At least 420Kb of free space must be available in order to save. If less free space exists, erase older data before saving. Do not remove the memory card or turn off the power on the PlayStation 2 while data is being saved or loaded. Your game data may be lost if you do.

If you do not have a memory card, the software allows you to play without saving game data. Press the **START** button to continue.

This game requires 420Kb of free space on a memory card in order to save games.

The goal in this game is to complete missions by solving puzzles, collecting items and powering-up Dante. In the Title Screen, press the **START** button to display the Main Menu. # DEVIL MAN! MAN!

**A**ccording to legend, 2000 years ago while snow was falling on a clear, freezing night on Earth, a fierce devil prince was born deep in the darkest pit of the netherworld.

He grew rapidly. Within a short time he gained his full powers and took over the Devil Throne. His first act as ruler of all devils was to declare himself emperor of the Devil Kingdom. His next feat was an invasion of the human world. His plan was to conquer it and rule over both the lower and the upper realms. But a powerful devil-knight known as Sparda took pity on humans for their brief, transient lives. In fierce battles he defeated all the Devil ruler's armies and finally imprisoned the emperor himself in a sealed vault.

Having achieved his victory, Sparda abandoned the Devil Kingdom to live in the human world. He married a human woman and soon fathered a half devil, half human son. But beware, mankind. After 2000 years, the cursed Devil Emperor will be released and will return to invade the human world once again.

Sparda's son must be our protector!

## INFORMANT ENZO FERINO'S TESTIMONY:

"DANTE? YEAH I KNOW HIM. DOING THIS KIND OF BUSINESS MYSELF, I SEEN TONS OF DANGEROUS GUYS ... BUT I DON'T KNOW ANYBODY AS CRAZY.

"FIRST OFF, HE IS ONE SKILLED DUDE. I SEEN HIM TAKE ON A DOZEN VILLAINS WITH ONLY HIS STRANGE SWORD ... THE ONE HE CALLS WOOLY. HE DON'T RAISE AN EYEBROW, EVEN WHEN A BULLET GRAZES HIS NOSE.

"BESIDES, HE'S WEIRD. IF HE DON'T LIKE A JOB, HE WON'T TAKE IT EVEN FOR A PILE OF C NOTES UP TO THE CEILING. BUT SAY IT'S SOMETHING BIZARRE LIKE A GHOST HUNTING OR DEVIL PURIFICATION, HE JUMPS RIGHT ON IT ... IT DON'T MATTER IF THERE'S A REWARD OR NOT.

"RUMOR SAYS BLUE BLOOD MAY BE FLOWING IN THAT GUY'S BODY. I TELL YA, IF HE GLARES AT A GUY, EVEN THE DEVIL MAY CRY."

# DANTE

Dante is a freelance underground mercenary in modern America. But his secret persona is even more extraordinary! He slays bloodthirsty devils from the depths of burning hell with his huge sword and dual-wielded handguns. Even a devil may cry begging for Dante's mercy.

8

# TRISH

Trish is a hauntingly beautiful woman who invites Dante to Mallet Island, gateway to the devil world. She possesses supernatural powers and vast knowledge about devils. It is said she knows Dante's secret history. But what is her true identity and purpose?

9

# ENEMIES

## MARIONETTE

As the name suggests, these enemies are controlled by the power of the devil's impure strings. At a glance, they seem slow, weak and easy to fight. However, beware the evil trap. Once Marionettes see their prey, they attack with their sword and scimitar nimbly and accurately. They sometimes throw their weapons at distant enemies. Some may already be armed with projectiles when you meet them.

## SIN SCISSORS/SIN SCYTHE

Their appearance — floating in midair in long black cloaks, wielding a huge scythe and scissors — may remind one of the Grim Reaper. However, the Grim Reaper harvests only dead humans' souls. These devils decapitate humans while they're still alive! When confronting them, aim at their masks. It is useless to attack their bodies, arms or legs.

## SHADOW

Resembling beasts of the cat family, Shadows can move extremely fast and baffle their opponents. However, that is not the only weapon in these cunning devils' arsenal. They sometimes change their body shape dramatically to finish off

their prey. In fact, they are shapeless evil spirits with no substance. They enter the human world by wrapping their spirits with black magic. Sword attacks won't work against them, but projectile attacks will.

## NELO ANGELO

Since many of the greater devils appearing in literature were once greater angels, it is not surprising that this black knight is called Nelo Angelo, the "black angel." It is said that he fights his enemy fairly and squarely, a rarity in a warrior from hell. If he is truly a practitioner of honor, why does he follow the Dark Power?

## PHANTOM

As far as we know, the biggest threat of the Dark Army is the Phantom. It resembles a spider, but its body is as gargantuan as an elephant's and its shell harder than a rock. Its blood, when shed, is made of scorching lava reminiscent of the flaming rivers of hell. This monster often leaves a trail of fire as it walks. Phantom may be one of the highest-ranking generals in the Devil Kingdom, but since no one has ever returned to tell tales, even more powerful devils could exist there.

# GAME SCREENS

## MISSION OBJECTIVE

You'll see your mission goal before the start of a mission. Select **MISSION START** to begin.

## GAME ACTION

The following items appear on the main gameplay screen:

**VITALITY GAUGE** - The color bar decreases as Dante is attacked. When it's empty, your game is over.

**D. T. GAUGE** - This gauge builds up as you attack or take injury. When three or more gauges are charged, you can use the Devil Trigger to transform into a devil. (You must first acquire Aiasor in order to use the Devil Trigger.)

**RED ORB** - Shows the number of red orbs you've acquired.

**COMBO DISPLAY** - A message will appear when you attack enemies successively.

**BOSS VITALITY GAUGE** - Corresponding to your vitality gauge, this shows the vitality of an enemy boss when you fight it. When it empties, the boss is defeated.

## GAME OVER & CONTINUE

When Dante's vitality gauge drains to zero, your game is over. You can continue if you have a Yellow Orb (see page 25).

## SAVE

When you complete a mission, you can save your game. Select **SAVE** in the mission clear screen to save your game.

- A Memory Card (8MB) (for PlayStation 2) is required to save your game.
- This game requires 420Kb of free space in the memory card. You can save up to 10 files on one memory card.
- Make sure to insert your memory card into **MEMORY CARD slot 1** or **MEMORY CARD slot 2**.
- While saving or loading, do not turn off the PlayStation 2, press the **RESET** button, or disconnect the memory card. Doing so may destroy data.

# SUB SCREEN

Press the **START** button during gameplay to display the Sub Screen. Then press the **Li** or **Ri** button to turn pages.

## ACTION

(The buttons are default setting Type A.) As you acquire more abilities, more items will be added to the Action list.

**WEAPON** - Gun type weapons for long-range combat.

You can use a Devil Arms and Gun at the same time. See page 25 for more details.

## ITEM

This screen appears first when you display the Sub Screen. Highlight an item to see information about it. To use the item, press the X button, answer **YES** and press the X button again.

## MAP

Check the Map to examine the layout of the stage you are currently in. Select a floor of the Map to see the layout of that floor. The section related to your current mission is highlighted.

Map colors indicate the following:

**YELLOW** - Unlocked door.

**GREEN** - Door can be unlocked by solving a puzzle.

**RED** - Door you cannot currently open.

Use the controls shown on the Map screens to roll and move the Map.

## FILE

Look at your current Mission file and various Enemy files. Highlight a file and press the X button to look at it.

**MISSION FILES** - See information about your current mission.

**ENEMY FILES** - Review information about enemies you have encountered. Select an enemy name and press the X button to display its information.

When you encounter a new enemy, its name is added to the files. The first time you meet it, you only know the name. As you fight the enemy and discover its abilities, weaknesses, etc., more information is added to the file.

Try various attacks during combat to find out more about the enemy.

## EXIT

Return to gameplay.

# POWERUP SYSTEM

## RED ORB

Collecting a certain amount of Red Orbs allows you to open sealed doors. After collecting Red Orbs, check a Divinity Statue to purchase power-ups and items by spending the orbs.

The following items are available at Divinity Statues:

**ALASTOR** - Learn special moves and abilities for Thunder Sword.

**IFRIT** - Learn special moves and abilities for Flame Gauntlets.

**EXTRA** - Increase basic abilities such as Dante's maximum vitality or the D. T. Gauge. You can also increase your number of healing items, etc.

When you select either **ALASTOR**, **IFRIT** or **EXTRA**, you'll see a list of obtainable abilities and the number of Red Orbs each ability costs. Select an ability and press the X button to acquire the ability (and decrease your Red Orbs by the stated amount).

# EVERYTHING GOING TO HELL? HERE'S HELP

## CHECK AND DESTROY

Check everywhere. Slash every suspicious object. You may find an item or orb.

## FIGHT ONE-ON-ONE

When attacked by multiple enemies, you don't want to be surrounded or get an enemy on your back. Use Rolling Dodge and Backward Jump to keep enemies in your sight. If you are surrounded by enemies, use Stinger or Shotgun to defeat and separate them. Create a situation where you can fight one-on-one.

## JUMPING ATTACK IS POWERFUL

Jump toward a wall and attack! Get close to an enemy quickly and perform a powerful jumping attack. When it hits, it will pulverize the enemy. You can also shoot guns while jumping.

## COMBO FROM HIGH TIME

If you just slash enemies randomly, they will block and counterattack. Try to slash up enemies with High Time. They will be defenseless in the air.

## DISCOVER EFFECTIVE ATTACKS

Certain enemies are weak against sword or gun attacks. Find the effective attack for each enemy. Don't forget to check enemy files. When fighting a boss character, pay close attention to the boss vitality gauge to discover which of your attacks are most effective!

## PERFORM DEVIL TRIGGER

When you perform Devil Trigger, your body will shine with a radiant aura and all the attacks will become more powerful. Your sword will break an enemy's block and your handgun will discharge bullets rapidly. The Shotgun and Grenade will be more powerful! Abilities to fly in the air and perform lightning attacks become available. Also, Dante's vitality recovers a little. When you equip Alastor, your speed becomes faster. In a pinch, or rather, right before you get in a pinch, pull the Devil Trigger!

## CHECK OUT THE DEMO

Leave the controller idle for a few moments at the Title screen, and a gameplay demo will start. Watch the demo for loads of gameplay tips. Check out the masterful fighting style!

## TO BEGINNER DEVIL HUNTERS ...

This game has a hidden "Easy Automatic Mode" where even a beginner can enjoy brilliant action! However, you must try your skills first in the normal game!
