WARNING: READ BEFORE USING YOUR PLAYSTATION®2 COMPUTER ENTERTAINMENT SYSTEM.

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation®2 console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game - dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions - IMMEDIATELY discontinue use and consult your physician before resuming play.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation®2 console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

USE OF UNAUTHORIZED PRODUCT:

The use of software or peripherals not authorized by Sony Computer Entertainment America may damage your console and/or invalidate your warranty. Only official or licensed peripherals should be used in the controller ports or memory card slots.

HANDLING YOUR PLAYSTATION®2 FORMAT DISC:

- This disc is intended for use only with PlayStation®2 consoles with the NTSC U/C designation.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

A FISHING FAMILY

Everyone has their own reason for fishing for the River King, but it's up to you to choose how you want your Wonderful Journey to end. The stories on these pages can help you find a character who matches your playing style.

The Brother

He told his Sister and Mother that he wanted to take a trip to catch the River King for a school project, but everyone suspects that this fishing adventure is another attempt to put off schoolwork assignments. What his Sister and Mother don't know is that he promised his Father that he would catch the River King and fulfill the family dream. He can't let his Father down—or his Father will find out about the missing homework!

The Father

Years ago when he didn't have any gray hair, he dueled the mighty River King to an exhausting draw. The fish turned tail and fin, slipping into the murky depths of lost youth and dreams. Now local fisherman talk about the reemergence of the legendary fish and no one in Shizuka Village wants to find the River King more than he does. Does he still have it in him or is it time to hang up the tackle box?

The Mother

Father knew she wasn't a good cook when he married her, so why does he have to bring it up every time the family has a meal together? Perhaps she would learn more about new cuisines and savory techniques if she ventured to other villages. Even if she didn't learn much about cooking, at least Father would have some time with the kids and possibly learn to appreciate her hard work around the house!

The Sister

It's no secret that Tomio is the most charming boy in Shizuka Village, but why do so many other girls notice? She needs to find a special birthday gift that Tomio will always remember. Silly ol' Brother thinks a gift like fishing gear might be enough, but she knows stuff like that is too ordinary. If Tomio is ever going to be Sis's Prince Charming, she'll need to give him the River King as the best gift ever!

ANGLER ATTRIBUTES

Which family member will you choose? Each angler has minor differences in HP, funds and skills but the levels, experience and techniques are equal. These numbers increase as you catch fish. The higher the fishing technique score, the faster you can reel a fish in without losing it.

First and last name, please!

If you don't like being called Bro, Sis, Father or Mother, you can choose a new moniker at the First and Last Name menus. Pick good ones because there's a long and Wonderful Journey ahead!

YOUR ABILITIES

Once you choose your character you'll need to decide what to do next. Look outside your house and you'll find a woman who will tell you all the basic information you'll need to know about fishing and cooking.

Fishing

Fishing is easy to learn, but you'll encounter challenging fish as you advance in your quest to hook the River King. Walk to the water and push the Δ Button to access your equipment. Add your bait then press the X Button to cast into the water. The longer you hold the X Button, the farther your cast will travel. Press the X Button again when your bobber splashes and reel in your fish--but don't reel too fast or the line will break!

Cooking

Cooking is tough until you have fish for your recipes. Look around Shizuku Village and you'll find recipes sold at a store and given by folks who need your assistance. Just because you have the right ingredients doesn't mean you'll be an instant success--cooking requires plenty of extra practice.

Swimming

Swimming is an essential skill that can take you to remote and previously inaccessible shorelines. Later in the game look for Old Smarty upstream and across the river from the village--you'll need to complete other tasks until he wakes up from his nap. Eventually he'll teach you the crawl stroke basics.

After Old Smarty wakes up he'll teach you how to use the Left Analog stick on your controller to master the fine art of swimming. You'll need to use this skill to swim to the small islands and riverbanks that were previously inaccessible in the game. This will help you find some great fishing spots, too!

YOUR MENU SCREEN

OPTIONS

Press the Δ Button to open the options menu. This is where you'll find the important commands in the game.

STATS

All of your health, experience points, money and skills show up in your statistic box. Rest up at an inn whenever your HP begins to run low.

TEXT BOX

If you highlight an option on the menu, you'll see a description here.

Fish

If you have the bait and other tackle equipped, you can fish whenever you're close to water. Just select the 'Fish' command or press the LI Button and cast away! When you catch a fish, hit the \square Button to bait your rod again.

Equipment

As you progress in the game you'll find that certain rods, lures, floats and baits are more effective at catching specific types of fish, but you won't catch anything unless you have your tackle ready. Check or change your gear, baits and lures by using the 'Equipment' command.

Items

You can check on your cooked meals, bait collection, gear and other important equipment by using the 'Items' command. You'll probably use this option the most for eating your cooked meals. Consuming a prepared dish will replenish some of your HP so you'll be ready to take on big fish!

Cooking

Review the recipes in your inventory by using the 'Cooking' command. You won't be able to prepare a dish until you have all the ingredients and a little practice. It's a good idea to cook up a basket full of ingredients once or twice to raise your cooking skill and minimize mistakes.

Examine

Looking for worms, insects, grubs and other hidden items is challenging, but the tough work can save you from spending extra money at the tackle shop. Use the "Examine" command to search the ground below your feet. Nets, shovels and magnifying glasses can speed up your searches.

Basket

How many fish did you catch on your latest outing? Use the "Basket" command to examine the complete contents inside your creel. Don't forget to scroll down to see the complete list of fish types and sizes. The Fish Shop vendor will gladly pay you for all the fish you can carry.

Records

How big was the biggest one that didn't get away? Find out by choosing the "Records" command. This handy feature automatically records the size of the largest fish of every species you ever landed in every zone in the game, and even lists the total caught for each type of fish.

Diary

What should you do next? Where do you need to explore or visit? Use the "Diary" command to review your previous accomplishments and make note of any unfinished tasks. Each family member has similar challenges, but the events don't always happen in the same order.

BEGINNING TACKLE

Every member of the family starts out with the tackle outlined in the box below, but everyone has a special advantage, too!

Bamboo pole
Worms
Float A
Small basket

It's great for stream fishing
A favorite meal for most fish
A round float for easy casting
It holds up to ten fish!

In addition to the equipment above, Ma, Pa, Sis and Bro start with an extra item--small advantages count on first casts!

The Brother

Insects

He doesn't mind getting his hands dirty. That's why he carries around a pocket full of insect bait!

The Father

Carbon pole

Oh! Dad likes hooking big lunkers. He's been fishing for years and uses an ultra-durable carbon rod.

The Mother

Paste Bait

Mom might not know much about cooking, but she's packed extra bait for catching and cooking up a meal!

The Sister

Salmon Eggs

Her brother might lug around bugs, but she knows what fish like. She carries extra salmon eggs for her fishing.

SHIZUKU VILLAGE

You begin your Wonderful Journey at your family home in Shizuku Village. As you explore and move along into other areas you'll find new hamlets, but most of them will have the same types of shops found in your hometown--with expanded inventories featuring new fishing tackle and tasty recipes!

Stores

The Shizuku Village tackle store is all about fishing and fishing supplies. Because you start out paying for bait, buy a net, shovel and magnifying glass so you can save your money for the more expensive lure rods and lures. Bait fishing will suit you fine until you move on to new areas.

The Shizuku Village general store offers plenty to eat, but you'll also find some expensive recipes for cooking up tasty meals. Focus on buying your best tackle before splurging on the most expensive recipes sold at the store. Your cooking skills will grow as you catch more fish.

The Shizuku Village fish market has a steady flow of customers and they're always willing to pay top gold for fresh fish. You can selectively choose which fish you want to sell the fishmonger or highlight the contents of your creel for a quick sale. Big fish always earn more money!

Inn

Take a rest at the Shizuku Village Inn whenever your HP runs low. You might not spend much time here--especially if you never break off hooked fish--but drop in once in awhile and review the notes left on the message board. You can even leave your own note if you have something to say!

Fishing Competitions

Follow your diary tasks and you'll soon advance to the local fishing competition. To win it all you'll need to catch the most of a certain species of fish within a specified time. Plan ahead by loading up on bait and researching the fish habitats so you know exactly where to fish.

Cooking Competitions

As you move along to new villages you'll encounter local cooking competitions. These contests are often a race against the clock to find specific fish and prepare a specific number of dishes. You can improve your chances for winning by practicing with the recipes in your inventory.

FIRST CASTS

Hooking up with fish is easy if you know the timing for when to hit or release your X Button. Outlined below are the basic guidelines for catching and landing all fish.

The bait rod is your first rod in the game. To bait fish, equip your rod with bait and a bobber, then choose the "Fish" command and press the X Button to cast. Those shadows in the water are fish. Press the X Button again if one splashes next to your bobber.

If your timing was right and you pressed the X Button when you saw a splash, your perspective will change to an underwater view. Hold the X Button to reel in the fish, but let go whenever the fish turns and runs. Wait for it to rest and then start reeling again!

Like real life, it's tougher to see a fish strike while lure and fly fishing. Wait for the fish to approach the lure and then press the X Button to attract the fish. If you did it right you'll see an underwater view. Keep reeling and the fish should take the lure.

Cast off!

As you explore new villages you'll find wide expanses of water and challenging deepwater fishing conditions. You're going to need a boat to complete these areas. Rowing your boat doesn't deplete your HP as rapidly as swimming, so you don't have to rest as often.

Hooked on Rods

Almost any rod will catch any fish, but pairing the right bait or lure with a fish makes angling easy. Outlined below are the descriptions of the three rods and types of tackle you'll need to win it all.

BAIT POLES:

Paired with bait and bobbers, bait poles offer fish an appealing snack that's hard for them to resist. Your challenges are finding enough bait (a shovel and magnifying glass help) and aiming your casts so your bait drifts toward a fish. Bait poles are not very effective in stillwaters.

LURE RODS:

Once you buy enough jigs, spoons, spinners and crank baits, lure rods are a downright bargain compared to bait rods—especially if you don't break off or lose your lures. Try to reel your lures over a fish and activate the vibration option on your controller to feel the strike.

FLY RODS:

You'll need consistent timing to cast a fly rod, but the practice will cover plenty of water. Point the Analog Stick in the direction that you want to cast then release the X Button at the very end of your backcast. If you did it right the fly or nymph will cover extra distance.

MAPS

If you know where to fish, it's easy to complete quests for specific fish. Keep this manual in a safe place because this section details exactly where the fish are hiding.

It wouldn't be a Wonderful Journey if we revealed every secret! That's why we didn't include a map of the final stage!

FOLKS AND FLUFF

Your journey to the River King wouldn't be as wondrous without a few extra surprises along the way. In addition to catching fish and raising your experience and technique, you'll interact with villagers and hidden creatures. You could find hidden treasures or lose your catch of the day!

Locals

Finding your way into new areas often depends on how you help certain local villagers. Many folks have new things to tell you whenever you complete a task. Do a good deed or two and you could net important items like recipes and even a treasure map!

Critters

Play it smart if you cross paths with playful woodland creatures—they're out to win the catch in your basket! Their trivia questions are often easy, but you always have time to look up the right answer in a reference book. Answer incorrectly and you could lose your largest fish!

WARRANTY INFORMATION

Natsume Inc. warrants to the original purchaser of this Natsume product that this disc is free from defects in materials and workmanship for a period of ninety (90) days from the date of purchase. This Natsume product is sold "as is" without expressed or implied warranty of any kind, and Natsume is not liable for any losses or damages of any kind resulting from the use of this product.
