The world of Regallzine, the dwelling place of the Great Spirit, Mana, is comprised of three continents surrounded by a vast sea. Within the world of Regallzine, the Esviore region has been under the rule of King Slaith. However, King Slaith's ruling powers over South Esviore began to diminish. Today South Esviore is no longer under the king's rule. Atelier Iris: Eternal Mana takes you to the world of Regallzine, a land inhabited by humans, Mana spirits, and vicious monsters. With the help of Mana, a selected few can harness the power of alchemy to create magical items. However, over the years, this practice has nearly died out. As Klein, the main character, it's your goal to learn the lost arts of alchemy. For others, it is their life's work to discover what the true nature of alchemy is. Klein's journey of self-discovery soon leads him to join a ragtag band of adventurers who battle evil to protect the general populace.

Step 1: Choose an item that you would like to create from the menu.

Battle system

Atelier Iris incorporates a unique battle system called the "Cost Turn Battle System". The "Cost Turn Battle System" is categorized into two major groups, the "Turn" and "Action". Battle move speed and effects are determined by the combination of "Turn" and "Action" type of the move.

Attack Type

Turn Types	
Half Turn	You can move twice in one turn
One Turn	You can move once in one turn
Two Turn	You can move once in two turns

Action Types	
Single	Immediately take one action per move
Double	Two actions in a single move
Another	Effect of the move is delayed

For instance Lita's Claw Attack is a "Half Turn Single" move, meaning she is able to attack twice with her Claw Attack in a single round of her command. Half Turn (Move x2) + Single Action (Action x1 per move) = Action x2 for Lita's round of command

Example of a Two Turn Single Attack:

You can select and immediately begin chanting for Norn's magic move. However, Norn cannot immediately unleash her magic move like Lita's Claw Attack.

Action Cancel

If you're attacked during a Double Type skill before completing the second action, the skill may be cancelled. Example, if an enemy hits you while you are preparing to use a Double Type skill. The first move is cancelled, and you have to start over again.

Skill

Here are some examples of battle moves.

 Klein	Element Extraction	Turns enemies into elements when you finish them off with this skill.
	Delay	Delays the effect of Mana Item.
	Mace ATK	One powerful blow to the head.
 Lita	Claw ATK	A quick slash to the neck.
	Force Blast	A powerful energy blast.
	Hyper Knock-back	One powerful jump kick with a knock-back effect.
 Norm	Magical Staff	Norm's basic attack move.
	Telekinesis	Lifts the enemy into the air and slams them down.
	Turn into candy	Turns enemies into candy.
 Delsus	Cross Bow	Basic attack move, shoots arrows.
	First Shot	A quick shot to the head.
	Dark Arrow	A status altering arrow shot of darkness.

Ailments

You may get these ailments during the battle by special moves or items.

PSN: Poison
Lose HP every turn

SLP: Sleep
Sleep, cannot perform any action (wake up when attacked)

PAR: Paralysis
Damage you apply to enemies will go down

CRM: Charm
Cannot perform any action (Characters with healing skills will heal your enemies)

CRS: Curse
You cannot heal

Down!
Cannot perform any action until the next turn

Incapacitated
Death. Cannot fight or gain experience points.

Once you get these ailments, you will be free after a couple of your turns. However, you may use some items to recover from these ailments.
