Main Game

How to Play

Roll the ball with the monkey inside towards the goal!

Use the left analog stick to tilt the floor, and the ball will roll with the tilt of the slope.

Don't let it fall off the floor, or let the timer reach zero!

Your try will be over, and you'll have to start the stage over from the beginning. In Challenge Mode, you'll lose one monkey.

Pick up those delicious bananas!

You'll get bonus points for picking up bananas. Additionally, in Challenge Mode, you will earn one monkey for picking up 100 bananas.

Many stages await! How many can you clear?

Some stages have various kinds of traps and switches on the map. Study what they do carefully.

Main Characters

AI AI

The hero of this game. He loves bananas so much that he always spends his carefree life thinking "The banana I had today was really delicious." Eat bananas, and he'll be in high spirits, able to overcome any hardship. Chanting a magical spell "Ei-Ei-Poo," he starts his adventure with Monkey Ball.

MEEMEE

She is the future bride of AiAi. Unlike carefree AiAi, she is a person...umm...monkey with firm character. Although she loves AiAi more than anything else in the world, it seems that AiAi loves bananas more than her. And that makes her a little discontent. A little bit tomboyish, she is very kind to everyone on Jungle Island. She always decorates herself with flowers that have a nice scent.

BABY

He came from the future to stop Dr. Bad-Boon's plot to prevent the marriage between AiAi and MeeMee. He is in fact the son of AiAi and MeeMee. He rarely cries, but once he does, he cries with the loudest voice on Jungle Island. Only MeeMee can stop his crying.

GONGON

Yesterday's enemy is today's friend. He used to be AiAi's rival, but now they are best friends. He is quite rowdy, but places such a great value on friendship that once he becomes a friend he never betrays. Although he still is not big in size, he has great strength, as he trains himself every day to become the strongest monkey in the world.

With Story Mode, you control AiAi. With Challenge Mode, Competition Mode, Practice Mode and each mode of the Party Game, you can select from the four monkeys above.

The Enemies

DR. BAD-BOON

He is an evil-genius scientist from the future world. In the future world, he fell in love with MeeMee and attempted to ask her to marry him, but she was already married to AiAi, and had had Baby by then. Thus he flew back in time to the days when AiAi and MeeMee had not married yet. Dr. Bad-Boon tries all sorts of evil plots to separate AiAi from MeeMee, but fails every time. While his perseverance is commendable, he is becoming a real nuisance to the inhabitants of Jungle Island, and has quickly become the island's most hated ape.

DR. BAD-BOON'S ASSISTANT

An ape without words. Other than being Dr. Bad-Boon's assistant, everything about him is covered with mystery. Even Dr. Bad-Boon doesn't know his name. Like a shadow, he follows Dr. Bad-Boon wherever he goes. Cold-hearted Dr. Bad-Boon would leave him behind and escape, but still he continues to be his assistant without any complaints. He appears to be very frightening, but in reality he is very bashful.

Basic Rules
● KO Points (only for Normal Mode)

You score a point simply by punching your opponents. You score big points if you knock your opponents off the stage (amount varies by the handicap). Be careful not to fall off on your own, as 5 points are given to all your opponents. There will be a crown displayed above the point leader of the round.

● Sudden Death

In Normal Mode, if there is a tie in KO points when the time is up, the players will enter a Sudden Death Round, with no time limit, to determine the winner. Note also that on three of the five available stages the floor will crumble. The last monkey standing on the ring is the winner of the round. In Survival Mode, every round is Sudden Death.

● Items (only for Normal Mode)

With normal rules, you have two throws to knock down 10 pins in a frame, and the number of fallen pins are added to your score.

If you knock down the 10 pins in two throws (Spare), the number of pins you get on your third try will be added.

If you get a Strike or a Spare on the 10th and final frame of the game, you are allowed to take an extra throw(s) (2 or 1 respectively) to increase your score.

● 9 Pins Rule (Normal Mode)

There will be only 9 pins on the lane — the missing pin in the frame will vary from lane to lane, as the missing pin will automatically be counted.

There will be 10 pins on the lane and you only have one throw per frame on a 20-frame game. Note that even with a Strike, you will not get the on-added bonus points.
