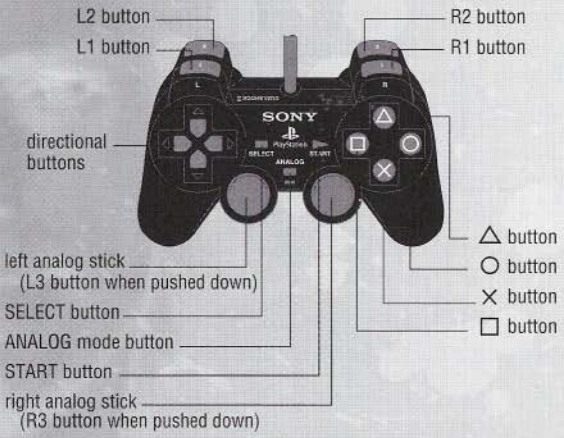
Press the RESET button. When the power indicator lights up, press the open button and the disc tray will open. Place the RESIDENT EVIL®: DEAD AIM disc on the disc tray with the label side facing up. Press the open button again and the disc tray will close.

Attach game controllers and other peripherals, as appropriate. Follow on-screen instructions and refer to this manual for information on using the software.

STARTING UP

GUNCON™ 2 controller

DUALSHOCK®2 analog controller

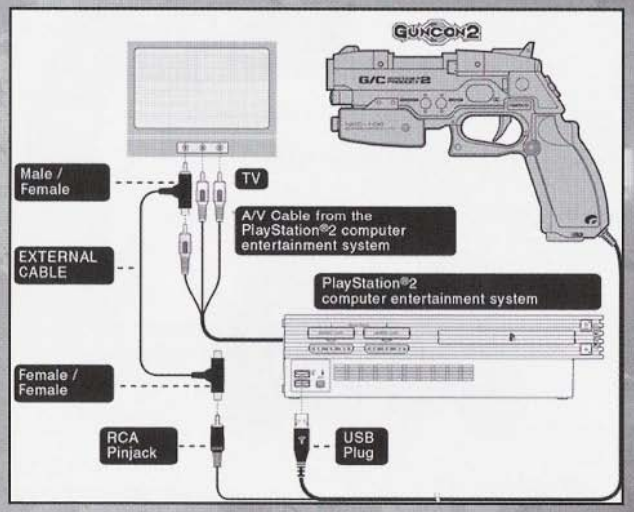


RESIDENT EVIL®: DEAD AIM is a 1 Player game. Connect the Guncon™ 2 controller or the DUALSHOCK®2 analog controller to controller port 1 before beginning play.

When VIBRATION is set to ON in Option Mode, the DUALSHOCK®2 analog controller will vibrate in response to game events. (For Option Mode information, see page 26.)

NOTE: RESIDENT EVIL®: DEAD AIM is designed exclusively for the Guncon™ 2 controller and DUALSHOCK®2 analog controller. The Guncon™ controller and DUALSHOCK® analog controller will not work with this game.

SETTING UP THE GUNCON™2 CONTROLLER



CONNECTING THE GUNCON™ 2 CONTROLLER

1. Connect the GUNCON™ 2 USB plug into the top USB connector on the front of the PlayStation®2 computer entertainment system.
2. Connect the A/V Cable from the PlayStation®2 computer entertainment system to the Male/Female portion of the External Cable.
3. Plug this portion of the External Cable into your TV.
4. Connect the RCA Pinjack from the GUNCON™ 2 into the remaining portion of the External Cable.

ADJUSTING THE GUNCON™ 2 CONTROLLER

1. After connecting the GUNCON™ 2 controller to the PlayStation®2 console and your TV, turn on the power and the Adjust Aim screen will appear.
2. A mark will appear in the middle of the screen. Aim and fire at it. Stand as centered and as close to the TV as possible while adjusting your aim. (Shooting from an angle may cause the game to malfunction.)
3. After that, another mark will appear, this time in the upper left. Aim and fire at the mark as before.
4. When you're finished with your adjustments, point the GUNCON™ 2 at the screen and check to see if the aim is aligned correctly. Readjust your aim settings by pressing the A or B button.
5. Press the START button to proceed to the next screen.

To switch from the DUALSHOCK®2 analog controller to the GUNCON™ 2 during gameplay, you must first select the ADJUST GUN option and adjust the gun's aim. If you start the game without adjusting your aim, then the aim could be off and your game experience will be flawed.

Yesterday, in the Atlantic Ocean, a large cruiser carrying a party of VIPs from numerous countries was sea-jacked.

The ship just happened to be owned by Umbrella ...!
