## Precautions

• This disc contains software for the PlayStation® home video game console. Never use this disc on any other machine, as it could damage it. • This disc conforms to PlayStation® specifications for the European market only. It cannot be used on foreign-specification versions of PlayStation®. • Read the PlayStation® Instruction Manual carefully to ensure correct usage. • When inserting this disc in the PlayStation®, always place it label side up. • When handling the disc, do not touch the surface. Hold it by the edge. • Keep the disc clean and free of scratches. Should the surface become dirty, wipe it gently with a soft cloth. • Do not leave the disc near heat sources or in direct sunlight or excessive moisture. • Never attempt to use a cracked or warped disc, or one that has been repaired with adhesives, as this could lead to operating errors.

## Health Warning

For your health, rest about 15 minutes for each hour of play. Avoid playing when tired or suffering from lack of sleep. Always play in a brightly lighted room, and stay as far from the television screen as possible. Some people experience epileptic seizures when viewing flashing lights or patterns in our daily environment. These persons may experience seizures while watching TV pictures or playing video games. Even players who have never had any seizures may nonetheless have an undetected epileptic condition. Consult your doctor before playing video games if you have an epileptic condition or immediately should you experience any of the following symptoms during play: dizziness, altered vision, muscle twitching, other involuntary movements, loss of awareness of your surroundings, mental confusion, and / or convulsions.

## PIRACY

The unauthorised reproduction of all or any game part of this product and the unauthorised use of registered trademarks are likely to constitute a criminal offence. PIRACY harms Consumers as well as legitimate Developers, Publishers and Retailers. If you suspect this game product is an unauthorised copy, or have any other information about pirate product, please call your local Customer Service number given at the back of this Manual.

See back page of this manual for Customer Service Nos. and Games Hotline Nos.

# LOADING

1. Set up your PlayStation® game console according to the instructions in its instruction manual.
2. Make sure the power is **OFF** before inserting or removing a disc. Insert the ATV: Quad Power Racing™ disc and close the disc cover. If you wish to save your game, insert a **MEMORY CARD** (sold separately) into Memory Card Slot 1.
3. Insert game controllers and turn on the PlayStation® game console.
4. Follow on-screen instructions to start a game.

**Note:** ATV: Quad Power Racing™ is for up to 2 players.

**Do not insert or remove Controllers or Memory Cards once the power has been turned on. It is advised that you do not insert/remove peripherals or Memory Cards once the power is turned on. Please ensure you have enough free MEMORY CARD blocks before starting play if you want to save game progress. This title requires 1MEMORY CARD block to save your data.**

## Console

## Analog Controller (DUAL SHOCK™)

# INTRODUCTION

Fast and furious four-wheeling ATV (all terrain vehicle) action is now right at your fingertips, so get ready for bouncing and bumping like you won't believe! Take on a Single Race, crazed Time Attack or a full schedule of Championship ATV racing. Get a buddy to join you for Two Player split-screen fun! Top riders compete at Amateur or Pro skill levels in forest, desert or snow tracks on a variety of hot quads. Throttle up to the starting line and see if you've got what it takes to wrestle the wild ride all the way to the finish line!

# MENUS

Confirm/Select	⊗ <b>BUTTON</b>
Cancel/Previous	⊙ <b>BUTTON</b>
Select Option	⬅/➡ <b>DIRECTIONAL BUTTON</b>
Toggle Option	⬅/➡ <b>DIRECTIONAL BUTTON</b>
Pause Game	<b>START BUTTON</b>

## Main Menu

After the pumping introductory sequence (press the ⊗ **BUTTON** to bypass) you will come to the Main Menu, where you can select your game mode, view trophies and set options. Press ⬅/➡ **DIRECTIONAL BUTTON** to toggle the highlight, then press the ⊗ **BUTTON** to select.

**Single Race** Enter a single race with one player.

**Time Attack** Try a Time Attack, and see who can get the best time.

**Two Player** Double the fun with two player One on One or Time Trials.

**Trophies** Check your standings in Pro and Amateur categories.

**Options** Adjust your settings. See **Options** for details.

**Championship** A full circuit of championship tracks determines who's the best.

# options

You can select Options on the Main Menu or after selecting a particular game mode.

Press ⬅/➡ **DIRECTIONAL BUTTON** to highlight an option. Press the ⊗ **BUTTON** to activate it.

**Load** Load saved option settings and game stats.

**Save** Save game options and game stats.

**Auto Load/Save** Have the computer automatically load and save game data when possible, without asking.

**Environment** You can alter the racing environment by setting the Weather and the Time of Day. Highlight an option and press the ⊗ **BUTTON** to activate it, then scroll to the desired setting.

**Credits** Take a look at the crew who put together ATV: Quad Power Racing.

# Hardware

Make these adjustments to your hardware set up:

**Sound** Use the sliders to adjust sound effects and music volume.

**Display** Once selected, use the Directional Buttons to center the game display on your screen.

**Controller Configuration** Once selected, choose the control configuration that suits your playing style. If you are using a Analog Controller (DUALSHOCK™), you can turn the vibration **ON** or **OFF**.

**NOTE: All save and load functions require a MEMORY CARD (sold separately).**

## TROPHIES

View the current trophies and the times they were won in. Try to earn trophies in Forest, Desert and Snow courses at Amateur or Pro skill levels.

## GAME MODES

### Single Race

Roar into racing action in a single race on the available track and quad of your choice (open up tracks and quads in Championship mode). A single race pits you against computer opponents.

### Time Attack

In this mode, you're competing to get the best single lap time and the best race time overall, rather than to finish in first place. A Time Attack race continues until you pause the game (press the **START BUTTON**) and quit out of Time Attack. Your high scores, if any, will be saved.

### Two Player

Enjoy split-screen head-to-head competition in 1-on-1 mode, or try to beat your buddy's best time in a Time Attack race. No matter what mode, the pace is fun and frantic. After selecting a play mode, each player selects a different rider. Then Player 1 selects the terrain and track. Next, each player selects a quad to race, along with the desired type of transmission. Then it's down to the track to see who rules and who drools!

**Two Player Options** If you have saved your options and stats to a **MEMORY CARD**, either player can elect to load in these settings.

### Championship

Your challenge: open up all the tracks (and special bikes!) available only to the very best riders. This is the heart and soul of quad racing, a complete season on all types of terrain, against the best racers in the business. Master all the Amateur tracks in each area to qualify for the Pro series. Beat all the Pro level tracks and you're that rare breed of competitor: a Champion!

Select a rider to control throughout your Championship quest, then choose one of the available quads to race (you can switch quads between races). Next, choose an area (Foxworthy Hills, White Sands or Snowcross Ridge) to begin your bid for the Championship. You start off at the Amateur level with only one open track in each area. Each time you beat a track (by coming in first), you open up the next track in that area. Beat all four Amateur tracks in any one area to compete at the Pro level in that area. Beat all the area tracks as a Pro and be the top quad racer!

**Tip: Once you manage to win on a track in Championship mode, you open up the next track to all other modes, so make sure to spend some time hammering on a track until you beat it.**

## GETTING STARTED

First, choose your game mode (Single Race, Time Trials, Two Player or Championship).

## RIDER SELECTION

Once you've selected a game mode, it's time to select a rider to control.

Choose from six top ATV riders. Press **○/○ DIRECTIONAL BUTTON** to toggle riders. You'll see the rider portrait and individual rider stats.

## AREA SELECTION

Choose where you wish to test your skill. Each area is a different terrain and presents particular challenges that require different skills and quads to match. The area you choose determines the type of quads available.

**Foxworthy Hills (forest)** - Racing through forest trails requires good general skills. Forest quads offer good all-around performance.

**White Sands (desert)** - The desert is the place for all-out high speed racing on quads built to move!

**Snowcross Ridge (snow)** - Caution is the word on slippery snow trails. Snow quads are slower, giving you better traction for the handling you need in snow.

## CHOOSE DIFFICULTY

Choose to race in the selected areas at Amateur or Pro skill levels.

**Note: you must master the Amateur level before you can select Pro level.**

## ENTER NAME

In Championship mode, after selecting your rider, area and difficulty level, you'll come to the name entry screen, where you can input an eight character name that will be used to track your championship progress. To enter a name, press **○/○ DIRECTIONAL BUTTON** to highlight a character on the selection wheel, then press the **✕ BUTTON** to accept it. You can delete a character by pressing the **Ⓢ BUTTON** or by highlighting the back arrow character and pressing the

**✕ BUTTON**. When you're satisfied with your name, highlight the check mark character and press the **✕ BUTTON**.

## TRACK SELECTION

After selecting your difficulty setting, you can choose which available track you wish to race on. (In Championship mode, Track Select is disabled; you will race on the tracks as they are presented.)

You will see a selection of four courses for the area you have preselected (Forest, Desert or Snow).

Use the **○/○ DIRECTIONAL BUTTON** to toggle through the

**8** courses. You will see a map of each course as the highlight moves. In the upper left, you will see a status display which shows your previous Best Lap Time and Best Track Time (if any).

## QUAD SELECTION

Almost there! You've selected your area and track. Now it's time to select your bike. Press **○/○** on the **DIRECTIONAL BUTTON** to toggle through the available bikes. The various bikes are specially configured for the area you've chosen to race in and can be fitted with manual or automatic transmissions. Take a look at the meters showing each bike's handling, acceleration and maximum speed. When you're sure about the bike you want, press the **✕ BUTTON**. You will go directly to the selected race. Good Luck!

## DEFAULT CONTROLS

This is the default control setting. You can change controls under Options/Hardware/Controller Configuration.

## THE RACE SCREEN

**Overhead Map** The overhead map shows you where you are on the course and the relative color-coded positions of riders. Colors are as follows:

<b>Samuel Stone:</b>	<b>Blue</b>	<b>Karl Sven:</b>	<b>White</b>
<b>Wes Holms:</b>	<b>Green</b>	<b>Steve Youngren:</b>	<b>Magenta</b>
<b>Heather Gold:</b>	<b>Red</b>	<b>Mitzi Chen:</b>	<b>Yellow</b>

## PAUSE MENU

Press the **START BUTTON** at any time during a race to bring up the Pause Options Menu.

**Resume** Jump right back in from where you paused.

### Options

**Sound settings** Adjust sound effects and music volume levels.

**Screen adjust** Center the game display on your screen.

**Vibration** Adjust vibration when using a Analog Controller (DUALSHOCK™).

**Camera options** Adjust the distance, angle and height of the custom camera. Settings remain in effect until the game is turned off/reset and are saved when you save the game options in the front end.

**Restart** Restart the current race from the beginning.

**Quit** Quit the current race and return to the Main Menu. In Championship mode, the system will automatically search for a MEMORY CARD. If one is detected, your championship progress data will be saved.

## HINTS & TIPS

- ATV vehicles are tippy; they're pretty easy to dump, so watch your speed on corners.
- Poor weather affects the handling of your quad. Be prepared to make some adjustments.
- When the on-screen direction arrow turns red, **YOU'RE GOING THE WRONG WAY!**
- While airborne, use the extreme lean controls to tilt your quad.
- Stay on the main trail for top speeds. Being a trail blazer will only slow you down.
- Landing on your rear wheels gives you a speed boost, but landing while still holding **DOWN** on the Directional Buttons will cause the rider to fall off. Timing is everything!
