SAVING AND LOADING DATA

When playing the international cup and international league modes, you can save your position using the optional memory card. This option is presented at the end of the match, simply select yes to save and no to disregard.

When you select the international cup and international league modes, you will be able to load previously saved games. Highlight load data and select your saved game.

During play, do not remove or insert the Memory card. Unless the Memory card is inserted in the console, you won't be able to save or load data. So, make sure that the card is inserted before you start the game.

It is advised that you do not insert or remove peripherals or Memory cards once the power has been turned on.

Make sure there are enough free blocks on your Memory card before commencing play.
