INTRODUCTION

The opposition breaks out of its zone and forges an attack across your blue line.

Your right defender picks up a check on the puck handler, funnels him toward the boards, and sends him hard to the ice. Make a quick sweep for the loose puck, then skate it behind your net to start the play.

Handle the puck to the high slot. When your winger calls for it, place the biscuit right on his tape. Skate up ice and head-man the puck to your center, straddling the blue line.

Carry the puck into the Attack zone, keeping an eye out for your teammate breaking to the crease. Make the pass. Get your stick up, and use a precise angle to dink it through the five hole.

NHL 98 has all the moves, shots, saves, blocks, and checks of the National Hockey League. Master these fundamentals and you'll dominate your opponents!

FIGHTING (FIGHTING ON)

When a player with a high Aggressiveness rating puts a big hit on another aggressive player, there's a chance they'll fight.

Fighting can be avoided. If you choose not to drop your gloves, the ref intervenes and calls Roughing penalties on both parties.

SKILL CHALLENGE

Skating, shooting, and goaltending are essential to your *NHL 98* success, and each is addressed in the Skill Challenge. In addition to developing the skills you need to become an *NHL 98* All-Star, these drills introduce four new ways to ice the competition!

To begin a Skill Challenge:

1. From the Main menu, choose **SKILL CHALLENGE** as your Game mode. The Skill Challenge screen appears.
2. Control Pad \downarrow to highlight an event, then press **B** to select. The Team Select screen appears.
3. Control Pad \downarrow to select the team you want, then press **START** to continue. The Scoreboard menu appears.
 - For Scoreboard menu details, ► *Scoreboard Menu* on p. 11.

PUCK CONTROL

You have four minutes to maneuver three stickhandlers through a seven-pylon slalom course.

When the drill begins, direct the first skater up ice and gain control of the puck, then follow the arrow around the first pylon. Each pylon you successfully pass changes color. After you cross the blue line, take the next skater through the circuit.

PUCK BLAST

The Puck Blast is an all-out power contest. Record your fastest slap shot with each of three players.

Each skater gets three attempts at the Puck Blast. To begin, skate the first player toward the puck and press **C** to shoot. Timing is everything in the Puck Blast. After three shots, the next player lines up.

EA TIP Skaters may swing only once per attempt. If you fan your shot, you've wasted an attempt.

RAPID FIRE

A goaltending drill. Two shooters send ten pucks toward your net. Stop as many shots as you can.

When the Rapid Fire drill starts, you are positioned in the crease, facing a shooter in each faceoff circle. The shooters take turns peppering you with pucks. Quickness is the key to success.

- To make a save attempt, press **C**.
- To dive, press **A** + Control Pad.
- To poke check, skate toward the shooter and press **B**.

ACCURACY SHOOTING

Try to shatter the targets placed in each of the four corners of the goal within a 50 second time limit.

You start out in the center of the slot with two players on either side of the cage ready to pass the puck. As you receive the puck, shoot toward the targets. For best results, try to stay in the center of the slot.

SHOOT OUT

Practice your penalty shot technique by facing opposing goalies in real penalty shot situations. Each team attempts five penalty shots, and the team with the most points wins.

- To begin a Shoot Out, choose SHOOT OUT from the Main menu. The Team Select screen appears.
- Continue just as you would in an Exhibition game.
 - *Team Select Screen* on p. 8.

OFFSIDE, ICING & BREAKAWAYS

Many penalties called in ice hockey are due to unnecessary force or dangerous (therefore, illegal) contact. Offside and Icing violations can be a bit more difficult to grasp.

OFFSIDE

A play is offside when an offensive skater who is not in possession of the puck precedes the puck across the blue line into the Attack zone.

This violation commonly occurs when:

1. A pass is completed to a player "camping" in the Attack zone.
2. The puck handler skates into the zone before his teammates have cleared out.

If you're in danger of committing an Offside violation, the ref appears on the screen with a hand raised as a warning. Wait for your teammates to circle out of the Attack zone, then move the puck across.

2 LINE PASSES

A two-line pass offside violation is called any time the puck crosses two lines on its way from the pass initiator to the recipient. The resulting face-off takes place at the point where the pass originated.

ICING

An Icing violation is called when an attacking player on his team's side of the center line sends the puck across the opposing team's goal line, but not in the net, and a defensive skater is the first to touch the puck.

Icing is not called when:

1. The opposing team's net minder is the first player to touch the puck.
2. Any attacking skater is the first player to reach the puck.
3. The attacking team is skating short-handed due to a penalty killing situation.

BREAKAWAY

A breakaway is recognized when the offensive player with the puck skates past the defenders in the Attack zone creating a one-on-one situation with the opposing goalie.

A single tone sounds to let you know when a breakaway occurs. A last ditch effort by the defense to "take down" the puck handler from behind results in a penalty shot.

Applying a body check after you have taken more than two deliberate strides toward your opponent.
