CELEBRATE THE YEAR OF THE DRAGON

Every twelve years, the Dragon Kingdom celebrates its most important event: the "Year of the Dragon" Festival. Fairies deliver a new batch of dragon eggs and dragons come from all around to dance and feast until everyone drops from...eggshastion.

The Year of the Dragon is upon us again and the fairies have brought 150 eggs to the Dragon Worlds. However, unbeknownst to the celebrating dragons, a sinister plot is about to unfold...

Far away - on the opposite side of the world - lies a kingdom long since forgotten by dragonkind. So forgotten, in fact, that even the legends about these "Forgotten Worlds" have now been forgotten.

This kingdom is ruled by a mean and spiteful Sorceress who has frankly become quite fed up with being forgotten. As she sits on her forgotten throne, the Sorceress has hatched a fiendishly evil plan. A plan to restore the fading magic to her forgotten realm. A plan to conquer the dragons once and for all. All she needs is a little help from her army of horn-nosed 'rhynocs', the cooperation of her mysterious disciple Bianca and of course, those 150 magical dragon eggs.

CONQUERING THE FORGOTTEN WORLDS

The kidnapped dragon eggs have been scattered by the Sorceress throughout the four Forgotten Worlds.

Home Worlds, Realms and Portals

The four Forgotten Worlds each have a Home World at their center with portals to various realms. By visiting each realm (36 in all), Spyro will get the help he needs to travel to the next Forgotten World.

Portals

Spyro travels to Realms by entering portals in the Home Worlds. To enter a portal, just walk or fly into it. Spyro will instantly transport to a realm. Some portals will open only after a certain number of baby dragons are hatched from rescued eggs.

Challenge Portals

These dark portals transport Spyro to secret areas of the realms where some of the eggs have been spirited away.

Returning to a Home World

When Spyro has succeeded in a realm, an exit portal will appear. Just jump into the portal to return to the Home World.

SPECIAL CRITTER ALLIES

In each Forgotten World there is a powerful ally who becomes a playable critter temporarily taking Spyro's place to perform special tasks. The Sorceress was clever enough to catch and imprison these critters...but entrusted Moneybags with them. Bad Choice. For Moneybags, everything has a price.

GEMS

Gems are the money of Spyro's universe and they litter the landscape wherever he goes. Grab them all, every single one you can find. When you deal with Moneybags, you will have to pay him with Gems. His services are not cheap. As you leave a Realm and return to a Home World, the Gems will be added up and credited to your Gem count.

BATTLING THE HOME WORLD BOSS

Unfortunately for Spyro, when he travels to new worlds, he is confronted with huge bosses sent by The Sorceress! In order to retrieve the dragon eggs, he must defeat these creatures. Combat skill and dragon trickery will win the battle and Spyro's critter allies will come to his aid in each of his battles.

SPECIAL TASKS

Special tasks can be found throughout the Realms and Home Worlds. Spyro and his friends will occasionally get first-rate training from other friends before tackling these tough mini quests.

Challenges

Spyro (or other playable critters) must learn special skills like Skateboarding or Boxing to rescue a dragon egg. A friend will give you special instructions and button controls.

Speedways

There is a speedway realm in each Home World. There are three kinds of speedway events and Spyro can choose which one to play.

- **Time Trial:** Speed through a course collecting objects within a given time limit.
- **Race:** Race through an obstacle course making sure not to fly off course.
- **Hunter's Task:** Hunter must face a unique challenge in each speedway.

SPARX ROUNDS

Now Sparx gets to show his stuff in his own battle! He blasts his way through tight corridors collecting gems and searching for eggs. Nab butterflies to increase health. There are also special species of butterflies that give Sparx unique power-ups. Zoe will appear for weapons training before Sparx goes into battle.

Bonus Abilities

The Sparx levels must be played in order, but after each one is beaten, Zoe grants Sparx a new ability:

- **Beat Crawdad Farm:** Sparx gets extended range and speed to pick up gems.
- **Beat Spider Town:** Sparx points at uncollected treasure. Just press the L1 + L2 + R1 + R2 buttons.
- **Beat Starfish Reef:** Sparx gets an extra hit point.
- **Beat Bugbot Farm:** Sparx can break open treasure vases and warp directly to any level in the game.

PLAYABLE CRITTERS

Sometimes Spyro gets some expert help from the critters he frees from Moneybags. After freeing a critter, enter its Home World. You now play the critter to help liberate its world from the rhynocs. (Spyro's friends get the full protection of Sparx, of course!).

SHEILA THE KANGAROO

A rare mountain kangaroo with tremendous back feet, Sheila can jump to miraculous heights. She can also stay aloft using the air hop. When in danger she can unwind a punishing kick. And if you're stomped by Sheila, you stay stomped.

SGT. BYRD

Meet the world's only flying penguin. Sgt. Byrd was raised by hummingbirds who taught him how to get airborne. Then he flew the coop and joined the Air Corp. He developed the first BAM (Bird to Air Missile). BAM launchers are mounted on his shoulders. Sgt. Byrd can also pick up items and drop them with superb accuracy.

BENTLEY THE YETI

Giant and gentle Bentley has a heart of gold. He also has a huge club that takes no prisoners. When he gets mad, stuff gets smashed. Huge obstructions are no problem, he just pushes them away. The only time he will lay down his club is to put on a pair of boxing gloves.

AGENT 9

Don't monkey around with Agent 9 because he is one! Agent 9 is one of The Professor's lab monkeys. But after special treatment and training he is no ordinary chimp. Agent 9 is a highly intelligent special operative whose specialty is laser blasters and precision delivery of explosives.

Your favorite Bandicoot is back in a knock down brawl-fest. Check out the hidden playable demo of Crash Bash™. On the Title Screen, hold down R2 + L1 buttons and press the  button.

KEY PLAYERS

HUNTER THE CHEETAH

A close Spyro friend since his adventures in Avalar, Hunter is like a professional trainer. He knows how to move on the ground or in the air. The skills he teaches will help you navigate through this huge world.

MONEYBAGS

Moneybags is all business. For a stiff fee, in *Gems of course*, he will deliver some amazing things. He can open up travel routes, activate doors and bridges, and sell you the services of some talented critters for a "small" fee. If you can afford it, always say "Yes!" to Moneybags. If you say "No" you're likely to annoy the greedy bear, which can be its own reward.

ZOE

Zoe is a fairy who saves Spyro's progress through the *Forgotten Worlds*. When you see her, get close and she will zap Spyro with a progress saving spell. The next time Spyro loses a battle, he returns to the last place Zoe zapped him if he has lives remaining.

BIANCA

She is the apprentice to the Sorceress and leads the Rhynoc egg stealing party. Bianca likes to make threats to Spyro. Is Spyro scared? OOOOOOH I'm shakin' in my scales!

SORCERESS

She commands the *Forgotten Worlds* and the Rhynocs. Her motivations are unclear, but she is the force behind this most heinous dragon eggnapping.

THE PROFESSOR

Spyro's old friend The Professor also has a research lab in the *Forgotten Worlds* and as it turns out, Agent 9 was many years ago his prized pupill!

Unfortunately, while The Professor was studying abroad in Avalar, his lab had fallen into disrepair.
