## INTRODUCTION

### WHAT'S NEW

#### MANAGER MODE

Take the managerial hot-seat at a club of your choice with full control over staff, scouting and team management. Start a 15 season journey at a struggling lower league team or a massive club with real ambition. Fulfil the dreams of your board, the requirements of your sponsor and chase success in both league and cup. See *Manager Mode* on p. 10 for more information.

#### TEAM CHEMISTRY

In Manager Mode you need to keep the momentum of your club by building a team that functions as a unit. Balance the requirements of every player to maintain morale and develop understanding between them. Teams with the most experience together on the pitch will win the most silverware. See *Team Chemistry* on p. 11 for more information.

#### EXPORT TEAM

Use Export Team in Manager Mode to save your team of superstars and play them in Kick-Off mode. The Team Chemistry you have painstakingly developed can now be used to boost your team against all-comers (see *Team Management* on p. 11 for more information).

#### TEAM MANAGEMENT

Before you get on the pitch you need to choose the team that will do the job. Use the Player Style icons to see which player shines in a particular role (see p. 12 for more information). Select Man Marking to take the opposition's best player out of the game without using a reducer (see p. 7 for more information).

Once the whistle goes it becomes a game of two halves – use Team Tactics to keep momentum on your side during both of them (see p. 5 for more information). The Performance Meter will tell you if you've done a good job (see p. 9 for more information).

Use Edit Player to make changes to any player in the game – updating their stats or position and even their appearance.

#### FIFA 06 LOUNGE

Get your mates together for a game – with leaderboards and in-depth stats to measure the best in your own competitive lounge.

#### EA SPORTS™ RETRO

Wallow in the past with EA SPORTS™ Retro – a door to classic moments and classic players. Remember FIFA International Soccer? Get your hands on some classic FIFA action with FIFA

94 Retro (see p. 16 for more information).

#### FAN SHOP

Unlock a Classic XI team and its player biographies, a World XI team, extra kits and new celebrations for created players by spending points earned within the game. There are over 100 challenges to face in *FIFA 06* and each one brings you points as well as satisfaction (see p. 8 for more information).

**NOTE:** On screens with the Help icon, press  to access Help for the current screen.

## MANAGER MODE

Take the first steps of a prestigious career, design your look as football manager and select a region of the world in which to start your drive for success. The job offers come flooding in – select your first club with consideration for the overall team rating, Team Chemistry and the qualities in each third of the pitch. **NOTE:** For detailed help on Manager Mode, press **□** at the Career Central screen to access My FIFA 06 and choose TIPS & HINTS then MANAGER MODE.

Deal with your backroom staff from the Office menu – choosing locations around the world to hunt for new talent, checking on your sponsor's demands and improving your staff ratings.

## STAFF UPGRADES

Press the directional button **←/→** to improve the level of staff for each department. Each slot costs points, which are deducted from your total points in the game.

## TEAM MANAGEMENT

Finely tune your squad to produce a team that will stack up the trophy cabinet. Tweak your line-up and formation to find the ideal balance for perfect Team Chemistry (see *Team Chemistry* below).

To export the current team, select EXPORT TEAM and choose a name for the file.

**NOTE:** Make sure you save your career progress by selecting SAVE CAREER from the Career Central menu.

### NEW TEAM CHEMISTRY

All great teams perform as a unit, with players instinctively knowing what a team-mate will do next, maintaining their shape on the pitch and morale on the training ground. Great partnerships are formed up front between strikers that have plied their trade together for more than one season. Impenetrable defences are formed by players being picked for their ideal position and training together week in and week out.

When Team Chemistry is high, players will out-perform themselves, chase lost causes and defend with greater determination. A high-flying team is also more attractive for potential new signings.

## MORALE AND EXPERIENCE

Team Chemistry is based mainly on the morale of the team and the amount of experience the team has had playing together. To keep improving your Team Chemistry, make sure you don't leave players warming the bench for too long or play them out of position. Remember – nothing boosts morale like a spanking good win over a rival club.

**NOTE:** For detailed help on Team Chemistry, select TIPS & HINTS from the My FIFA 06 menu and choose TEAM CHEMISTRY.

## NEW PLAYER STYLES

Every player is unique, with a preferred position on the pitch and specific attributes that suit the role. Player Styles show you how good a player really is in that role. From clinical strikers to midfield maestros, you can identify the star players from the second raters.

Press **○** to view the Player Bio from the Squads screen. The Player Style icons are displayed along with the rest of the player details (a player can have up to two styles).

## PLAYING THROUGH A ROUTER/FIREWALL

In order to join or host a *FIFA 06* game from behind a router with NAT (Network Address Translation), or firewall, you may need to enable PORT FORWARDING. Remember, if you're sharing your Internet connection using Windows XP Internet Connection Sharing, your Windows XP PC is acting as a router. If you are using a dedicated ADSL modem, this may also be acting as a router.

You will need to route, or forward, all data on ports **UDP 3658** and **UDP 6000** to the IP address assigned to your console or place your console in a DMZ. Please consult your router/modem documentation for advice on configuring your connection.

**NOTE:** Users using DHCP must ensure that their console is always assigned the IP address specified in the PORT FORWARDING setup; under these circumstances you may need to change your console from "Auto Detect (DHCP)" to a "Static IP" address using the Network Configuration Utility or Network Access Disc to ensure that forwarded data always gets to your console.

If your Internet connection is behind a firewall you must OPEN the following UDP and TCP ports (both inbound and outbound): **TCP 13505** (EA Messenger), **UDP 9550** (Ticker), **TCP 30400-30499** (Gameplay), **UDP 3658** (Gameplay) and **UDP 6000** (VoIP).

If you are still having trouble connecting to other players, try bypassing the router or firewall by connecting your console directly to your cable modem or other broadband device.
