidden. "Solomon's Key" restored light and peace to the world. Upon hearing this legend, a secret monk searched for a long period of time to find "Solomon's Key". After locating the constellation sign, he discovered the "Key". Once in his grasp many dreadful demons were freed from the magical power of this book. The world was brought back to chaos and darkness. Everything on earth was now under control by the demons just like the pre-creation days. King Yama from the fairyland called "Lycra", entered the wizard, Dora to restore order back to the world.

Dora accepted this mission and stepped into the forbidden land of the "Constellation Sign".

7. GAME DEVIATION VALUE (G.D.V.)

Your game deviation value is displayed on the screen when the game is either over, or you finish the game to its end. This method of evaluation is specifically made so that your abilities are properly analyzed and synthetically computed. Ability estimation in terms of only score has fallen behind the times. G.D.V. permits simultaneous estimation of various techniques besides common game scores.

What on earth is the ultimate game deviation value?
How about you? Do you understand this advanced concept?

This instruction manual does not explain everything about "Solomon's Key". It leaves much to be decided by you. Try to find your own creative techniques to get a high deviation value. There is no alternative but to make every effort in order to get satisfactory results. We hope you will succeed. Even if you call us to ask for answers, we make it a rule not to tell all our secrets... You must develop your game skills on your own!
