Pauses the action at any time. Once paused, the game will let you choose between resuming from where you are and returning to the Warp Room.

GAME OVER

If you see this screen, you've used up all your lives and gone to the great Bandicoot beyond. But not to worry - select YES to continue at the last Warp Room door you entered with five brand new lives.

SAVING THE GAME/MEMORY CARD

The in-game save system lets you record data to a memory card any time you go to a SAVE WALL. Each Warp Room has one Save Wall. Pause to get to the Warp Room, then just stand in front of a Save Wall to activate the save system.

STAGE CLEAR

Once you collect each crystal, go to the end of the path and transport back to the Warp Room where Dr. Cortex may give you hints to help you in your travels.

A WHOLE NEW ADVENTURE!

Thanks to Crash, the evil Dr. Neo Cortex finds himself hurtling earthward at terminal velocity, his maniacal bid for world-domination – thwarted...or so the story goes.

But, as it turns out, the world's problems are really only beginning. Cortex awakens to find himself in a dark cavern filled with glowing crystals. Convinced that they hold tremendous power, he retrieves one and crawls back to his laboratory to examine it.

The crystal leads him to a terrible discovery: soon the planets will align to create a catastrophic solar flux – and only the crystals provide a means to contain this incredible force. Determined to redeem himself for his past evil deeds, Cortex sets out to develop a new, crystal-powered Cortex Vortex that will capture the stellar energy and harmlessly dissipate it. He enlists the aid of his old colleague and infamous physicist, Dr. N. Gin, to help him design such a device.

25 crystals are needed to provide the necessary power matrix. Cortex knows there's only one hero with any chance of success – Crash Bandicoot!

Crash saved the planet from Cortex before...but can he save it again, this time *for* Cortex?

WELCOME TO THE WARP ROOM!

Totally oblivious to Cortex's discoveries, Crash is laying out soaking up the sun. His little hacker sister Coco is typing furiously on her laptop, trying to finish her program before the battery runs down. She yelps - her screen has gone black - and she pleads with Crash to get her

a new battery. On his way home to get her power pack, Crash is suddenly blinded by a flash of light. Next thing he knows, a holographic projection of Cortex is talking to him in an ancient Warp Room!

Cortex tells him about the impending disaster, and urges Crash to help him find the 25 crystals needed to power the only means of survival the Earth has left - the new Cortex Vortex. He explains that

an ancient civilization built the Warp Rooms centuries ago, and that their doors provide instant access to points all over the world - places hiding the coveted crystals! Of course, Cortex doesn't know that the Earth also contains valuable gems - 42 clear and 5 colored - which may hold the key to his downfall!

SPECIAL ITEMS AND BOXES

Wumpa Fruit - Collect 100 pieces of Wumpa Fruit and earn a free life (1-up).

Aku Aku (Witch Doctor's Mask) - When possessing a Mask, Crash is shielded from one enemy's attack or contact. Collect three Masks to earn a temporary invulnerability from all minor dangers.

Arrow Crates - Boxes with arrows (pointing "up"), let you know that there is something good waiting for you when you Jump on top of this box. You can only open an Arrow box by using the Spin Attack.

Bounce Boxes - Like Arrow Boxes, Bounce Boxes can be jumped upon several times to earn multiple prizes. They look almost like regular boxes except...

? Boxes - Who can say what's in these boxes? You'll just have to find out for yourself.

! Boxes - These boxes may cause something in the background to change.

Green ! Boxes - Spin or jump on these boxes to detonate ALL of the Nitro Boxes on that level. This is important for Box Completion.

TNT Boxes - Jump on these to start the 3 second fuse. Don't hang around for the explosion or Crash will need more than glue to be reassembled.

Nitro Boxes - NEVER EVER touch a NITRO box. (Just a suggestion).

Crash Boxes - If you see a box with a heroic-type mug on it, it usually contains a 1-UP for Crash. Collect this to earn a free life.

C Boxes - Check Point. Allows you to return to the stage where you opened the first C Box. If you opened more than one C Box in a stage, you'll return to the location of the last opened C Box.

BONUS PATHS

Bonus paths (marked by a ?) lead Crash to secret regions of that path. In these areas, you can earn lots of goodies if you carefully navigate to the end of the path, but only if you're successful. If you don't, then you won't get to keep any of your hard-earned bonuses.

CAST OF CHARACTERS

Crash Bandicoot

He's a marsupial on a mission! He's cool, he's brave and he's ready for action! He's a hero who believes, but he's no fool!

Dr. Neo Cortex

Cortex claims to have learned his lesson. He says he's out to save the world. But a word of advice no matter what you do, don't turn your back on this guy unless you're running full tilt in the opposite direction.

Dr. N. Gin

Once a world-renowned physicist within the Defense industry, Dr. N. Gin was taken in by Cortex shortly after one of his missile projects went terribly wrong and hit him in the head. The missile was reconstructed as a cyber life support system but is still live so don't get him upset or he'll literally blow his top!

Coco Bandicoot

Coco is the spirited younger sister of Crash and is highly intelligent. When her face isn't glued to a computer screen, she's trying to get Crash's relaxed life more organized. Count on Coco to hack into Cortex's plans to warn Crash with some important information.

Ripper Roo

Ripper Roo is back, madder than ever. He's had time to perfect his attack so make sure you don't try to stand toe to toe with this one.

Komodo Joe & Komodo Moe

Cold-hearted and cold-blooded, the brothers form a dangerous combination of brains and brawn, speed and strength, loyalty and leadership.

Komodo Joe is the brains of the operation. While not physically powerful, he relies on speed and cunning in a fight and is a master of the deadly art of Samurai swordplay.

Komodo Moe is not necessarily the most intelligent. But, what he lacks in brain power, Komodo Moe makes up for with size, unbelievable strength, and the force of a runaway freight train.

Tiny

A fearsome opponent if ever there was one, Tiny has a few tricks up his enormous sleeves. Try to stay one step ahead or you might get crushed.

N. Brio

Doublecrossed by Cortex, this one-time partner in crime will now do anything to stop Cortex and his fiendish plans, regardless of the consequences.

SOME HELPFUL HINTS

Each enemy warrants careful consideration when trying to beat them. Here are some helpful hints to guide you through this adventure:

You can use any of your attacks for enemies like these.

Watch out for enemies with deadly topsides.

Only spin or slide attacks will conquer these guys.

Jumping on enemies with side spikes or those that attack from the front may be your only chance.

Keep an eye out for enemies with sharp necklines. Sliding into these enemies is highly recommended.
