## SETTING UP

Set up your PlayStation®2 computer entertainment system according to the instructions in its instruction manual. Make sure the MAIN POWER switch (located on the back of the console) is turned on. Press the RESET button. When the power indicator lights up, press the OPEN button and the disc tray will open. Place the *Enter The Matrix*™ disc on the disc tray with the label side facing up. Press the OPEN button again and the disc tray will close. Attach game controllers and other peripherals, as appropriate. Follow on-screen instructions and refer to this manual for information on using the software.

Insert a memory card (8MB) (for PlayStation®2) in MEMORY CARD slot 1 of the console to save your progress and game settings. You may load saved game data from this card.

**Note:** *Enter The Matrix* supports the DUALSHOCK®2 analog controller. Digital controllers are not supported.

## CONTROLS

### Walking / Running / Shooting

CONTROL	ACTION
left analog stick	Move forward / back; Turn right / left. When facing an obstacle (such as a wall), tap forward to have Niobe or Ghost turn their back toward the obstacle. If the obstacle is low, the character will automatically crouch behind it. When in first-person or sniper mode, the left analog stick allows you to look around and / or aim the sniper weapon.
right analog stick	Enter / Exit first-person mode

## Alternate Control Configuration

The above control configuration is the default setting. You can select an alternate configuration at the game's Options Menu.

## STARTING THE GAME

From the game's Main Menu, select New Game to start fresh or Load to return to a previously saved game. If you choose New Game, you'll be prompted to select a Difficulty level — Easy, Normal or Hard. Next, you'll choose to play as either Niobe or Ghost. Select either character to get started.

## SAVING AND LOADING

At specific points throughout the game, you will be prompted to save your progress. You must have a memory card in MEMORY CARD slot 1 to save a game. Choose an empty game slot or overwrite an existing game (if you do this, the game previously saved in that game slot will be lost). Your position in the game is indicated in the saved game slot.

To load a saved game, select Load and choose your saved game. When choosing a game to load, you may start from any point at which you previously saved. You must have a memory card with saved data on it in MEMORY CARD slot 1.

## OPTIONS

From the Main Menu, select Options to enter the Options Menu.

### Controller

- Turn Vibration ON / OFF.
- Set the first-person control to Normal or Reverse.
- Switch controller's button mappings — the mappings for each controller configuration are displayed on the screen.

### Audio

- Set the volume level of the game's sound effects, music and dialogue.

## Video

- Turn subtitles for all voice dialogue ON / OFF.
- Adjust video settings.

## Save Settings

Save your current controller, audio and video settings.

## VIDEOS AND CINERACTIVES

*Enter The Matrix* tells its story through a combination of live-action film footage, in-game movies called "cineractives," and the actual gameplay. Clues and instructions appear in the film and cineractive segments.

## HACKING

The rabbit hole is very deep, with many places to explore. You must have a previously saved game stored in order to begin hacking. After that, you're on your own.

## NIobe AND GHOST

Playing as either Niobe or Ghost is a matter of personal preference, but playing all the way through the game as both characters, and playing well, is the only way to experience the full *Enter The Matrix* story.

**NOTE:** Except where specifically noted below (i.e., in the driving and hovercraft piloting sections), the controls and capabilities of Niobe and Ghost are identical. Unless noted, where a feature for one character is described, that feature is present for the other character, too.

### NIobe

Niobe is the hard-as-nails Captain and pilot of the *Logos*, the smallest and fastest hovercraft in the Rebel fleet. Niobe is a superb hand-to-hand combatant. Her skills as a hovercraft pilot in the Real World, and her driving skills in the Matrix itself, are second to none.

### Ghost

Ghost is the First Mate of the *Logos*, and a true spiritual martial arts warrior. To him, weapons are nothing less than works of art, and they are deadliest when in Ghost's calm, practiced hands. In battle, Ghost's body and mind become perfectly focused, working in flowing unison.

### SPARKS

Sparks is the third crewman of the *Logos*, serving as Niobe's and Ghost's operator during their missions into the Matrix. Sparks is a wild, brilliant, hyperkinetic voice on the other end of the cell phone. You'll be in constant touch with Sparks as he relays key information and strategic advice.

## PAUSE MENU

At any time in the game, you can press the **START** button to access the Pause Menu. Use the **directional buttons** and the **X** button to select from the menu. Press the **START** button to return to the game.

**Continue** – Return to the game.

**Objectives** – List level objectives.

**Controls** – View the current control configuration.

**Tips** – Display basic gameplay tips.

**Quit** – Quit to Main Menu.

## HEADS-UP DISPLAY

The Health meter displays your current health status.

The Focus meter displays the current level of Focus time available (see *Focus Moves* on page 19 for more information).

The Radar indicator shows the distance and direction to the next objective. If the indicator turns red, you are facing the wrong direction. You may need to go around obstacles to reach your next objective.

The Weapon displays show the currently selected weapon for either hand and its available ammunition.

## MOVING AROUND

The **left analog stick** controls direction and speed for both walking and running.

When facing an obstacle such as a wall, move close to the object and then tap the **left analog stick** forward as if to walk into the object. Your character will turn his or her back and press up against the object.

If the object is low, your character will automatically crouch down and hide. You can use the **left analog stick** or the Strafe buttons (**L2 button** and **R2 button**) to move or creep along the obstacle.

You can peer around corners by turning your back against an obstacle and using the **left analog stick** or the Strafe buttons to move to the edge and peer around. Your character can even fire weapons from behind cover in this fashion: Move to the edge of the obstacle and press the **R1 button** to lean out and fire. Release the **R1 button** to stop shooting, and release the **left analog stick** or the Strafe buttons, and your character will move back behind cover. To jump out and surprise enemies, press the **Jump button (X button)** as you look around the corner.

Holding down the **Focus button (L1 button)** while jumping will increase the length of your jump. If you strafe (**L2 button** or **R2 button**), press the **Focus button** and then jump, your character will do a sideways cartwheel.

## WALL-RUNNING AND WALL-JUMPING

Run alongside a wall, hold down the **Focus button** and continue running toward the wall at an angle. You'll bend the rules of gravity in the Matrix and sprint along the wall. Time it right, and you'll even turn corners while still airborne. To jump off the wall, press the **Jump button**.

For wall-flips, press the **Focus button** and run directly at a wall — you'll take a few steps up the side and backflip to the ground.

These moves are great ways to avoid enemies and obstacles. Experiment with other Focused running and jumping moves to discover more combinations and effects.

## JUMPING AND CLIMBING

Use the **Jump button** to jump onto various objects, and use the **left analog stick** to climb up and down ladders and fences, or press the **Jump button** to quickly slide down a ladder.

Jump up to grab pipes and rails, and use the **left analog stick** to move hand-over-hand along the pipe. Press the **R1 button** to pull yourself higher onto the pipe. Move the **right analog stick** in any direction to lower yourself back down. To jump down from the pipe, pull the **left analog stick** back and hit the **Jump button**. Be sure you're above a safe landing spot!

Try hanging upside down for a unique sniper's perch. While on a pipe, select any primary weapon, and press the **R1** button to hang upside down and immediately enter first-person mode. Use the **left analog stick** to aim, and press the **R1** button again to fire. Lower yourself back down by moving the **right analog stick** in any direction.

## PICKING UP AND USING OBJECTS

You'll have the opportunity to pick up several items during the game — weapons, ammo, grenades, etc. To pick up the items automatically, run right over them.

Press the **■** button to use or activate fixed objects, like doors. The exact action triggered by the **■** button is context-sensitive.

## HEALTH PACKS

Throughout the game, you'll have the opportunity to recharge Niobe's or Ghost's Health meter with Health Packs. To pick up Health, run right over it as you would any other item.

## HAND-TO-HAND COMBAT

Niobe and Ghost are both rock-hard martial artists, masters of dozens of different styles. When it comes to hand-to-hand fighting, they are just as tough and as fast as Trinity and Morpheus.

## PUNCH, KICK AND DEFEND

You'll automatically switch to a Hand-to-Hand combat stance when you attack an enemy. Mix it up with the bad guys and discover special moves and combinations that really dish out the pain.

### Example: Foot Sweep

In close quarters, move the **left analog stick** down and press the **Kick** button (**●** button). Niobe or Ghost will do a foot sweep, dropping the enemy to the floor. Follow that up with another kick to punt the enemy across the room.

### Example: Wall Kick

Again, in close quarters, back up against a wall, and press the **Focus** button and the **Kick** button. If you time it right, your character will kick off the wall to deliver a crushing boot to the head.

## THROWS, CHOKEHOLDS AND DISARM MOVES

Throws, chokeholds and disarm moves are some of the special moves you can discover. Disarm moves leave guns on the ground that you can immediately pick up and fire. Some special moves even allow Niobe and Ghost to yank guns from their attackers and put them right to use.

#### Example: Throw

To throw an enemy, move in close and press the **▲ button** and the **● button** simultaneously. Your character will throw the enemy across the room.

#### Example: Chokehold

Sneak up behind a enemy and press the **■ button**. Your character will apply a deadly chokehold.

#### Example: Counter-Throw

If you're being thrown, press the **■ button** before you hit the ground. Your character will find his or her footing and turn the throw back on the opponent, dropping him to the floor.

## WEAPONS COMBAT

In some scenarios, you'll be jacked into the Matrix with a preset weapons loadout, and throughout the game, more weapons and options will become available.

Select a weapon by pressing the **SELECT button** to display the Weapons Menu, and navigate the menu with the **directional buttons** or

**left analog stick**. Press the **✕ button** to select your weapon and exit the Weapons Menu. Alternately, you can quickly scroll through your weapons using the **directional buttons**.

To draw and fire a weapon, press the **R1 button**. Press the **■ button** to holster weapons.

You can carry grenades as secondary weapons. In some instances, you can wield two pistols for rapid-fire, two-handed shooting.

## AUTO-TARGETING

Once you've drawn a weapon, maneuver Niobe and Ghost to aim your weapon toward an enemy. When a green targeting reticle appears over an enemy, you've got him in your sights.

When you have a target sighted, you'll remain locked on that target as long as it remains in your line of sight or until the target is destroyed.

An effective tactic is to use the Strafe buttons (**L2 button** and **R2 button**) to "circle-strafe" an opponent — moving sideways while shooting at the target.

## THE SNIPER RIFLE

You can use the sniper rifle as a standard weapon, or you can enter sniper mode for greater range and accuracy. Select the sniper rifle and move the **right analog stick** in any

direction to enter sniper mode — the targeting reticle will appear. Zoom in on your target by pressing the **■ button**; zoom out by pressing the **✕ button**. To fire, press the **R1 button**.

While in sniper mode, you can strafe (**L2 button** and **R2 button**) to move left and right and help target your enemy. To exit sniper mode, move the **right analog stick** in any direction again.

## THROWING GRENADES

First, select a grenade by using the Weapons Menu (**SELECT button**). Press and hold the **▲ button** to throw — but be careful to avoid the blast radius of your own grenade!

## THE WEAPONS

The following is a partial list of the available weapons in the game. You'll discover more weapons and special ammunition types as you progress — keep your eyes open!

**.380 Security Pistol** — Small clip size and under-powered ammunition, but a common choice for security officers and police.

**92FS Automatic Pistol** — Standard automatic pistol used by police and military agencies. Large clip size and high-velocity ammunition. Great when wielded in pairs.

**p229 S Automatic Pistol** — Excellent all-around performance. Ghost's primary handgun.

**9000 S Automatic Pistol** — Smaller frame size, but packs the same punch. Niobe's primary handgun.

**.50AE Automatic Pistol** — The most powerful handgun in the game, often carried by Agents.

**MP5 Submachine Gun** — The gold standard for weapons of this type. Commonly carried by SWAT officers, the MP5 can be fitted with a flashlight or infrared scope.

**M16** — The U.S. military's standard battle rifle for more than 30 years.

**M240 Machine Gun** — Heavy-duty machine gun, in standard use by U.S. Army and Marine Corps. Often mounted on vehicles and aircraft.

**Shotgun** — Tremendous short-range stopping-power more than makes up for its slow reload time. Can be fitted with a flashlight.

**M95 .50 Advanced Sniper Rifle** — The sniper's best friend. Deals massive damage, even at extreme ranges.

**Flash-Bang Grenade** — Blinds and disorients with a loud bang and brilliant flash. Used by SWAT teams during forced entries.

**Offensive Grenade** — Lethal fragmentation grenade, perfect for clearing enemies from behind cover.

**40mm Grenade Launcher** — Fires high-explosive grenades that detonate on impact.

## DRIVING & SHOOTING FROM CARS

### WHEN PLAYING NIOBE...

Niobe always takes the wheel during the game's driving levels. Her driving skills are second to none, but you'll have to push her right to the limit to survive.

When playing Niobe, keep in mind that Ghost will be riding shotgun — make sure he's in a good position to make his shots. Think of your role not only as the driver/navigator, but also as the means to deliver Ghost to the enemies.

### WHEN PLAYING GHOST...

Niobe is the best driver, and Ghost is the best marksman with every weapon imaginable. It's Ghost's job to provide covering fire so Niobe can drive you both to safety.

Enemies can come at you from any angle. Think of your role as clearing a path for Niobe while protecting her from enemies.

## PILOTING & SHOOTING FROM HOVERCRAFT

### WHEN PLAYING NIOBE...

Niobe is the Captain of the *Logos*, and the best damn pilot in the fleet. She'll always take the helm of the *Logos*, the fleet's fastest, most agile hovercraft.

You'll pilot the ship through ancient steam, sewer and electrical tunnels, with hazards at every turn. Ghost will provide covering fire, so it's your job to get the *Logos* through the tunnels as fast as possible and in one piece — easier said than done.

### WHEN PLAYING GHOST...

Ghost takes the *Logos*' gunner position, operating cannons located on both bow and stern. Niobe will aggressively lead the way through the tunnels, but the real danger is

"Squiddy," the relentless war machines bent solely on your destruction. Niobe can handle the flying — you just need to keep the Sentinels from catching the *Logos*.

## FOCUS MOVES

Discovering all of Niobe and Ghost's abilities in the Matrix is the key to your success. In the Matrix, Niobe and Ghost are fast enough to avoid bullets and defy gravity.

They're so fast that, for them, time slows to a crawl. Unlocking these abilities will be one of your biggest challenges as a player.

To bend the rules of the Matrix, the rebels need to learn how to free their minds. To do this, they need to Focus.

The Focus meter in the lower right of the HUD displays your resource pool of focused ability.

Pressing the Focus button (**L1 button**) while running, jumping or fighting unlocks Niobe and Ghost's spectacular (and more useful) capabilities. Focus can also keep you out of danger — you'll be a harder target to hit. For example, hold down the Focus Button and tap the

**■ button**, and your character will perform somersaults and cartwheels, useful for dodging bullets.

The longer you hold down the Focus button, the more you draw from the limited resource of the Focus pool. When the meter hits zero, Niobe and Ghost return to their normal levels of speed and strength.

The Focus pool slowly regenerates itself, but it's a precious commodity — use it wisely.

**Note:** Focused abilities are available only within the Matrix itself. In the Real World, you're on your own.

## TECHNICAL SUPPORT (U.S. & CANADA)

### Help Via the Internet

Up-to-the-minute technical information about Infogrames, Inc. products is generally available 24 hours a day, 7 days a week via the Internet at:

<http://www.ina-support.com>

Through this site you'll have access to our **FAQ** (Frequently Asked Questions) documents, our **Hints/Cheat Codes** if they're available, and an **E-Mail** area where you can get help and ask questions if you do not find your answers within the **FAQ**.

**Note:** In the event we must send you a Hint Sheet, FAQ document, patch or update disc via E-mail, we may require verifiable consent from a parent or guardian in order to protect children's privacy and safety online. Consent Forms are available at the web site listed above.

## Help Via Telephone/Fax or Mail in the United States & Canada

For phone assistance, call Infogrames, Inc. **Tech Support** at (425) 951-7106. Our **Interactive Voice Response** and **Faxback** system is generally available 24/7, providing automated support and allowing FAQ documents to be faxed to you immediately.

This console-based product has automated support which includes information such as gameplay tips, information on Control Keys, possible Cheat Code combination keys, and instructions for finding secret screens and/or additional game levels (if these type of items exist and are made available for this particular product).

Great News! We've improved our Automated Systems so that you can get product-specific Troubleshooting help more quickly. All you need to do is enter the product's **Tech Support #** when prompted to do so. This will take you directly to all of our known issues and solutions for this title. The product's Tech Support # is located in several places (on the CD label, Game Pak, package and/or plastic disc case, if applicable) and is usually identified by a number such as 04-12345. When prompted by the Automated System, enter the **last five digits** of your product's Tech Support #. (For example, Tech Support # 04-12345 would require that you enter the "12345" portion of the number for that product.) **Note:** Some products simply feature a five-digit Tech Support # without an "04-" prefix.

Live support is generally available Monday through Friday, 8:00 AM until 6:00 PM (Pacific Time). **Note:** We may be closed on major holidays.

You may also fax in your Technical Support questions or problems to: (425) 806-0480, or write to the address on the following page.

### Product Return Procedures in the United States & Canada

In the event our technicians at (425) 951-7106 determine that you need to forward materials directly to us, please include a brief letter explaining what is enclosed and why. Make sure you include the Return Merchandise Authorization Number (RMA#) supplied to you by the technician, and your telephone number in case we need to call you. Any materials not containing this RMA# will be returned to you unprocessed. Send your materials to the following address:

Infogrames, Inc.  
Attn: TS/CS Dept.  
13110 NE 177th Place  
Suite # B101, Box 180  
Woodinville, WA 98072-9965  
RMA #:

### Warranty Policy in the United States & Canada

If our technicians determine that the product storage medium is found to be defective within ninety (90) days of original purchase, (unless otherwise provided by applicable law), Infogrames, Inc. will replace the item free of charge, to the original purchaser, if the item is accompanied by the original dated receipt and packaging. If you do not have the original receipt, or if the warranty period has expired, Infogrames, Inc. will replace the product storage medium for a nominal fee.

Vertical text on the right edge of the page, likely bleed-through from the reverse side. It includes the number "33" at the bottom.

NOTES:

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice.

2. The second part details the process of reconciling bank statements with the company's internal records. This involves comparing the opening and closing balances and identifying any discrepancies.

3. The third part covers the preparation of financial statements, including the Income Statement, Balance Sheet, and Cash Flow Statement. It provides a step-by-step guide on how to calculate each component.

4. The final part discusses the role of the auditor and the importance of an independent audit. It explains how an audit can provide assurance to stakeholders that the financial statements are true and fair.

# END-USER LICENSE AGREEMENT

**IMPORTANT — READ CAREFULLY:** Please be sure to carefully read and understand all of the rights and restrictions described in this End-User License Agreement ("EULA").

## AGREEMENT

This document is an agreement between you and Infogrames, Inc. and its affiliated companies ("Company"). The enclosed software game disc(s), cartridge or Game Pak ("Software") and any accompanying printed materials are licensed to you only on the condition that you accept all of the terms contained in this EULA.

By opening this package and installing or otherwise using the Software you agree to be bound by the terms of this EULA. If you do not agree to the terms of this EULA you may not install or use the Software and within 15 days of purchase you must call the Tech Support telephone number listed in the manual accompanying the Software (the "Manual"). Select the Automated Phone System's Main Menu option for Consumer Services and follow the prompts. You will be given a Return Merchandise Authorization number (RMA #) by the technician. You then have 15 days from the date of this contact to return the Software in its protective covering, the Manual and the original sales invoice to the address supplied to you.

If this is a PC product, when you install the Software you will be asked to review and either accept or not accept the terms of the EULA by clicking the "I Accept" button. By clicking the "I Accept" button you acknowledge that you have read the EULA, understand it and agree to be bound by its terms and conditions.

## COPYRIGHT

The Software is protected by copyright laws and international copyright treaties, as well as other intellectual property laws and treaties. All title and copyrights in and to the Software (including but not limited to any images, photographs, animations, video, music, text and "applets" incorporated into the Software) and any printed materials accompanying the Software are owned by the Company or its licensors.

## GRANT OF LICENSE

The Software is licensed and not sold to you and its use is subject to this EULA. The Company grants you a limited, personal, non-exclusive license to use the Software in the manner described in the user documentation. The Company reserves all rights not expressly granted to you in this EULA.

## PERMITTED USES

1. If the Software is configured for loading on a hard drive, you may install and use the Software on a single computer.
2. You may make and maintain one copy of the Software for backup and archival purposes, provided that the original and copy of the Software are kept in your possession.
3. You may permanently transfer all your rights under this EULA, provided you retain no copies, you transfer all of the Software (including all component parts, the media and printed materials and any upgrades) and the recipient reads and accepts this EULA.

## RESTRICTIONS

1. You may not delete or obscure any copyright, trademark or other proprietary notice on the Software or accompanying printed materials.
2. You may not decompile, modify, reverse engineer, disassemble or otherwise reproduce the Software.
3. You may not copy, rent, lease, sublicense, distribute, publicly display the Software, create derivative works based on the Software (except to the extent expressly permitted in the Editor and End-User Variation section of this Agreement or other documentation accompanying the Software) or otherwise commercially exploit the Software.
4. You may not electronically transmit the Software from one computer, console or other platform to another or over a network.
5. You may not use any backup or archival copy of the Software for any purpose other than to replace the original copy in the event it's destroyed or becomes defective.

## EDITOR AND END-USER VARIATIONS

If the Software includes a feature that allows you to modify the Software or to construct new variations (an "Editor"), you may use such Editor to create modifications or enhancements to the Software, including the construction of new levels (collectively the "Variations"), subject to the following restrictions. Your Variations: (i) must only work with the full, registered copy of the Software; (ii) must not contain modifications to any executable file; (iii) must not contain any libelous, defamatory or other illegal material, material that is scandalous or invades the rights of privacy or publicity of any third party; (iv) must not contain any trademarks, copyright-protected work or other property of third parties; and (v) may not be commercially exploited by you, including but not limited to making such Variations available for sale or as part of a pay-per-play or timesharing service.

## TERMINATION

This EULA is effective until terminated. You may terminate this EULA at any time by destroying the Software. This EULA will terminate automatically without notice from the Company if you fail to comply with any provisions of this EULA. All provisions of this EULA as to warranties, limitation of liability, remedies and damages will survive termination.

## LIMITED WARRANTY AND DISCLAIMER OF WARRANTIES

You are aware and agree that use of the Software and the media on which it is recorded is at your sole risk. The Software and media are supplied "AS IS." Unless otherwise provided by applicable law, the Company warrants to the original purchaser of this product that the Software storage medium will be free from defects in materials and workmanship under normal use for ninety (90) days from the date of purchase. The warranty is void if the defect has arisen through accident, abuse, neglect or misapplication. If the Software fails to conform to this warranty, you may at your sole and exclusive remedy, obtain a replacement free of charge if you return the defective Software. Follow the Product Return Procedures described in the Manual. The Company does not warrant that the Software or its operations or functions will meet your requirements, or that the use of the Software will be without interruption or error.

**TO THE FULLEST EXTENT PERMISSIBLE UNDER APPLICABLE LAW, EXCEPT FOR THE EXPRESS WARRANTY SET FORTH ABOVE, THE COMPANY DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING AND WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT. EXCEPT FOR THE EXPRESS WARRANTY SET FORTH ABOVE, THE COMPANY DOES NOT WARRANT, GUARANTEE OR MAKE ANY REPRESENTATION REGARDING THE USE OR THE RESULTS OF THE USE OF THE SOFTWARE IN TERMS OF ITS CORRECTNESS, ACCURACY, RELIABILITY, CURRENTNESS OR OTHERWISE. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OF OR LIMITATIONS ON IMPLIED WARRANTIES, SO THE ABOVE EXCLUSIONS AND LIMITATIONS MAY NOT APPLY TO YOU.**

## LIMITATION OF LIABILITY

**IN NO EVENT WILL THE COMPANY OR ITS EMPLOYEES OR LICENSORS BE LIABLE FOR ANY INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL OR PUNITIVE DAMAGES, OR ANY DAMAGES WHATSOEVER (INCLUDING, WITHOUT LIMITATION, DAMAGES FOR INJURY TO PERSON OR PROPERTY, FOR LOSS OF PROFITS, BUSINESS INTERRUPTION, LOSS OF BUSINESS INFORMATION, LOSS OF PRIVACY, FAILURE TO MEET ANY DUTY AND NEGLIGENCE) ARISING OUT OF OR IN ANY WAY RELATED TO THE USE OR INABILITY TO USE THE SOFTWARE, EVEN IF THE COMPANY OR AN AUTHORIZED REPRESENTATIVE OF THE COMPANY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OF LIABILITY FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE EXCLUSION MAY NOT APPLY TO YOU.**

**IN NO EVENT WILL THE LIABILITY OF THE COMPANY FOR DAMAGES WITH RESPECT TO THE SOFTWARE EXCEED THE AMOUNTS ACTUALLY PAID BY YOU FOR THE SOFTWARE.**

## CHOICE OF LAW AND VENUE

This EULA is governed by the laws of the United States of America and the State of New York, exclusive of its conflicts of law provisions. The exclusive venue for litigation regarding or arising from this EULA is New York County, New York and you agree to submit to the jurisdiction of the courts of New York County, New York for any such litigation.

## MISCELLANEOUS

If any provision or portion of this EULA is found to be unlawful, void, or for any reason unenforceable, it will be severed from and in no way affect the validity or enforceability of the remaining provisions of the EULA.

This EULA constitutes the entire agreement between you and the Company regarding the Software and its use.
