GAME STORY

Adventure Island is a mysterious and beautiful land that has many hidden dangers. As hero of the island, Master Higgins protects the inhabitants from the many deadly creatures. He has restored peace to the uncharted island on many occasions.

But something terrible has happened. While Master Higgins and Jeanie Jungle were stargazing, a dangerous entity known only as Dark Cloak turned Jeanie to stone. Master Higgins must venture towards Dark Cloak's castle at the foot of Ice Mountain to rescue her!

He has two powerful weapons to choose from, an Axe and a Boomerang. They can be found all about the island. If he can collect enough weapons, Master Higgins can shoot them like fire!

He's also an awesome skateboarder and a super jumper. Be sure to grab a board and Super Jump your way through some radical territory!

HOW TO PLAY

As Master Higgins, you must travel through the Adventure Island and defeat six gigantic monsters to find Jeanie Jungle. You must get rid of many enemy creatures you will encounter along the way.

Lives:

You begin the game with three lives. You will receive an extra Master Higgins for every 50,000 points you score. You can have a maximum of six (6) extra Master Higgins'. You will lose a Master Higgins if:

- 1) You touch an enemy creature or obstacle.
- 2) You fall into a valley or the water.
- 3) Your energy runs out.

The number of Master Higgins' you have is displayed in the lower left-hand corner of the screen with a small picture of Master Higgins' face.

HOW TO PLAY cont.

Energy:

When you begin each area, you have a full Energy Bar. It is displayed on the top of the screen to the left of your score. The Energy Bar will continuously go down as you play. To keep it full, you must eat fruit or drink milk. Fruit appears regularly in almost every area. You will receive points at the end of each area based on how much energy you have.

Weapons:

There are two weapons Master Higgins can find and shoot. These are the Axe and the Boomerang. You can collect up to four Axes or Boomerangs, but not both. If you pick up one weapon when you already have the other weapon, Master Higgins automatically trades weapons. When you get the fourth Axe or Boomerang (in a row), they will turn into "Fire Weapons." Fire Weapons are twice as strong as normal Axes or Boomerangs, and they can destroy rocks (not rolling boulders).

HOW TO PLAY cont.

Continues:

If you lose your last Master Higgins, the game is over. If you want, you can continue the game from the beginning of the last area you entered. When the game is over, the word "Continue" will appear on screen. If you want to continue, press the Start Button within 7 seconds.

You begin the game with 2 continue credits. That means you can only continue the game twice. After that, the words "Game Over" will appear on screen when you lose your last Master Higgins.

Areas and Stages:

There are five Areas on Adventure Island, and 4 Stages in each Area. To clear a Stage, you must grab the starball at the end of each Stage. There is a Boss Monster at the end of each Area. To clear the Area, you must defeat the Boss Monster. Dark Cloak is in Area 5...

Hidden Bonus Rounds:

There is a secret Star Bonus Round in every Area. To try to find a Star Bonus Round, shoot your Axe or Boomerang. If you hear a "tinging" sound, go to that spot and jump. When you jump, you should make a Star appear above Master Higgins' head. Jump to grab the Star and you will leap into the Star Bonus Round.

To clear the Star Rounds, you must bounce from spring to spring collecting bonus items without falling. If you fall, you won't find that star Round for the rest of the game. If you make it past all of the springs, the word "Perfect" and "1-up item" will appear on the screen. Try to catch the "1-up item" as you fall back to the stage.
